No. 8

REGISTER OF CHAPTER 343, HRS DOCUMENTS

All Chapter 343, HRS documents submitted for publication in the OEOC Bulletin must be addressed to the Office of Environmental Quality Control, 465 South King Street, Room 104, Honolulu, Hawaii 96813. Documents addressed otherwise will not be considered for publication.

NEGATIVE DECLARATIONS

The following are Negative Declarations or determinations made by proposing or approving agencies that certain proposed actions will not have significant effects on the environment and therefore do not require EISs (EIS Rules 11-200-11). Publication in the Bulletin of a Negative Declaration initiates a 60-day period during which litigation measures may be instituted. Copies are available at 25 cents per page upon request to the Office. Parties wishing to comment may submit written comments to the agency responsible for the determination (indicated in project title). The Office would appreciate a copy of your comments.

The proposed action is to acquire land in fee in Kaneohe which will be used for the widening of Luluku Road. The widening project will include the construction of an additional right turn lane into Kanehameha Highway and roadway improvements to include curbs, gutters and sidewalks.

The anticipated cost of the land acquisition is \$150,000.

SAND REPLENISHMENT AT KUALOA REGIONAL PARK
Kualoa, Oahu; Department of Parks & Recreation, City & County of Honolulu/State Dept. of Land and Natural Resources (TMK: 4-9-04:1)

The City Dept. of Parks and Recreation proposes to place sand on the beach at Kualoa Regional Park and transplant trees which have been undermined by shoreline erosion.

OAHU

LAND ACQUISITION FOR LULUKU ROAD WIDENING,
Kaneohe, Oahu; Department of Public Works, City and County of Honolulu (TMK:4-5-76:41, 4-5-76:42; 4-5-76:46)

The sand will be placed as a gently sloping triangular berm (2:1 slopes) between the vegetation line and mean high water mark along approximately 3,900 feet of shoreline. The beach makai of the vegetation line is within the State Conservation District.

The project also involves the transportation of 32 trees which have been undermined by shoreline erosion to new sites a little inland from the shoreline.

Total Acreage involved will be 153.405 Acres.

KALANI HIGH SCHOOL CHAIN LINK FENCE, Honolulu, Oahu; State Dept. of Accounting and General Services (TMK: 1st Div. 3-5-20:4)

This project is to construct a 4-foot high chain link fence with gates around the Kalani High School football and track field.

The estimated cost of the project is \$55,000.

The project will provide the school with a much-needed chain link fence which will prevent unauthorized vehicles from entering and damaging the football and track field.

HALAWA STREAM MAINTENANCE DREDGING PROJECTS (SALT LAKE BOULEVARD TO KAMEHAMEHA HIGHWAY), Halawa, Ewa, Oahu; State Division of Water and Land Development, Department of Land and Natural Resources (TMK: 9-9-02:004,024, 029,035; 9-9-03:23,24,26,49,51,66)

The proposed project involves maintenance dredging of sediment from

the Halawa Stream Channel between Salt Lake Boulevard and Kamehameha Highway for a length of approximately 3,320 feet.

Maintenance dredging work is needed to restore the flow and sediment storage capacities of the stream. The project will remove silt, sediment and debris build-up and help reduce the sediment pollution of Pearl Harbor.

Approximately 128,000 cubic yards of material will be removed by a hydraulic suction dredge. The dredged spoil will be transported to and dumped at the U.S. Environmental Protection Agency designated "approved ocean disposal site" located approximately 3 miles offshore of the airport reef runway.

The estimated cost of the project is \$3.7 million. Work is tentatively scheduled to begin in mid-1989 and will take approximately 6 months to complete.

PROPOSED CHEVRON SERVICE STATION Laie, Koolauloa, Oahu; Chevron U.S.A./Dept. of Land Utilization, City & County of Honolulu (TMK: 5-5-6:26)

The subject property is located in Koolauloa along Kamehameha Highway (mauka) within the Laie community. It is adjacent to the Polynesian Cultural Center.

The proposed project consist of the demolition of the existing Chevron service station facility and the construction of a new Chevron facility consisting of a new chevron service station and a 956 s.f. "food mart" store.

Estimated cost of the proposed project is \$250,000.

FINDING OF NO SIGNIFICANT IMPACT (FONSI)
MCON PROJECT P-610 INTEGRATED SIGNAL
INTELLIGENCE SYSTEM FACILITY, Marine
Corps Air Station Kaneohe Bay, Oahu;
Dept. of Defense, Dept. of the Navy,
United States Marine Corps

The proposed project will construct a one-story masonry structure of approximately 11,000 sq. ft. within a fenced area of 61,000 sq. ft.

The proposed project also provide a grassed antenna field fence area of 146,900 sq. ft. south of the masonry structure. The secured facility will house administrative, operational, maintenance and training operations in a single story, cohesive unit.

The facility, which will require a total of approximately 207,000 sq. ft., is partially located in sensitive management areas; however, this siting is required due to special operational requirements for the ISIS and ESS systems. As a result of this siting, special attention was paid to the design and engineering plans to insure sensitive minimal impact on the adjacent property.

FINDING OF NO SIGNIFICANT IMPACT (FONSI)
SALE AND REPLACEMENT, PHASE II, KAPALAMA
MILITARY RESERVATION, Honolulu, Oahu;
Department of the Army, Headquarters,
U.S. Army Support Command

Kapalama Military Reservation is located inland of Kapalama Basin in Honolulu Harbor, on the south coast of the Island of Oahu.

The proposed action will provide for the sale in fee of land and existing improvements within an area of approximately 44 acres at Kapalama Military Reservation. The property

proposed for sale is located on the west and northern end of KMR and contains 21 buildings that are presently used for warehouse storage and mortuary purposes.

The purpose of the program is to sell Army property and use the proceeds of the sale to finance Army construction projects in Hawaii.

MAUI

HONOKOWAI RENTAL HOUSING PROJECT, Lahaina,
Maui; State Housing Finance and
Development Corporation, Dept. of
Business and Economic Development (TMK:
Second District 4-4-01:por. 15 & 16;
18,19,21,22,26; 4-4-02: 37)

The project is located in the southern portion of Honokowai Village in the ahupua'a of Honokowai, Lahaina District, Maui. The site is bordered by Honoapiilani Highway to the east, Honoapiilani Road and Honokowai Subdivision No. 2 to the west; Honokowai Channel to the south, and the 5A Commercial Center and Holo Honokowai Apartments to the north.

Applicant proposes to construct a 184-unit rental apartment complex. The units will be housed in twenty-three eight-plex structures and a mix of one-, two-, and three-bedroom units are planned. Each structure is two floors in height, placed on concrete slab foundations, wood framed, and topped by hip/gable composition shingle roofs.

Access will be taken off Honoapiilani Road and utility connections will be made to existing water, sewer, power, and communication systems in the roadway. Four hundred twenty-one off-street, uncovered parking stalls will be provided. Amenities include

a basketball court/pavilion, three tot lots two of which are combination tot lot/laundry facility, and a combined office community area building.

Improvement costs are estimated at \$12.5 million for planning, design, and construction.

MISCELLANEOUS IMPROVEMENTS AT MAALAEA BOAT HARBOR, Wailuku, Maui; State Dept. of Transportation, Harbors Division/State Dept. of Transportation (TMK: 2-3-6-01:2P)

Maalaea Boat Harbor is located on the southwest shore of Maui. It is approximately 7 miles south of the County seat of Wailuku and 8 miles south of the commercial and business center of Kahului.

The proposed project consists of providing paved car parking and electrical outlets for berths along the south mole, providing paved bus parking, constructing a new Harbor Attendant's office above the existing restroom area in the former Seafite terminal building, rehabilitating the existing restrooms and upgrading of the existing sewer lift station.

There will be no dredging in this project.

Estimated cost of the proposed project is \$520,000.

HAWAII

CONSERVATION DISTRICT USE APPLICATION FOR HOUSE ADDITIONS AND PROPERTY DEVELOPMENT, South Hilo, Hawaii; Michael M. Zelko/State Dept. of Land & Natural Resources (TMK: 2-6-11: 23)

The proposed site is located between Honolii and Maili Streams at the 1900 to 1960 ft. elevation. It is in a conservation area, resource zone.

The applicant proposes both non-commercial and commercial land use activities, including:

- 1) construction of a house extensions to the bedroom, kitchen and garage with connecting walkway;
- 2) construction of a garage to the existing storage shed;
- 3) development of a one-acre family orchard;
- 4) development of a 1,000-foot roadway;
- 5) development of four acres into planted Christmas trees; and
- 6) development of a one-acre family garden where the excess may be sold to the public.

OTAKA INC. GOLF COURSE, North Kona, Hawaii; Otaka, Inc./Planning Dept., County of Hawaii (TMK: (3) 7-8-10:51, Por. of 36 & 82)

The applicant proposes to develop nine golf holes on 105.9 acres of land above the Alii Highway and the existing Kona Country Club.

The proposed golf holes will be incorporated with the third nine golf holes to become the second 18-hole golf course of the Keauhou Resort. The golf course addition would require associated improvements including landscaping, irrigation, practice putting greens, a comfort station/snack bar, a starter shed and golf cart paths.

A portion of the golf cart path and utility system would traverse the

mauka edge of the Alii Highway right-of-way adjacent to the Holua side. The Royal Holua Slide is listed on the National Register of Historic Places. A retaining wall would be constructed below the Holua Slide for stabilization along the cut embankment of the Alii Highway right-of-way.

The existing golf pro shop in the clubhouse located makai of the Alii Highway would be expanded by approximately 690 sq. ft. of floor area.

The estimated cost is \$5.1 million.

KAUAI

FINDING OF NO SIGNIFICANT IMPACT (FONSI)
PILOT TEST TO ERADICATE THE MEDITERRANEAN
FRUIT FLY, Kauai and Niihau; U.S.
Department of Agriculture

A pilot test is planned for the islands of Kauai and Niihau to eliminate the Mediterranean fruit fly by use of the sterile insect technique (SIT).

The objectives of the test will be to (1) determine whether a 50 to 1 overflooding ratio of sterile to wild flies is adequate to initiate and maintain a theoretically projected downward rate in the reproductive potential of the medfly, and (2) demonstrate eradication of an entrenched population of the medfly with the SIT.

The flies will be reared on Oahu and shipped as sterile pupae to Kauai where they will be held for eclosion and aerial distribution. Preliminary marked release-recapture studies will be carried out beforehand to estimate

the size of the medfly population on Kauai which at present is known to be small.

Fixed wing aircraft will be used for sterile fly distribution because of economics; however, if necessary, distribution will be supplemented by use of ground releases or even by helicopter where warranted.

DRAFT ENVIRONMENTAL IMPACT STATEMENTS

EISs listed in this section are available for review at the following public depositories: Office of Environmental Quality Control; Legislative Reference Bureau; Municipal Reference and Records Center (Oahu EISs); Hamilton Library; State Main Library and the Kaimuki, Kaneohe, Pearl City, Hilo, Wailuku and Lihue Regional Libraries. Statements are also available at State Branch Libraries that are in proximity to the site of a proposed action (indicated by project description).

Comments on the following EISs should be sent to: 1) the accepting authority; and 2) the proposing agency. Please note the deadline date for submitting written comments on the EIS.

OAHU

WAAHILA 180 AND WAAHILA 405 RESERVOIRS
Honolulu, Oahu; Board of Water Supply, City and County of Honolulu/ Governor, State of Hawaii (TMK: 3-3-56: Por. 1 & 2)

The proposed Waahila 180 and Waahila 405 Reservoirs will be constructed on the hillside above the University of Hawaii Waahila Faculty Apartments on Dole Street.

The proposed project includes the construction of two 4.0 million gallons concrete reservoirs, 190 feet in diameter by 22 feet in height.

The reservoir access road and two 24-inch pipelines, one to connect the upper reservoir to the high service line on Dole Street, and the second to connect to the low service line on Waiialae Avenue are also included in the project.

Reservoirs are used to meet fire flow requirements, peak demands, and to provide water during power outages.

The Board of Water Supply standard calls for a total storage capacity of 1.5 times average daily use. Eighty-five (85) million gallons of additional storage is still required of which the proposed 8 million gallons of storage will help to alleviate this shortage.

NOTICE:

When submitting an Environmental
Assessment or a Negative Declaration be
certain that it provides all the
information required by the Rules Section
11-200-10 or it will be returned without
any publication in the OEQC Bulletin.
Also, the attached summary Form #89-01 is
required. The contents as stated in the
Rules are as follows:

- (1) Identification of applicant or
proposing agency;
- (2) Identification of approving
agency, if applicable;
- (3) Identification of agencies
consulted in making assessment;
- (4) General description of the
action's technical, economic,
social, and environmental
characteristics;
- (5) Summary description of the
affected environment, including
suitable and adequate location
and site maps;
- (6) Identification and summary of
major impacts and alternatives
considered, if any;
- (7) Proposed mitigation measures,
if any;
- (8) Determination;
- (9) Findings and reasons supporting
determination; and
- (10) Agencies to be consulted in the
preparation of the EIS, if
applicable.

TO EXPEDITE THE PUBLICATION OF THE OEQC
BULLETIN, THIS OFFICE REQUESTS THAT ALL
AGENCIES AND APPLICANTS COMPLETE THE
ATTACHED 2-PAGE OEQC FORM #89-01 WHENEVER
AN EIS, NEGATIVE DECLARATION, OR NEPA
DOCUMENT IS SUBMITTED. IF THERE ARE ANY
QUESTIONS IN COMPLETING THIS FORM, PLEASE
CALL OEQC AT 548-6915.
