SUBJECT: Land Development Division, Safety Wall Extension, ‘Ewa Moku, O’ahu Exemption from HRS Chapter 343 Environmental Assessment Preparation (PO-21-130)

The Planning Office is transmitting a copy of the HRS Chapter 343 Exemption Declaration for the Land Development Division, Safety Wall Extension. Upon review, it has been determined that the proposed action will have minimal or no significant impact on the environment and is therefore exempt from the preparation of an environmental assessment.

The HRS Chapter 343 Exemption Declaration for this proposed action does not constitute DHHL approval of the proposed action. Final approval of the proposed action remains with the Land Development Division (LDD). The HRS Chapter 343 Exemption Declaration is documentation of compliance with HRS Chapter 343, should the project receive final approval from the LDD. As such, a copy of this HRS Chapter 343 Exemption Declaration should be kept in the respective files for the LDD.

TO: William J. Ailā, Jr., Chairman  
Hawaiian Homes Commission  

THROUGH: Andrew H. Choy, Acting Planning Program Manager  

FROM: Malia Cox, Planner  

SUBJECT: Land Development Division, Safety Wall Extension, ‘Ewa Moku, O’ahu Exemption from HRS Chapter 343 Environmental Assessment Preparation (PO-21-130)  

Recommended Action  

That the Chairman exempt Land Development Division, Safety Wall Extension from preparation of an environmental assessment per HRS Chapter 343.  

Discussion  

In light of recent DHHL efforts to ensure that all activities on DHHL lands are in compliance with Federal, State and County regulations, Planning Office will be offering recommendations to the Chairman on whether or not to exempt future proposed projects on DHHL lands from HRS Chapter 343. Per the statute, certain projects are exemptible from the environmental review process if the projects meet certain requirements as stated in Hawaii Administrative Rules (HAR) Section 11-200.1-8 subchapter 8 “Exempt Actions, List and Notice Requirements.” HAR Section 11-200.1 also states that State and County agencies can prepare their own Chapter 343 exemption list. Activities on agency exemption lists must be consistent with Section 11-200.1 HAR exemption requirements and be approved by the state Environmental Council.  

Based upon HAR Section 11-200.1 exemption criteria and DHHL’s approved exemption list, the Planning Office concluded that Land Development Division, Safety Wall Extension is eligible for exemption from the environmental assessment process because the proposed actions are consistent with the listed actions on DHHL’s exemption list as well as HAR Section 11-200.1. The attached exemption declaration letter provides more detail about the proposed project and the Planning Office’s review and analysis of the project.

DESCRIPTION OF ACTION
Proposing Agency or Applicant: DHHL, Land Development Division
Project Name & Address/Location: 91-1054 Hoakalei St, Kapolei, HI 96707
Anticipated Start Date: 8/1/2021
Anticipated End Date: 1/31/2022
Island and District: O'ahu 'Ewa Moku, Honolulu
Tax Map Key(s) and other geolocation means: (1)9-1-139:087
All Necessary Permits and Approvals:
- C&C of Honolulu Department of Planning and Permitting
- City and County of Honolulu- Grubbing and Grading Permit
- DLNR- State Historic Preservation Division Chapter 6E-8 Historic Preservation Review

NARRATIVE
Describe the action and why it qualifies for the exemption:
The proposed action will extend the existing subdivision perimeter wall. The project will include the removal of approximately 99 feet of vinyl fence\(^2\) and the construction of 98.67 linear feet of a 6-foot reinforce concrete masonry wall along Hoakalei Street. The new wall will connect to the existing perimeter wall along Kapolei Parkway where it abuts Hoakalei Street. Currently there is a vinyl fence along Hoakalei. The wall will improve safety of the residential homestead located on the corner Kapolei Parkway from errant vehicular movement, particularly those entering Hoakalei Street from Kapolei Parkway.

RECEIVING ENVIRONMENT
Describe the site, including any impacts on the receiving environment:
The proposed action will occur within the existing Kaupe'a Hawaiian homestead lots in Kapolei.

ENVIRONMENTAL ANALYSIS
I have considered the potential effects of the proposed project and all related activities against the criteria checked below:

- Land Use and Zoning Conformance ☒
- Traffic (Vehicles, Bicycles, Pedestrian) ☐
- Infrastructure (Roads, Buildings, Utilities) ☐
- Air Quality Pollutant Emissions ☐
- Noise Emissions ☐
- Solid, Hazardous, and Liquid Waste Management ☐
- Social ☐
- Economic ☐
- Health and Safety ☐

\(^{2}\) The fence removal is a de minimis activity (Type 6, item 5)

Comments/summary of impact analysis:
The primary purpose of the project is to provide additional protection to the residential homestead located on the corner of Kapolei Parkway and Hoakalei Street by replacing the existing vinyl fence with a reinforced concrete masonry wall. It will not change any existing uses. The project site is located outside of any floodplains, 3.2-foot sea-level-rise exposure area, special management area, wetlands, as well as habitat for threatened, rare and/or endangered species.

The project site is designated as Urban, by the State Land Use Board. The project is located within DHHL’s Homestead-Residential Land Use designation and the City and County of Honolulu’s AG-1 zoning. The actions proposed are consistent with activities allowed on lands with these designations.

MITIGATION
Describe all mitigation measures and best management practices planned to address impacts during the project activities and after project completion:

- DHHL, and its contractors shall comply with all County, State, and Federal permit, and approval requirements
- Obtain C&C permits as required.
- To avoid and minimize potential project impacts to seabirds, nighttime construction will be avoided during the seabird fledging period, September 15 through December 15.
- The project may generate short-term fugitive dust and noise impacts during construction of structural controls and during vegetative management. Best management practices need to be employed to reduce dust emissions. Additionally, DHHL and its contractors shall comply with HAR §11-46 relating to community noise control.
- All activities should include erosion control and other best management practices to reduce/eliminate pollution generating activities from impacting the project site and the surrounding areas.
- If any human remains or funerary material are discovered during ground disturbing activities, all activity in the immediate area must stop. The State Historic Preservation Division (SHPD) and County Police shall be called. Work in the area may resume only after SHPD and County Police authorize activity in the area.
