Uluakupu Building 4, 2385 Waimano Home Road, Suite 110

Pearl City, HI 96782-1400

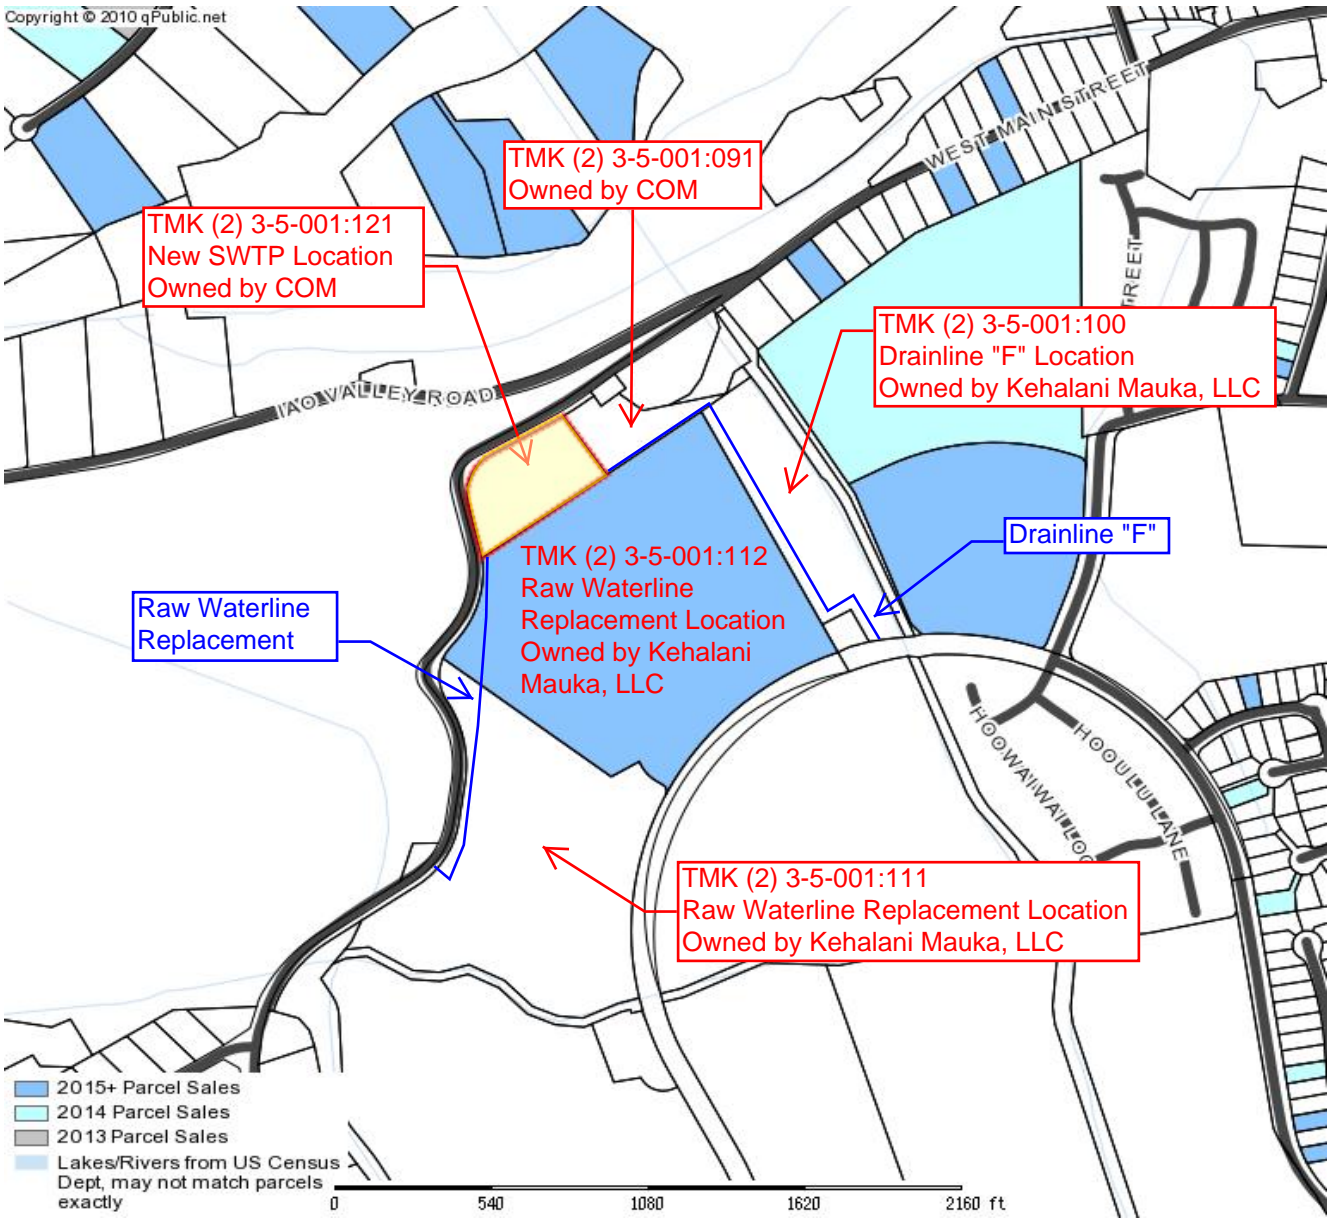

ATTN: Ms. Joan Corrigan

Project Summary: (Provide proposed action and purpose/need in less than 200 words. Please keep the summary brief and on this one page):

The Department of Health (DOH) will be initiating Section 106 of the NHPA consultation with the State Historic Preservation Division (SHPD) in accordance with 36 CFR Part 800. In 2015, the U.S. Environmental Protection Agency (EPA) designated the DOH to act on EPA's behalf, pursuant to 36 CFR §800.2 (c) (4), when initiating Section 106 of the NHPA process for projects funded under the Hawai'i Drinking Water State Revolving Fund (DWSRF).

The DOH is providing funding under the DWSRF to the County of Maui, Department of Water Supply for 'Īao Surface Water Treatment Plant (WTP) Upgrades. The proposed project will utilize federal funding and is considered an undertaking, as defined by Section 106 of the NHPA, 54 U.S.C. §306101 et seq., and 36 CFR Part 800. The project proposes to construct a new WTP in an adjacent parcel to the existing WTP and 3.0 MG tank. The existing WTP was meant to be temporary, so a new, permanent WTP is necessary. The WTP will treat up to 1.7 MGD of treated water which will be withdrawn from the 'Īao-Waikapu Ditch. Any comments for the project will be included as part of the NHPA Section 106 consultation with SHPD.

Archaeology

Aloha Mr. Taylor,

**SUBJECT: Chapter 6E-8 Historic Preservation Review – Maui County
Final Archaeological Assessment Survey for the ‘Īao Water Treatment Facility
Wailuku Ahupua‘a, Wailuku District, Island of Maui
TMK (2) 3-5-001:067 por. and 3-5-001:091: por.**

Thank you for the opportunity to review the draft and final submittals both titled *An Archaeological Assessment on a 2.5 Acre Parcel for the Iao Water Treatment Facility Project in Iao, Wailuku Ahupua‘a, Wailuku District Island of Maui, Hawaii [TMK: (2) 3-05-001:067]* by Perzinski and Dega (July and August 2015). We received the revised draft report submittal on July 14, 2015 and the revised final on August 10, 2015. The revised reports address the requested revisions recommended by our division for the draft document (*Log 2013.6035, Doc 1506JP01*).

The subject archaeological assessment survey was conducted at the request of Munekiyo Hiraga. The project area consists of approximately 2.5 acres, located along Alu Road, adjacent to the existing 3.0 MG water tank. Archaeological field procedures consisted of a 100% surface pedestrian survey conducted on August 30, 2013. Upon request, Historic Preservation (HP) staff archaeologist Jenny Pickett and Scientific Consultant Services archaeologist Ian Bassford conducted a site inspection on Monday July 6, 2015 in order to consult and evaluate the necessity for subsurface testing. It was agreed upon that **subsurface testing is not necessary**. The requested revisions have been included in the subject submittals and we concur that no further archaeological work is necessary.

Pursuant to Hawai‘i Administrative Rule §13-276-5, the archaeological assessment survey report is accepted. We accept the Final copy for our Maui Library. However, **for the final** Kapolei submittal, we request that you edit the TMK number to comply with the HP standard format. Please send one hardcopy of the corrected final document, clearly marked **FINAL**, along with a copy of this review letter and a text-searchable PDF version on CD to the Kapolei SHPD office, attention SHPD Library. Please contact Jenny Pickett at (808) 243-5169 or Jenny.L.Pickett@hawaii.gov if you have any questions or concerns about this letter.

Mahalo,

Morgan E. Davis
Lead Archaeologist, Maui Section
