The **OEQC Bulletin** is a semi-monthly publication. The publication dates of the bulletin are the eighth and twenty-third of each month. Applicants should deliver an appropriate number of Draft and Final EISs to the accepting authority before submitting copies to OEQC for distribution and publication. Environmental Assessments should be submitted to the accepting authority directly. Based on the assessment, the accepting authority will submit to OEQC a determination of a Negative Declaration or a Preparation Notice for publication in the bulletin. Draft and Final Environmental Impact Statements must be received by the fifth and twentieth days of the month for publication in the respective issue. Negative Declarations and Preparation Notices must be received at least five working days prior to the publication date. All documents submitted for publication in the **OEQC Bulletin** should be delivered to the Office of Environmental Quality Control, 220 South King Street, 4th Floor, Honolulu, Hawaii 96813. To ensure proper processing of documents, please attach OEQC Bulletin Publication Form with all submittals. These forms can be obtained by calling OEQC at 548-6915.

---

**IMPORTANT ANNOUNCEMENT**

The Office of Environmental Quality Control is requesting that beginning May 1991, agencies and applicants distribute their own Draft and Final Environmental Impact Statements. OEQC will provide agencies and applicants with distribution lists as soon as it receives five copies of the document. An agency or applicant may call OEQC three working days prior to the day the document will be available and the distribution list and a copy of the transmittal letter will be ready when the document is submitted to the Office. The documents must be sent First Class to assure timely delivery. If the Office is notified that agencies have not received the EIS’s in a timely manner (as indicated by the postmark date), OEQC will require the agency or applicant to correspondingly extend the deadline for comments and notify the parties on the distribution list. OEQC will publish the extended deadline for comments in its OEQC Bulletin.

Administrative Rules, Title 11, Chapter 200-21, states that: “The applicant or proposing agency may directly distribute any portion of the required copies to those on the list, provided that the office is informed at the time the EIS is filed.” OEQC has chosen to request that the agencies and applicants be responsible for the direct distribution of the EIS’s for two reasons. One is budget related; OEQC’s budget has been cutback requiring the implementation of money saving measures. The second reason is due to our present location. OEQC is not in a state building and therefore no longer has easy access to the messenger service. Transporting EIS’s to the Messenger Mail Room is an extreme burden on our small staff. If you have any questions regarding this policy, please feel free to call the office at 548-6915.

Hawaiian Cement proposes to improve the existing facility for receiving, storage, and distribution of bulk portland cement. The location is at Kawaihae Harbor on a parcel of land leased from the Harbors Division of the State of Hawaii, Department of Transportation. The present facility consists of a bulk cement storage silo with capacity of about 1,800 tons of product. Bulk cement is received into the silo from a specialized bulk cement self-unloading barge by means of a pneumatic conveyor system. A pump line from the barge is connected into a dock hatch and the bulk cement is conveyed through a 10-inch diameter underground pipeline from the dock hatch and into the storage silo. The pipeline is within a 5-foot wide easement from the dock hatch parcel.
The proposed improvement consists of installing a second storage silo onto the parcel with a capacity of about 1,500 tons of bulk cement, and installing a second 10-inch diameter pipeline within the same easement and using the same dock hatch. The top of the existing silo is about 95 feet above ground, the new silo will be about 60 feet high plus about 12-feet for installing the dust collector on top of the silo.

KAUAI

KEAHUA FORESTRY ARBORETUM IMPROVEMENTS
TMK: 4-2-01:02

Proposing Agency: Department of Land and Natural Resources and Division of Forestry and Wildlife

The Division of Forestry and Wildlife is proposing to install composting toilets at the Keahua Forestry Arboretum, Lihue-Koloa Forest Reserve. Pit toilets were previously installed at the Arboretum, but the Department of Health no longer allows the use of pit toilets. The project site is approximately 520 feet above sea level with rainfall averaging 100 inches annually. Soils belong to the Kokekolo series. Each composting toilet system will occupy an area of approximately 0.01 acres. The sites selected will be in an area that was previously cleared for arboretum development.

LIHUE AIRPORT - SERVICE ROAD FOR U.S. POSTAL SERVICE
Location: Lihue, Kauai
TMK: 3-5-01:08

Proposing Agency: Department of Transportation
Contact: Stephen Wong (836-6405)

The Airports Division, State Department of Transportation, proposes to construct roadway improvements within a portion of the Lihue Airport complex fronting the makai side of Kapule Highway. The improvements are proposed adjacent to a 5.5 acre site on which the planned Lihue Main Post Office Annex will be constructed by the U.S. Postal Service. The purpose of the project is to provide a direct access route between the proposed Lihue Main Post Office Annex and Kapule Highway.

Kapule Highway will be widened in both directions on either side of the proposed connection. Highway widening will accommodate acceleration/deceleration lanes in the Hanamauu direction, a left turn storage lane into the access road in the Nawiliwili bound direction, and a left turn taper onto Kapule Highway in the Nawiliwili direction.

MAUI

KAHUULI HARBOR - BULK CEMENT FACILITY
Location: Kahului, Maui
TMK: 3-7-10-17 3-7-10-02

Accepting Authority: Department of Transportation
Contact: Howard Miura (548-2559)

Applicant: Hawaiian Cement

Hawaiian Cement proposes to relocate an existing bulk cement silo already installed at Kahului Harbor, on land to be returned to the Harbors Division. The silo will be moved about 200 feet horizontally and re-installed onto the existing Hawaiian Cement parcel and near the existing 95-foot high silo currently being used. The new silo will rise to about 90-feet above ground. A new underground pipeline will be installed to bring bulk cement from a pier-side barge and up into the top of the new silo. Any escape of cement dust into the atmosphere will be prevented by a bag-type dust collection system. This proposal will recycle valuable equipment which would otherwise be lost resource as the prior facility is dismantled and the land cleared.

LOKELANI INTERMEDIATE SCHOOL
Location: Makawao, Maui
TMK: 2-2-02-43

Proposing Agency: Department of Accounting and General Services
Contact: Emily Chun (548-5742)

The Department of Accounting and General Services is proposing to construct an approximately 6,300 net square foot reinforced concrete and masonry athletic locker/shower facility and a 9,504 square foot paved court. The proposed facility will be located in an area that had been previously graded during the construction of nearby structures. The project will provide the school with a much-needed facility to implement its program in accordance with Educational Specifications. Since the project will be constructed within the existing school campus, no land will be removed from the tax base. The estimated cost of the project is $2,150,000.

The County of Maui, Department of Water Supply proposes to install a new water main to the community of Keokea. Three additional extensions at the locations described herein may be installed, but are dependent on availability of funds.

Basic construction, named the Main Waterline, comprises of approximately 3,980 linear feet of 8-inch waterline. This waterline begins at the existing 47,000-gallon corrugated steel water tank to the southeast of Middle Road. It follows Middle Road to the point at which Middle Road turns south and then turns northwest through a utility easement, bypassing a cemetery, to Kula Highway. The alignment then follows Kula Highway to a dead-end beyond Fong Store. If available funds permit, any of three additional waterline extensions will be constructed as follows: (1) Additive No. 1: an 8-inch extension 500 linear feet long, along Middle Road from an existing 6-inch deadend at Hookano Place; (2) Additive No. 2: an 8-inch waterline branch 513 linear feet long, of the Main Waterline along Kula Highway, northward of the Cross Road intersection; and (3) Additive No. 3: a new 8-inch connection from the existing water tank 710 linear feet southeast to the existing Upper Kula waterline, replacing the existing 3-inch galvanized pipe connection.

Pipe material will be ductile iron. The design concept calls for the pipes to be laid with invert at a depth of about 4 feet below existing ground.
OAHU

BREWER ENVIRONMENTAL INDUSTRIES

FACILITY IMPROVEMENTS

Location: Ewa, Oahu
TMK: 9-1-26:17

Accepting Authority: Department of Land
Contact: Diane Borchardt (527-5038)
Applicant: Brewer Environmental Industries

Brewer Environmental Industries (BEI) is an industrial facility located within the James Campbell Industrial Park (JCIP) along the Barbers Point Coast on the island of Oahu. Brewer Environmental Industries leases the land from the Estate of James Campbell. The existing JCIP facility is deteriorating and current warehouse buildings are unable to handle the current demands. Brewer Environmental Industries’ primary warehousing and administrative offices are currently located in Twili. Brewer Environmental Industries plans to relocate its Twili operation to JCIP. The termination of their lease at Twili and the deteriorating JCIP facility prompted the action to rebuild their JCIP facility.

The proposed development includes the construction of a one-story, 81,000 square feet (sf) warehouse facility with a 7,000 sf mezzanine. The mezzanine would house BEI’s administrative offices. The warehouse facility would house packaged products. The products include construction and irrigation materials, laboratories and environmental services, golf course construction, sand and aggregates.

DRAFT ENVIRONMENTAL IMPACT STATEMENTS

A 45-day review period commences with the initial publication of these projects in the bulletin (see deadline dates). EISs listed in this section are available for review at the following repositories:
- Office of Environmental Quality Control
- Legislative Reference Bureau
- Municipal Reference and Records Center (Oahu EISs)
- University of Hawaii Hamilton Library
- State Main Library

Pacific Tower 660
1001 Bishop Street
Honolulu, Hawaii 96813

and a copy to OEQC.

Deadline: April 9, 1991

Makaiwa Hills is a proposed planned community of approximately 1,915 acres. It is part of the larger Kapolei Planned Community encompassing some 52,000 acres. Makaiwa Hills will consist of approximately 2,130 residential units on approximately 726 acres, and a regional shopping mall on approximately 156 acres. Public facilities and amenities are expected to include an elementary school, fire station, park and other recreational uses. A dominant feature of the plan is the open space network of some 901 acres that may in the future include an 18-hole golf course.

Makaiwa Hills is intended to be developed as a residential community. Affordable housing requirements are expected to be satisfied through the development of these units either on-site or off-site closer to the urban center of Kapolei City or a combination. The regional shopping mall is intended to satisfy the demand for regional retail services.

The land area is currently designated on the development plan for Agriculture (1772 acres), Residential (40 acres) and Low Density Apartment (103 acres).

KAILUA ELDERLY HOUSING

Location: Koolau Village, Oahu
TMK: 4-3-55:11

Please send your comments to:

Accepting Authority: Department of General Planning

Proposing Agency: Department of Housing and Community Development

Consultant: Lowell Chun

c/o AM Partners, Inc.
1164 Bishop Street,
Suite 1000
Honolulu, Hawaii 96813

Deadline: April 22, 1991

The Department of Housing and Community Development is proposing the development of an affordable housing project for the elderly. The elderly housing will consist of 30 one-bedroom and 54 studio units for a total of 84 units in a three-story structure. The project site is located on an existing municipal parking lot consisting of 76,710 square feet within the block bordered by Kulei Road, Onewa, Uluulu and Aulike Streets.

The Department of Housing and Community Development has created a program for the site which features 84 residential units, a multi-purpose meeting room/meal facility, landscaped garden terrace, a mini park, loading stalls and 167 parking stalls for resident and public parking. The proposed project will be designed in an configuration with its garden terrace.
HALF O MALIA LIFECARE COMMUNITY

Location: Waialae-Kahala, Oahu
TMK: 3-5-17:02

Please send your comments to:

Applicant: City and County of Honolulu
Department of General Planning
Attn: Verne Winquist
650 South King Street
Honolulu, Hawaii 96813

Deadline: May 7, 1991

The Episcopal Homes Foundation of Hawaii proposes to construct a new "lifecare" facility on a portion of the existing Star of the Sea School/Church campus. The program will provide qualified residents (65 years of age or more) living quarters, full health care, meals, housekeeping services and other amenities and services in exchange for an initial accommodation fee and monthly maintenance fees. The life care contract extends for the life of the residents, regardless of changed conditions in their health or financial condition.

Three levels of living area offered within the contract: residential apartments (300 units), personal care units (20 beds), and a skilled nursing facility (60 beds). The apartments are one- and two-bedroom units similar to quality condominium units, except the kitchens. Meals will be served in a main dining room. The personal care units serve residents who, either permanently or temporarily, require a moderate level of assistance with activities of daily living, but do not require continuous nursing supervision. The skilled nursing facility serves residents who require permanent or temporary 24-hour nursing care. The entire lifecare facility will be licensed by the State of Hawaii, Department of Health, and be housed in a complex of multi-story buildings with a total floor area of about 425,000 square feet and maximum height of 60 feet.

FINAL ENVIRONMENTAL IMPACT STATEMENTS

The following EISs have been submitted for acceptance. All comments received by the applicant or proposing agency, and corresponding responses, should be contained within the Final EIS. Those who wish to contest the acceptance of an EIS have a 60-day period in which to initiate litigation. The 60-day litigation period starts from the date of publication of an EIS's acceptance.

HAWAII

WAIKOLOA AFFORDABLE HOUSING

MASTER PLAN

Location: South Kohala, Hawaii
TMK: 6-8-02:31, 26

Accepting Authority: Department of Planning

Proposing Agency: Office of Housing and Community Development

Status: Currently being processed by the County of Hawaii, Department of Planning.

The Office of Housing and Community Development of the County of Hawaii is proposing an affordable residential development at Waikoloa Village, in the South Kohala district of West Hawaii. This master planned development is proposed to contain approximately 1,200 single- and multi-family housing units all of which will be available for rent or sale in the affordable price ranges, as defined by federal, state and county standards.

The project site is currently undeveloped and is located at the south end of the existing Waikoloa Village. Ownership of 279 acres of the 340-acre site is being conveyed from the present land owner, Waikoloa Land Company to the County of Hawaii through an agreement between the two parties.

Envisioned is an approximately 1,200 dwelling unit mix of single family and multi-family units on finished lots. This project will also include an 8.6 acre parcel for churches and a small commercial area near the Paniolo Drive entrance. A community park of approximately 9 acres will be located next to the commercial/church area at the entrance to the development at Paniolo Drive. A 36-acre school is planned for conveyance to the State Department of Education by the Waikoloa Land Company at the southeastern edge of the project site near the Ho'okam and Paniolo Drive intersection.

The major roadway network consists of 50-foot and 60-foot rights-of-way, with curbs, gutters and sidewalks, and dry wells for drainage. Roadway grades were maintained at a maximum slope of eight percent, with a few exceptions where ten to twelve percent was used because of the steep character of the area.

KAUAI

UPPER MAKALEHA SPRINGS WATER RESOURCE DEVELOPMENT

Location: Kapaa, Kauai
TMK: 4-6-01:01

Accepting Authority: Governor, State of Hawaii
Proposing Agency: Department of Land and Natural Resources

Status: Currently being reviewed by the Office of Environmental Quality Control.

The Final EIS for the Upper Makaleha Springs Water Resource Development, originally dated December 1987, was withdrawn by the Department of Land and Natural Resources, Division of Water Resource Management in February 1991. No acceptance/non-acceptance determination was made for this document. The Final EIS for the Upper Makaleha Springs Water Resource Development has been resubmitted and the description is as follows:

The Hawaii Division of Water and Land Development proposes to tap natural springs on State Land in the Makalapa Mountains of East Kauai, and to pipe the water to Kapaa for domestic uses. The project involves the construction of a concrete intake basin and
approximately 4000 feet of iron pipe. The proposed project will fulfill the primary purpose of the Kealia Forest Reserve which is to serve as a source of water supply.

Other project alternatives considered included the "no project" option, drilling a new well on Akulikuli Ridge, enlarging existing water tunnels, and the construction of a surface impoundment.

The proposed project will help alleviate existing water shortages in the Kapaawai area by increasing the overall supply approximately 16%. Adverse environmental impacts include a slight degradation of aquatic habitats and surface water quality, especially during construction. In addition, the project will also include the diversion of water now being used by Lihue Plantation Company to irrigate 1000 acres of sugar cane. These impacts will be mitigated by 1) the use of cement rubble masonry for the intake and pipeline pedestal construction; 2) replanting of exposed riparian areas with indigenous vegetation; 3) the restriction of land vehicles past the mauka end of Kahuna Road; 4) the use of silt fences and fabric material to reduce potential sedimentation; and 5) the scheduling of excavation work during the drier months of May through September. The project is consistent with the Kauai County General Plan and the Hawaii State Plan.

OAHU

EWA VILLAGES MASTER PLAN
Location: Ewa, Oahu
TMK: 9-1-16:25
9-1-17:01, 02, 04, 36-39, 46-49, 51
Accepting Authority: City and County of Honolulu
Department of General Planning
Proposing Agency: Department of Housing and Community Development
Status: Currently being processed by the Department of General Planning.

The proposed project will encompass approximately 606 acres. Of this total area, about 320 acres will be planned for residential use, recreation area and open space. Two hundred and six acres will be developed into an 18-hole golf course. The remaining area will be used for roads, commercial facilities and public facilities (schools, churches, community centers).

The intent of the development-rehabilitation program is to maintain the design character of the existing villages. Existing housing stock will be rehabilitated to meet standards for habitable structures. New in-fill housing built within the Villages will be compatible, if not identical to existing housing. New development areas will be separated from the existing Villages through the use of open space and buffers. The existing road patterns will be maintained. Approximately 1,230 units (existing and new) are programmed for the Villages. Most of the dwellings will be single-family units with a small number planned as multi-family units.

NEPA DOCUMENTS

The following documents have been prepared pursuant to the requirements of the National Environmental Policy Act of 1969. Should you require further information on these projects, please call the Office of Environmental Quality Control at 548-6915.

PLATT FIELD - FAMILY HOUSING PROJECT
(FINDING OF NO SIGNIFICANT IMPACT/NOTICE OF AVAILABILITY)
Location: Koolaupoko, Oahu
TMK: 4-4-09:03
Accepting Authority: Commander, R.R. Critser
Colonel USMC Marine Corps Air Station, Kaneohe Bay
Facilities Dept (161), Dr. Diane Digrigal
Kaneohe, Hawaii 96763-5001
(Phone: 257-2175)
Proposing Agency: Donald T. Wynn, Lieutenant
Colonel, CE
District Engineer, U.S. Army
Engineer District, Honolulu
Attn: David G. Sox
The proposed action is to construct 276 family housing units for military service members and their families at a 24-acre site at Platt Field, Marine Corps Air Station, Kaneohe Bay (MCASKB). A separate project will upgrade portions of the Station’s off-site sewer system. 0.5 acres of the site will need fill and/or structural flood proofing to prevent flood damages for a 100-year storm. Alternatives include no action; three different housing schemes at Platt Field; two schemes at Fort Hase Beach, MCASKB; and one site at Belflow Air Force Station.

Open space and grassy areas, now used as wintering grounds for Golden Plovers, a Federally protected migratory bird, will be diminished. Two adjacent, abandoned gasoline tanks will be removed. Outdoor recreational facilities will be moved to another site at MCASKB. New students will be bused to schools in nearby communities. The estimated cost of construction is about $25,000,000.

PUBLIC INFORMATIONAL WORKSHOPS: STATE LAND USE DISTRICT BOUNDARY REVIEW

The Office of State Planning is conducting workshops which will present an explanation of the State Land Use District Boundary Review Project and will provide an opportunity for participants to propose changes to existing State Land Use District Boundaries. Public comments on existing State Land Use District Boundaries are welcomed.

Thursday March 28, 1991 7:00-9:00 p.m. Kauai War Memorial Convention Hall, Lihue
Monday April 1, 1991 7:00-9:00 p.m. Mitchell Pauole Center, Molokai
Tuesday April 2, 1991 7:00-9:00 p.m. Maui Community College Community Services Building, Kahului
Thursday April 11, 1991 7:00-9:00 p.m. Lanai Public & School Library
Tuesday April 16, 1991 7:00-9:00 p.m. State Office Building, Conference Rooms A, B & C, Hilo
Wednesday April 17, 1991 7:00-9:00 p.m. Kealakehe Elementary School Cafeteria, Kona
Tuesday April 23, 1991 7:00-9:00 p.m. Central Intermediate School Cafeteria, Honolulu
Thursday April 25, 1991 7:00-9:00 p.m. Wahiakea Recreation Center, 1139A Kilani Avenue, Oahu

Copies of State Land Use District quad maps are available for review at the Office of State Planning (Kamalo Building, Room 712), Governor’s liaison offices on Kauai, Maui, Molokai and Hawaii and Lanai Public and School Library.

For more information, contact the Office of State Planning at 548-1712 or 548-3016.

All meeting locations are disability accessible. Should you need additional assistance for other disabilities, for example, sign language interpretation and large type print, please contact OSP at 548-1712 or 548-3016 at least four working days before the scheduled meeting.
