OFFICE OF ENVIRONMENTAL QUALITY CONTROL**

Project Name: Waiaha Well B Project

Applicable Law: 36 CFR Part 800, Section 106, National Historic Preservation Act of 1966, as amended (Section 106)

Type of Document: National Historic Preservation Act, Section 106 Consultation

Island: Hawaii

District: North Kona

TMK: TMK Nos. 7-5-014:016 and 7-5-015:015

Permits Required: N/A

Applicant or Proposing Agency:

State of Hawaii, Department of Health, Environmental Management Division
Safe Drinking Water Branch
2385 Waimano Home Road, Suite 110, Uluakupu Building 4
Pearl City, Hawaii 96782-1400

Approving Agency or Accepting Authority:

State of Hawaii, Department of Health, Environmental Management Division
Safe Drinking Water Branch
2385 Waimano Home Road, Suite 110, Uluakupu Building 4
Pearl City, Hawaii 96782-1400

Consultant: N/A

Status: Comments due no later than Monday, August 24, 2020 to:

State of Hawaii, Department of Health
Environmental Management Division
Safe Drinking Water Branch
2385 Waimano Home Road, Suite 110, Uluakupu Building 4
Pearl City, Hawaii 96782-1400
Attn: Ms. Joan Corrigan

Project Summary:

(Summarize proposed action and purpose/need in less than 200 words in the space below):

The Department of Health (DOH) initiates Section 106, NHPA consultation with the State Historic Preservation Division (SHPD) pursuant to 36 CFR Part 800. The U.S. Environmental Protection Agency (EPA) delegated DOH to act on EPA's behalf, pursuant to 36 CFR §800.2(c)(4) when initiating a Section 106, NHPA process for projects funded under the Hawaii Drinking Water State Revolving Fund (DWSRF). Under the DWSRF, the DOH may provide funding to the County of Hawaii, Department of Water Supply (DWS) for the Waiaha Well B Project. The Final Environmental Assessment for the project is available here: http://oeqc2.doh.hawaii.gov/Doc_Library/2020-01-23-HA-FEA-Waiaha-Well-B.pdf

The use of federal funds is considered an undertaking, as defined by Section 106 of the NHPA, 54 U.S.C. §306101 et seq., and 36 CFR Part 800. The proposed project includes plans to construct: (i) a second production well, (ii) a 700-gallon per minute pump, (iii) a new pump control and chlorination building; and (iv) a chain link security fence around these new facilities. These additions would be built within DWS' existing Waiaha Well and Reservoir facility (State Well No. 3857-004) and are intended to improve reliability in the North Kona Water System. The DOH anticipates requesting SHPD's concurrence with its project determination of *no historic properties affected*.
