The OEQC Bulletin is a semi-monthly publication. The publication dates of the bulletin are the eighth and twenty-third of each month. Applicants should deliver an appropriate number of Draft and Final EIs to the accepting authority before submitting copies to OEQC for distribution and publication. Environmental Assessments should be submitted to the accepting authority directly. Based on the assessment, the accepting authority will submit to OEQC a determination of a Negative Declaration or a Preparation Notice for publication in the bulletin. Draft and Final Environmental Impact Statements must be received by the fifth and twentieth days of the month for publication in the respective issue. Negative Declarations and Preparation Notices must be received at least five working days prior to the publication date. All documents submitted for publication in the OEQC Bulletin should be delivered to the Office of Environmental Quality Control, 465 South King Street, Room 104, Honolulu, Hawaii 96813. To ensure proper processing of documents, please attach OEQC Bulletin Publication Form with all submittals. These forms can be obtained by calling OEQC at 548-6915.

NEGATIVE DECLARATIONS

The following actions have been determined to have little or no impact upon the environment. Environmental Impact Statements are not required of these projects. Those who wish to contest this determination have a 60-day period, from this publication date, in which to initiate litigation. Any questions regarding the following project(s) should be directed to the listed contacts.

HAWAII

TEXEIRA - ROADWAY ACCESS EASEMENT
AT POHAKUHIKU-KEMAU
Location: Hamakua, Hawaii
TMK: 4-3-0604, 16
Permitting Agency: Department of Land and Natural Resources
Contact: Glenn Taguchi (961-7317)
Applicant: Helen C. Texeira

The applicant is proposing to purchase an easement over and across State lands situated at Pohakuhiaku-Kemau. The State will provide the land owner with more land to widen the existing easement which is restricted to walking.

The area of the proposed easement is a level entrance access off Pohakea Homestead Road, thus no excavation is necessary. The road will then pass along the back side of the knoll, and drop into the applicant's property. At present, the subject easement site is overgrown with sugar cane. Some light bulldozing will be necessary, followed by appropriate gravel, cement or asphalt for an effective vehicle access.

KAUAI

ROBINSON - RELOCATION OF TWO LOTS
AND OTHER PROPERTY DEVELOPMENT
Location: Waialua, Kauai
TMK: 5-8-0300, 02
Permitting Agency: Department of Land and Natural Resources
Contact: Ed Henry (548-7837)

Applicants: Helen, Keith and Bruce Robinson

The applicants are proposing to relocate two existing vacant land locked kuleanas located within a larger parcel of land owned by the same owners. The purpose of the relocation is to provide road frontage on to a paved public roadway with public water system, electrical power and telephone service. Presently, access to the two parcels which has no public water system, electricity or telephone utilities, is over a difficult dirt field road.

The proposed action will include minor grading and clearing of land to enable driveway access. The applicants are also proposing perimeter fencing of both properties.
WAILUKU-KAHULUI WASTEWATER TREATMENT RECLAMATION FACILITY

ADDITIONS AND MODIFICATIONS

Location: Kahului
TMK: 3-8-01:188

Proposing Agency: County of Maui
Contact: David Wissmar (243-7417)

Applicant: James F. Gregory
C/o Alvin T. Sasaki

The applicant is seeking an after-the-fact Conservation District Use Permit for a seawall, backfill, and subsequently constructed structures on his property.

The proposed project consists of modifications and additions to existing facilities and limited additions to the plant. The modifications are intended to improve treatment performance, reliability, and capacity; increase safety; improve energy efficiency; decrease the chances of damage due to flooding, and reduce odors.

The project also includes minor internal modifications to 13 sewage pumping stations associated with the WWRF. These pumping stations are located adjacent to the shoreline, within six miles of the treatment plant.

The existing facilities include an activated sludge wastewater treatment plant followed by sand filtration, associated solids handling facilities, and four gravity injection wells for disposal of effluent. Structures on the site include large concrete tanks, four aluminum-sided buildings, two buildings made of split concrete block, and a 2.6 acre earthen holding pond with an asphalt lining.

MAUI

GREGORY - AFTER-THE-FACT CDUA FOR AN EXISTING SEAWALL AND OTHER IMPROVEMENTS THAT ENCRYPT ON STATE LAND

Location: Kaalea, Oahu
TMK: 4-7-16:60

Proposing Agency: Department of Land and Natural Resources
Contact: Cathy Tilton (548-7837)

Applicant: James F. Gregory
C/o Alvin T. Sasaki

The applicant is proposing the subdivision of land in Waiolu into seven substandard lots to be sold to the adjacent property owners who will be then required to consolidate them with their lots. The land is adjacent to the Umeana Road in Waialua. These property owners have requested the purchase of these remnants in order to increase their lot size for house gardening and to enlarge their houses and if allowable under future City and County codes to construct additional dwellings.

HAWAII

WEST HAWAII SANITARY LANDFILL

Location: North Kona, Hawaii
TMK: 7-1-03:01

Accepting Authority: Mayor, County of Hawaii

Please send your comments to:

Proposing Agency: Department of Public Works
Attn: Bruce McClure, P.E., Chief Engineer
27 Aupuni Street
Hilo, Hawaii 96720

PAGE 3
and a copy to OEQC.

Deadline: January 22, 1991

The County of Hawaii is proposing to utilize an undeveloped parcel of State-owned land in Puuanahulu, North Kona, to construct a sanitary landfill to service the solid waste disposal needs of the growing West Hawaii region. The proposed site is located on an 1859 lava flow several miles from any populated area. General access to the landfill site will be from Queen Kaahumanu Highway.

The proposed project will be part of a long-range plan for a County-integrated solid waste management system. This system, while yet to be developed, may include resource recovery processes such as recycling and composting.

While the entire land area is being set aside is 300 acres, the first increment of the landfill will comprise about 170 acres. The remainder will be developed in smaller increments after five years of operation.

MOLOKAI

AMENDMENT FOR TWO 27-HOLE GOLF COURSE (FAPOHAMA AND RURAL AREA)

Location: Kauwil, Molokai
TMK: 5-1-03-01, 02, 23, 25, 27, 28, 29
5-1-06-18, 19, 35 - 39, 42, 44 - 61
5-1-07-01 - 26

Please send your comments to:

Accepting Authority: Molokai Planning Commission, County of Maui
Planning Department
Attn: Clayton Yodida
250 South High Street
Wailuku, Hawaii 96793

with a copy to:

Applicant: Kukui (Molokai), Inc.
745 Fort Street, Suite 1600
Honolulu, Hawaii 96813

with a copy to OEQC.

Deadline: January 22, 1991

The applicant, Kukui (Molokai), Inc., plans to develop residential lots with related infrastructure and landscape improvements and two golf courses in Kauwilu. The two proposed golf courses are in addition to the existing 18-hole golf course associated with the existing resort land, land uses. Final build-out of all golf course improvements will result in a total of 72 holes available for play. The planned lots would be developed in accordance with all applicable covenants and County land use regulations and will conform to the underlying zoning to the greatest extent possible. Existing lots will be re-subdivided and consolidated by the developer as necessary to reflect new golf course configurations and design concepts.

The applicant is requesting a Community Plan Amendment to the Molokai Community Plan to develop 650 two-acre residential building lots with related infrastructure and landscape improvements and the two 27-hole golf courses, with clubhouse on approximately 2,270 acres. The project will be phased to coincide with infrastructure extensions and market demand expected to span a 15 year development timeframe.

OAHU

EWA MARINA COMMUNITY DEVELOPMENT
MIXED-USE COMMERCIAL COMPLEX

Location: Ewa, Oahu
TMK: 9-1-12-05 and 06

Please send your comments to:

Accepting Authority: Department of General Planning
Attn: William Medeiros
650 South King Street,
8th Floor
Honolulu, Hawaii 96813

with a copy to:

Applicant: Hasekou (Hawaii), Inc.
Attn: Nicholas Lee,
Development Director
820 Mili Street, Suite 820
Honolulu, Hawaii 96813

with a copy to:

Consultant: Tyrone Kusao, Inc.
1188 Bishop Street,
Suite 2807
Honolulu, Hawaii 96813

and a copy to OEQC.

Deadline: January 22, 1991

The applicant requests such amendments to the Development Plan Common Provisions, the Ewa Development Plan Special Provisions, and the Ewa Development Plan Land Use Map as are necessary to permit approximately 114 acres of land to be developed into a mixed-use commercial complex component of the master-planned Ewa Marina Community Development Project (Ewa Marina).

Upon completion, Ewa Marina will consist of separate, but wholly complimentary phases. Phase I, the makai portion, consists of approximately 707 acres and will contain 4,850 homes intended for permanent residents. These homes will be a mix of single and multi-family dwelling units, interspersed around a large marina and laced with pedestrian and bicycle pathways and other open area elements which will make the residential community architecturally and aesthetically pleasing.

Phase II, the makai portion of Ewa Marina, is designated urban on the state's land use map and agriculture on the county's land use map. It consists of approximately 403 acres of land on which a 17-acre park, a golf course and mixed-use commercial complex will be built. The golf course, including clubhouse and maintenance facilities, will be constructed on approximately 272 acres of land and is identified as Increment 1 of Ewa Marina Phase II. The golf course will be integrated with Ewa Marina's residential community and will stretch from NASBP to Fort Weaver Road. Phase II will also contain a mixed-use commercial job center and visitor complex which is identified as Increment 2 of Ewa Marina Phase II. It will be located between the golf course and marina on the approximately 114 acres of land which is the subject of this application.

LUALUALEI GOLF COURSE

Location: Nansol, Oahu
TMK: 8-7-09-02
8-7-10-06
8-7-19-01

Please send your comments to:

Accepting Authority: Department of General Planning
Attn: William Medeiros
650 South King Street,
8th Floor
Honolulu, Hawaii 96813

and a copy to OEQC.

PAGE 4
The applicant is proposing the development of two 18-hole golf courses, one public, one private, on approximately 620 acres in Mokuleia. The supporting structures for each golf course include a clubhouse which would accommodate a golf proshop, a golf bag storage room, a golf cart barn, a snack shop, and a restaurant. Also located within each golf course would be a driving range and a service and maintenance facility. The existing Dillingham house entrance drive will be improved to provide access to the two golf clubhouses.

The applicant is in the process of acquiring a 40-acre parcel from the State for use in its golf course development. In addition, plans are to provide improved public access from Farrington Highway to Peacock Flat. The Dillingham house and Crowbar Ranch, which are located adjacent to the project site, will be kept intact and existing operations will continue at those facilities.

KAILA TOWER - HILTON HAWAIIAN VILLAGE

Location: Waikiki, Oahu
TMK: 2-6-09:13

Please send your comments to:
Accepting Authority: City and County of Honolulu
Department of Land Utilization
Attn: Art Challacombe
650 South King Street
Honolulu, Hawaii 96813

with a copy to:

2005 Kaila Road
Honolulu, Hawaii 96815-1999

DRAFT ENVIRONMENTAL IMPACT STATEMENTS

A 45-day review period commences with the initial publication of these projects in the bulletin (see deadline dates). EISs listed in this section are available for review at the following repositories:

- Office of Environmental Quality Control
- Legislative Reference Bureau
- Municipal Reference and Records Center (Oahu EISs)
- University of Hawaii Hamilton Library
- State Main Library
- Kailua Regional Library
- Kaneohe Regional Library
- Pearl City Regional Library
- Hilo Regional Library
- Wailuku Regional Library
- Lahue Regional Library
- Branch library in closest proximity to the project
Please send your comments to the accepting authority with a copy to the applicant or proposing agency (see listed contacts). OEQC would also appreciate a copy of your comments.

MAUI

KIHEI PUBLIC LIBRARY - SITE SELECTION

Location: Kihei, Maui
TMK: 3-9-06:11
3-9-11:18
3-9-12:13

Accepting Authority: Governor, State of Hawaii

Please send your comments to:

Proposing Agency: Department of Accounting and General Services
Attn: Charles Inatsuka
1151 Punchbowl Street
Kalanikukaua Building, Room 430
Honolulu, Hawaii 96813

with a copy to:

Consultant: Royce S. Fukunaga
c/o Fukunaga and Associates, Inc.
1368 Kapilani Boulevard, 2nd Floor
Honolulu, Hawaii 96814

and a copy to OEQC

Deadline: February 22, 1991

The Department of Accounting and General Services with the Department of Education, Hawaii State Public Library System proposes to construct a new public library in Kihei to serve the Maalaea, Kihei, Wailea, and Makena areas on the Island of Maui. This new 15,550 square foot facility would provide a permanent library to replace the Kihei Library Station. The existing facility, which is less than 2,000 square feet, is located in a classroom building in the old school complex on South Kihei Road, now known as the Kihei Community Complex. The nearest full service libraries are located in Wailuku and Kahului.

Based on criteria established by the Hawaii State Public Library System, five sites were identified and evaluated in a Site Selection Report. Site A, Kihei Community Complex, is located between South Kihei Road and Kenolio Road, near Uwalo Road. Site B, Future County Civic Center, is located with frontage along Pilani Highway, north of the Silverwood Golf Course. Site C, Waialului Beach Homestead, is located between South Kihei Road and Halama Street, south of West Welakahan Road. Site D, adjacent to Kalama Park, is located near the Kihei Fire Station on Waimahaihi Street. Site F, adjacent to Kihei School, is the site of the future community park which will be developed as part of the Pilani Village project.

The proposed public library facility will contain the following features:

- Driveway or access road from existing road to parking area.
- Paved parking area.
- Utilities to provide water, electricity, sewer, and telephone service.
- Drainage improvements to take care of on-site drainage.
- Landscaping.

The Hawaii State Public Library System has tentatively selected Site D, adjacent to Kalama Park, for the future site of the public library, and Site C, Waialului Beach Homestead, as an alternative site.

FINAL ENVIRONMENTAL IMPACT STATEMENTS

The following EIS’s have been submitted for acceptance. All comments received by the applicant or proposing agency, and corresponding responses, should be contained within the Final EIS. Those who wish to contest the acceptance of an EIS have a 60-day period in which to initiate litigation. The 60-day litigation period starts from the date of publication of an EIS’s acceptance.

HAWAII

LIHUikalani Trust Keahuolu Lands of Kailua-Kona

Location: North Kona, Hawaii
TMK: 7-4-08:02, 12

Accepting Authority: State Land Use Commission

Applicant: Liiuikalani Trust

Status: Currently being processed by the State Land Use Commission

The applicant, Liiuikalani Trust is proposing to lease for development acres of its land immediately north of Kailua. This land is part of a 4,000-acre ocean to mountain parcel left to the Trust by Queen Liiuikalani in her will for the purpose of assisting orphaned Hawaiian children.

The proposed project consists of the four principal elements, an Urban Expansion Area, a Residential Community, a Business Expansion Area, and a Regional Transportation Network. The Trust intends to retain ownership of the Urban Expansion Area and the Business Expansion Area, sell the Residential Development Area to the State of Hawaii, and participate with the State, County, and other land owners in the construction and dedication of regional infrastructure, including the Regional Transportation Network. For those areas retained by the Trust, developers will be selected to construct the individual projects according to specifications established by the Trust. Restrictive covenants will be established to guide the development, operation and maintenance of buildings and facilities developed on Trust property. Lease rents derived from the various projects will provide the Trust with a major source of new revenue to support its beneficiaries.

The following is a summary of the project development:

- The 465-acre Urban Expansion Area is proposed as the central element of urban expansion in the North Kona region. It will provide a variety of land uses which combine to create a new region-serving activity center for Kailua. Included in this area are the following proposed uses: a 145-acre Regional Shopping Center; a 20-acre Financial Plaza; a 35-acre Regional Hospital; a 25-acre Professional Plaza including medical offices; a 20-acre Business Hotel; a 30-acre Civic and Cultural Center; as well as 68 additional acres of commercial land, 95 acres for Office expansion, and 54 acres of Open Space, Park, and an Historic Reserve which contains numerous archaeological sites.

- A 450-acre area including all of that portion of the project mauna of the center line of a planned Mid-Level Roadway, which creates the eastern boundary of the Urban Expansion Area, is proposed for sale to the State of Hawaii. The land uses for this mauna area will, subsequently, be determined by the State of Hawaii rather than by the Trustees. A number of uses have been considered but...
The third component consists of approximately 229 acres of land located makai of Queen Kaahumanu Highway between the Trust's Conservation District land and the Kona Industrial Subdivision 100-acre expansion area. This parcel is proposed for long-term development as a mixed-use expansion area for retail, commercial and wholesale businesses, and recreational uses. It includes the Kona Children's Center which presently occupies a small parcel within the proposed expansion area and has leased an adjoining parcel to a privately-owned aquaculture project. Because the Business Expansion Area is proposed for development in a later phase of the project, the activities of the Kona Children's Center will not be disrupted in the foreseeable future.

Finally, the Trust proposes a Regional Transportation Network be implemented in coordination with development projects proposed by landowners throughout the area. The Regional Transportation Network is designed to relieve major traffic problems, especially in the area of Palani Road and Queen Kaahumanu Highway. The components of this system include the following:

1. A 300-foot wide setback for Queen Kaahumanu Highway to provide space for the eventual expansion of Queen Kaahumanu Highway and/or a frontage road along the mauka side of the highway.

2. A new mauka-makai roadway extending through the subject property, tentatively called the Queen Liliuokalani Boulevard. It will consist of a 120-foot right-of-way and provide access to the proposed project including the proposed Regional Shopping Center and help to reduce traffic congestion on Palani Road.

3. A Mid-Level Roadway separating the proposed urban expansion from the proposed Residential Development on the 450 acres to be purchased by the State. This roadway would consist of a 120-foot right-of-way with two lanes generally paralleling Queen Kaahumanu Highway.

4. A secondary roadway consisting of a 60-foot right-of-way linking the northern portion of the urban expansion to Queen Liliuokalani Boulevard.

5. Waena Drive, a 60-foot right-of-way depicted by the Housing Finance and Development Corporation in its Kealakehe Planned Community Concept Plan and by the County of Hawaii in its Kealakehe to Kalua Development Plan. It provides a link from Palani Road to the proposed Kealakehe development.

MAUI

KULA WATER SYSTEM RESERVOIR
Location: Makawao, Maui
TMK: 2-4-16-01, 04

Accepting Authority: Governor, State of Hawaii
                     c/o Office of Environmental Quality Control

Proposing Agency: Department of Land and Natural Resources

Status: Currently being processed by the Office of Environmental Quality Control

The State Department of Land and Natural Resources, Division of Water Resource Management is proposing to construct two 50-million gallon (mg) reservoirs in the Upper Kula area of the Island of Maui. The purpose of constructing these new reservoirs is to provide additional water storage capacity to minimize the need to impose water use restrictions, which is a common occurrence in Kula, especially during the drought periods. The existing storage capacity is insufficient to provide adequate amounts of water during the drought periods and requires expensive pumping costs from the Wallowa Ditch, located 3,100 feet downslope of the Upper Kula Water System, to supplement the water supply. The addition of the new reservoirs will provide adequate water storage capacity to the year 2000 and minimize water use restrictions and expensive pumping costs.

The proposed reservoirs are located on the northern slopes of Haleakala, between elevations 4100 and 4300 feet above mean sea level. The reservoirs and a disposal site for excess excavated material are planned on a portion of a 145-acre parcel owned by the State of Hawaii. A small portion of the reservoirs will be developed on an adjoining 9,900 acre parcel owned by the Haleakala Ranch Company.

The new reservoirs will cover approximately 30 acres and consist of two 50 mg storage basins. The overall surface area of the two reservoirs together measures 1510 feet by 879 feet with a bottom depth of 30 feet. The reservoirs will be lined with an impervious layer of concrete and enclosed by a six foot high chain link fence. The two basins will have a total storage capacity of 100 mg. The reservoirs will be fed by a newly installed 36 inch transmission main from the Waimea Arch Dam. The outlet will also be a 36 inch transmission main that leads to the Olinda water treatment plant. The designed spillway elevation is 4210 feet above mean sea level.

Two concrete lined diversion ditches are planned on the mauka side of the reservoirs to direct surface runoff to existing gutches on the east and west side of the reservoirs to prevent surface runoff from entering the new reservoirs.

The excavated material will be used to bank up the side of the new reservoirs and the excess excavated material will be disposed of on the 145 acre parcel site at a designated disposal site. The bermed up area around the reservoirs and the disposal site will be grassed to minimize soil erosion.

Proposing Agency: Aloha Tower Development
                     Corporation"
A joint effort of the U.S. Department of the Interior, Minerals Management Service, and the State of Hawaii, Department of Business and Economic Development is proposing the leasing of mineral rights in the U.S. Exclusive Economic Zone adjacent to Hawaii and Johnston Island. The leasing proposal consists of offering 26,910 square kilometers (approximately 6,650 million acres) of Exclusive Economic Zone lands for lease. The estimates of potential metal resources in the proposed lease sale area are 2.6 million tonnes (metric tons) of cobalt, 1.6 million tonnes of nickel, and 81 million tonnes of manganese. Unknown amounts of platinum are also suspected but unconfirmed in the deposits. The deposits lie on the seafloor in the form of crusts or pavements of oxide minerals in water depths between 800 and 2,400 meters on the flanks of volcanically formed islands and seamounts. Presently, no date has been set for a lease sale.
