

The Environmental Notice

A SEMI-MONTHLY BULLETIN OF THE OFFICE OF ENVIRONMENTAL QUALITY CONTROL

NOVEMBER 23, 2003

Hawai'i Fruit Fly Facility

The United States Department of Agriculture and the University of Hawai'i College of Tropical Agriculture and Human Resources have jointly issued a NEPA and Chapter 343 HRS finding of no significant and final environmental assessment on temporary research

facilities at the Hawai'i Plant Protection laboratory research facilities on 'Ahiki Street in Waimanalo. The project also requires a Federal Consistency Review by the Coastal Zone Management Program. See page 5 for more information.

Lilipuna Road Retaining Wall Reconstruction

The City Department of Planning and Permitting is processing an applicant's shoreline setback variance for an after-the-fact construction of three reliever walls behind an existing failing retaining wall and the removal of the top six feet of the existing wall next to Kane'ohe Bay. See page 3 for more information.

Upcountry Town Center FEIS accepted

The State Land Use Commission accepted the revised final EIS for the Upcountry Town Center, Pukalani, Maui at its October 23rd, 2003 meeting. The revised EIS was prepared as a result of a court order for a change of accepting authority from the Maui Planning Director to the Land Use Commission. See page 6 for details.

Notice of Intent to Apply for US Environmental Protection Agency Brownfields Assessment Grant

The State Department of Business, Economic Development and Tourism, through the Office of Planning, is applying for a U.S. Environmental Protection Agency (EPA) Brownfields Assessment grant to identify, assess, and conduct planning and community involvement activities related to the redevelopment of brownfields sites throughout the State of Hawaii. The grant would enable the State to conduct environmental site assessments aimed at facilitating the reuse of brownfields properties. The grant period is October 2004 through September 2006.

A brownfield site is defined as "real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant." The brownfields grants are part of EPA's Brownfields Economic Redevelopment

Initiative, which is designed to enable states and communities to assess, clean up, and redevelop brownfields properties.

Public comments regarding potential sites for assessment or related brownfields issues that are pertinent to the proposed application are welcome. Please contact Mary Alice Evans, 808-587-2802, maevans@dbedt.hawaii.gov or Ruby Edwards, 808-587-2817, redwards@dbedt.hawaii.gov of the Office of Planning for information about the grant proposal. **Comments will be most useful if they are received by Wednesday, November 26, 2003.** Comments may be emailed, mailed to Office of Planning, P.O. Box 2359, Honolulu, HI 96804, or faxed to 808-587-2824.

For further information on the existing Brownfields Site Assessment Program, please visit its website at <http://www.state.hi.us/dbedt/gis/brownfields/>.

We provide access to our activities without regard to race, color, national origin (including language), age, sex, religion, or disability. Write or call OEQC or our departmental Affirmative Action Officer at Box 3378, Honolulu, HI 96801-3378 or at (808) 586-4616 (voice/tty) within 180 days of a problem. OEQC intends to make the information in this bulletin accessible to everyone. Individuals that require this material in a different format (such as large type or braille), should contact our office for assistance.

Draft Environmental Assessments

(1) 800 Nu'uanu Condominiums

District: Honolulu
TMK: 1-7-002: 002
Applicant: Intracorp, LLC.
600 B Street, Suite 1500
San Diego, California 92101
Contact: Michael Brekka (619-544-6965)

Approving Agency/Accepting Authority: City and County of Honolulu
Department of Planning and Permitting
650 South King Street, 7th Floor
Honolulu, Hawai'i 96813
Contact: Anthony Ching (527-5833)

Consultant: Belt Collins Hawai'i, Ltd.
2153 North King Street, Suite 200
Honolulu, Hawai'i 96819
Contact: Lee Sichter (521-5361)

Public Comment
Deadline: December 23, 2003
Status: DEA First Notice pending public comment.
Address comments to the applicant with copies to the approving agency or accepting authority, the consultant and OEQC.
Permits Required: Chinatown Special District (Major),
Grading, Building

The applicant proposes to develop a 186-unit residential condominium tower on a 38,177-square foot parcel at 800 Nu'uanu Avenue in Chinatown. The project site is bounded by Nu'uanu Avenue, Nimitz Highway, Smith Street, and Marin Street. The proposed project is a 21-story high-rise structure with 3-1/2 parking levels (above-grade) and 23,376 square feet of ground floor retail space and building services. The 220-foot high structure is located within the Makai Precinct of the Chinatown Special District with a 250-foot height limit. Currently, there is a surface parking lot located at the project site.

Short-term construction related noise, dust, and water quality impacts will be mitigated by complying with applicable permit conditions.

In the long-term, the proposed high-rise structure will have a visual impact on the surrounding area but with its 250-

foot building height limit and its close proximity to other high-rise structures in the central business district, it may not be considered a significant visual impact. There will be increased vehicular traffic but no significant changes in the level of service. There are no other significant long-term environmental impacts anticipated.

(2) Van Horn Reconstruction of Retaining Wall

District: Ko'olaupoko
TMK: 4-6-1: 9
Applicant: Richard and Noreen Van Horn
46-035 Lilipuna Road
Kane'ohe, Hawai'i 96744
Contact: Richard Van Horn (521-5361)

Approving Agency/Accepting Authority: City and County of Honolulu
Department of Planning and Permitting
650 S. King Street, 7th Floor
Honolulu, Hawai'i 96813
Contact: Ann Matsumura (523-4077)

Public Comment
Deadline: December 23, 2003
Status: DEA First Notice pending public comment.
Address comments to the applicant with copies to the approving agency or accepting authority and OEQC.

O'ahu Notices

NOVEMBER 23, 2003

Permits

Required: SSV

The 24,431 square-foot shoreline property is developed with three dwelling units and is zoned R-10 Residential District.

The applicants are requesting to retain (allow) two, 4-foot high Concrete Rubble Masonry (CRM) walls and construct an additional 4-foot high CRM wall mauka of an existing, 100-foot long retaining wall. The existing retaining wall is failing and has already been substantially repaired and reduced in height from 12 feet to 6 feet. Approximately 20 feet of the west end of the failing wall will be removed and rebuilt to a height of 6 feet. Each of the three CRM walls is designed to retain 4 feet of soil and are set back 8 to 10 feet from the original retaining wall and from each other. The stepped-formation of the proposed three CRM walls will require the removal of approximately 300 cubic yards of existing yard. Reinforcement of the footing of the failing retaining wall will require the removal of an one- to two-foot high wall approximately two feet seaward of the failing wall.

The applicant also proposes to construct a series of three, 4-foot rise stairways and wall segments integrated into the eastern end of the CRM walls, replace an existing concrete slab seaward of the failing retaining wall, and replace an existing, collapsed wall east of the stair system.

The majority of the property's shoreline is the seaward edge of an existing seawall. The status of the seawall and the pier are the subject of a lease agreement approved by Department of Land and Natural Resources under the Kane'ohē Bay Amnesty Program.

The proposed alterations lie within the 40-foot shoreline setback area and will require a Shoreline Setback Variance. The applicants have provided a Certified Shoreline Survey approved by the Board of Land and Natural Resources on July 10, 2003.

Final Environmental Assessments (FONSI)

(3) Kala'i'opua Place Improvements, Tantalus

District: Honolulu
TMK: 2-5-19: 9 (por.)

Applicant: City and County of Honolulu
Department of Design and Construction
650 South King Street
Honolulu, Hawai'i 96813
Contact: Kenneth Lai (527-5317)

Approving Agency/Accepting

Authority: Same as above.

Consultant: Engineering Concepts, Inc.
1150 South King Street, Suite 700
Honolulu, Hawai'i 96814
Contact: Kay Muranaka (591-8820)

Status: FEA/FONSI issued, project may proceed.

Permits Required: CDUA; Building; Grubbing, Grading and Stockpiling

Kala'i'opua Place is a narrow, 8- to 10-foot wide, asphalt-paved road under the jurisdiction of the City and County of Honolulu, that extends about 850 feet from Round Top Drive on the upper slopes of Tantalus, providing access to seven residential properties. The road is situated on a steep slope and is in poor condition due to erosion of the hillside. Residents are concerned that the road does not provide safe passage to their properties and that further erosion will eventually make it impassable to vehicular traffic. The Department of Design and Construction has proposed improvements to Kala'i'opua Place to restore the pavement width to 10 to 11 feet, and provide stabilization against further erosion. The proposed work will be packaged as a base bid with three additive items, to be constructed as funds allow. Proposed improvements include guardrail installation, and mechanically stabilized earth reinforced wall systems for slope stabilization. Construction of a bridge over a short segment of roadway is an additive item. Relocation of utility poles will also be included in this project.

Potential negative impacts may result from construction activities. These short-term impacts may include increased dust, noise and traffic; power outages; and road closures on Kala'i'opua Place. Mitigation measures include compliance with applicable regulations to minimize noise and air quality impacts, maintaining communication with residents regarding construction scheduling, and providing other accommodations for residents for the duration of road closures if access to homes and properties is restricted for a prolonged period. Disruption of electrical power will be coordinated with HECO, and residents will be informed in advance of planned outages. The project site is located within the Conservation District and improvements will be subject to the conditions of a Conservation District Use Permit. Construction is anticipated to begin in May 2004, upon receipt of all permits and approvals, and will take nine months to complete. The estimated construction cost is \$700,000, to be funded by the City and County of Honolulu.

(4) Waimanalo Plant Protection Laboratory Temporary Research Modules, Hawai'i Fruit Fly Production Facility

District: Ko'olaupoko
TMK: 4-1-26: por. 1
Applicant: University of Hawai'i College of Tropical Agriculture and Human Resources
3050 Maile Way, Gilmore Hall 207
Honolulu, Hawai'i 96822
Contact: Walter T. Harada (956-7429)

Approving Agency/Accepting

Authority: Same as above.
Consultant: Hawai'i Pacific Engineers, Inc.
1132 Bishop Street, Suite 1003
Honolulu, Hawai'i 96813-2830
Contact: Roy K. Abe (522-7425)

Status: FEA/FONSI issued, project may proceed.

Permits

Required: Building, Grading, NPDES, Noise

The United States Department of Agriculture (USDA) Hawai'i Fruit Fly Production Facility (HFFPF), located on 'Ahiki Street in Waimanalo, is one of only two domestic sources of sterile Mediterranean fruit flies available to support eradication and preventive programs in the U.S.

The USDA proposes to construct temporary Hawai'i Plant Protection Laboratory (HPPL) research facilities comprised of five single-story prefabricated steel-panel modules with workspace totaling approximately 3,900 square feet. Approximately 10 employees will work in the research modules. The project also includes construction of a 2,200 square foot single story irradiator/storage building to temporarily house USDA's two irradiator units during future reconstruction of the HFFPF and to meet storage space needs of future HFFPF operations. The USDA funded project is estimated to cost \$1.1 million.

The project will require clearing of approximately 0.75 acres of land leased from the University of Hawai'i. Site improvements will include grading; fencing; water, power and sewer connections; storage tank for process wastewater (held for offsite disposal); and a stormwater detention basin.

Environmental impacts will be limited primarily to short-term disruptions associated with construction activities. Construction activities will be confined to the USDA site to eliminate impacts to the nearby historic Tai-Lee Ditch. No impacts to endangered species, archaeological resources or cultural practices are anticipated. Visual impacts will be minimal as existing vegetation will screen the site from public view.

Final Environmental Assessments/Findings of No Significant Impacts (FONSI)

(1) Kanaio Natural Area Reserve National Resources Conservation Project

District: Makawao and Hana
TMK: 2-1-003-054, 2-1-003-050, 1-9-001-006
Applicant: Department of Land & Natural Resources
Division of Forestry & Wildlife
1151 Punchbowl Street, Room 224
Honolulu, Hawai'i 96813
Contact: Christen Mitchell (587-0051)

Approving Agency/Accepting

Authority: Same as above.
Status: FEA/FONSI issued, project may proceed.
Permits Required: BLNR Approval, Grubbing, Grading

The Hawai'i Department of Land and Natural Resources, Division of Forestry and Wildlife, Natural Area Reserves System, in a cooperative effort with the US Fish & Wildlife Service and Ulupalakua Ranch, proposes to install ungulate-proof fencing at Kanaio Natural Area Reserve (NAR) on the island of Maui.

Introduced ungulates — such as deer, pigs, goats, and cattle — are one of the most significant threats to the continued survival of native species and ecosystems that Kanaio NAR was established to protect. Feeding and trampling by ungulates destroy individual plants and damage native forest systems by destabilizing soils, hastening erosion, and facilitating weed invasion.

The project involves fence construction in two phases to create a large ungulate free area. Phase I requires 5.25 miles of fencing to enclose approximately 850 acres. In Phase II, an additional 3.75 miles of fence is proposed to enclose approximately 400 acres nominated for addition to the existing Natural Area Reserve adjacent to Phase I. The proposed fencing will protect dry forests and shrublands, and a unique assemblage of native plants and animals, including rare and

endangered species, from further damage caused by non-native ungulates. The fencing will also provide a protected area for future restoration efforts.

Potential impacts include soil disturbance along the fenceline, damage to common native plants, increased risk of wildfire, and effects on rare and endangered plant and animal species, cultural resources, and visual resources. Impact mitigation measures include conducting expert surveys of the fence route to ensure that no biological or cultural resources (including lava tubes) are within the fence clearing corridor, taking preventive action to decrease the potential for accidental introduction of non-native species, implementing weed control to reduce fire threat, and aligning the fenceline to minimize visual impact from Highway 31.

Final Environmental Impact Statement

(2) Upcountry Town Center (Revised)

District: Makawao
TMK: 2-3-07:08

Maui Notices

Status: RFEIS accepted by the State Land Use Commission on October 23, 2003.

Permits Required: State District Boundary Amendment, Community Plan Amendment, Change in Zoning, Project District Approval

A Revised Draft Environmental Impact Statement for the Upcountry Town Center at Pukalani, Maui was submitted to the State Land Use Commission after an April 16, 2003 Court Order held that acceptance of the original Final Environmental Impact Statement by the Maui County Planning Director was null and void and the LUC was the appropriate accepting authority. The Land Use Commission, at its October 23, 2003 meeting, accepted the Revised Final EIS. The Project Description remains as follows:

Maui Land & Pineapple Company, Inc. is proposing to improve approximately 40 acres of agricultural land into a rural country town center development. New uses include commercial, office and civic space, cottage industrial lots and a senior or multi-family residential component. Associated parking and improved road circulation are also proposed within the master development plan. Open space is an important component, representing 10 acres or 25% of the project area.

The proposed Upcountry Town Center will serve local residents, businesses and visitors through a variety of uses. Quality retail, governmental, senior/multi-family living and office space are in demand in the area because of an enhanced economy and larger local populations. The project intends to meet needs identified by members of the community while maintaining the distinctive Upcountry Maui character and creating a sense of place in a central area for the region.

The Upcountry Town Center Master Plan includes approximately 10-acres of open space designed as a buffer between Pukalani Bypass Highway and the uses of the Center. This area will be landscaped consistent with the surrounding Upcountry Maui environment and plans include recreational features such as pedestrian and equestrian trails. The entire development is intended to provide a centralized local gathering place providing a venue for community services, activities and outdoor markets. A new water well to serve the project will also be developed at Pihiolo.

Status: DEA First Notice pending public comment.
Address comments to the applicant with copies to the consultant and OEQC.

Permits Required: Grading/Building, Driveway Connection to County Road, Water

The proposed The Home Depot store will be located on an approximately twelve-acre site within the Panaewa Industrial Lots, a 140-acre industrial park owned by the DHHL. The Home Depot will include a 102,948 square foot warehouse-style store, a 27,631 square foot garden center, and a parking lot with 492 stalls. The site is bound by Maka'ala Street, Railroad Avenue, Ohuohu Street Extension, and the Prince Kuhio Plaza employee parking lot and is surrounded by other urban and industrial uses.

The lease of this property will generate revenue to serve native Hawaiian beneficiaries, facilitate commercial growth, and provide employment opportunities. The Home Depot store will create approximately 125 new direct long-term employment opportunities in the Hilo region. In addition, indirect jobs will be created within industries supporting and supplying inventory, such as garden supplies. The construction of the store also will provide short-term employment opportunities for the construction industry.

No significant natural, archaeological, or cultural resources have been identified on The Home Depot site. Impacts include air and noise impacts during construction, however, these will be of a short-term duration, and insignificant, especially when weighed against the positive economic and social benefits associated with the project. Appropriate best management practices will provide safeguards for protection of water quality during the construction period. While the store will generate additional traffic, the impacts can be mitigated by roadway improvements.

(2) Kipuka 21 Fencing and Interpretive Trail Construction

Hawai'i Notices

NOVEMBER 23, 2003

Public Comment

Deadline: December 23, 2003
Status: DEA First Notice pending public comment.
Address comments to the applicant with a copy to OEQC.

Permits Required:

The Division of Forestry and Wildlife (DOFAW) plans to construct perimeter fencing and an interpretive trail within the Upper Waiakea Forest Reserve, at the kipuka located just after Milepost 21 ("Kipuka 21") on Saddle Road on the Big Island of Hawai'i. The project area is owned by the State of Hawai'i and lies within the Protective Subzone of the Conservation District.

The goals of this project are to: (1) provide long-term protection to the natural resources within a kipuka situated near Milepost 21 on Saddle Road, through perimeter fencing of approximately 15 acres, and (2) provide safe and convenient public access to a relatively unspoiled kipuka rainforest habitat, through the development of an interpretive trail.

Fence construction will involve hand clearing of a corridor no more than 10 feet wide and erecting a fence line. The planned fence will be approximately four feet tall, made of hogwire. Trail construction will involve clearing of vegetation, constructing one or more small viewing platforms, and establishing a trail bed for a trail of approximately 3/4 mile in length. Interpretive signage will be placed at strategic locations along the trail, sharing cultural, botanical and biological information about the kipuka, the Hawaiian forest, and the native plants and wildlife.

Potential impacts include disturbance and damage to common native plants and short-term disturbance to native birds. Impact mitigation measures include conducting surveys and route design of the fence and trail corridors to ensure no botanical or cultural resources are within the construction corridor, constructing most of the fence outside of the kipuka on the 1855 lava flow where vegetation is sparse to minimize disturbance to vegetation, implementing measures to decrease the potential for accidental introduction of non-native species, and avoiding loud construction during periods of nesting.

Final Environmental Assessments/Findings of No Significant Impacts (FONSI)

(3) Lokahi Subdivision Access Road

District: North Kona
TMK: 7-3-10: por. 6
Applicant: Westpro Development, Inc.
P.O. Box 2808

Consultant: Brian Nishimura (935-7692)
101 Aupuni Street, Suite 217
Hilo, Hawai'i 96720

Status: FEA/FONSI issued, project may proceed.
Permits Required: Request to Utilize State Land; UIC; Approval of Roadway Subdivision; Approval of Construction Plans

Westpro Development, Inc. is proposing to develop the Lokahi Subdivision, a 190-lot residential subdivision with a park and related amenities, on approximately 68.534 acres of land in North Kona, island of Hawai'i, TMK(s)7-3-10: 47, 48 & 50. The project site is located east (mauka) of the Queen Ka'ahumanu Highway, in the land division of Kalaoa 5th, North Kona, Hawai'i and south of the Kona Palisades Subdivision.

The proposed project will be served by three access roads from Ka'iminani Drive, the principal mauka-makai access linking the Mamalahoa Highway and the Queen Ka'ahumanu Highway. One of the three accesses proposed for the Lokahi Subdivision is a new road through the adjacent State property situated west (makai) of the project site and

identified as TMK 7-3-10: portion of 6. The proposed roadway will intersect with Ka'iminani Drive approximately 200 feet west (makai) of the western most parcel within the Kona Palisades Subdivision. This north-south segment of the proposed roadway will eventually become part of the "New Main Street" included in the County's Keahole to Keauhou Project Map that is dated August, 2001. The "New Main Street" is intended to have a 120-foot wide right-of-way and Westpro is proposing to develop the eastern (mauka) half of that right-of-way with a 60-foot wide public road which will extend approximately 700 feet south from Ka'iminani Drive and make a 90 degree turn east (mauka) for another 280 feet before entering the proposed residential project site in TMK: 7-2-10: 48. This roadway will be improved to County dedicable standards with a pavement width of 24 feet and paved swales of approximately 18 feet. The roadway has an estimated cost of \$350,000 and will take approximately three months to complete.

Conservation District Notices

Board Permits

Persons interested in commenting on the following Conservation District Use Application (Board Permit) must submit comments to the Department of Land and Natural Resources (DLNR). Also, anyone interested in receiving notification of determinations on Conservation District Use Applications (Board Permits) must submit requests to DLNR that include the following information:

- (1) Name and address of the requestor;
- (2) The departmental permit for which the requestor would like to receive notice of determination; and
- (3) The date the notice was initially published in the Environmental Notice.

Both comments and requests for notification of determinations must be submitted to DLNR within thirty days from the initial date that the notice was published in the *Environmental Notice*. Please send comments and requests to: State of Hawai'i, Department of Land and Natural Resources, Office of Conservation and Coastal Lands, 1151 Punchbowl Street, Room 220, Honolulu, Hawai'i 96813.

DLNR will make every effort to notify those interested in the subject CDUA, it is not obligated to notify any person not strictly complying with the above requirements. For more information, please contact Tiger Mills at 587-0382.

Kekaha Kai State Park Phase I

File No.: HA-3168
Applicant: DLNR, Division of State Parks
Location: North Kona, Hawai'i
TMK: 7-2-04: 03, 17, 19
Action: Kekaha Kai State Park Phase I, Maniniowali/
Kua Bay Improvements
HRS 343
Determination: The Final EIS was published in OEQC's
Environmental Notice on 6/8/03; accepted by the
Governor on 8/20/03.

Coastal Zone News

NOVEMBER 23, 2003

Federal Consistency Reviews

The Hawai'i Coastal Zone Management (CZM) Program has received the following federal actions to review for consistency with the CZM objectives and policies in Chapter 205A, Hawai'i Revised Statutes. This public notice is being provided in accordance with section 306(d)(14) of the National Coastal Zone Management Act of 1972, as amended. For general information about CZM federal consistency please call John Nakagawa with the Hawai'i CZM Program at 587-2878. For neighboring islands use the following toll free numbers: Lana'i & Moloka'i: 468-4644 ext.72878, Kaua'i: 274-3141 ext. 72878, Maui: 984-2400 ext. 72878 or Hawai'i: 974-4000 ext. 72878. For specific information or questions about an action listed below please contact the CZM staff person identified for each action. Federally mandated deadlines require that comments be received by the date specified for each CZM consistency review and can be mailed to: Office of Planning, Department of Business, Economic Development and Tourism, P.O. Box 2359, Honolulu, Hawai'i 96804. Or, fax comments to the Hawai'i CZM Program at 587-2899.

(1) Hanalei Valley/Hanalei National Wildlife Refuge Scenic Stop, Kaua'i

Federal Action: Federal Activity

Proposing

Agencies: Federal Highway Administration, State of Hawai'i Department of Transportation (DOT) and Princeville Corporation; contact: Steven Kyono, DOT, (808) 274-3111

Location: Kuhio Highway, xxxxx mile east of the existing Hanalei Valley scenic stop, Hanalei, Kaua'i

Tax Map Key: 5-3-1: 16

CZM Contact: John Nakagawa, 587-2878

Proposed Action:

In a public-private partnership, the State of Hawai'i Department of Transportation (DOT), the Federal Highways Administration (FHWA) and the Princeville Corporation (landowner) are proposing to develop a new scenic stop overlooking Hanalei Valley and the Hanalei National Wildlife Refuge. After construction, the scenic stop will be donated to the U.S. Fish and Wildlife Refuge to operate and maintain as a visitor information center. The new scenic stop will include scenic overlooks, a new intersection on Kuhio Highway, a visitor information center, public restrooms, parking lot, a maintenance and storage building, and possibly an open-air pavilion and garden.

Comments Due: December 8, 2003

(2) Supplemental Deck at Ala Wai Boat Harbor Slip 535, O'ahu

Applicant: John A. Dubiel

Federal Action: Department of the Army Permit (200400039)

Federal Agency: U.S. Army Corps of Engineers
Contact: Bill Lennan, 438-6986

Location: Ala Wai Boat Harbor Slip 535

CZM Contact: John Nakagawa, 587-2878

Proposed Action:

Construct a supplemental deck to boat slip 535 at Ala Wai Boat Harbor. The deck will be constructed of wood, 21 feet by 6.5 feet, and supported in the water by concrete blocks. The project does not involve any dredging or discharge of fill material into the water.

Comments Due: December 8, 2003

(3) Supplemental Deck at Ala Wai Boat Harbor Slip 750, O'ahu

Applicant: John R.H. Tucker

Federal Action: Department of the Army Permit (200400028)

Federal Agency: U.S. Army Corps of Engineers
Contact: Bill Lennan, 438-6986

Location: Ala Wai Boat Harbor Slip 750

CZM Contact: John Nakagawa, 587-2878

Proposed Action:

The applicant is requesting an after-the-fact permit for a supplemental deck to boat slip 750 at Ala Wai Boat Harbor. The deck is constructed of wood, 10 feet by 8 feet, and supported in the water by concrete footings. The project does not involve any dredging or discharge of fill material into the water.

Comments Due: December 8, 2003

(4) Conversion of Pasture Land to Crop Farming in Kahuku, Island of O'ahu

Applicant: Mokofisi Emaleti Trust

Agent: Yukie Ohashi Planning Consultant
Contact: Yuki Ohashi, 808-985-2222

Federal Action: Department of the Army Permit (20010125a)

Federal Agency: U.S. Army Corps of Engineers
Contact: Bill Lennan, 438-6986

Location: 47-630 Kamehameha Highway, Kane'ohe, O'ahu

TMK: 4-7-13:10, 11, 12, 13, 16 and 24

CZM Contact: Debra Tom 587-2840

Proposed Action:

The applicant proposes to convert approximately 15 acres of wetland pasture land to crop production. The proposal includes tilling of wetland pasture with mechanized equipment, moving soil, spreading of mulch (produced onsite) for weed control, and tilling of soils approximately 1-2 days per month. No other soil or any other off-site material will be brought onto the discharge area for the purpose of crop farming. The conversion of a maximum of 15 acres to cropland will be in increments of approximately 1 acre (or less) between March 2004 and September 2007.

Comments Due: December 8, 2003

Special Management Area (SMA) Minor Permits

Special Management Area Documents (Chapter 25, Revised Ordinances of Honolulu)

Since SMA-only (Chapter 25, ROH) documents do not trigger the EIS law as articulated in Chapter 343, Hawaii Revised Statutes, effective September 1, 2001 OEQC will no longer review these documents for completeness or adequacy. However, OEQC will continue to provide notice of these projects as a public service. Questions regarding the adequacy, completeness and availability of these documents should be addressed directly to the county contact listed below.

St. John Lutheran Church (Draft SMA Document)

The 2.26-acre site is located at 1004 Kailua Road. The existing uses on-site include a sanctuary/multi-purpose room for St. John Lutheran Church and a Le Jardin Preschool. The applicant, St. John Lutheran Church, proposes to construct a new 5,000-square-foot sanctuary and a covered walkway. The new sanctuary will replace the existing sanctuary, which will be converted into church office(s), conference, multi-purpose room, and other ancillary areas. The new sanctuary will include an entry vestibule, a nave with seating for 270-295 people, a choir and bell choir area, an altar/pulpit area, a sacristy, and electrical and storage room. The new covered walkway will connect the new sanctuary with existing facilities. The applicant states that the construction of the new sanctuary is not intended to increase the amount of people using the facility at any given time but rather to facilitate space planning. Please direct questions and written comments to Lin Wong, Department of Planning and Permitting, City and County of Honolulu, 650 South King Street, 7th Floor, Honolulu, Hawai'i 96813, telephone: 523-4485.

Federal Notices

Availability of Seats for the Hawaiian Islands Humpback Whale National Marine Sanctuary Advisory Council

The Hawaiian Islands Humpback Whale National Marine Sanctuary (HIHWNMS) is seeking applicants for the following vacant seats on its Sanctuary Advisory Council (Council): Maui County Alternate, Kaua'i County Alternate, Education Alternate, Fishing Alternate, Native Hawaiian Member, and Native Hawaiian Alternate. Applicants are chosen based upon their particular expertise and experience in relation to the seat for which they are applying; community and professional affiliations; philosophy regarding the protection and management of marine resources; and possibly the length of residence in Hawai'i. Applicants who are chosen as members should expect to serve two-year terms, pursuant to the Council's Charter. Applications are due by December 5, 2003. Application kits may be obtained from Keeley Belva (888)55-WHALE, or via e-mail at: Keeley.Belva@noaa.gov. Completed applications should be mailed to the Hawaiian Islands Humpback Whale National Marine Sanctuary, 6700 Kalaniana'ole Highway, Suite 104, Honolulu, Hawai'i 96825, or faxed to (808) 397-2650, or returned via electronic mail. For further details, contact Keeley Belva as indicated above (see, 68 F.R. 64594, November 14, 2003).

Issuance of an Experimental Use Permit

EPA has granted an experimental use permit (EUP, No. 432-EUP-7) to Bayer Environmental Science, a business group of Bayer CropScience, LP, 95 Chestnut Ridge Road Montvale, NJ 07645. This EUP allows the use of 312.84 pounds of the insecticide Imidacloprid on 825 structures to evaluate the control of subterranean termites, drywood termites, dampwood termites, carpenter ants, and other wood-infesting insects. The program is authorized only in the States of Alabama, Arizona, Arkansas, California, Florida, Georgia, Hawai'i, Illinois, Indiana, Kansas, Kentucky, Louisiana, Maryland, Mississippi, Missouri, Nebraska, New Jersey, North Carolina, Ohio, Oklahoma, Pennsylvania, South Carolina, Tennessee, Texas, and Virginia. The EUP is effective from November 1, 2003 to December 31, 2005. For further details contact Dani Daniel, Registration Division (7505C), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460-0001; telephone number: (703) 305-5409; electronic mail address: daniel.dani@epa.gov. An EUP permits use of a pesticide for experimental or research purposes only in accordance with the limitations in the permit (see, 68 F.R. 64105, November 12, 2003).
