Mr. Scott Glenn, Director
Office of Environmental Quality Control
235 South Beretania Street, Suite 702
Honolulu, Hawaii 96813

Dear Mr. Glenn: *Scotti*

Subject: PROPOSED 1.5 MG WATER TANK AT EXISTING KAHULUI WATER TANK
TMK: (2) 3-8-046:032, Kahului, Maui, Hawaii

This letter serves as notification and a request for publication pursuant to section 11-200.1-4 to the Office of Environmental Quality Control that the County of Maui, Department of Water Supply (DWS) determination additional environmental review is not required for the construction of a new 1.5 million gallon (MG) tank at department's existing Kahului Water Tank site situated on TMK (2) 3-8-046:032, owned by the County of Maui. A Findings of No Significant Impact (FONSI) was filed on October 8, 2013 for a 2 MG tank for the project. The revised tank size of 1.5 MG is smaller, serves the same purpose, is within the same footprint as the 2 MG tank.

Therefore, DWS has determined that the FONSI for the 2 MG tank satisfies chapter 343 HRS for the reduced 1.5 MG tank project.

If you have any questions, please feel free to contact Tammy Yeh at tammy.yeh@mauicounty.gov or at 270-7835.

Sincerely,

JEFFREY T. PEARSON, P.E.
Director
