The OEQC Bulletin is a semi-monthly publication. The publication dates of the OEQC Bulletin are the eighth and twenty-third of each month. Environmental Assessments should be submitted to the appropriate agency directly. For environmental assessments (EA) for which a Negative Declaration is anticipated, agencies should submit four copies of the Draft EA with a letter stating that a Negative Declaration is anticipated and that notice of the Draft EA should be published in the OEQC Bulletin. (When an agency initially determines that an EIS will be required for a project, an EIS Preparation Notice determination is made. No Draft EA is required since those projects undergo two comment periods throughout the EIS process.) After the Draft EA comment period ends, the agency will submit to OEQC, four copies of the document and a determination of a Negative Declaration or an EIS Preparation Notice for publication in the OEQC Bulletin. Applicants should deliver an appropriate number of Draft and Final Environmental Impact Statements (EIS) to the accepting authority before submitting copies to OEQC for publication. All documents submitted for publication in the OEQC Bulletin should be delivered to the Office of Environmental Quality Control, 220 South King Street, 4th Floor, Honolulu, Hawaii 96813. The deadline for all submittals is eight working days prior to the publication date. To ensure proper processing of documents, please attach the OEQC Bulletin Publication Form (Revised July, 1992) with all submittals. This form can be obtained by calling OEQC at 586-4155.

Please contact the approving or proposing agency to request copies of any Draft EAs, Negative Declarations, EISPNS or EISs. Any questions related to the content of these documents should be directed to the listed agency contact person.

DRAFT ENVIRONMENTAL ASSESSMENTS

A negative declaration determination is anticipated for the following actions. Act 241, SLH 1992, was approved by the Governor on June 17, 1992, and became effective on that same date. The Act requires draft environmental assessments, for projects for which a negative declaration is anticipated, to undergo a 30-day comment period before a final determination is made. The comment period begins when the notice of availability of the draft EA is published in the OEGC Bulletin and ends 30 calendar days later. For agency actions, the proposing agency shall respond to all comments postmarked within the 30-day period. For applicant actions, the applicant shall respond to all comments postmarked within the 30-day period. See the deadlines below for comment period end dates.

Please send the original copy of your comments to the agency and duplicate copies of the comments to the applicant, consultant, and OEGC.

HAWAII

HAWAII DISTRICT DIVISION OF FORESTRY AND WILDLIFE HILO OFFICE COMPLEX

District: South Hilo

TMK: 2-2-27:1

Department of Land and Natural Resources
Office of Conservation and Environmental Affairs
1181 Punchbowl Street
Honolulu, Hawaii 96813
Attention: Roger Evans (587-0377)

and

Department of Land and Natural Resources
Hawaii District Division of Forestry and Wildlife
P. O. Box 4849
Hilo, Hawaii 96720
Attention: Howard Horkuchi (933-4221)

Consultant:
Okita, Kunimitsu and Associates, Inc.
1585 Kapiolani Boulevard, Suite 1340
Honolulu, Hawaii 96814
Attention: Emile Alano (944-6565)

Deadline: March 10, 1995

The Division of Forestry and Wildlife (DOFAW) has requested State funding for the construction of a new office complex at the current site of 1643 Kilauea Avenue, Hilo, Hawaii. The new office complex will replace the aged and termite infested buildings which were built in 1924 and 1936, as office and nursery operation buildings to accommodate the requirements of the former Division of Forestry.

The new office complex will be composed of an office building totaling approximately 9,600 square feet of floor space; a pavilioning 1,500 square feet of floor space; and a parking lot having

33 parking stalls. This new complex will provide the necessary shelter to adequately conduct informational and educational activities to the public, and a significantly safer ingress and egress to the new office complex will have been developed. The structure will also provide restroom facilities for the public who visit the Hilo Tree Nursery and Arboretum. There is no feasible alternative but to construct a new office complex to meet the office space requirements of the present professional, technical, clerical and supervisory staff of 20 personnel; and up to 10 additional positions which are pending and/or necessary to meet DOFAW’s expanding program responsibilities, including the management programs of the Natural Area Reserve System and the Trails and Access.

HUGGOS’ REQUEST FOR A NONEXCLUSIVE GRANT OF EASEMENT

District: North Kona

TMK: 7-5-09:35

Agency:
Department of Land and Natural Resources
Division of Land Management
P. O. Box 936
Hilo, Hawaii 96721-0936
Attention: Glenn Taguchi (933-4245)

Applicant:
Olu Kai Ltd. dba Huggos’
75-5828 Kahakai Street
Kailua-Kona, Hawaii 96740
Attention: Shirley Von Platen Luder (328-8444)

Deadline: February 22, 1995

The applicant, Olu Kai Ltd. dba Huggos’, is the owner of the abutting property of the proposed easement area. Olu Kai Ltd. is planning to asphalt pave and landscape their property and would like to acquire an easement over the government remnant so it might be included in the proposed parking/landscape plan.

KAMUELA CONGREGATION OF JEHOVAH’S WITNESSES
DIRECT LEASE OF STATE LAND AT LALAMILO

District: South Kohala

TMK: 6-6-01:06, 09 or 11

Agency:
Department of Land and Natural Resources
Division of Land Management
P. O. Box 936
Hilo, Hawaii 96721
Attention: Glenn Taguchi (933-4245)

Applicant:
Kamuela Congregation of Jehovah’s Witnesses
P. O. Box 2199
Kamuela, Hawaii 96743
Attention: Raymond Seaver (885-6516)

Consultant:
Ricky M. Kamimura (889-5904)
P. O. Box 535
Hawi, Hawaii 96719

Deadline: February 22, 1995
The applicant is requesting a direct lease of government lands for the purpose of constructing a new Kingdom Hall (Church) to serve the Waimea Community. The applicant's lease on their present site is expiring and will not be extended.

KEONEPOKO ELEMENTARY SCHOOL NEW CAFETERIUM

District: Puna
TMK: 1-5-08:por. 9
Agency: Department of Accounting and General Services
1151 Punchbowl Street, Room 430
Honolulu, Hawaii 96813
Attention: Brian Isa (586-0484)
Deadline: February 22, 1995

This project is to construct a new cafeterium building of approximately 7,426 square feet. This project also includes any site improvements, connections to public utilities and easements that may be required as a result of this project. The total estimated cost of this project is approximately $2,996,000.

MOUNTAIN VIEW ELEMENTARY SCHOOL NEW CAFETERIUM

District: Puna
TMK: 1-8-01:07
Agency: Department of Accounting and General Services
1151 Punchbowl Street, Room 430
Honolulu, Hawaii 96813
Attention: Brian Isa (586-0484)
Deadline: February 22, 1995

This project is to construct a new cafeterium building of approximately 8,640 square feet. This project also includes any site improvements, connections to public utilities and easements that may be required as a result of this project. The total estimated cost of this project is approximately $2,685,000.

MOUNTAIN VIEW ELEMENTARY SCHOOL 12-CLASSROOM BUILDING H

District: Puna
TMK: 1-8-01:07
Agency: Department of Accounting and General Services
1151 Punchbowl Street, Room 430
Honolulu, Hawaii 96813
Attention: Brian Isa (586-0484)
Deadline: February 22, 1995

This project is to construct a twelve-classroom building of approximately 13,600 square feet.

This project also includes any site improvements, connections to public utilities and easements that may be required as a result of this project. The total estimated cost of this project is approximately $3,687,000.

WAIKEA HIGH SCHOOL NEW ADMINISTRATION BUILDING

District: South Hilo
TMK: 2-4-01:06, 15 and 114
Agency: Department of Accounting and General Services
1151 Punchbowl Street, Room 430
Honolulu, Hawaii 96813
Attention: Brian Isa (586-0484)
Deadline: February 22, 1995

This project is to construct a new administration building of approximately 6,526 square feet. Also included in this project is the renovation of the existing administration spaces into other uses. This project also includes any site improvements, connections to public utilities and easements that may be required as a result of this project. The total estimated cost of this project is approximately $3,385,000.

WAIKEA HOMESTEADS REQUEST FOR DELETION OF CONDITION NO. 2 OF LAND PATENT GRANT NO. 15,242

District: South Hilo
TMK: 2-4-16:46 (portion)
Agency: Department of Land and Natural Resources
Division of Land Management
P. O. Box 936
Hilo, Hawaii 96721-0936
Attention: Glenn Taguchi (933-4245)
Applicant: WHW Group Limited Partnership
c/o 1031 Kahoa Road
Hilo, Hawaii 96720
Attention: Dr. Harvey Chong (935-2239)
Consultant: Menezes, Tsukazaki, Yeh and Moore, Attorneys at Law
100 Pauahi Street, Suite 204
Hilo, Hawaii 96720
Attention: Thomas Yeh, Esq. (981-0055)
Deadline: March 10, 1995

The applicant is the owner of a 20.44 acre parcel situated at Waimeas Homesteads, 1st Series, South Hilo, Hawaii, being Land Patent 11, 566 and Land Patent 15, 242. LPG 15, 242 consists of an Abandoned Railroad Right of Way containing an area of 17,444 square feet which is traversed by a portion of what is commonly referred to as "Palai Stream." Condition 2 of LPG 15, 242 provides that the patentee and the assigns "shall be responsible for maintaining that portion of Palai Stream which crosses said remnant."

The applicant is in the midst of developing a 61-lot subdivision. In conjunction with that development, the applicant will be constructing a lined concrete channel to contain that portion of Palai Stream which traverses the property. The channel will be constructed in accordance with dedicable standards to the County of Hawaii and dedicated to the County of Hawaii upon completion. As such, the County will have ownership and maintenance responsibility for Palai Stream, including the portion which traverses the railroad right of way.
The applicant has requested that Condition 2 of LPG 15,242 be deleted upon the dedication and acceptance of the channel by the County of Hawaii.

The proposed action is to construct two injection wells at the site of Kauai County’s Wastewater Pump Station (WWPS) ‘A’, each with a proposed maximum discharge capacity of 1,200,000 gallons per day (gpd). This discharge rate would accommodate diurnal and seasonal variations in flow of relatively short duration. The proposed average discharge capacity will be 500,000 gpd, which is the same as the average capacity of the existing Waimea Wastewater Treatment Plant (WWTP). The well head will have valves and appurtenances to allow for backflushing with a portable compressor.

A proposed 12-inch pipe along the existing dirt road between the WWTP and WWPS ‘A’ will convey disinfected secondary effluent from the WWPT, via gravity, to the injection wells. This pipe will be buried at least three feet below grade.

The necessity to construct the injection wells is based on the expiration of an agreement between Kikiaola Land Company, Limited and the County for discharge of effluent from the WWTP into Kikiaola’s irrigation reservoir. The alternative of injection well disposal was selected after an evaluation of several effluent reuse and disposal alternatives.

The property is located at 800 Nuuanau Avenue and is occupied by an existing five-story building containing about 100,000 square feet of floor area and on-grade parking.

The applicant proposes to demolish the existing structure and construct a 21-story office building and five-stories of below-grade parking. It is anticipated that the project will include approximately 280,000 square feet of floor area and 600 below-grade parking stalls. The main portion of the tower will be approximately 250 feet tall and centrally located within the property. Terraced building
forms will be used to relate the proposed structure to surrounding medium-scaled buildings.

Surrounding land uses include residential, commercial and office projects that are both high-rise and mid-rise structures.

The project is within the Chinatown Historic District, which is listed on the National Historic Register.

**ENCHANTED LAKE REHABILITATION OF SEWER LINES PILOT PROJECT**

**District:** Koolaupoko  
**TMK:** 4-2:26, 34, 35, 58, 61, 83, 84  
**Agency:** City and County of Honolulu  
Department of Wastewater Management  
650 South King Street  
Honolulu, Hawaii 96813  
Attention: Stephanie Dodge (527-6865)  
**Deadline:** March 10, 1995

The proposed project will fulfill the mandate of the Consent Decree to conduct a Pilot Study in one or more collection system basins.

The work consists of rehabilitation of existing sewer lines in two basin areas in Enchanted Lake, Kailua. Proposal A Basin, in Lower Enchanted Lake, will include complete rehabilitation of main lines and lower laterals up to the property line. Proposal B Basin, in Upper Enchanted Lake, will include assessment of main lines and lower laterals up to the property line, and rehabilitation of those segments determined to need repair/replacement.

The goal is to determine efficiencies and costs of various rehabilitation methods and the amounts of reduction of infiltration/inflow possible.

**HFM FEED MANUFACTURING PLANT**

**District:** Honolulu  
**TMK:** 1-5-38:05  
**Agency:** Department of Transportation, Harbors Division  
78 South Nimitz Highway  
Honolulu, Hawaii 96813  
Attention: Derrick Lining (587-1942)  
**Applicant:** Kerr Pacific Corporation dba HFM  
P. O. Box 855  
Honolulu, Hawaii 96808  
**Consultant:** Wilson Okamoto and Associates, Inc.  
1970 South Beretania Street, Suite 400  
Honolulu, Hawaii 96826  
Attention: Brian Moon (946-2277)  
**Deadline:** March 10, 1995

HFM proposes to construct a new feed mill to manufacture animal and poultry feeds. The mill will process grains and other ingredients and combine them with milkrun, a by-product from their adjacent flour mill, to produce these feeds. The height of the proposed building will be 115 feet high, making it 45 feet shorter than the existing grain elevator. The proposed structure will nestle against the existing silos, reducing the visual mass of the building. Moreover, it will be built on top of the existing warehouse, keeping the existing structure's footprint.

**IROQUOIS POINT ELEMENTARY SCHOOL LIBRARY EXPANSION/RENOVATION**

**District:** Ewa  
**TMK:** 9-1-01:3  
**Agency:** Department of Accounting and General Services  
1151 Punchbowl Street, Room 430  
Honolulu, Hawaii 96813  
Attention: Ralph Morita (586-0486)  
**Deadline:** February 22, 1995

This project is to construct the expansion and renovation of the existing library to meet DOE education specifications. The size of the existing library is 2,785 square feet and the required expansion is approximately 2,995 square feet and also included in this project are any site improvements, connections to public utilities and easements that may be required as a result of this project.

**KALEIOPUU ELEMENTARY SCHOOL NEW ADMINISTRATION/LIBRARY BUILDING**

**District:** Ewa  
**TMK:** 9-4-02:16  
**Agency:** Department of Accounting and General Services  
1151 Punchbowl Street, Room 430  
Honolulu, Hawaii 96813  
Attention: Ralph Morita (586-0486)  
**Deadline:** February 22, 1995

This project is to construct a new administration/library building of approximately 5,760 square feet. Also included in this project is the renovation of the existing administration/library spaces into classrooms. This project also includes any site improvements, connections to public utilities and easements that may be required as a result of this project. The total estimated cost of this project is approximately $3,640,000.

**KAMAILE ELEMENTARY SCHOOL NEW ADMINISTRATION/LIBRARY BUILDING(S)**

**Agency:** Department of Accounting and General Services  
1151 Punchbowl Street, Room 430  
Honolulu, Hawaii 96813  
Attention: Ralph Morita (586-0486)  
**Deadline:** February 22, 1995

This project is to construct a new administration/library building(s) of approximately 5,760 square feet. Also included in this project is the renovation of the existing administration/library spaces into classrooms. This project also includes any site improvement, connections to public utilities and easements that may be required.
as a result of this project. The total estimated cost of this project is approximately $3,640,000.

KAMEHAMEHA HIGHWAY DRAINAGE IMPROVEMENTS

District: Koolaupoko
TMK: 5-5-01, 02, 05, 13, 14, and 16
Agency: Department of Transportation, Highways Division
889 Punchbowl Street
Honolulu, Hawaii 96813
Attention: Ross Hironaka (587-2260)
Deadline: March 10, 1995

The State of Hawaii Department of Transportation is proposing to improve drainage at Kamehameha Highway in Sunset Beach fronting Sunset Beach Elementary School, Paumalu Bridge area and Hoalua Street area.

Proposed improvements include lined gutter along the existing Kamehameha Highway paved shoulder edge with grated drop inlet and pipe conduit to drain into Pakulena Gulch, Paumalu Gulch and existing drain system at Kahauola and Hoalua Streets.

Lined gutter slope and grated drop inlet to be used are designed for pedestrian and bicycle traffic.

Additional right of way is not required.

KANOELE ELEMENTARY SCHOOL NEW ADMINISTRATION/LIBRARY BUILDING

District: Ewa
TMK: 9-4-115:por. 2
Agency: Department of Accounting and General Services
1151 Punchbowl Street, Room 430
Honolulu, Hawaii 96813
Attention: Ralph Morita (586-0486)
Deadline: February 22, 1995

This project is to construct a new library building of approximately 11,955 square feet. Also included in this project is the renovation of the existing library spaces into classrooms. This project also includes any site improvements, connections to public utilities and easements that may be required as a result of this project. The total estimated cost of this project is approximately $3,050,000.

KEOE WAY SEAWALLS

District: Koolaupoko
TMK: 4-6-03:06 and 87
Agency: City and County of Hawaii, Department of Land Utilization
650 South King Street
Honolulu, Hawaii 96813
Attention: Joan Takane (527-5038)
Applicant: Dr. Dewey Tom and James Fujinaka

Consultant: R. M. Towill Corporation
420 Waiakamilo Road, Suite 411
Honolulu, Hawaii 96817-4841
Attention: Brian Takade (842-1133)
Deadline: March 10, 1995

The applicants propose to construct on each of two abutting properties along Kaeohe Bay (46-082 and 46-083 Kaeo Way), a seawall mauka of the shoreline and within the 40-foot shoreline setback. The proposed concrete rubble masonry (CRM) walls will be approximately 2 feet wide, 4 feet high and span a total of 190 linear feet. The purpose of the proposed seawall is to protect the residential properties from shoreline erosion. The applicants seek a shoreline setback variance to permit the seawall construction.

All other shoreline properties in the surrounding area are currently protected by seawalls. The Alii Shores Yacht Club is located immediately to the west of the project site.

LEILEHUA HIGH SCHOOL NEW LIBRARY BUILDING

District: Wahiawa
TMK: 7-4-18:1
Agency: Department of Accounting and General Services
1151 Punchbowl Street, Room 430
Honolulu, Hawaii 96813
Attention: Ralph Morita (586-0486)
Deadline: February 22, 1995

This project is to construct a new library building of approximately 11,955 square feet. Also included in this project is the renovation of the existing library spaces into other uses. This project also includes any site improvements, connections to public utilities and easements that may be required as a result of this project. The total estimated cost of this project is approximately $3,050,000.

ROYAL GARDEN HOTEL EXPANSION

District: Honolulu
TMK: 2-6-16:39, 53, 55-57, and por. of 58-60
Agency: City and County of Honolulu, Department of Land Utilization
650 South King Street
Honolulu, Hawaii 96813
Attention: Joan Takano (527-5038)
Applicant: Nichiei USA, Inc.
c/o Royal Garden Hotel
440 Olohana Street
Honolulu, Hawaii 96815
Consultant: Kusao and Kurahashi, Inc.
210 Ward Avenue, Suite 124
Honolulu, Hawaii 96814
Attention: Keith Kurahashi (538-6652)
Deadline: February 22, 1995

The applicant proposes to consolidate or jointly develop the existing Royal Garden Hotel lots with three abutting parcels and a 20-foot
wide strip from portions of three other adjacent parcels. One of the parcels is currently developed with an apartment building.

The hotel is a nonconforming use within the Apartment Precinct of the Waikiki Special District. The proposed expansion of the hotel will include the following: Expansion of existing dining areas, a new bar and kitchen, new dining areas, new restrooms, a new laundry collection area and a new storage area.

The proposal will exceed the allowable density, encroach into the height setbacks and increase nonconformity of the existing hotel. The applicant is seeking a zoning variance to permit the expansion.

The project will result in a net increase in floor area of 8,810 square feet. However, for the combined eight lots, it will effectively increase open space (to 55% of the lot area) and bring the hotel into compliance with open space requirements. A portion of the required parking will be provided by existing spaces within the hotel. The remainder of required parking stalls will be provided off-site and within 400 feet of the main entrance to the hotel. The applicant will apply for a Conditional Use Permit, Type 1 for the off-site parking, should the zoning variance request be approved.

UNIVERSITY OF HAWAII AGRICULTURAL SCIENCE FACILITIES, PHASE III

District: Honolulu
TMK: 2-8-23:03
Agency: Department of Accounting and General Services
1151 Punchbowl Street, Room 427
Honolulu, Hawaii 96813
Attention: Mike Miura (586-0719)
Consultant: Design Lab
47-233 Kamehameha Highway
Kaneohe, Hawaii 96744
Attention: Rose Churma (239-6366)
Deadline: March 10, 1995

This project is to construct a five-story building with laboratory areas surrounded by offices and support spaces. The project site is southeast of the Biomedical Sciences Building and northeast of the Auxiliary Building within the Manoa Campus of the University of Hawaii.

The site is presently occupied by five portable buildings used as faculty offices by various departments. The portables will be removed and demolished and occupants will be relocated into other buildings on the campus.

The Agricultural Science Facilities, Phase III, will house under one roof, four departments and related programs of the College of Tropical Agriculture and Human Resources (CTAHR) which are concurrently located in various facilities within the Manoa campus.

The building footprint will be 138 feet by 160 feet and the construction cost including site improvements and utility connections is estimated at $26.3 million.

The location of this project is consistent with the University’s Long Range Development Plan (LRDP) and the City and County of Honolulu approved PRU as amended by Resolution 92-286, CD-1, FD-1, on March 6, 1993.

Long term environmental impacts resulting from the project are minimal and will not, therefore, require the preparation of an environmental impact statement.

WAIALUA HIGH SCHOOL CAFETERIUM EXPANSION/RENOVATION

District: Waialua
TMK: 6-07-02:9 and 10
Agency: Department of Accounting and General Services
1151 Punchbowl Street, Room 430
Honolulu, Hawaii 96813
Attention: Ralph Morita (586-0486)
Deadline: February 22, 1995

This project is to construct the expansion and renovation of the cafeteria/multi-purpose dining room and kitchen. The existing cafeteria is 5,250 square feet and the required expansion is approximately 5,466 square feet. Also included in this project are any site improvements, connections to public utilities and easements that may be required as a result of this project. The estimated cost for this project is approximately $2,228,000.

WHEELER ELEMENTARY SCHOOL ADMINISTRATION/LIBRARY EXPANSION AND RENOVATION

District: Wahiawa
TMK: 7-7-01:por of 2
Agency: Department of Accounting and General Services
1151 Punchbowl Street, Room 430
Honolulu, Hawaii 96813
Attention: Ralph Morita (586-0486)
Deadline: February 22, 1995

This project is to construct the expansion and renovation of the administration/library building. The size of the existing administration/library is 4,528 square feet and the required expansion is approximately 10,411 square feet. Also included in this project are any site improvements, connections to public utilities and easements that might be required as a result of this project. The estimated cost of this project is $1,800,000.

WILUWILINUI RIDGE PUBLIC ACCESS TRAIL

District: Honolulu
TMK: 3-5-24:por. 3
Agency: Department of Land and Natural Resources
Office of Conservation and Environmental Affairs
1151 Punchbowl Street, Room 325
Honolulu, Hawaii 96813
Attention: Sam Lemmo (587-0377)
Applicant: Gentry Waialae Iki V Partners
P. O. Box 295
Honolulu, Hawaii 96809-0295
Attention: Tosh Hosoda (598-8300)
**NEGATIVE DECLARATIONS**

The following actions were previously published as Draft EAs and have been determined by the listed agency to have no significant impacts. As a consequence, Environmental Impact Statements are not required of these projects. Aggrieved parties who wish to contest the agency's determination have a 30-day period, from this publication date, in which to initiate litigation. Any questions regarding the following project(s) should be directed to the listed contacts.

The National Tropical Botanical Garden is applying for a Conservation District Use Permit which will allow them to preserve the artisic landscaping of the Allerton Gardens as it was created by the Allertons over the last 50 years, and to continue to use the Allerton Gardens as an educational resource for its visitors and a research area for its scientists as it has since the NTBG broke ground in 1970. Additionally, the applicants are requesting the use of existing roads within the Allerton Gardens to create a new visitor-access route into the NTBG and Allerton Gardens. These existing roads, one of which was used as the Allerton's driveway and the other, formerly used by McBryde Plantation to haul sugarcane on narrow-gauge train track, will not need to be widened or improved and will connect the NTBG and Allerton Gardens with a new visitors center that will be built on land owned by Alexander and Baldwin just east of the Allerton Gardens and outside of the Conservation District.

The Neal Blaisdell Park in Pearl City is the site of a former military drum storage facility. The only remaining structures known to exist are an oil sludge burning pit and remnants of an oil water separator. The U.S. Army Corps of Engineers proposes to demolish and remove the structures and clean and restore the site. This action will remove a potential safety hazard to park users.

and
Department of Land and Natural Resources
Aquaculture Development Program
Contact: John Corbin (587-0030)

This is an application for a Master Conservation District Use Permit to cover twelve State-owned fishponds on Molokai. Its purpose is to expedite the historically accurate restoration of Hawaiian fishponds by community groups for traditional ohana-based management. The cultural, natural and historic value of these fishponds has progressively lost as a result of structural damage to the fishpond walls by recent and historic tsunami and storm waves, regulatory obstacles, and general neglect. Restoration in an environmentally friendly, culturally sensitive manner will reverse the gradual loss of the ancient Hawaiian fishponds on Molokai.

The twelve ponds that are included in this application have been selected based on a number of criteria. It is anticipated that the Master Permit will be amended in the future to include additional ponds on Molokai and other islands that meet these criteria.

Repair and reconstruction will involve: 1) the physical movement, alignment and retrieval of wall foundation boulders from within the pond basin; 2) the manual movement, manipulation and temporary stockpiling of smaller stones, cobbles, and 'ili'ili within the ponds; and 3) the reconstruction of the walls using existing onsite rock, and where necessary, use of off-site rock possibly delivered and manipulated with mechanized equipment.
The PEACESAT Program of University of Hawaii is proposing minor modifications to the existing 10m telecommunication antenna located approximately 20° North of the Hawaii Public Broadcasting Authority (HPBA) building. The minor modifications include rotating the antenna 90 degrees West and changing the electronics to enable transmission and reception in "S," "L" and "C" band frequencies.

The realignment of the antenna will use two of the three existing legs of the cement base, with a third leg to be built. A shrub tree will be replanted directly East of the antenna to provide a clear line of site to the GOES satellite and provide visual screening of the dish from University Avenue. The UH Laboratory School and HPBA’s entrances will be preserved.

In addition to the rotation, the electronics modification will enable transmission as well as reception capabilities in the "S" and "L" meteorological frequencies (TX 2025 to 2033 MHz/RX 1685 to 1595 MHz) and "C" band frequencies in (TX/RX 5.9 Gzh to 6.4 Gzh). Based on the IEEE C95.1-1991 standard, the calculated radiation emission in the mainbeam of the antenna is "permissible for continuous exposure.”

The modifications will enable the PEACESAT Program to conduct ongoing experiments through the use of the GOES satellite(s) (175 degrees West, plus or minus 20 degrees) and to provide public service telecommunications (education, research, telemedicine, emergency management, community services, and economic development) to 22 countries in the Pacific. The modifications are funded through an agreement between the UH and the National Telecommunications and Information Administration of the U.S. Department of Commerce.

**WAIPAHI SCHOOL EIGHT-CLASSROOM BUILDING**

**District:** Ewa  
**TMK:** 9-4-01-29, 30  
**Agency:** Department of Accounting and General Services  
**Contact:** Gordon Matsuoka (686-0626)  
**Consultant:** R. M. Towill Corporation  
**Contact:** Chester Koga (842-1133)

The State of Hawaii, Department of Accounting and General Services proposes to build a new eight-classroom building at the Waipa School Intermediate School. The new building will be a general purpose classroom building. There will be six general purpose classrooms and one each, special education and science classrooms. The building will be two story, CMU type structure and will have a typical architectural concrete finish with standing seam metal roofing. The classroom will have a total actual area of 8,220 square feet, with the total combined area of the building being 16,108 square feet. The construction of new walkways will also be a part of the project.

---

**DRAFT ENVIRONMENTAL IMPACT STATEMENTS**

A forty-five day review period commences with the initial publication of these projects in the bulletin (see listed deadline dates). EIS's listed in this section are available for review at the following repositories:

- Office of Environmental Quality Control
- Legislative Reference Bureau
- Municipal Reference and Records Center (Oahu EIS's)
- University of Hawaii Hamilton Library
- Hawaii State Library (Main Branch)
- Keimuki Regional Library
- Kaneohe Regional Library
- Pearl City Regional Library
- Hilo Regional Library
- Kahului Regional Library
- Lihue Regional Library
- Branch library in closest proximity to the project

Please send the original copy of your comments to the accepting authority and duplicate copies of the comments to the applicant or proposing agency, consultant and OEQC.

**KAULUI**

**KAULUI ACOUSTIC THERMOMETRY OF OCEAN CLIMATE**

**District:** Offshore  
**Accepting Authority:** Department of Land and Natural Resources  
P. O. Box 621  
Honolulu, Hawaii 96809  
Attention: Roy Schaefer (687-0377)

**Applicant:** University of California, San Diego  
Scripps Institution of Oceanography  
9500 Gilman Drive  
La Jolla, California 92037-0225  
Attention: Andrew Forbes (619-534-2367)

**Deadline:** March 9, 1995

The Keau Acoustic Thermometry of Ocean Climate (ATOC) project is proposed as a proof-of-concept study to measure long-term ocean climate changes using acoustic sound paths in the deep sea as means of precise synoptic temperature data collection. Data collected would help answer the question of the Earth's "greenhouse effect" and the potential for global climate changes (particularly global warming), with the goal of proving the acoustic thermometry concept for future global ocean climate monitoring programs.

The proposed Kauai facilities include an acoustic source to be located about 8 nautical miles offshore at an approximate depth of 3000 feet. The sound source would transmit digitally coded sound, with a center frequency of 75 Hz and a bandwidth of approx 35 Hz. This source would be powered by a cable connected...
signal generator and power amplifier in an existing building at
Parking Sands.

The project is also funding an extensive Marine Mammal Research
Program (MMRP) to study the effect of long-term underwater low
frequency acoustic transmissions on marine animals. Available
information from the limited research carried out to date on the
potential effect of low frequency sound on marine animals, either
indicate minimal impact should be expected from the proposed
sound transmissions or that the measured data are so sparse that
the possible effect must be stated as uncertain. Project operations
dedicated to climate-based studies will be preceded by an
approximate 5-10 month MMRP Pilot Study, which will allow
marine biologists to utilize the source for research studies into the
potential effects of low frequency sound on marine animals.
Acoustic thermometry transmissions would only begin if the system
is determined to be safe for marine animals.

OAHU

EAST KAPOLEI PROJECT

District: Ewa
TMK: 9-1-17: por. 04

Accepting Authority:
City and County of Honolulu
Planning Department
650 South King Street
Honolulu, Hawaii 96813
Attention: Brian Suzuki (527-6073)

Proposing Agency:
Schuler Homes, Inc.
Fort Street Mall, 4th Floor
Honolulu, Hawaii 96813
Attention: Michael Angotti (521-5661)

Consultant:
Helber Hastert & Fee, Planners
733 Bishop Street, Suite 2590
Honolulu, Hawaii 96813
Attention: Leslie Kurisaki (545-2055)
Deadline: March 9, 1995

The applicant, Schuler Homes, Inc., is seeking an amendment to
the City and County of Honolulu’s Development Plan Land Use Map
for Ewa for the proposed East Kapolei project. The amendment
request is proposing to redesignate approximately 1,104 acres from
Agriculture to Low Density Apartment, Parks and Recreation, Public
and Quasi-Public and Commercial. In addition, proposed text
changes to the Ewa Development Plan Special Provisions are being
requested.

The proposed site is located in the Ewa-Kapolei area and is
surrounded by Farrington Highway to the north, cultivated
agricultural lands to the east, the Ewa Villages residential area to
the south, and by the approximate alignment of the proposed
North-South Roadway and proposed University of Hawaii West
Oahu campus to the west.

The proposed project will consist of approximately 10,000
residential units to be developed over a 15-year period in two
phases. Phase 1 will be developed by a joint venture of Schuler
Homes, Inc. and Hawaiian Trust Company, Ltd., and will
commence in 1997. Phase 2 will be developed by Schuler Homes,
Inc. Approximately 30 percent of the new homes will be affordable
to families earning below 120 percent of median income; with 60
percent of the homes affordable to families earning below 140
percent of median income.

The preliminary concept plan also includes two eight-acre
elementary school sites, two ten-acre neighborhood parks, a 25-
acre district park and three commercial shopping areas.

HAWAII CONVENTION CENTER

District: Honolulu
TMK: 2-3-35: 01

Accepting Authority:
Governor, State of Hawaii
c/o Office of Environmental Quality Control
220 South King Street, Suite 400
Honolulu, Hawaii 96813

Proposing Agency:
Convention Center Authority
841 Bishop Street, Suite 2222
Honolulu, Hawaii 96813
Attention: Alan Hayashi (586-2340)

Consultant:
Wilson Okamoto and Associates, Inc.
1907 South Beretania Street, Suite 400
Honolulu, Hawaii 96826
Attention: Earl Matsukawa
Deadline: March 25, 1995

The State of Hawaii Convention Center Authority ("Authority") has
selected Nordic/PCL to complete the design and construction of a
"world-class" convention center facility on a 9.66-acre site located
on the former Aloha Motors property, at 1777 Kapiolani Boulevard,
Honolulu, adjacent to the intersection of Kapiolani Boulevard and
Kalakaua Avenue. It is also bounded by Atkinson Drive to the
northwest, Kahakai Drive to the west, and the Ala Wai Canal to the
south.

The convention center is to be a four level, stand-alone facility,
without additional private development on-site. The facility's gross
building area will be approximately 1,105,570 square feet,
including 200,000 gross square feet of exhibit space on a single
level, meeting room space of 100,000 square feet, and multi-
purpose ballroom area of 35,000 square feet. Approximately 800
parking spaces will be provided on-site. Future expansion space
will be accommodated in the design for an additional 100,000
square feet of exhibit hall and 50,000 square feet for meeting
rooms. The facility will feature many open-air gathering areas,
abundant landscaping, design themes and artwork establishing a
unique "Hawaiian Sense of Place."

In addition to the convention center facility, the proposed project
will include road widening to mitigate traffic concerns and
installation of a new sewer line to accommodate increased wastewater flows.

Although all known hazardous materials have previously been
removed from the site, Nordic/PCL will prepare a contingency plan
complying with all State and federal regulations to be implemented.
in the event that unanticipated hazardous materials are encountered during construction.

Short-term impacts associated with construction of the project include those on air quality, noise, water quality, and botanical resources. Long-term impacts associated with construction of the project include those on traffic, utilities, socio-economy, scenic views, noise and air quality.

**FINAL ENVIRONMENTAL IMPACT STATEMENTS**

This section provides notice of EISs that have been submitted for acceptance. All substantive comments received by the applicant or proposing agency, and corresponding responses, should be contained within the Final EIS. This section also provides notice of acceptance determinations. Aggrieved parties who wish to contest the acceptance of an EIS have a sixty-day period in which to initiate litigation. The sixty-day litigation period starts from the date of publication of the notice of acceptance in the OEQC Bulletin.

**HAWAII**

**HOOKENA ELEMENTARY SCHOOL EXPANSION**

**District:** South Kona  
**TMK:** 8-6-10:09 and 12 and 8-6-11:por. 2  
**Accepting Authority:** Governor, State of Hawaii  
**Proposing Agency:** Department of Accounting and General Services  
**Consultant:** Gima, Yoshimori, Miyahara, Deguchi Architects, Inc.  
**Contact:** Benjamin Woo (955-3009)  
**Status:** Currently being reviewed by the Office of Environmental Quality Control.

The Department of Accounting and General Services is proposing to expand the existing 4.033 acre Hookena Elementary School site to approximately 9 acres and improve existing facilities to meet the projected increases in the student population. Currently, Hookena Elementary School has 4 substandard permanent classrooms, 10 portable classrooms, and substandard open play area, library, cafeteria and administration building, in order to accommodate the projected 310 students for Grades K-5 by the year 2010, 18 permanent and 4 portable classrooms will be needed, along with upgraded library, cafeteria, administration and open play area facilities. With the additional land, a master plan will be developed for the school.

The site selection study addresses the reason for expanding the Hookena Elementary School site, the project objectives, the broadscale analysis used to identify the three suitable sites for expansion, and the detailed evaluation of each potential site. Because Mamalahoa Highway forms the east boundary, the three sites are located north, south and west of the school's property.

The three sites are vacant but still used by McCandless Ranch for grazing. Archaeological surveys were conducted to determine the location of historical and cultural significant sites.

**KONA CIVIC CENTER**

**District:** North Kona  
**TMK:** 7-4-08:12 (Lot 1 and 2), 7-4-08:3 and 7-3-09:5  
**Accepting Authority:** Governor, State of Hawaii  
**Proposing Agency:** Department of Accounting and General Services  
**Contact:** Ralph Yumamoto (586-0488)  
**Consultant:** Design, Planning and Development, Inc.  
**Contact:** Louis Fung (955-6088)  
**Status:** Currently being reviewed by the Office of Environmental Quality Control.

The Department of Accounting and General Services (DAGS) proposes to locate a new civic center in the North Kona District. Establishment of the civic center will facilitate public business with state government agencies by consolidating them in one civic center.

The proposed civic center will be located on an approximately 30 acre site and is planned to include a Judiciary complex, State Office building, correctional facility, senior center, and a library. A moderate extension of necessary water, sewer, power and roadway facilities will be required for the development. Some potential impacts to existing fauna, flora and archaeological sites as well as a contribution to an increase of population and employment opportunities may be anticipated.

Based on established criteria, the following five candidate sites have been selected for consideration:

**Site 1** - Keahualo Site-Palani Road (TMK 7-4-08:012 Lot 1) is located near the intersection of Palani Road and Queen Kaahumanu Highway.

**Site 2** - Keahualo Site-Adjacent to the proposed Queen Liluokokelani Blvd. (TMK 7-4-08:012 Lot 2) is located south of the Kealakehe Police Station.

**Site 3** - Keahualo Site-Adjacent to the Kealakehe Police Station (TMK 7-4-08:012 Lot 2) is located adjacent to the Kealakehe Police Station and Kaiau Landfill.

**Site 4** - Honokohau Harbor Site (TMK 7-4-08:003) is located at the intersection of Queen Kaahumanu Highway and Kealakeke Drive adjacent to the new sewage treatment plant.

**Site 5** - Ooma Site (TMK 7-9-09:005) is located south of the existing State Keahole Agricultural Park on Queen Kaahumanu Highway.
KAUAI

LIHUE-HANAMAULU MASTER PLAN

District: Lihue
TMK: 3-6-2:pors. 1, 4 & 20; 3-6-2:17; 3-7-1:pors.1; 3-7-2:pors.1 and 12; and 3-7-3:pors. 20

Approving Agency: Land Use Commission
Contact: Esther Ueda (597-3622)
Applicant: AmFac/JMB Hawai‘i, Inc.
Contact: Timothy Johns (543-8900)
Consultant: PBR Hawai‘i
Contact: Yukie Ohashi (621-6631)
Status: Currently being reviewed by the Land Use Commission.

The Petitioner requests that the Land Use Commission amend the present classification of the Petition Area from Agricultural and Conservation to Urban District use. The reclassification is being sought for approximately 555 acres to allow development pursuant to a conceptual master plan currently under preparation by AmFac/JMB Hawai‘i, Inc. The Agricultural District lands, representing 97.5 percent of the proposed reclassification area was also recommended by the State of Hawai‘i Office of State Planning in its Land Use District Boundary Review prepared in 1992.

The Petition Area will include a 1,400 to 1,800 single- and multifamily residential units; industrial and public/quasi public facility uses, open space, village mixed-use districts that provide for a mix of retail, commercial, office and residential uses, and parks and a pool, if necessary. The County of Kaua‘i’s ("County") planned five (5) acre Lihue Debris-Recycling Station and the University of Hawai‘i’s approximately four (4) acre Tropical Fruit Disinfection Facility are included within the Project. The Conceptual Master Plan also includes provisions for a YMCA/Teen Center, Judiciary Building, Veterans’ Center and Police Headquarters.

Based on the required General Plan Amendment, State Land Use Boundary Amendment and County Change of Zone approvals, construction is not anticipated to commence until 1997 and completed over a fifteen (15) to twenty (20) year period. The major infrastructure for the Project should be completed within the first five (5) to ten (10) years of development after the Petitioner receives all applicable land use entitlements and permits. Construction of the Project will be phased according to market demand.

OAHU

BARBERS POINT HARBOR BASIN EXPANSION AND TUG PIER, AND FUTURE PIER AND STORAGE YARD IMPROVEMENTS

District: Ewa
TMK: Portions of 9-1-14:02 and 9-1-14:24
Accepting Authority: Governor, State of Hawaii
c/o Office of Environmental Quality Control
Proposing Agency: Department of Transportation, Harbors Division
Contact: Marshall Ando (887-1959)
Consultant: Parsons Brinckerhoff Quade and Douglas, Inc.
Contact: David Atkin (531-7094)
Status: Currently being reviewed by the Office of Environmental Quality Control

The State Department of Transportation, Harbors Division, proposes to expand and improve the existing Barbers Point Harbor, which is located in Ewa, where rapid urbanization has started and is expected to continue. Without the expansion and improvements, the harbor would not meet the shipping industry’s projected needs. The harbor improvements are proposed to occur on a 140.5-acre area northeast of the existing harbor and at the south corner of the existing basin.

MAUI

LAHAINA NEW PUBLIC LIBRARY

District: Lahaina
TMK: 4-6-21:03; 4-6-01:07; 4-6-01:10; 4-6-07:01; 4-6-12:05; 4-6-13:01
Accepting Authority: Governor, State of Hawaii
c/o Office of Environmental Quality Control
Proposing Agency: Department of Accounting and General Services
Contact: Allen Yamanoha (586-0483)
The proposed action addressed in the Final Supplemental Environmental Impact Statement (FSEIS) consists of:

(a) extension of the harbor basin by approximately 1,100 by 1,100 feet along the northeast margin (Expansion Area A);
(b) removal of a triangular area of land measuring approximately 230 by 280 feet in the southern corner of the present basin (Expansion Area B);
(c) construction and operation of a tugboat pier;
(d) construction and operation of three additional piers for general cargo ships that would border Expansion Area A;
(e) construction of an approximately 300-foot extension of existing Pier B;
(f) construction and operation of storage yards and other support facilitates adjacent to the new piers at Expansion Area A; and
(g) acquisition by the State of the land necessary for the proposed action from The Estate of James Campbell, and reclassification of the State land use designation from "Agricultural" to "Urban".

Blasting with mechanical excavation, hydraulic dredging, and mechanical excavation without blasting are the three construction methods most likely to be proposed by contractors bidding on the basin expansion portion of the work. All three of these construction options are addressed in the Final SEIS.

About 2.3 million cubic yards of coral limestone rock would be removed from Expansion Areas A and B. The material would be stockpiled for reuse at upland sites. The Final SEIS addresses the potential impacts of four stockpile sites located near the harbor. In various combinations, these four sites would have sufficient capacity to accommodate all of the material. Contractors could propose to remove some or all of the material to other sites. Potential impacts of other sites are not addressed in the Final SEIS.

Concerns appear to be focused on possible water quality impacts and the impacts of noise and vibration associated with blasting. The Final SEIS summarizes the many technical studies that have been performed to assess these and other impacts, such as cisterns and groundwater, and with the mitigation programs proposed for implementation, it is concluded that the project's level of impact would be small.

**District:** Wai'anae  
**TMK:** 8-7-8:por. 2 and 5; 8-7-33:11 and 12; 8-9-2:por. 1; 8-7-9:por. 11, 66, 76

**Accepting Authority:** Governor, State of Hawaii  
**Proposing Agency:** Department of Accounting and General Services  
**Contact:** Ralph Morita (586-0485)  
**Consultant:** DHM Inc.  
**Status:** Currently being reviewed by the Office of Environmental Quality Control

The Hawaii State Public Library System (HSPLS) proposes to construct a new library in the Maili-Nanakuli area to serve the Maili and Nanakuli communities on the island of Oahu. This identifies and evaluates the alternative sites for the proposed library. The proposed 15,000 square feet facility would provide a permanent library to serve the current and projected population.

Based on criteria established by the HSPLS and DAGS, the site selection study identified five candidate sites within the service area. Site A (Site 1 of the EIS Preparation Notice) is located at the corner of Farrington Highway and Kaauka Road and is State-owned land. Site B (Sites 2 and 3 of the EIS Preparation Notice) is on private property, located on Farrington Highway just west of Uleahua Channel. The two former sites were combined due to a change in the land area needed for the library. Sites C and D (Sites 4 and 5, respectively, of the EIS Preparation Notice) are also along Farrington Highway, across from Nanakapono Elementary School. Sites C and D are on State-owned land known as the former Camp Andrews property. Site E has been added during preparation of the draft EIS as a result of public input. Site E is privately-owned, commercial property located just Ewa of the Pacific Shopping Center, along Farrington Highway.

Since publication of the draft EIS, 15 acres of the 30-acre former Camp Andrews property were transferred to the Department of Hawaiian Home Lands (DHH) on October 28, 1994 as part of the Governor's plan to restore the Hawaiian Home Lands Trust to the number of acres intended by Congress in 1921. In view of the need for public facilities in the Nanakuli community, the remaining 15 acres were reserved for public uses. DLNR has included the need for a 2.3-acre library site on the property in the event Site C or D is selected. Selection of the 15 acres for public uses was done before the remaining 15 acres are transferred to DHH.

Potential adverse impacts would occur if Site C or Site E was selected since development of these sites would involve the displacement of residents and businesses. Although the disruption cannot be mitigated, any displaced family or business would receive financial relocation assistance in accordance with State law.

**WAIIKIKI WAR MEMORIAL PARK AND NATATORIUM**

**District:** Honolulu  
**TMK:** 3-1-31:3

**Accepting Authority:** Governor, State of Hawaii  
**Proposing Agency:** Department of Land and Natural Resources  
**Contact:** Edward Lau (857-0227)  
**Consultant:** Leo A. Daly  
**Contact:** Edward Pekowski (521-8889)  
**Status:** Currently being reviewed by the Office of Environmental Quality Control

The State of Hawaii, Department of Land and Natural Resources is proposing to completely restore the Waikiki War Memorial Park and Natatorium, located in the Diamond Head Special District, Kapolani Park, City and County of Honolulu. Federal, State and City and County agencies, legislators, and special interest groups and
individuals have all contributed valuable input to the restoration design.

A restoration criteria for the pool is to retain the existing configuration of the Natatorium while providing for an active circulation of ocean water throughout the pool. The design concept involves no major physical change in the Natatorium configuration above mean sea level except that the original diving tower and reflecting pools will not be restored. It calls for the construction of openings in the existing seawall along the Ewa wall and the Diamond Head Makai corner. These openings will be designed so as to ensure an unrestricted flow of the natural coastal water through the pool. Openings will be designed to provide protection from storm waves and sand transport. The pool bottom will be relined with light colored medium sized sand.

The existing pool deck and portions of the seawall that are above the top of the existing pool deck will be removed and reconstructed. A code-required security fence will be added to the pool deck perimeter on the land sides to secure the pool facility. The existing bleachers will be removed and reconstructed. The interior areas under the bleachers will be reconstructed creating offices, storage, showers and changing rooms, and a new comfort station to service Sans Souci Beach. The Memorial Arch and arcade walls will be restored.

All utilities will be updated to conform to current standards and codes.

The existing vehicle and pedestrian circulation will be maintained and brought up to current standards and codes. The existing landscaping on the Mauka areas will be maintained and new landscaping added around the entrance driveway. The existing irrigation system will be replaced with an automatic system.

The facility will be made accessible to the handicapped. Accessible routes and facilities including appropriate signage will be provided.

While the accomplished planning and design of the fully restored Waikiki War Memorial and Natatorium provides general parameters for the operation of the facility, the City and County of Honolulu will determine the specifics of its operation and use.

NOTICES

The following notices are not under the authority of Chapter 343, Hawaii Revised Statutes and the Office is publishing such notices to direct the attention of interested persons to environmental issues.

NATIONAL ENVIRONMENTAL POLICY ACT (NEPA) DOCUMENTS

The following are notices of availability of NEPA-related environmental documents. Questions associated with these documents should be directed to the listed contact person.
Interested persons may obtain a copy by calling 586-4185 (from the neighbor islands 1-800-468-4644 ext. 64185) or by writing to:

Office of Environmental Quality Control
220 South King Street, Suite 400
Honolulu, Hawaii 96813

KENNETH K. FUKUNAGA, Chairperson
Environmental Council

PUBLIC NOTICE: ENVIRONMENTAL COUNCIL MAILING LIST

To further increase public involvement and to implement the provisions of Section 92-7(c), Hawaii Revised Statutes, the Environmental Council requests that persons interested in receiving notification of its meetings call 586-4185 to be placed on a meeting notification mailing list. Requests to be placed on the mailing list may also be sent to:

Environmental Council, State of Hawaii
220 South King Street, Suite 400
Honolulu, Hawaii 96813

KENNETH K. FUKUNAGA, Chairperson
Environmental Council

CORRECTION

HAAHEO ELEMENTARY SCHOOL LAND ACQUISITION FOR A NEW PARKING AREA

The Department of Accounting and General Services (DAGS) has issued a correction notice for the negative declaration previously published in the January 8, 1994 OEQC Bulletin. The land to be acquired from Mauna Kea Agribusiness Company, Inc. is correctly identified as TMK 3rd Division 2-6-13:por, 7.

If you have any question, please contact Mr. Brian Ise of the Planning Branch DAGS at 586-0484.

OTHER NOTICES

GUIDELINES FOR PREPARING ENVIRONMENTAL ASSESSMENTS

These guidelines are intended to provide help to the agencies and the public regarding the environmental review process; specifically for the preparation of environmental assessments. The reader is referred to Chapter 343 of the Hawaii Revised Statutes, Chapter 200 of Title 11, Department of Health Administrative Rules, and to Act 241, Session Laws of Hawaii 1982, prior to any document preparation. (References in brackets refer to either Chapter 343, Hawaii Revised Statutes, Act 241, SLH 1982, or Title 11, Chapter 200, Department of Health Administrative Rules.)

For an overview of the EA/EIS Process, see the process flowcharts, included as Figures 1 and 2 in the new Guidebook.

WHAT IS THE PURPOSE OF PREPARING AN ENVIRONMENTAL ASSESSMENT? The purpose of preparing an environmental assessment is to determine if the impacts of a proposed action are significant enough to warrant the preparation of an Environmental Impact Statement (§11-200-2).

WHAT IS AN ENVIRONMENTAL ASSESSMENT? An environmental assessment is a document which is prepared for a proposed action which triggers the Environmental Impact Statement Process. Briefly summarized, the eight triggers that require the preparation of an environmental assessment (§343-5) are:

1. Use of State or County lands or funds
2. Use within Conservation District Lands
3. Use within the Shoreline Setback Area
4. Use within any Historic Site or District
5. Use within the Waikiki Special District
6. Amendments to a County General Plan (except for those initiated by the County)
7. Reclassification of Conservation Lands
8. Construction or modification of helicopter facilities

IS THERE A NEED TO CONSULT WITH OTHERS EARLY IN THE PROCESS? Yes. During the preparation of an environmental assessment, the procedures listed in §11-200-9. Early Assessment, must be followed. Historically, one of the steps frequently overlooked has been §11-200-9 (a)(4). This section requires consultation with agencies having jurisdiction or expertise as well as consultation with citizen groups and individuals.

CAN ACTIONS OR PROJECTS BE SEGMENTED? No. A proposed action must be described in its entirety; therefore, projects should not be done on an incremental basis to avoid the preparation of an environmental impact statement (§343-6(a)(2), §11-200-7).

WHAT HAPPENS IF AN ACTION IS SUBJECT TO MORE THAN ONE TRIGGER TO THE EIS PROCESS? If an action is subject to more than one trigger to the EIS process, all applicable approving agencies are encouraged to be involved in the preparation of the environmental assessment and determination as to whether an environmental impact statement is required for the action. Otherwise, the action would be subject to separate environmental assessment processes (including separate 30-day review periods for anticipated negative declarations) and determinations for each approval. Notice of each separate determination will be published in the OEQC Bulletin.

WHAT IS REQUIRED IN AN ENVIRONMENTAL ASSESSMENT? Draft and final environmental assessments must include (but are not limited to) the following (§11-200-10):

1. Identification of applicant or proposing agency;
2. Identification of approving agency, if applicable;
3. Identification of agencies consulted;
4. General description of the action's technical, economic, social, and environmental characteristics; Some GENERAL guidelines to the content of each characteristic are below:

PAGE 16
This section should generally answer the "What, Why, Where, When, Who and How" of the proposed action and its short and long-term impacts.

**Technical:** Describe the purpose of the project and in general terms how the project will be accomplished. If applicable, the spatial dimensions of the project and its timing should be included.

**Socio-economic:** Describe the economic impacts on the immediate community as well as on the community at large. The assessment may include, but not be limited to, providing income for the county/state and creating employment opportunities in areas with high unemployment rates.

Describe issues pertinent to the specific project. If an action involves a targeted segment of the population, any/all positive or negative effects must be discussed. In addition, any other issues pertinent to the action (such as: population density, recreational facilities, child care provisions, relocation of residences, etc.) must be discussed.

The Socio-Economic Impact does not apply to the impact of the action on the proposing agency or applicant. For state or county projects, the cost of the proposed action should be included in the assessment.

**Environmental Characteristics:** Describe, as applicable, aesthetics, the generation of air pollution, traffic congestion, noise levels, effects on water quality or any other aspect of the environment which may be affected by the proposed action.

(5) Summary description of the affected environment, including suitable and adequate location and site maps; include descriptions of flora, fauna, significant habitats, historical/ archeological and cultural sites. Describe adjacent natural resources. Sensitive habitats (such as a refuge) or bodies of water (stream, river, ocean, estuary, anchialine pond) adjacent to a proposed project need to be addressed.

(6) Identification and summary of major impacts and alternatives considered, if any; identify positive as well as negative major impacts. The impacts of concern are of the proposed action on the surrounding environment and community, not the impact of the environment on the action. The alternatives considered should be included when applicable.

(7) Proposed mitigation measures, if any: It is not sufficient to write one sentence stating that appropriate mitigation measures shall be instituted wherever necessary. The potential problems must be identified and alternative mitigation described in general terms. If a mitigation measure is identified, the corresponding impact should be described in the impacts section. Best Management Practices should be cited whenever possible. For mitigation at Historic Sites, the environmental assessment must include: 1) copies of the

Mitigation and/or Preservation Plans prepared for the Department of Land and Natural Resources’ State Historic Preservation Program; and 2) a copy of the approval letter for the plans from the State Historic Preservation Program.

(8) Determination:

The agency shall consider every phase of a proposed action, the expected consequences, both primary and secondary, and the cumulative as well as the short and long-term effects of the action in making a determination. For environmental assessments for which a negative declaration is anticipated, a draft Environmental assessment shall be made available for public review and comment for a period of thirty days. Subsequently, a final environmental assessment shall be prepared to determine whether an EIS is required (Act 241, SLH 1992).

After reviewing the comments received during the 30-day review period for anticipated negative declarations, the responsible agency may make a Negative Declaration or EISPN determination. If an EISPN is determined, the project must undergo an additional 30-day consultation period to define the scope of the Draft EIS.

A determination letter from the Agency must be submitted with the final environmental assessment identifying it as either a Negative Declaration or Environmental Impact Statement Preparation Notice. This letter is a formal declaration stating that the document has been reviewed and the action will or will not have significant impacts on the environment. This must be the Approving Agency’s determination, not the consultant’s determination (§343-5(b)).

(9) Findings and reasons supporting the determination; Evidence justifying the statement that the proposed action will or will not result in any significant environmental impact must be included.

(10) Agencies to be consulted in the preparation of the environmental impact statement, if applicable. This is necessary only for assessments which are determined to require environmental impact statements.

**WHAT HAPPENS AFTER AN ENVIRONMENTAL ASSESSMENT IS SUBMITTED?**

- If the agency determines the action will have a significant impact, an Environmental Impact Statement Preparation Notice is issued. Publication of this determination in the OEQC Bulletin will initiate a 30-day consultation period to define the scope of the Draft EIS.

- If the agency anticipates the action will not have a significant impact, the document will be published in the OEQC Bulletin as a Draft environmental assessment and will undergo a formal 30-day review period beginning on the date of publication in the OEQC Bulletin. Following the end of this 30-day review period, any comments received along with their responses
must be incorporated into the Final environmental assessment. If appropriate, the text, figures, tables, maps and other ancillary parts of the environmental assessment should be revised. After undergoing the 30-day review period required by Act 241, SLH 1992, if the agency determines that:

a) the action will not have a significant impact, a negative declaration will be issued. Publication of this determination in the OEQC Bulletin will initiate the 30-day period to legally challenge the determination in court.

b) the action may have a significant impact, an EISPN will be issued and the project will undergo an additional 30-day consultation period to define the scope of the Draft EIS.

WHAT IS REQUIRED IN A NOTICE OF DETERMINATION? The Notice of Determination (Negative Declaration or EIS Preparation Notice) which is issued by the Approving Agency must include §11-200-11(c):

1. Identification of applicant or proposing agency
2. Identification of approving agency
3. Brief description of proposed action
4. Determination
5. Reasons supporting the determination
6. Name, address and phone number of contact person for further information

HOW IS THE PUBLIC MADE AWARE OF PROJECTS FOR WHICH EAs HAVE BEEN PREPARED? Draft Environmental Assessments, Negative Declarations and EIS Preparation Notices must be submitted by the appropriate agency to OEQC for publication in the OEQC Bulletin §11-200-11(b). OEQC has an "OEQC Bulletin Publication Form" which should be filled out and submitted to OEQC with the Draft Environmental Assessment, Negative Declaration or Environmental Impact Statement Preparation Notice.

CHALLENGING NEGATIVE DECLARATIONS. Once a final negative declaration has been made, the determination stands as a Negative Declaration until it is challenged in court and reversed by the same. There is a 30-day period [§343-7(b)/Act 241, SLH, 1992] starting when the determination is published in the OEQC Bulletin for an aggrieved party to challenge the determination of "negative declaration."

CHALLENGING ENVIRONMENTAL IMPACT STATEMENT PREPARATION NOTICES (EISPN). There is a 60-day period [§343-7(b), Act 241, SLH 1992] starting when the EISPN determination is first published in the OEQC Bulletin for an aggrieved party to challenge in court the agency determination that an EIS is required.

PRE-ASSESSMENT CONSULTATION LIST FOR ENVIRONMENTAL ASSESSMENTS

During the preparation of an environmental assessment, the procedures listed in Hawaii Administrative Rules, §11-200-9, Early Assessment, must be followed. Historically, one of the steps frequently overlooked has been §11-200-9(a). This section requires consultation with agencies having jurisdiction or expertise as well as consultation with citizen groups and individuals.

The appropriate agencies and groups from the list below should be consulted before the preparation of an environmental assessment. This list is not meant to be comprehensive. Each proposed action is unique in itself and may require consultation with other agencies and concerned groups.
