

OEQC Bulletin

JOHN WAIHEE
Governor

BRUCE S. ANDERSON, Ph.D.
Interim Director

VOLUME XI

JUNE 23, 1994

NO. 12

REGISTER OF DOCUMENTS PREPARED UNDER CHAPTER 343, HAWAII REVISED STATUTES

The *OEQC Bulletin* is a semi-monthly publication. The publication dates of the *OEQC Bulletin* are the eighth and twenty-third of each month. Environmental Assessments should be submitted to the appropriate agency directly. For environmental assessments (EA) for which a Negative Declaration is anticipated, agencies should submit four copies of the Draft EA with a letter stating that a Negative Declaration is anticipated and that notice of the Draft EA should be published in the *OEQC Bulletin*. (When an agency initially determines that an EIS will be required for a project, an EIS Preparation Notice determination is made. No Draft EA is required since those projects undergo two comment periods throughout the EIS process.) After the Draft EA comment period ends, the agency will submit to OEQC, four copies of the document and a determination of a Negative Declaration or an EIS Preparation Notice for publication in the *OEQC Bulletin*. Applicants should deliver an appropriate number of Draft and Final Environmental Impact Statements (EIS) to the accepting authority before submitting copies to OEQC for publication. All documents submitted for publication in the *OEQC Bulletin* should be delivered to the Office of Environmental Quality Control, 220 South King Street, 4th Floor, Honolulu, Hawaii 96813. **The deadline for all submittals is eight working days prior to the publication date.** To ensure proper processing of documents, please attach the *OEQC Bulletin Publication Form* (Revised July, 1992) with all submittals. This form can be obtained by calling OEQC at 86-4185.

Please contact the approving or proposing agency to request copies of any Draft EAs, Negative Declarations, EISPNs or EISs. Any questions related to the content of these documents should be directed to the listed agency contact person.

DRAFT ENVIRONMENTAL ASSESSMENTS

A negative declaration determination is **anticipated** for the following actions. Act 241, SLH 1992, was approved by the Governor on June 17, 1992, and became effective on that same date. The Act requires draft environmental assessments, for projects for which a negative declaration is anticipated, to undergo a 30-day comment period before a final determination is made. The comment period begins when the notice of availability of the draft EA is published in the *OEQC Bulletin* and ends 30 calendar days later. For agency actions, the proposing agency shall respond to all comments postmarked within the 30-day period. For applicant actions, the applicant shall respond to all comments postmarked within the 30-day period. See the deadlines below for comment period end dates.

Please send the original copy of your comments to the agency and duplicate copies of the comments to the applicant, consultant, and OEQC.

HAWAII

GRENBANK PROPERTY STATE ACQUISITION

District: North Kohala

MK: 5-3-03:03

Agency:

Department of Land and Natural Resources
Historic Preservation Division
33 South King Street, 6th Floor
Honolulu, Hawaii 96813
Attention: Don Hibbard (587-0047)

Deadline: July 23, 1994

This parcel was seized by the U.S. Marshal's Service in 1990. The State Historic Preservation Division (DLNR) is now in the process of acquiring said parcel for preservation purposes. Before this transfer can be completed, the State must reimburse the U.S. Government for the seizure and forfeiture procedure. An EA is required for the release of State funds to pay this reimbursement and because two historic sites on the property are eligible for placement on the National Register of Historic Places.

As this proposed agency action is merely a procedural one that allows for the acquisition of the property only, there should be no impact on the natural, cultural or historical features of this parcel. As such, we believe that an EIS is not required and support a Negative Declaration determination.

HAWI CONSTRUCTION AND OPERATION OF A PRIVATE 8.5 MILE LONG MULTI-PURPOSE TRAIL

District: North Kohala

TMK: 5-3-06:por 21; 5-3-07:1 & por. 10; 5-4-08:por. 1;
5-4-09:por 1; 5-5-08:por 13

Agency:

County of Hawaii Planning Department
25 Aupuni Street
Hilo, Hawaii 96720
Attention: Virginia Goldstein (961-8288)

Applicant:

Chalon International of Hawaii, Inc.
P. O. Box 249
Hawi, Hawaii 96719
Attention: Matthew Grady (889-6267)

Deadline: July 23, 1994

The applicant is proposing the establishment of an 8.6 mile long multi-purpose coastal trail within the district of North Kohala, Island of Hawaii. The proposed coastal trail will be located approximately 1 mile makai of the town of Hawi and extends from Lipoa Guich near Hawi to Halawa Guich near Halawa town. The proposal intends to provide a multi-purpose trail for mountain bicycles, horseback riding, hiking and jogging. The proposed coastal trail would consist of 6.9 miles of existing cane haul roads with the remaining 1.7 miles to be constructed to provide a continuous alignment by linking these cane haul roads together. Construction will utilize and maintain all existing soils as well as the existing topography. The coastal trail will have a maximum total width of 8 feet with a tread surface of natural and packed clinker (decomposed basaltic rock) and/or wood chips, depending on the intended use. Where the trail crosses guiches, a cement ford crossing at existing grade may be constructed to limit erosion. The trail alignment will be located a minimum of 50 feet mauka of the cliff edges.

Six parking areas at points along the coastal trail will be provided at total buildout of the project. The coastal trail will be open to the public daily from dawn to dusk. Arrangements with the applicant can be made to allow access for nighttime fishermen. Associated improvements, such as improved access roads and portable restroom facilities, will also be provided.

HONOKAA HEALTH CARE FACILITY, PHASE I SEWER LINE EASEMENTS

District: Hamakua

TMK: 4-5-10:por. 27 and 91; 4-5-02:por. 21 and 46

Agency:

Department of Accounting and General Services
1151 Punchbowl Street, Room 430
Honolulu, Hawaii 96813
Attention: Ralph Morita (586-0486)

Deadline: July 8, 1994

This project is to provide easement(s) in favor of the State Department of Health for sewer lines and settlement ponds located on property belonging to the Hamakua Sugar Company, Inc. The sewer lines and settlement ponds have previously been constructed as part of the Honokaa Health Care Facility, Phase 1.

ISAAC HALE BEACH PARK WATER SYSTEM

District: Puna
TMK: 1-3-8:14
Agency:
County of Hawaii, Department of Parks and Recreation
25 Aupuni Street
Hilo, Hawaii 96720
Attention: Glenn Miyao (961-8311)
Consultant:
P. Yoshimura, Inc. (935-2162)
290 Ainako Avenue
Hilo, Hawaii 96720
Deadline: July 8, 1994

The proposed project is a waterline from Laepaoo to Pohoiki, terminating at the County of Hawaii's Isaac Hale Beach Park, Puna, Hawaii. The 3,180 lineal feet of waterline will be installed along the Kaimu-Kapoho Road and will bring potable water to the beach park.

The existing 8 inch water line will be extended for 780 feet. From this point, a 3 inch service line will be extended to the park. This water line will provide potable water at a rate of 50 gallons per minute and will be of high density polyethylene material that will be able to withstand exposure to seawater and to withstand ordinary internal and external stresses.

The waterline will replace the use of catchment tanks, which presently provide water for operating restroom fixtures. There is presently no water available for wash basins or showers.

LOKAHI FEDERAL HOUSING PROJECT

District: South Hilo
TMK: 2-4-52:01
Agency:
Hawaii Housing Authority
P. O. Box 17907
Honolulu, Hawaii 96816
Attention: Wayne Nakamoto (587-0548)
Consultant:
Gerald Park, Urban Planner (533-0018)
1245 Young Street, Suite 201
Honolulu, Hawaii 96814
Deadline: July 23, 1994

The Hawaii Housing Authority, State of Hawaii and the Department of Housing and Urban Development, United States of America, propose to construct a rental housing project on lands located in the ahupua'a of Waiakea, South Hilo District, County, Island, and State of Hawaii. The lands contain an area of 3.182 acres.

The proposed Lokahi Federal Housing Project consists of 20 dwelling units arranged in five (5) detached four-plex buildings. All dwellings are 3 bedroom, 1 1/2 bath units with a kitchen, living room, and dining area totalling 1,120 square feet of living area. Each unit also features a covered front entry and an outdoor porch at the rear of the unit. One unit has been reserved for the handicapped.

Access will be taken from Pamala Place about 125 feet from its intersection with Puainako Street. Direct access to Puainako Street is restricted by a road setback requirement for the proposed widening of Puainako Street. In anticipation of the road widening program, all proposed improvements will be set back 125 LF from the south property line abutting Puainako Street. The land area in the street widening setback is approximately 1.02 acres which leaves a developable area of 2.16 acres (3.182-1.02 acres)

Development costs are estimated at \$2.0 million (\$1994) and will be funded by the Department of Housing and Urban Development, United States of America. The State of Hawaii is providing land for the project. The project will be built in one increment with construction projected to commence in late 1994. Construction time is estimated at 15 months.

KAUAI

**AFFORDABLE COTTAGES HAWAII, INC. DISTRICT BOUNDARY,
GENERAL PLAN AND ZONING AMENDMENTS**

District: Kawaihau
TMK: 4-6-04:44
Agency:
County of Kauai, Planning Department
4444 Rice Street, Suite 473
Lihue, Hawaii 96766
Attention: Susan Daymude (241-6677)
Applicant:
Affordable Cottages Hawaii, Inc.
7084-A Kahuna Road
Kapaa, Hawaii 96746
Attention: LeVaughn Kaopio (822-7911)
Deadline: July 23, 1994

The applicant is proposing to amend the State Land Use District from Agricultural to Rural District; County of Kauai General Plan designation from Agriculture to Rural Residential; and County of Kauai Zoning from Open to Residential District (R-1).

These amendments are requested for the purpose of developing affordable multi-family dwelling units in relation to Pakui Housing Program.

ALFILER GENERAL PLAN AMENDMENT PETITION

District: Kawaihau
TMK: 4-6-11:26
Agency:
County of Kauai, Planning Department
4444 Rice Street, Suite 473
Lihue, Hawaii 96766
Attention: Myles Hironaka (241-6677)
Consultant:
Portugal and Associates, Inc.
1840 Leleiona Street
Lihue, Hawaii 96766
Deadline: July 23, 1994

The proposed action involves a General Plan Amendment Petition to reclassify the 5-acre subject property in Kapaa from the

"Agriculture" designation to the "Rural Residential" designation. The desired project is subdivide the subject property into five (5) one acre lots for residential purposes.

**ANAHOLA DEEPWELL NO. 3 (STATE WELL NO. 0818-03),
PUMP, CONTROLS AND PUMPHOUSE AND PIPELINE**

District: Kawaihau
TMK: 4-8-03:23
Agency:
County of Kauai, Department of Water
P. O. Box 1706
Lihue, Hawaii 96766
Attention: Wayne Hinazumi (245-6986)
Consultant:
Akinaka and Associates, Ltd.
250 North Beretania Street, Suite 300
Honolulu, Hawaii 96817
Attention: Sheldon Yamasato (536-7721)
Deadline: July 8, 1994

The proposed project involves the installation of a new well pump station and appurtenances at the existing Department of Water site for the Anahola Water System. The facilities on the existing site include 150,000 gallon reservoir, two wells, and appurtenances. The two existing wells have capacities of 400 gallons per minute and 200 gallons per minute.

The proposed well pump station will be a stand-by to reinforce the existing Anahola Water System by providing a capacity of 200 gallons per minute. The project will not require any additional land and will be secured within the confines of the existing site.

The well pump capacity of 200 gallons per minute is as recommended by the Department of Land and Natural Resources' recommendation for Anahola Well No. 3 (0818-01).

**CHARLES RIVER MULTI-FAMILY AFFORDABLE RENTAL
PROJECT**

District: Lihue
TMK: 03-08-02:14
Agency:
Kauai County Housing Agency
4493 Hardy Street
Lihue, Hawaii 96766
Attention: Dennis Alkire (241-6448)
Deadline: July 23, 1994

The County of Kauai is the owner of a 12.2 acre parcel of land in Hanamaulu, Kauai, Hawaii. The land is now vacant, but had been used for plantation worker housing during the last 100 years. Fires and hurricanes have destroyed all but two small houses, which remain on site. The county has a signed MOA for their historic documentation. The Kauai County Housing Agency is proposing to develop an affordable multi-family rental project. The rental rates, including utilities, will be not more than 80% of the Kauai County median income as determined by HUD.

The proposal is to develop the project in four phases. The first phase will be off-site and on-site infrastructure improvements. The

second through fourth phases will build 50 to 60 units per phase, for a total number of 150 to 180 units. The project is phased to be able to adjust to changing market conditions and to allow local contractors to fully participate in the construction.

The completed project will offer affordable housing opportunities in the Lihue/Hanamaulu area of Kauai. This area has the highest population, and is the center of government and business activity. Historically, there has been a scarcity of affordable rental housing in this area, and the Charles River project will help alleviate the chronic shortage.

The property has had a residential use for many years. The county Master Plan has designated the site for multi-family housing, and the zoning designation is R-20 (20 units/acre). The zoning surrounding the property is mixed, including, agricultural, industrial, commercial and residential. There will not be a significant negative impact on traffic. Sewer and water service are available. There are recreation facilities nearby, with a park across the street and beach park within one mile. There is a primary school within walking distance of the project.

**GROVE FARM PROPERTIES, INC. GENERAL PLAN AMENDMENT
PETITION**

District: Lihue
TMK: 3-3-02:1 por. and 3-3-03:1 por.
Agency:
County of Kauai Planning Department
4444 Rice Street, Suite 473
Lihue, Hawaii 96766
Attention: Bryan Mamaclay (241-6677)
Applicant:
Grove Farm Properties, Inc.
P. O. Box 2069, Puhi Rural Branch
Lihue, Hawaii 96766
Attention: Greg Kamm (245-3678)
Deadline: July 23, 1994

The petition proposes to amend the Kauai General Plan designation of approximately 15 acres of land from "Agriculture" to "Urban Mixed Use" in order to allow the development of a 228-unit multi-family affordable housing project. The project is intended to be marketed primarily to "low-income" families. "Low income" means families with incomes of 80% and below the Kauai median income. The units will be clustered in 2 and 3 story buildings in a mix of one, two, and three bedrooms with gross floor living areas ranging from 600 to 950 square feet.

**HANAPEPE CONSOLIDATION AND RE-SUBDIVISION
MASTERPLAN OF STATE-OWNED LANDS**

District: Koloa
TMK: 1-8-08:49 and 52; 1-9-10:32, 33, 34, 35 and 38;
1-9-07:07
Agency:
Department of Land and Natural Resources
P. O. Box 621
Honolulu, Hawaii 96809
Attention: Gary Martin (587-0414)
Deadline: July 23, 1994

The agency plans to consolidate 7 lots, which it owns, and are contiguous to each other, 5 of which are substandard relative to County building standards, and re-subdivide them into 2 lots that will meet county building standards. This will allow the land to be utilized to its highest and best use while at the same time improve on-site parking, access, circulation, infrastructure, uses, and architectural design. The masterplan will maintain the historic flavor of Hanapepe Town.

KAPAA EASEMENT FOR TELEPHONE POLE, GUY AND ANCHOR CABLE

District: Kawaihau
TMK: 4-5-15:8 and 26
Agency:
Department of Land and Natural Resources
P. O. Box 621
Honolulu, Hawaii 96809

Attention: Gary Martin (587-0414)

Applicant:
GTE Hawaiian Telephone Company, Incorporated
P. O. Box 591
Lihue, Hawaii 96766
Attention: James Sone (241-5052)
Deadline: July 23, 1994

GTE Hawaiian Telephone Company, Incorporated is improving telecommunication service for residents of the Kaapuni/upper Kapahi/Wailua Homesteads areas. The design utilizes the existing Olehena Road right-of-way as much as possible, however, the paved road departs from the right-of-way at the locations of the proposed easements. The installation of a telephone pole using guy and anchor cables to secure it at the three (3) easement locations will not cause nor create any adverse economic, social or environmental impacts in the neighborhood or surrounding community.

KEKAHA LANDFILL AND RECYCLING STATION NONPOTABLE WATER SYSTEM CONSTRUCTION

District: Waimea
TMK: 1-2-02:portion of 1
Agency:
County of Kauai, Department of Public Works
Solid Waste Division
3021 Umi Street
Lihue, Hawaii 96766
Attention: Dale Burton (241-6860)

Consultant:
Harding Lawson Associates
98-1005 Moanalua Road
Aiea, Hawaii 96701
Attention: Ted Hawley (486-6009)
Deadline: July 23, 1994

The County of Kauai, Department of Public Works, Solid Waste Section is proposing to construct a nonpotable water system for the purpose of fire protection, dust control, and irrigation at the Kekaha Phase II Landfill and Kekaha Phase I Recycling Station as needed to meet building codes and Department of Health requirements. The nonpotable water system will pump water from

a Kekaha Sugar Company irrigation ditch, treat the water through filtration and chlorination, and transport the water to the facilities. The nonpotable water system is proposed due to the inability of the existing County potable water system to meet the demands of the Kekaha facilities.

The location of the proposed nonpotable water system is approximately 1.3 miles northwest of Kekaha town and approximately 1,900 feet north of the Pacific ocean.

MAKAHUENA CONDO REPLACEMENT OF SEAWALL

District: Koloa
TMK: 2-8-20:3
Agency:
County of Kauai, Planning Department
4444 Rice Street, Suite 473
Lihue, Hawaii 96766
Attention: Myles Hironaka (241-6677)
Consultant:
Richard Matsunaga & Assoc., Architects, Inc.
1150 South King Street, 8th Floor
Honolulu, Hawaii 96814
Attention: Herb Leong (596-2424)
Deadline: July 23, 1994

The proposed action is to reconstruct and enlarge an existing erosion control wall within the 40 foot Shoreline Setback Area of the subject property. The proposed wall will be constructed of reinforced concrete and sculptured to appear as natural rock/boulder outcropping. The wall will be approximately 500 linear feet in length and range from 3 feet to 9 feet in height.

PUHI WELL NO. 5 DRILL AND TEST

District: Lihue
TMK: 3-4-05:por. 3
Agency:
County of Kauai, Department of Water
P. O. Box 1706
Lihue, Hawaii 96766-5076
Attention: Wayne Hinazumi (245-6986)
Consultant:
Akinaka and Associates, Ltd.
250 North Beretania Street, Suite 300
Honolulu, Hawaii 96817-4716
Attention: Robert Akinaka (536-7721)
Deadline: July 8, 1994

The County of Kauai, Department of Water proposes to drill and test an exploratory well in Puhi, Kauai. The proposed site is approximately 2 1/2 miles west of Lihue, and 5,000 feet mauka of Kaunualii Highway. Present use of the site is for two existing water tanks.

Construction will consist of a 20-inch well, 900 feet deep with the upper 150 feet cased with 14-inch solid casing and cement grout, and a 14-inch full flow shutter screen casing from the end of the solid casing to the bottom of the 20-inch well. The well will be tested to determine yield, drawdown, recovery, and water quality at various rates of pumping.

MAUI

CAMP MALUHIA PARKING LOT

District: Wailuku
TMK: 3-1-01:por. 1
Agency:
Department of Land and Natural Resources
P. O. Box 621
Honolulu, Hawaii 96809
Attention: Steve Lau (587-0424)
Applicant:
Boy Scouts of America
200 Liholiho Street
Wailuku, Hawaii 96793
Attention: Eric Murray (244-3724)
Consultant:
Michael T. Munekiyo Consulting, Inc. (244-2015)
1823 Wells Street, Suite 3
Wailuku, Hawaii 96793
Deadline: July 8, 1994

The Maui County Council, Boy Scouts of America proposes to construct 104 parking stalls which will be contained within two (2) parking areas. The proposed parking stalls will be located east of Camp Maluhia's main entrance, along the existing camp access road. The eastern (lower) parking lot will encompass 79 parking stalls, while the western (upper) parking lot will encompass 25 parking stalls as well as one (1) bus parking space. In addition, the project includes the realignment and improvement of a portion of the existing access road which will connect the two (2) parking lots. The improved roadway will be approximately 750 feet in length and have a width of approximately 12 feet. The total area encompassed by the proposed parking lots is approximately 0.8 acre.

The subject area is currently undeveloped and in pastureland that includes guava, Christmasberry, and other introduced plant species. The slopes in the project vicinity vary from 10% to 15%.

ESTRELLA PAPAYA FARMING

District: Hana
TMK: 1-3-4:24
Agency:
Department of Land and Natural Resources
P. O. Box 621
Honolulu, Hawaii 96809
Attention: Steve Lau (587-0424)
Applicant:
Stanton and Lucinda Estrella (248-7222)
P. O. Box 26
Hana, Hawaii 96713
Deadline: July 8, 1994

The applicant proposes leasing this property (6,287 square feet) for purpose of papaya farming. Applicants own the property surrounding the proposed lease property.

The project area is located along Hana Highway, across from the Hana High School.

**KAHANA OUTRIGGER CONDOMINIUMS SHORELINE SETBACK
VARIANCE FOR A ROCK REVETMENT**

District: Lahaina
TMK: 4-3-5:20
Agency:
Maui Planning Commission
c/o Maui Planning Department
250 South High Street
Wailuku, Hawaii 96793
Attention: Daren Suzuki (243-7735)
Applicant:
Kahana Outrigger AOA
4521 L. Honocapiilani Road
Lahaina, Hawaii 96761
Attention: Daniel Driessche (242-5616)
Consultant:
SRK - Robinson, Inc.
#115, 2550 Boundary Road
Burnaby, B.C V5M 3Z3
Attention: Keith Robinson (604-451-3397)
Deadline: July 8, 1994

This Environmental Assessment is for the replacement of a damaged seawall with a rock revetment constructed on the makai frontage of the Kahana Outrigger Condominium of approximately 235 feet in length.

The design wave height of 5 feet has been used to calculate both the required weight of rock to be used in the revetment as well as the anticipated depth of scour under design conditions. To achieve the required design configuration, it would be necessary to excavate to Elevation -4.0 feet MSL for the toe of the revetment. The face of the revetment would be a 2:1 (horizontal:vertical) slope that would provide runup control and energy dissipation. The slope is partly governed by the location of the Certified Shoreline and the need to preserve a useable landscaped backslope area.

KIHEI ELEMENTARY SCHOOL II

District: Wailuku
TMK: 3-9-19:por. 6
Agency:
Department of Education - Maui District
54 High Street, 4th Floor
Wailuku, Hawaii 96793
Attention: Ralph Murakami (243-5221)
Applicant:
Maui School Development Partnership
c/o Dowling Company, Inc.
1977 East Main Street
Wailuku, Hawaii 96793
Attention: Everett Dowling (244-1500)
Consultant:
Munekiyo and Arakawa, Inc.
1823 Wells Street, Suite 3
Wailuku, Hawaii 96793
Attention: Milton Arakawa (244-2015)
Deadline: July 23, 1994

The Maui School Development Partnership proposes to develop Kihei Elementary School II, a public elementary school facility located in Kihei, Maui, Hawaii.

The twelve (12) acre project site adjoins Kananui Road. The site is currently undeveloped, and predominantly vegetated with buffelgrass and kiawe trees.

The existing Kihei Elementary School services students from Kindergarten to Grade 5. This existing facility has a current enrollment of 1,128 students. Because current and projected enrollment demands exceed the capacity of the existing school, a second elementary school is necessary to meet educational facility requirements for the Kihei-Makena region.

The conceptual plans for the proposed Kihei Elementary School II incorporate a functional design with natural landscaping and vegetation. The proposed single-level facility will ultimately consist of 40 permanent and eight (8) portable classrooms. Proposed improvements also include administrative, cafeteria, computer, library, playcourt, resource, and restroom facilities. Additional site improvements include a drainage system and retention basin/play field, landscaping, underground utilities, and separate 6-stall and 95-stall parking lots.

Assuming all applicable permits are obtained, the construction of classroom facilities is anticipated to begin in April 1995, with completion targeted for September, 1996. The estimated project cost is approximately \$21 million.

Access to the proposed elementary school facility will be provided by a primary driveway entrance along Kananui Road and a service entrance along Road "F", a proposed collector road.

LAHAINA CENTER PARKING STRUCTURE

District: Lahaina
TMK: 4-5-2:por. 9
Agency:
County of Maui, Planning Department
250 South High Street
Wailuku, Hawaii 96793
Attention: Brian Miskae (243-7735)
Applicant:
KCOM Corporation
99-1379 Koaha Place
Aiea, Hawaii 96701
Attention: Valentine Peroff, Jr. (487-1445)
Consultant:
Munekiyo and Arakawa, Inc.
1823 Wells Street, Suite 3
Wailuku, Hawaii 96793
Attention: Michael Munekiyo (244-2015)
Deadline: July 23, 1994

The applicant for the project is KCOM Corporation, on behalf of the 3900 Corp. The proposed project involves the construction of a 239-stall parking structure on the site of the existing Lahaina Center parking lot in Lahaina, Maui, Hawaii (TMK 4-5-2:9). The project is bordered by Wainee Street and Front Street, with the

Lahaina Shopping Center to the southeast and Hale Mahaolu and the State of Hawaii's Piilani Elderly Housing Complex to the north.

The construction of the 239-stall parking structure would involve the deletion of 51 existing parking stalls on the ground level due to the construction of the parking structure's foundation and ramps. Thus, the proposed 239-stall parking structure would increase the parking count from 791-stalls to 979-stalls (i.e., net increase of 188-stalls).

Construction for the project is estimated to take four (4) months at an estimated cost of \$2.0 million.

WEST KUIAHA TANK AND WATERLINE

District: Makawao
TMK: 2-7-08:20, 113
Approving Agency:
Board of Water Supply
Department of Water Supply
P. O. Box 1109
Wailuku, Hawaii 96793-7109
Attention: David Craddock (243-7816)
Proposing Agency:
Department of Water Supply
P. O. Box 1109
Wailuku, Hawaii 96793-7109
Attention: Michael Ishikawa (244-9265)
Consultant:
Sato and Associates, Inc.
2115 Wells Street
Wailuku, Hawaii 96793
Deadline: July 8, 1994

The Department of Water Supply, County of Maui, proposes to construct a 0.25 million gallon (MG) reinforced concrete reservoir in Haiku along West Kuiaha Road at the 705 feet elevation, mean sea level (MSL) and install approximately 1390 linear feet of eight-inch waterline along West Kuiaha Road connecting to an existing eight-inch waterline.

MOLOKAI

KALAE HOUSELOTS II

District: Molokai
TMK: 5-2-14:53
Agency:
County of Maui Planning Department
250 South High Street
Wailuku, Hawaii 96793
Attention: Clayton Yoshida (243-7735)
Applicant:
Pacific Rim Land, Inc.
P. O. Box 220
Kihei, Hawaii 96753
Attention: J. Stephen Goodfellow (874-5263)
Deadline: July 23, 1994

The project site is located in Kalae, on the island of Molokai, and the State of Hawaii. It is situated on the westerly side of Kalama

Road adjacent to Kalae Houselots Unit I, approximately one eighth of a mile northwest of the Kalae Highway and Kalama Road intersection.

The project site encompasses an area of approximately 7.0 acres.

The proposed ultimate development plan for Kalae Houselots II project calls for the development of the project site into a single-family residential subdivision consisting of twenty-four (24) houselots with a minimum lot size of 10,000 square feet. Ultimate infrastructural improvements include: roadway improvements consisting of concrete rolled curbs and asphalt paving; utility improvements consisting of underground drainage and water distribution systems and combination overhead/underground electrical and telephone distribution systems.

OAHU

BLAISDELL CENTER WORKSHOP AND STORAGE FACILITY

District: Honolulu

TMK: 2-3-08:1

Agency:

City and County of Honolulu, Building Department
650 South King Street
Honolulu, Hawaii 96813
Attention: Clifford Lau (527-6373)

Consultant:

Gerald Park Urban Planner 533-0018
245 Young Street, Suite 201
Honolulu, Hawaii 96814

Deadline: July 8, 1994

The Building Department, City and County of Honolulu, proposes to construct a workshop and storage facility on the grounds of the Blaisdell Center located in Makiki, Honolulu, Oahu, Hawaii.

Approximately 24,852 square feet of workshop and storage space will be provided in a two-story building to be erected on the makai side of the Arena. The ground level measures approximately 17,920 square feet in size and the upper level 6,930 square feet. The building will be constructed primarily of concrete and topped by a flat, built-up roof. Most of the building is one floor in height with an upper level built on the Diamond Head half of the building.

Workshops for the various trades, a supervisors office, generator room, and storage space are located on the lower level. Storage space, men and women lockers, and a lunch area are on the upper level. Two stairways and an elevator will provide access between levels.

Approximately 27 existing ground level parking stalls will be lost. Water, sewer, and drainage systems are available and adequate to service the new building. A 20 feet wide service road/fire lane will be constructed on the makai side of the building. The service road and workshops fronting the service road will be partially concealed from view by new 6 feet cement masonry fencing and landscaping.

The cost of the project is estimated at \$3.7 million for planning, design, engineering, and construction. Monies for the project were appropriated by the Honolulu City Council in 1993-94. Construction

will commence after all necessary approvals are received. The project will be constructed in one phase and should be completed in one year.

CASTLE HIGH SCHOOL NEW GYMNASIUM

District: Koolaupoko

TMK: 4-5-34:08

Agency:

Department of Accounting and General Services
1151 Punchbowl Street, Room 430
Honolulu, Hawaii 96813
Attention: Ralph Morita (586-0486)

Deadline: July 23, 1994

This project is to construct a new gymnasium of approximately 23,500 square feet. The new structure will be of reinforced concrete/masonry construction. The existing termite damaged gymnasium will be demolished. Also included in this project are any site improvements and utility easements that may result because of this work.

CHOCK BOAT RAMP

District: Koolaupoko

TMK: 4-7-19:64

Agency:

Department of Land and Natural Resources
1151 Punchbowl Street
Honolulu, Hawaii 96813
Attention: John Doolings (587-0433)

Applicant:

James G.G. Chock (595-4552)
2148 Liliha Street
Honolulu, Hawaii 96817

Deadline: July 23, 1994

The intent is to obtain a fixed-term lease from the State of Hawaii for an encroachment of a concrete boat ramp covering an approximate area of 176 square feet. This land is located in Kahaluu, Oahu.

The boat ramp was constructed between 1946 and 1947 and no modification, cleaning, grading or filling will take place. No additional construction is proposed.

No adverse impact is anticipated of the existing physical, natural, social or economic environmental characteristics of the site.

KUNIA III EXPLORATORY WELLS, EWA DEVELOPMENT PROJECTS DRILLING, CASING AND TESTING

District: Ewa

TMK: 9-4-137:138

Agency:

City and County of Honolulu
Department of Housing and Community Development
650 South King Street
Honolulu, Hawaii 96813

Attention: Michael Shiroma (527-5312)

Consultant:

Parametrix, Inc.
1164 Bishop Street, Suite 1600
Honolulu, Hawaii 96813
Attention: Fred Rodriguez (524-0594)
Deadline: July 8, 1994

The Department of Housing and Community Development will be drilling three exploratory wells for future planned residential developments in the Ewa Plains. A sustainable capacity of 3.87 million gallons per day (MGD) will be the objective of the exploratory drilling. Upon confirmation of successful yield and water quality from the exploratory drilling, a source facility will be designed and developed for the future use of the water source.

MAXWELL SEAWALL

District: Waianae
TMK: 8-4-9:24
Agency:
City and County of Hawaii
Department of Land Utilization
650 South King Street
Honolulu, Hawaii 96813
Attention: Ardis Shaw-Kim (527-5349)

Applicant:
Jack Maxwell
6384 Desert Flame
San Jose, California 95120

Consultant:
TRH Network
113 South Valley Street
Port Angeles, Washington 98362
Attention: Timothy Haley (808) 735-2992
Deadline: July 23, 1994

The applicant proposes to construct a six-foot-high CRM retaining wall at the rear property boundary, along the shoreline. This wall will be back filled to raise ground elevations as much as five feet. The proposed work is within the 40-foot shoreline setback. The project site is an ocean-front residential property located at 84-223 Makau Street in Makaha. The 12,063 square foot lot is currently vacant. Future development will consist of a single family dwelling.

=====

NEGATIVE DECLARATIONS

=====

The following actions were previously published as Draft EAs and have been determined by the listed agency to have no significant impacts. As a consequence, Environmental Impact Statements are not required of these projects. Aggrieved parties who wish to contest the agency's determination have a 30-day period, from this publication date, in which to initiate litigation. Any questions regarding the following project(s) should be directed to the listed contacts.

HAWAII

SCOREN/LENDRA SINGLE FAMILY HOME

District: Puna
TMK: 1-5-10:7
Agency: Department of Land and Natural Resources
Contact: Cathy Tilton (587-0377)
Applicant: Leslie Lendra (941-4957) and Robert Scoren

The applicants propose to build a home and a farm building on a portion of the property, and to use about an acre of land for organic subsistence farming. The project would also include a driveway from the public Government Beach Road to the house. Other aspects of the development include: a 300 square-foot hut with a concrete pad to house a propane-powered generator at the mauka end of the property, a ground water well with a submersible pump capable of 20 gallons per minute, a swimming pool with a subsurface disposal area for pool water, and a 1,000 gallon septic tank with an absorption bed for wastewater processing. The remainder of the property will remain undisturbed and in its natural state.

WAILOA RIVER ENTRANCE MAINTENANCE DREDGING

District: South Hilo
TMK: 2-1-03:28
Agency: Department of Land and Natural Resources
Division of Boating and Ocean Recreation
Contact: Larry Uyehara (587-0122)

The Division of Boating and Ocean Recreation of the State Department of Land and Natural Resources proposes to do maintenance dredging at the entrance channel to the Wailoa River Basin. Silting has occurred in the channel which is extensively used by fishing and recreational boats.

Approximately 2500 cubic yards of sand and silt will be removed to restore the channel to its original width and depth. The dredged material will be disposed of at the County of Hawaii, Hilo Landfill.

No major or significant adverse impacts are anticipated as a result of this maintenance dredging project.

MAUI

HUNTER WATERLINE EASEMENT

District: Makawao
TMK: 2-4-16:02
Agency: Department of Land and Natural Resources
Contact: Roy Schaefer (587-0377)
Applicant: Jamie Hunter

The proposed project is for a waterline easement along the edge of the Makawao Forest Reserve to the applicant's land. This easement would provide water from the Lower Kula Pipeline (Piihoho Reservoir). At present, the applicant's water comes from the Awalau intake, which the Department of Water Supply has recently decided to stop monitoring. The pipeline would be of 2-inch diameter polyethylene (flexible black plastic) placed about 4 feet

inside the Makawao Forest Reserve, just far enough to avoid accidental damage from anyone maintaining the fence. The total distance along this route is approximately 6,500 feet. The pipe would be buried where it crosses Kahakapao Road, the road that serves Piiholo Reservoir.

OAHU

LAULANI COMMERCIAL CENTER

District: Ewa
TMK: 9-1-69:por.05
Agency: City and County of Honolulu, Planning Department
Contact: Brian Suzuki (527-6073)
Applicant: The Estate of James Campbell
Contact: Dave Rae (674-6674)
Consultant: William Wanket (674-3517)

The proposed action would redesignate approximately 20 acres on the Ewa Development Plan Land Use Map from Agriculture to Commercial.

The proposed Laulani Commercial Center would be located on Fort Weaver Road and surrounded by the community of Ewa Gentry to the north, the Prince Golf Course immediately southeast, the Barbers Point Naval Air Station golf course to the west, and the proposed Ewa Marina development area to the south.

The proposed project will include a low-density shopping center with approximately 138,000 square feet of leasable commercial space consisting of various retail stores and two major tenants. Major access to the center will be from Fort Weaver Road.

WAIKIKI BAZAAR BUILDING

District: Honolulu
TMK: 2-6-18:29 and 20
Agency: City and County of Honolulu
Department of Land Utilization
Contact: Ardis Shaw-Kim (527-5349)
Applicant: 2190 Kalakaua Associates, Ltd.
Contact: Yoko Kimura
Consultant: Kusao and Kurahashi, Inc.
Contact: Keith Kurahashi (538-6652)

The 4,912 square-foot lot is currently vacant. The applicant proposes to construct a three-story building for retail and eating establishments. The building will be approximately 45 feet in height with a maximum floor area of 9,824 square feet. The parcel is within the Resort Commercial Precinct. The applicant is requesting a Zoning Variance for density, parking and loading and yard requirements.

EIS PREPARATION NOTICES

According to the listed agency, the following actions may have significant impacts upon the environment. As a consequence, Environmental Impact Statements will be prepared for these

projects. A thirty-day consultation period commences with the initial publication of these projects in the bulletin (see listed deadline dates). The purpose of soliciting comments during the consultation period is to establish the scope and depth of coverage that the Draft EIS should have.

Aggrieved parties who wish to challenge the agency's determination have sixty days from the initial date of publication of the EIS Preparation Notice to initiate litigation.

Please send the original copy of your comments to the accepting authority and duplicate copies of the comments to the proposing agency or applicant, consultant and OEQC.

LIHUE - HANAMAULU MASTER PLAN

District: Lihue
TMK: 3-6-2:pers. 1, 4 & 20; 3-6-2:17; 3-7-1:por.1;
3-7-2:pers. 1 and 12; and 3-7-3:por. 20

Approving Agency:
Land Use Commission
335 Merchant Street, Room 104
Honolulu, Hawaii 96813
Attention: Esther Ueda (587-3822)
Applicant:
AmFac/JMB Hawaii, Inc.
700 Bishop Street, 21st Floor
Honolulu, Hawaii 96813
Attention: Timothy Johns (543-8900)
Consultant:
PBR Hawaii
1001 Bishop Street, Suite 650
Honolulu, Hawaii 96813
Attention: Yukie Ohashi (521-5631)
Deadline: July 23, 1994

The Petitioner requests that the Land Use Commission amend the present classification of the Petition Area from Agricultural and Conservation to Urban District use. The reclassification is being sought to allow for a development pursuant to a conceptual master plan currently under preparation by AmFac/JMB Hawaii, Inc., a Hawaii corporation, Petitioner's indirect parent company ("Amfac/JMB"). The proposed reclassification was also recommended by the State of Hawaii Office of State Planning in its Land Use District Boundary Review prepared in 1992.

The Petition Area will be developed under the Conceptual Master Plan ("Project"). The Project will include a variety of single and multi-family residential uses, industrial and public/quasi public facility uses, open space, village mixed-use districts that provide for a mix of retail, commercial, office and residential uses, and parks and a school site, if necessary. The County of Kauai's ("County") planned thirty (30) to forty (40) acre Recycling Center and the University of Hawaii's approximately four (4) acre Fruit Disinfection Center are included within the Project. The Conceptual Master Plan also includes provisions for a YMCA, Judiciary Building, Veterans' Center and Police Headquarters. For planning purposes, the average gross residential densities have been calculated at approximately

four (4) units per acre for single family units, and about nine (9) units per acre for multi-family units.

Based on the General Plan Amendment, State Land Use Boundary Amendment and County Change of Zoning approvals required, construction is anticipated to commence as early as 1996. The Project will take approximately fifteen (15) to twenty (20) years to substantially complete. However, the major infrastructure for the Project should be completed within the first five (5) to ten (10) years of development after the Petitioner receives all applicable land use entitlements and permits. Construction of the Project will be phased according to market demand.

DRAFT ENVIRONMENTAL IMPACT STATEMENTS

A forty-five day review period commences with the initial publication of these projects in the bulletin (see listed deadline dates). EIS's listed in this section are available for review at the following repositories:

- Office of Environmental Quality Control
- Legislative Reference Bureau
- Municipal Reference and Records Center (Oahu EISs)
- University of Hawaii Hamilton Library
- Hawaii State Library (Main Branch)
- Kaimuki Regional Library
- Kaneohe Regional Library
- Pearl City Regional Library
- Hilo Regional Library
- Kahului Regional Library
- Lihue Regional Library
- Branch library in closest proximity to the project

Please send the original copy of your comments to the accepting authority and duplicate copies of the comments to the applicant or proposing agency, consultant and OEQC.

Deadline: July 23, 1994

The State Department of Education plans to construct a second elementary school in the Kawaihau District on the Island of Kauai. This new school, Kapaa II Elementary School, will help relieve the present overcrowded conditions at the existing Kapaa Elementary School, thus creating two manageable elementary schools and reducing the overcrowded environment at the existing Kapaa Intermediate/High school.

This proposed project will serve adolescents in grades K-5. The scheduled school opening date is September 1997 with a projected enrollment of 300 students. Five sites have been judged to meet various governmental and educational criteria and are evaluated as potential school sites. The school site will encompass approximately 12 acres in size.

Deadline: August 8, 1994

The Hawaii Public Library System (HSPLS) proposes to construct a new library in Lahaina to serve the Honokohau, Kaanapali, Kapalua, Lahaina Town and Olowau areas on the Island of Maui. This new 13,580 s.f. facility would provide a permanent library to replace the existing Lahaina Library, which is too small to serve the current population and the projected future population growth. Renovation and expansion of the existing library would not be feasible due to the age of the structure and lack of available building area.

Based on criteria established by the HSPLS, the site selection study identified thirteen (13) potential sites within the service area. Subsequently, based on the minimum site criteria and by exception the site selection study reduced the 13 potential sites to five candidate sites. Site A - (TMK: 4-5-21:003 owned by State of

Hawaii) is located by Lahaina Civic Center Site mauka or Civic Gym. Site B - (TMK: 4-6-01:007 owned by State of Hawaii and TMK: 4-6-01:010 owned by County of Maui) is located by 680 Wharf Street. Site C - (TMK: 4-6-07:001 is owned by State of Hawaii) is located along Shaw Street between front and Wainee Street. Site D - (TMK: 4-6-12:005 is owned by County of Maui) is enveloped by Honoapiilani Highway, Mill Street and Prison Street. Site E - (TMK: 4-6-13:001 is owned by Pioneer Mill Co.) is at the corner Honoapiilani Highway and Kahaulaia Street.

Attention: Kenneth Ishizaki (591-8820)
Deadline: Extended to July 23, 1994.
Correction: The configuration of the circular tank is actually 185 feet in diameter and 22 feet in height.

The Honolulu Board of Water Supply proposes to construct a 4.0 M.G. reinforced concrete reservoir on Puu O Ehu ridge, south of the existing Kailua 275' Reservoir site. **The configuration of the 4.0 M.G. structure is a circular tank, 185 feet in diameter and 22 feet in height.** Elevations of the spillway and base pad will be 272 and 252 feet, respectively. The proposed Kailua 272' Reservoir is intended to provide additional storage capacity to the Board of Water Supply's Windward (Kailua) Low Service system.

In addition to the concrete reservoir structure the proposed project will also include an access road, a 24 inch water main, perimeter road for maintenance of the reservoir, chain link fence, landscaping and miscellaneous appurtenances.

The project site is located near the entrance of Kailua Town, just south of the intersection of Hamakua Drive and Kailua Road. The site overlooks Kawainui Marsh to the west and the community of Pohakupu to the south.

The construction of the reservoir will result in excavation of Puu O Ehu ridge, requiring a visual impact analysis.

NANAKULI NEW PUBLIC LIBRARY

District: Waianae
TMK: 8-7-6:por. 2 and 5; 8-7-33:11 and 12; 8-9-2:por. 1; 8-7-8:por. 11, 65, 75

Attention: Ralph Morita (586-0486)
Consultant:
DHM Inc.
1975 Ualakaa Street
Honolulu, Hawaii 96822
Attention: Wendie McAllaster (254-6511)
Deadline: August 8, 1994

The Hawaii State Public Library System (HSPLS) proposes to construct a new library in the Maili-Nanakuli area to serve the Maili and Nanakuli communities on the island of Oahu. This project identifies and evaluates the alternative sites for the proposed library. The proposed 15,000 square feet facility would provide a permanent library to serve the current and projected population.

Based on criteria established by the HSPLS and DAGS, the site selection study identified five candidate sites within the service area. Site A (Site 1 of the EIS Preparation Notice) is located at the corner of Farrington Highway and Kaukama Road and is State-owned land. Site B (Sites 2 and 3 of the EIS Prep. Notice) is on private property, located on Farrington Highway just west of Ulehawa Channel. The two former sites were combined due to a change in the land area needed for the library. Sites C and D (Sites 4 and 5, respectively, of the EIS Prep. Notice) are also along Farrington Highway, across from Nanaikapono Elementary School. Sites C and D are on State-owned land. Site E has been added since publication of the Preparation Notice as a result of public input. Site E is privately-owned, commercial property located just Ewa of the Pacific Shopping Center, along Farrington Highway.

Potential adverse impacts depend on the site selected. Sites B and E would involve the displacement of residents and businesses. Although the disruption cannot be mitigated, any displaced family or business would receive financial relocation assistance in accordance with State law. If Site C or D was selected, it would result in less developable area for the Department of Hawaiian Home Lands and/or the Department of Education, both of which have an interest in the property.

FINAL ENVIRONMENTAL IMPACT STATEMENTS

This section provides notice of EISs that have been submitted for acceptance. All substantive comments received by the applicant

or proposing agency, and corresponding responses, should be contained within the Final EIS. This section also provides notice of acceptance determinations. Aggrieved parties who wish to contest the acceptance of an EIS have a sixty-day period in which to initiate litigation. The sixty-day litigation period starts from the date of publication of the notice of acceptance in the OEQC Bulletin.

HAWAII

KEEAU II ELEMENTARY SCHOOL

District: Puna
TMK: 1-7-03:17, 1-5-39:267, 1-5-47:206, 1-6-03:8, 11, 3
Accepting Authority: Governor, State of Hawaii
c/o Office of Environmental Quality Control
Proposing Agency: Department of Accounting and General Services
Contact: Ralph Morita (586-0486)
Consultant: Group 70 International, Inc.
Contact: George Atta (523-5866)
Status: Currently being reviewed by the Office of Environmental Quality Control.

The Department of Education proposes to construct a new elementary school in Keaau to serve the existing Keaau Elementary and Intermediate School service area. The proposed elementary school facilities will accommodate 945 students at full buildout. Classrooms, cafeteria, library and administrative spaces will be programmed for the new school. Renovation and expansion of the existing school would not be feasible due to the age of some structures and lack of available building area needed to accommodate the continued and projected growth in enrollment.

Based on criteria established by the Department of Education, the site selection study identified ten (10) potential sites. Subsequently, based on the minimum site criteria, the site selection study reduced the ten potential sites to six (6) candidate sites.

The six candidate sites selected for further evaluation are:

- Site A Adjacent to County Park in Kurtistown;
TMK 1-7-03:17, owned by AMFAC Property Development Corporation.
- Site B Hawaiian Paradise Park on Kaloli Drive between 25th and 26th Street; TMK 1-5-39:267, owned by Hawaiian Paradise Park Hui Hanalike.
- Site C Hawaiian Paradise Park on Kaloli Drive between 14th and 15th Streets; TMK 1-5-47:206, owned by Hawaiian Paradise Park Hui Hanalike.
- Site D Keaau Town mauka of Keaau-Pahoa Highway near the underpass; TMK 1-6-03:08, owned by W. H. Shipman Ltd.
- Site E Keaau Town across from Nine Mile Camp;
TMK 1-06-03:11, owned by W. H. Shipman Ltd.

Site F Keaau Town makai of Keaau-Pahoa Highway before macadamia farm; TMK 1-6-03:03, owned by W. H. Shipman Ltd.

Potential impacts are being evaluated include social, traffic, safety, environmental, archaeological, economic and infrastructure requirements. The Environmental Impact Statement (EIS) document will also include the Site Selection Study. The EIS portion of the document will focus on the short list of six sites resulting from the Site Selection Study.

Status: Currently being reviewed by the Office of Environmental Quality Control.

The Hawaii State Public Library System (HSPLS) proposes to construct a new library in Kohala to serve the Hawi, Kapaau, Halawa, and Niulii areas on the island of Hawaii. This project identifies and evaluates alternative sites for the proposed library.

The proposed 6,000 square foot facility would provide a permanent library to replace the Bond Memorial Library, which is too small. Renovation and expansion of the existing Bond Library would not be feasible due to the age of the structure and lack of available building area.

Based on criteria established by the HSPLS, the site selection study identified 16 potential sites within the service area. Subsequently, based on the minimum site criteria and by exception, the site selection study reduced the 16 potential sites to 5 candidate sites. Site A - Bond Memorial Library (TMK 5-4-05:30 owned by the State of Hawaii) is located makai of Akoni Pule Highway. Site B - (TMK 5-4-7:1 and por. 2 owned by Caroline K. Ne, deceased; Mae Ling Ah Yuen) is located across Kapaau Post Office. Site C - (TMK 5-5-2:por.23 owned by Chalton International of Hawaii, Inc.) is located next to Hawi Post Office. Site D - (TMK 5-5-8:por. 48 owned by Chalton International of Hawaii, Inc.) is located left of Kohala School (facing makai). Site E - (TMK 5-4-09:por. 1 owned by Chalton International of Hawaii, Inc.) is located behind Kamehameha Park.

KAUAI

NEW KAPAA INTERMEDIATE SCHOOL

District: Kawaihau

Consultant: The Keith Companies - Hawaii

Contact: George Kalisik (822-7435)

Status: Currently being reviewed by the Office of
Environmental Quality Control.

The Department of Accounting and General Services (DAGS) is proposing to construct a new intermediate school to serve Grades 6 through 8 with a design enrollment of 1,100 students in the northeast section of the Island of Kauai. Establishment of the school will relieve current and projected overcrowding within the school district and help further the district's commitment to reorganize the school grade structure into three separate levels to remove younger adolescents from the same campus as high school students.

Based on criteria established by the Department of Education (DOE), four sites have been identified and evaluated as potential locations for the new Kapaa Intermediate School: Site 1 is located adjacent to the northern extent of the Wailua Houselots, mauka of Kuhio Highway in Wailua on lands currently utilized for sugarcane cultivation; Site 2 is located off of Oloheua Road just outside of Kapaa town, on lands currently utilized for sugarcane cultivation; Site 3 is located mauka of Kuhio Highway in Kapaa in the low area between Apopo Road and Hauaala Road, on lands currently utilized primarily for cattle grazing; and Site 4 is located mauka of Kuhio Highway just north of Kealia on lands which, until recently, were utilized for sugarcane cultivation.

The proposed intermediate school will be located on an approximately 18-acre site and will consist of approximately 44 permanent classrooms, 4 permanent special education classrooms, an administration building, library, and food service building. Space for 10 portable classrooms will also be provided to accommodate the peak enrollment. Integrated with the classroom buildings will be a computer resource center, language lab, and a faculty center. Also proposed is a physical education building, playfield and paved playcourt. A minimum of 84 parking stalls are proposed.

During the EIS consultation phase, it was determined that Site 3 may contain wetlands. It is the policy of DAGS and DOE to avoid the use of wetlands. Therefore, Site 3 is no longer being considered as a potential location for the new intermediate school.

NOTICES

JOHNSTON ATOLL CHEMICAL AGENT DISPOSAL SYSTEM

Background

The Johnston Atoll Chemical Agent Disposal System (JACADS) was designed and constructed on Johnston Island in the Pacific to dispose of the Army's stocks of chemical agents and munitions

currently stored on the island. A Resource Conservation and Recovery Act (RCRA) Part B permit was issued by the United States Environmental Protection Agency (USEPA) Region IX in August 1985 and a permit modification request was submitted in July 1990 and approved in June 1991.

Agent operations were initiated on June 30, 1990. The facility will demonstrate its capability to destroy both nerve and blister agents and to process a variety of munition types.

Situation

The JACADS operation to dispose of its inventory of chemical weapons on Johnston Atoll began in June 1990 with the disposal of M55 Rockets containing agent GB. More than 7,000 agent GB filled M55 Rockets have been safely and effectively destroyed. In October 1991, JACADS began the destruction of VX filled M55 Rockets and in March 1992 USEPA Test Burns were conducted on the Deactivation Furnace System (DFS) and the Liquid Incinerator (LIC). Also, all of the VX filled M55 Rockets stored on Johnson Island were destroyed at the JACADS facility. In August 1992, JACADS completed the destruction of all ton containers containing the agent HD and conducted a RCRA trial burn on the Metal Parts Furnace (MPF). Also, in the Fall of 1993, JACADS completed the destruction of all ton containers containing the agent GB. In order to continue RCRA shakedown operations, conduct the remaining RCRA Trial Burn and to correct errors the U.S. Army has incorporated the following Class I Modifications to the JACADS RCRA Permit:

- Allow the permanent use of demister vessel 102 as a bypass for the Metal Parts Furnace (MPF) demister vessel 103.
- The upgrading and installation of an isolation valve at the particulate discharge of the cyclone to the Deactivation Furnace System (DFS) and upgrade the bottom portion of the cyclone to allow for a settling chamber.
- Change the operating temperature of the MPF to 1600 + or - 150 degrees F for agent/spent decontamination solution (SDS) contaminated miscellaneous metal parts and change the operation temperature for agent/SDS contaminated absorbents and miscellaneous solid waste items to 1450 + or -300 degrees F.
- Removal of the SDS feed lines to the DFS.

These Class I Modifications will allow the continuation of the RCRA shakedown operations and correct errors in the JACADS RCRA Permit.

Any comments or questions on these modifications can be addressed at the following locations:

WAILUPE STREAM FLOOD CONTROL FEASIBILITY STUDY INITIATION

The Honolulu Engineer District, in cooperation with the State of Hawaii, Department of Land and Natural Resources and the City and County of Honolulu, Department of Public Works have initiated feasibility phase studies for Wailupe Stream on Oahu, Hawaii.

The Wailupe Stream drainage basin, located along the southeast coast of the Island of Oahu, extends from the Koolau Range to Maunaloa Bay and is bounded by Hawaii Loa and Wiliwilinui Ridges: There are more than 900 residential and commercial structures within the Wailupe Stream flood plain.

The feasibility phase studies will investigate the flooding problems associated with the Wailupe Stream drainage basin, identify potential flood damage reduction solutions, evaluate the economic feasibility, and assess the environmental impacts.

Person and organizations interested in providing or obtaining additional information may write to the address below. Public information and involvement activities will be fully integrated into our study findings.

Attention: John Yamamoto (949-0414)
Deadline: July 23, 1994

The image information processing center also known as the Maui High Performance Computing Center (Center) is proposed to be located at the Maui Research and Technology Park, Kihei, Maui, Hawaii. The Center will be located in a building that had recently been completed. It is across the street from another building called the Premier Place where the field offices of the Air Force Maui Optical Station is located. The intent is to locate the Center in close proximity with the Optical Station. Both of the facilities are resources of the United States Air Force, Phillip's Laboratory, head quartered at Kirtland Air Force Base, Albuquerque, New Mexico. They are ideal tenants of the Maui R&T Park.

The purpose of the Center is to support Federal High Performance Computing and Communications Programs by enhancing military, national, academic and industrial capabilities in scalable high performance computing as well as generating enthusiasm for high performance computing in the young.

The Center will occupy 32,000 square feet out of a total of 40,000 square feet of the building. This EA assessed the potential impact of the proposed action, which is the tenant improvement phase of the construction, including facility build-outs and installation of computer equipment in the building.

Review of environmental effect that are likely to result from the installation and operation of the Center has determined that it would have no significant adverse effect on the environment and that no environmental impact statement is required.

ENVIRONMENTAL COUNCIL

PUBLIC NOTICE: ENVIRONMENTAL COUNCIL MAILING LIST

To further increase public involvement and to implement the provisions of Section 92-7(c), Hawaii Revised Statutes, the Environmental Council requests that persons interested in receiving notification of its meetings call 586-4185 to be placed on a meeting notification mailing list. Requests to be placed on the mailing list may also be sent to:

Environmental Council, State of Hawaii
220 South King Street, Suite 400
Honolulu, Hawaii 96813

MURIEL R. ROBERTS
Chairperson, Environmental Council

OTHER NOTICES

GUIDELINES FOR PREPARING ENVIRONMENTAL ASSESSMENTS

These guidelines are intended to provide help to the agencies and the public regarding the environmental review process; specifically for the preparation of environmental assessments. The reader is referred to Chapter 343 of the Hawaii Revised Statutes, Chapter 200 of Title 11, Department of Health Administrative Rules, and to Act 241, Session Laws of Hawaii 1992, prior to any document preparation. (References in brackets refer to either Chapter 343, Hawaii Revised Statutes, Act 241, SLH 1992, or Title 11, Chapter 200, Department of Health Administrative Rules.)

For an overview of the EA/EIS Process, see the process flowcharts, included as Figures 1 and 2 in the new Guidebook.

WHAT IS THE PURPOSE OF PREPARING AN ENVIRONMENTAL ASSESSMENT? The purpose of preparing an environmental assessment is to determine if the impacts of a proposed action are significant enough to warrant the preparation of an Environmental Impact Statement [§11-200-2].

WHAT IS AN ENVIRONMENTAL ASSESSMENT? An environmental assessment is a document which is prepared for a proposed action which triggers the Environmental Impact Statement Process. Briefly summarized, the eight triggers that require the preparation of an environmental assessment [§343-5] are:

- (1) Use of State or County lands or funds
- (2) Use within Conservation District Lands
- (3) Use within the Shoreline Setback Area
- (4) Use within any Historic Site or District
- (5) Use within the Waikiki Special District
- (6) Amendments to a County General Plan (except for those initiated by the County)
- (7) Reclassification of Conservation Lands
- (8) Construction or modification of helicopter facilities

IS THERE A NEED TO CONSULT WITH OTHERS EARLY IN THE PROCESS? YES. During the preparation of an environmental assessment, the procedures listed in §11-200-9, Early Assessment, must be followed. Historically, one of the steps frequently overlooked has been §11-200-9 (a)(4). This section requires consultation with agencies having jurisdiction or expertise as well as consultation with citizen groups and individuals.

CAN ACTIONS OR PROJECTS BE SEGMENTED? NO. The proposed action must be described in its entirety; therefore, projects should not be done on an incremental basis to avoid the preparation of an environmental impact statement [§343-6(a)(2), §11-200-7].

WHAT HAPPENS IF AN ACTION IS SUBJECT TO MORE THAN ONE TRIGGER TO THE EIS PROCESS? If an action is subject to more than one trigger to the EIS process, all applicable approving agencies are encouraged to be involved in the preparation of the

environmental assessment and determination as to whether an environmental impact statement is required for the action. Otherwise, the action would be subject to separate environmental assessment processes (including separate 30-day review periods for anticipated negative declarations) and determinations for each approval. Notice of each separate determination will be published in the OEQC Bulletin.

WHAT IS REQUIRED IN AN ENVIRONMENTAL ASSESSMENT? Draft and final environmental assessments must include (but are not limited to) the following [§11-200-10]:

- (1) Identification of applicant or proposing agency;
- (2) Identification of approving agency, if applicable;
- (3) Identification of agencies consulted;
- (4) General description of the action's technical, economic, social, and environmental characteristics; (**Some GENERAL guidelines to the content of each characteristic are listed below:**

This section should generally answer the "What, Why, Where, When, Who and How" of the proposed action and its short and long-term impacts.

Technical: Describe the purpose of the project and in general terms how the project will be accomplished. If applicable, the spatial dimensions of the project and its timing should be included.

Socio-economic: Describe the economic impacts on the immediate community as well as on the community at large. The assessment may include, but not be limited to, providing income for the county/state and creating employment opportunities in areas with high unemployment rates.

Describe issues pertinent to the specific project. If an action involves a targeted segment of the population, any/all positive or negative effects must be discussed. In addition, any other issues pertinent to the action (such as: population density, recreational facilities, child care provisions, relocation of residences, etc.) must be discussed.

The Socio-Economic Impact does **not** apply to the impact of the action on the proposing agency or applicant. For state or county projects, the cost of the proposed action should be included in the assessment.

Environmental Characteristics: Describe, as applicable, aesthetics, the generation of air pollution, traffic congestion, noise levels, effects on water quality or any other aspect of the environment which may be affected by the proposed action.

- (5) Summary description of the affected environment, including suitable and adequate location and site maps; include descriptions of flora, fauna, significant habitats, historical/ archeological and cultural sites.

Describe adjacent natural resources. Sensitive habitats (such as a refuge) or bodies of water (stream, river, ocean, estuary, anchialine pond) adjacent to a proposed project need to be addressed.

- (6) Identification and summary of major impacts and alternatives considered, if any; identify positive as well as negative major impacts. The impacts of concern are of the proposed action on the surrounding environment and community, not the impact of the environment on the action. The alternatives considered should be included when applicable.
- (7) Proposed mitigation measures, if any: It is not sufficient to write one sentence stating that appropriate mitigation measures shall be instituted wherever necessary. The potential problems must be identified and appropriate mitigation described in general terms. If a mitigation measure is identified, the corresponding impact should be described in the impacts section. Best Management Practices should be cited whenever possible. For mitigation at Historic Sites, the environmental assessment must include: 1) copies of the Mitigation and/or Preservation Plans prepared for the Department of Land and Natural Resources' State Historic Preservation Program; and 2) a copy of the approval letter for the plans from the State Historic Preservation Program.

(8) Determination:

The agency shall consider every phase of a proposed action, the expected consequences, both primary and secondary, and the cumulative as well as the short and long-term effects of the action in making a determination. For environmental assessments for which a negative declaration is anticipated, a draft environmental assessment shall be made available for public review and comment for a period of thirty days. Subsequently, a final environmental assessment shall be prepared to determine whether an EIS is required (Act 241, SLH 1992).

After reviewing the comments received during the 30-day review period for anticipated negative declarations, the responsible agency may make a Negative Declaration or EISPN determination. If an EISPN is determined, the project must undergo an additional 30-day consultation period to define the scope of the Draft EIS.

A determination letter from the Agency must be submitted with the final environmental assessment identifying it as either a Negative Declaration or Environmental Impact Statement Preparation Notice. This letter is a formal declaration stating that the document has been reviewed and the action will or will not have significant impacts on the environment. This must be the Approving Agency's determination, not the consultant's determination (§343-5(c)).

- (9) Findings and reasons supporting the determination; Evidence justifying the statement that the proposed action will or will not result in any significant environmental impact must be included.

- (10) Agencies to be consulted in the preparation of the environmental impact statement, if applicable. This is necessary only for assessments which are determined to require environmental impact statements.

WHAT HAPPENS AFTER AN ENVIRONMENTAL ASSESSMENT IS SUBMITTED?

- If the agency determines the action will have a significant impact, an Environmental Impact Statement Preparation Notice is issued. Publication of this determination in the OEQC Bulletin will initiate a 30-day consultation period to define the scope of the Draft EIS.
- If the agency anticipates the action will not have a significant impact, the document will be published in the OEQC Bulletin as a Draft environmental assessment and will undergo a formal 30-day review period beginning on the date of publication in the OEQC Bulletin. Following the end of this 30-day review period, any comments received along with their responses must be incorporated into the Final environmental assessment. If appropriate, the text, figures, tables, maps and other ancillary parts of the environmental assessment should be revised. After undergoing the 30-day review period required by Act 241, SLH 1992, if the agency determines that:
 - a) the action will not have a significant impact, a negative declaration will be issued. Publication of this determination in the OEQC Bulletin will initiate the 30-day period to legally challenge the determination in court.
 - b) the action may have a significant impact, an EISPN will be issued and the project will undergo an additional 30-day consultation period to define the scope of the Draft EIS.

WHAT IS REQUIRED IN A NOTICE OF DETERMINATION? The Notice of Determination (Negative Declaration or EIS Preparation Notice) which is issued by the Approving Agency must include (§11-200-11(c)):

- (1) Identification of applicant or proposing agency
- (2) Identification of approving agency
- (3) Brief description of proposed action
- (4) Determination
- (5) Reasons supporting the determination
- (6) Name, address and phone number of contact person for further information

HOW IS THE PUBLIC MADE AWARE OF PROJECTS FOR WHICH EAs HAVE BEEN PREPARED? Draft Environmental Assessments, Negative Declarations and EIS Preparation Notices must be submitted by the appropriate agency to OEQC for publication in the OEQC Bulletin (§11-200-11(b)). OEQC has an "OEQC Bulletin Publication Form" which should be filled out and submitted to OEQC with the Draft Environmental Assessment, Negative Declaration or Environmental Impact Statement Preparation Notice.

CHALLENGING NEGATIVE DECLARATIONS. Once a final negative declaration determination has been made, the determination stands as a Negative Declaration until it is challenged in court and reversed by the same. There is a 30-day period (§343-7(b)/Act 241, SLH,

1992] starting when the determination is published in the OEQC Bulletin for an aggrieved party to challenge the determination of "negative declaration."

CHALLENGING ENVIRONMENTAL IMPACT STATEMENT PREPARATION NOTICES (EISPN). There is a 60-day period [§343-7(b), Act 241, SLH 1992] starting when the EISPN determination is first published in the OEQC Bulletin for an aggrieved party to challenge in court the agency determination that an EIS is required.

PRE-ASSESSMENT CONSULTATION LIST FOR ENVIRONMENTAL ASSESSMENTS

During the preparation of an environmental assessment, the procedures listed in Hawaii Administrative Rules, §11-200-9, Early Assessment, must be followed. Historically, one of the steps frequently overlooked has been §11-200-9(a). This section requires consultation with agencies having jurisdiction or expertise as well as consultation with citizen groups and individuals.

The appropriate agencies and groups from the list below should be consulted before the preparation of an environmental assessment. This list is not meant to be comprehensive. Each proposed action is unique in itself and may require consultation with other agencies and concerned groups.
