

The Environmental Notice

A SEMI-MONTHLY BULLETIN (UNDER SECTION 343-3, HRS) OF THE OFFICE OF ENVIRONMENTAL QUALITY CONTROL

JANUARY 23, 2006

Kaua'i Lagoons Resort Expansion

Kaua'i Lagoons LLC, KD Golf Ownership, and KD Kapule LLC are seeking a General Plan Amendment to amend the Kaua'i General Plan designation of approximately 190 acres from "Open" to "Resort."

of single family residential lots, resort-residential condominium units, and multi-family residential units.

The Zoning Amendment petition also includes an expansion of the existing Kaua'i Lagoons Resort and Kaua'i Marriott Visitor Destination Area boundaries to recognize additional land area that may be further occupied by resort-residential development.

The lands affected by the proposed changes are located in Lihue, Kaua'i immediately north and east of the Kaua'i Marriott resort facilities and further bounded by the Lihue Airport runway system immediately to the northwest and east. For more see page 8.

East Maui Fences

The East Maui Watershed Partnership has submitted a draft EA for the construction of up to 20 miles of enclosure fencing to keep feral ungulates (pigs) and species of invasive flora out of 13,000 acres in the East Maui region. The area under consideration includes Hana, Koolau and Kipahulu Forest Reserves, Hanawi Natural Area Reserve and Waihoi Valley. This supplements fencing proposed (and now under construction) in a 1996 EA. See page 7 for more information.

Hawai'i Belt Road Drainage Improvements, North Hilo & Hamakua

The State Department of Transportation is planning to replace the culvert crossing at Hawai'i Belt Road Mile Post 19.36 with a 90-foot long, single box culvert structure which will increase the stream bottom by 300 square feet and involve 180 cubic yards of fill below the Ordinary High Water Mark.

At Mile Post 39.00 the proposed work on the existing culvert crossing will involve repair of culvert aprons and drainage ramp, and installing temporary construction access.

For more information on this project please see page 9

Your guide to the Environmental Review Process

Draft Environmental Assessment

A project or action that may affect the environment cannot be implemented until an Environmental Assessment (EA) is prepared in accordance with Chapter 343, Hawai'i Revised Statutes (HRS). If the lead State or county agency (the *proposing agency* for agency actions, or the *approving agency* for applicant actions) anticipates that the project will have no significant environmental impact, then affected agencies, individuals, and organizations must be consulted and a Draft EA (DEA) is written and public notice is published in this periodic bulletin (see, section 343-3, HRS) known as the *Environmental Notice*. The public has 30 days to comment on the Draft EA from the date of the first notice.

Final Environmental Assessment and Finding of No Significant Impact

After the lead agency reviews the public comments, if it determines that the project will have no significant effect on the environment, then it will prepare a Final EA (FEA) and issue a Finding of No Significant Impact (FONSI) formerly called a *Negative Declaration*. The Final EA must respond to all public comments. An Environmental Impact Statement will not be required and the project may now be implemented. The public has 30 days from the first notice of a FONSI in this periodic bulletin to ask a court to require the preparation of an EIS.

Final Environmental Assessment and Environmental Impact Statement Preparation Notice

When a lead agency decides that a project may have a significant environmental impact, an Environmental Impact Statement (EIS) must be prepared prior to implementing the project. Like the DEA (see *above*), affected agencies, individuals and organizations must be consulted prior to preparation of the final EA (FEA) and issuance of a determination called an EIS preparation notice (EISPN). (The EA is called *final*, to distinguish it from the draft, above). After the FEA is written by the lead agency, and notice of the FEA and EISPN is published in the this periodic bulletin, any agency, group, or individual has 30 days from the first publication of the EISPN to request to become a consulted party and to make written comments regarding the environmental effects of the proposed action. The public (including an applicant) has 60 days from the first notice of an EISPN in this periodic bulletin to ask a court to not require the preparation of an EIS.

Draft Environmental Impact Statement

After receiving the comments on the FEA and EISPN (see *above*), the lead agency or private applicant must prepare a Draft Environ-

mental Impact Statement (DEIS) prior to project implementation. This document must completely disclose the likely impacts of a project. Direct, indirect and cumulative impacts must be discussed along with measures proposed to mitigate them. The public has 45 days from the first publication date in this periodic bulletin to comment on a DEIS. The DEIS must respond to comments received during the FEA-EISPN comment period in a *point-by-point* manner.

Final Environmental Impact Statement

After considering all public comments filed during the DEIS stage, the agency or applicant must prepare a Final EIS (FEIS). The FEIS must respond in a *point-by-point* manner to all comments from the draft stage. Requisite deeper analyses must be included in the FEIS. For applicant projects, the approving agency is authorized to accept the FEIS. For agency project the Governor or the county mayor is the accepting authority. Only after the EIS is accepted may the project be implemented.

Acceptability

If the FEIS is accepted, the law requires that notice of this be published in this periodic bulletin. The public has 60 days from the date of first notice of acceptance to ask a court to vacate the acceptance of an EIS. In the case of applicant actions, the law requires that an approving agency must make a determination on acceptance within thirty-days of receipt of the FEIS or the FEIS is deemed accepted. Also, for applicant actions, the law provides for an administrative appeal of a non-acceptance to the Environmental Council.

National Environmental Policy Act

The National Environmental Policy Act (NEPA) requires federal projects to prepare an EA or EIS. In many ways it is similar to Hawai'i's law. Some projects require both a state (or county) *and* federal EIS and the public comment procedure should be coordinated. Although not required by law, the OEQC publishes NEPA notices in this periodic bulletin to help keep the public informed of important federal actions.

Special Management Area

The Special Management Area (SMA) is along the coastlines of all our islands and development in this area is generally regulated by Chapter 205A, HRS and county ordinance. A special subset of the SMA that is regulated by Chapter 343, HRS is the Shoreline Setback Area. Most development in this area requires a Special Management Permit (SMP). This periodic bulletin posts notice of these SMP applications to encourage public input.

Shoreline Certifications

State law requires that Hawai'i shorelines be surveyed and certified when necessary to clearly establish the shoreline setback (an area contained between the certified shoreline and a prescribe distance inland (usually 40 feet) from the certified shoreline). The public may participate in the process to help assure accurate regulatory boundaries. Private land owners often petition to have their shoreline certified by the State surveyor prior to construction. This periodic bulletin publishes notice from the Department of Land and Natural Resources of both shoreline certification applicants and of final certifications or rejections.

Environmental Council

The Environmental Council is a fifteen-member citizen board appointed by the Governor to advise the State on environmental concerns. The council makes the rules that govern the Environmental Impact Statement process. The agendas of their regular meetings are published on the Internet at <http://www.ehawaii.gov/calendar> and the public is invited to attend.

Exemption Lists

Government agencies must keep a list describing the minor activities they regularly perform that are declared exempt from the environmental review process. These lists are reviewed and approved by the Environmental Council. This periodic bulletin will publish an agency's draft exemption list for public comment prior to Council decision making, as well as notice of the Council's decision on the list.

Conservation District

Any use of land in the State Conservation District requires a Conservation District Use Application (CDUA). These applications are reviewed and approved by the Board of Land and Natural Resources (BLNR). Members of the public may intervene in the permit process. Notice of these permit applications is published in this periodic bulletin.

Endangered Species

This periodic bulletin is required by Section 343-3(c), HRS, to publish notice of public comment periods or public hearings for habitat conservation plans (HCP), safe harbor agreements (SHA), or incidental take licenses (ITL) under the federal Endangered Species Act, as well as availability for public inspection of a proposed HCP or SHA, or a proposed ITL (as a part of an HCP or SHA).

O'ahu Notices

JANUARY 23, 2006

Sprint Antenna at Gilmore Hall, UH at Manoa (HRS 343 DEA)

District: Honolulu
TMK: (1)2-8-023:003

Public Comment

Deadline: February 22, 2006
Status: Draft environmental assessment (DEA) notice pending 30-day public comment. Address comments to the applicant with copies to the approving agency, consultant and OEQC.

Permits

Required: Minor Modification to PRU

Two (2) self-contained, weatherproof BTS equipment cabinets that each measure approximately 60" (h) x 52" (l) x 30" (w) will sit against a wall mounted rack that is bolted to a wall on the main roof mauka of the elevators to ensure adequate space for rooftop maintenance. The BTS is connected to a utility demarcation/power protection cabinet that measures approximately 66" (h) x 30" (l) x 10" (w).

- Total space required on rooftop will be about 375 sq. ft. This installation will be regulated by the Federal Communications Commission and requires additional zoning and building permits from the City & County of Honolulu.

The proposed project will not result in any loss of parking spaces. Neither will it result in an increase in parking demand. The antenna facility will be unmanned and monitored from an offsite location. It will be visited once a month by a maintenance engineer whose normal length of stay on the site will be one hour. The project will not result in an increase in traffic volumes because it will be unmanned.

The installation of electrical switching equipment in the 2 cabinets and 9 panel antennas will not result in any increase in noise levels in the long term at the rooftop or on lower floors of the Gilmore Hall.

SprintCom (also referred to as "Sprint") is planning to upgrade its wireless voice and data coverage on the University of Hawai'i at Manoa campus on O'ahu on the rooftop of Gilmore Hall. Sprint is licensed by the FCC to broadcast in the 1900 Megahertz (MHz) band; thus, this new site will enable Sprint to enhance in-building penetration of these frequencies. Kansas City, Kansas-based Sprint has a nationwide PCS system, and this provider offers bundled products such as internet access, paging, long distance, local and wireless phone service.

The antenna facility will consist of the following:

6 panel type antennas flush mounted to the south and west face of the elevator penthouse just below the top of the highest parapet. Another 3 panel antennas will be flush mounted to the north-facing wall of the upper roof level that houses the building's air conditioning vents and other mechanical equipment. Each panel antenna measures about 6' (h) x 8" (w) and will be painted to blend in with the building's existing color.

T-Mobile West Corp Antenna at Manoa Gateway House (HRS 343 DEA)

District: Honolulu
TMK: (1)2-8-023:003
Applicant: T-Mobile West Corporation
625 Piikoi St., Ste. 100, Honolulu, HI 96814
Contact: Roy Irei (330-1790)

Approving Agency: University of Hawai'i at Manoa

Public Comment

Deadline: February 22, 2006
Status: Draft environmental assessment (DEA) notice pending 30-day public comment. Address comments to the applicant with copies to the approving agency, consultant and OEQC.

Permits

Required: Minor Modification to PRU

T-Mobile West Corporation (formerly VoiceStream PCSII) is proposing to install a cellular communications facility at the ewa (west) wing of the existing Gateway House student residence building situated within the University of Hawai'i Manoa Campus located at 2563 Dole Street, Honolulu, on the island of O'ahu.

Twelve panel antennas will be mounted to the exterior walls of the rooftop enclosure. The antenna measure 6-feet long x 9-feet wide x 4-inches deep. The antennae and mounting brackets will be painted to blend with existing building color schemes. Three base transmitting system (BTS) equipment cabinets will be installed within the enclosure and mounted on the metal platform. Dimensions of the BTS cabinets are 5-feet high x 5-feet wide x 4-feet deep.

Minor traffic impacts will occur as a result of construction related traffic and the operation of construction equipment which

may, on occasion, impede traffic in the immediate vicinity of Gateway House. In addition, the proposed project may inhibit the use of the east end of East West Road fronting Gateway House while a boom truck is parked to unload the bulk of the panel antenna and equipment cabinet hardware. This is expected to be up to a 3-day period.

Construction activities will result in an increase in noise levels during the one- month installation period. However, disruption to existing activities is anticipated to be minimal as the proposed project will not involve major earthmoving, pile driving or heavy demolition work.

This installation will be regulated by the Federal Communications Commission and requires additional zoning and building permits from the City & County of Honolulu.

O'ahu Notices

JANUARY 23, 2006

Nanakuli Community Center (HRS 343 FEA-FONSI)

District: Wai'anae
TMK: (1) 8-9-02:01 & 67
Applicant: Nanakuli Hawaiian Homestead Community Association, 1188 Bishop St., Ste. 909, Honolulu, HI 96813
Contact: Kali Watson (529-0404)

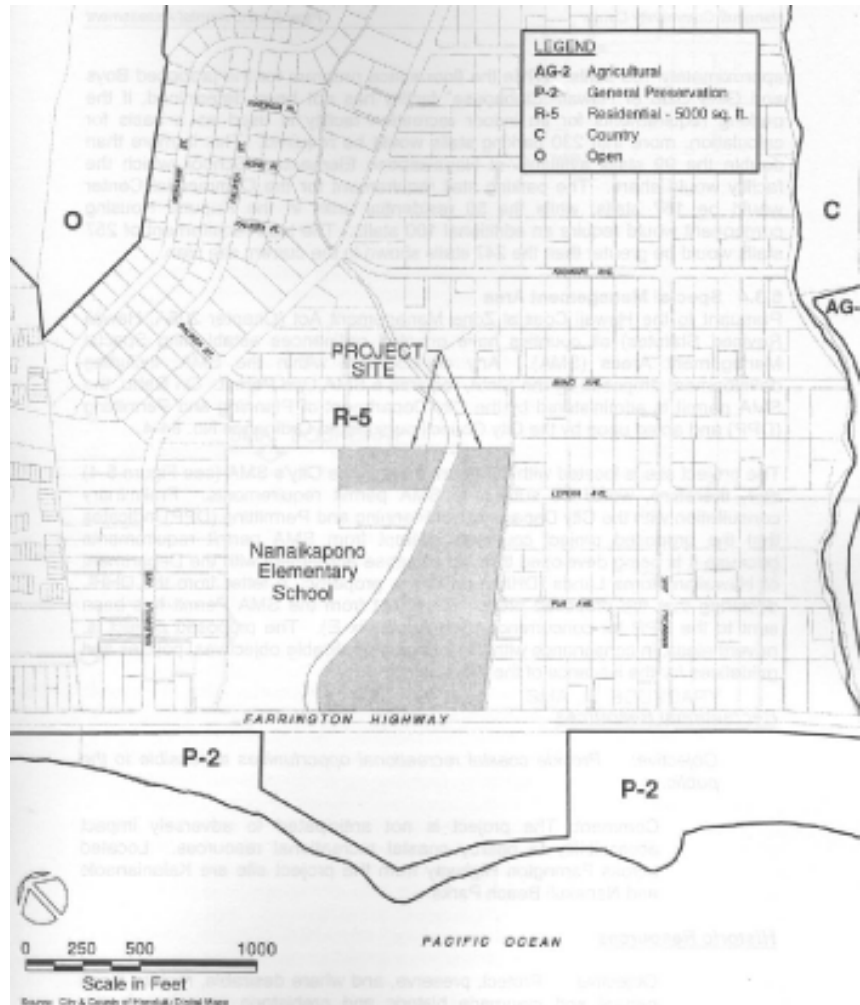

Approving Agency: C & C, Dept. of Community Services
715 S King St., Ste. 311, Honolulu, HI 96813
Contact: Thomas Atou (527-5311)

Consultant: Wilson Okamoto Corporation
1907 S Beretania St., Ste. 400, Honolulu, HI 96826
Contact: Earl Matsukawa (946-2277)

Status: Final environmental assessment (FEA) and Finding of No Significant Impact (FONSI).

Permits Required: NPDES, Water Allocation, Noise Permit, DHHL Agreements, Work with State of Right of Way, Sewer Connection, Building Permit, Drain Connection License, Street Usage Permit

Pursuant to a license agreement with the Department of Hawaiian Home Lands (DHHL), the Nanakuli Homestead Association proposes the phased development of a "village center" concept for the Nanakuli community on approximately 14 acres of DHHL land. The initial phase would construct the Nanakuli Community Center, including an assembly hall, pre-school, meeting facilities, kitchen and offices. A subsequent phase would construct a Boys and Girls Club of Hawai'i "Clubhouse" facility, including a gym, swimming pool, classrooms and offices. The final phase envisions construction of a Commercial Center/Kupuna Housing complex, including ground floor retail space with elderly housing above.

East Maui Watershed Fence Extension Project, Hana (HRS 343 DEA)

District: Hana
TMK: (2) 2-12-004-005; 2-12-004-007; 2-13-001-001; 2-14-001-001; 2-15-001-001; 2-16-001-005; 2-17-004-006
Applicant: East Maui Watershed Partnership
 P.O. Box 431, Makawao, HI 96768
 Contact: Alex Michailidis (573-6999)
Approving Agency: State Dept. of Land & Natural Resources
 1151 Punchbowl St., Honolulu, HI 96813
 Contact: Christen Mitchell (587-0051)
Public Comment Deadline: February 22, 2006
Status: Draft environmental assessment (DEA) notice pending 30-day public comment. Address comments to the applicant with copies to the approving agency, consultant and OEQC.
Permits Required: BLNR Approval

animals from the destructive impact of feral ungulates (hooved animals), particularly feral pigs. Feral pigs damage the watershed by disturbing ground cover, consuming and trampling native plants, and creating conditions for the introduction and establishment of invasive weed species.

Fence construction will entail the clearing (by hand and small power tools) of a four foot wide corridor through vegetation for the fence line. Installation of fences will be done using galvanized steel fence posts set ten feet apart and stretching 39 inches high with galvanized hog wire between posts. Over the long-term, the benefits of the fencing are anticipated to outweigh any short-term negative impacts.

The East Maui Watershed Partnership (EMWP) proposes the construction of between 17 and 28 miles of conservation fencing, protecting approximately 13,000 acres of important watershed in East Maui. The ambitious fencing project, connecting into a system of existing fences adjacent to Haleakala National Park and in Hanawi Natural Area Reserve and consisting of fences extending from Hanawi Natural Area Reserve to Kipahulu Forest Reserve, will provide long-term protection of the watershed that provides more than 60 billion gallons of water per year for residential, commercial, and agricultural uses in upcountry, east, and central Maui. Partners of the EMWP include the County of Maui, East Maui Irrigation Company, Haleakala National Park, Haleakala Ranch, Hana Ranch, the Department of Land and Natural Resources, and the Nature Conservancy of Hawai'i.

In addition to protecting critical watershed, the conservation fencing will protect native forests containing rare plants and

Kaua'i Notices

Kaua'i Lagoons Resort General Plan Amendment (HRS 343 DEA)

District: Lihue
TMK: (4) 3-5-01:6, 27 (por.), 165, 168, 172 (por.) & 173
Proposing Agency: County of Kaua'i, Planning Department
4444 Rice St., Ste. 473, Lihue, HI 96766
Contact: Bryan Mamaclay (241-6677)

Determination Agency: Same as above.
Consultant: Wilson Okamoto Corporation
1907 S Beretania St., Honolulu, HI 96826
Contact: Ronald Funakoshi (946-2277)

Public Comment Deadline: February 22, 2006
Status: Draft environmental assessment (DEA) notice pending 30-day public comment. Address comments to the proposing agency with copies to the consultant and OEQC.

Permits Required: Class IV Zoning Permit

The lands affected by the proposed changes are located in Lihue, Kaua'i immediately north and east of the Kaua'i Marriott resort facilities and further bounded by the Lihue Airport runway system immediately to the northwest and east further identified by Tax Map Keys: 3-5-01: Por. 27, 165, Por. 168, Por. 172, and 173.

Kaua'i Lagoons LLC, KD Golf Ownership, and KD Kapule LLC (hereinafter "Applicant") is seeking a General Plan Amendment to amend the Kaua'i General Plan designation of approximately 190 acres from "Open" to "Resort". The Applicant is also concurrently seeking a State Land Use District Boundary Amendment to amend approximately 15 acres from Agricultural District to Urban District and a Zoning Amendment to amend approximately 81.7 acres from Open District (O) to Residential District (R-2) and Resort District (RR-20), and from Limited Industrial District (I-L) to Residential District (R-20) to allow a mix of single family residential lots, resort-residential condominium units, and multi-family residential units. The Zoning Amendment petition also includes an expansion of the existing Kaua'i Lagoons Resort and Kaua'i Marriott Visitor Destination Area boundaries to recognize additional land area that may be further occupied by resort-residential development.

Federal Consistency Reviews

The Hawai'i Coastal Zone Management (CZM) Program has received the following federal actions to review for consistency with the CZM objectives and policies in Chapter 205A, Hawai'i Revised Statutes. This public notice is being provided in accordance with section 306(d) (14) of the National Coastal Zone Management Act of 1972, as amended. For general information about CZM federal consistency please call John Nakagawa with the Hawai'i CZM Program at 587-2878. For neighboring islands use the following toll free numbers: Lana'i & Moloka'i: 468-4644 x72878, Kaua'i: 274-3141 x72878, Maui: 984-2400 x72878 or Hawai'i: 974-4000 x72878. For specific information or questions about an action listed below please contact the CZM staff person identified for each action. Federally mandated deadlines require that comments be received by the date specified for each CZM consistency review and can be mailed to: Office of Planning, Department of Business, Economic Development and Tourism, P.O. Box 2359, Honolulu, Hawai'i 96804 or, fax comments to the Hawai'i CZM Program at 587-2899.

(1) U.S. Coast Guard Proposed Revision of Salvage and Marine Firefighting Requirements in Vessel Response Plans for Tank Vessels Carrying Oil

Federal Action: Federal Agency Activity
Federal Agency: U.S. Coast Guard
Contact: Mr. Francis Esposito, (202) 267-4012
Location: Navigable waters and the U.S. Exclusive Economic Zone surrounding the State of Hawai'i
CZM Contact: John Nakagawa, 587-2878
Proposed Action:

The U.S. Coast Guard is proposing to revise salvage and marine firefighting identification and response timeframe requirements in Vessel Response Plans (VRPs) under 33 CFR Part 155. The proposed revisions have two components. First, the revisions would clarify the salvage and marine firefighting services that must be identified in VRPs. These changes would assure that appropriate salvage and marine firefighting services are identified and available for responding to incidents up to and including the worst case discharge, defined as a discharge in adverse weather conditions of a vessel's entire oil cargo. Second, the revisions would also establish clearly defined response time planning standards for each of the required salvage and marine firefighting services. These revisions would apply only to commercial tank vessels carrying groups I through IV petroleum oil as a primary cargo within the navigable waters and exclusive economic zone of the U.S. The Draft Programmatic Environmental Assessment can be viewed at the Federal Department of Transportation Docket Management System Web Site at <http://dms.dot.gov> and using the USCG docket number USCG-1998-3417.

Comments Due: February 6, 2006

(2) Hawai'i Belt Road Drainage Improvements, North Hilo & Hamakua, Hawai'i

Applicant: State of Hawai'i Department of Transportation
Federal Action: Federal Permit
Federal Agency: U.S. Army Corps of Engineers
Location: Hawai'i Belt Road Mile Post 19.36 (unnamed gulch), North Hilo and Mile Post 39.00 (Kuku'ilamalama'e Gulch), Hamakua, Hawai'i
CZM Contact: John Nakagawa, 587-2878
Proposed Action:

Replace the culvert crossing at Hawai'i Belt Road Mile Post 19.36 with a 90-foot long, single box culvert structure which will increase the stream bottom by 300 square feet and involve 180 cubic yards of fill below the Ordinary High Water Mark. At Mile Post 39.00 the proposed work on the existing culvert crossing will involve repair of culvert aprons and drainage ramp, and installing temporary construction access.

Comments Due: February 6, 2006

Conservation District Notices

Conservation District Use Permit

Persons interested in commenting on the following Conservation District Use Application (Department Permit) must submit comments to the Department of Land and Natural Resources. Also, anyone interested in receiving notification of determination on Conservation District Use Applications (Department Permits) must submit requests to DLNR that include the following information:

1. Name and address of the requestor.
2. The permit for which the requestor would like to receive notice, notice of determination; and
3. The date the notice was initially published in the Environmental Notice.

Both comments and requests for notification of determinations must be submitted to DLNR within thirty days from the initial date that the notice was published in the Environmental Notice. Please send comments and requests to:

State of Hawai'i, Department of Land and Natural Resources
Office of Conservation and Coastal Lands
1151 Punchbowl Street, Room 131, Honolulu, Hawai'i 96813

While DLNR will make every effort to notify those interested in the subject CDUA, it is not obligated to notify any person not strictly complying with the above requirements. For more information please contact Dawn Hegger at 587-0380.

Deadline: February 7, 2006

Environmental Announcements

Kalihi Valley Nature Park Resident Caretaker

Kokua Kalihi Valley Comprehensive Family Services is seeking a motivated environmentalist to fill the position of Kalihi Valley Nature Park Resident Caretaker. This position is responsible for the day-to-day operation of the Kalihi Valley Nature Park and Active Living Center including routine maintenance and grounds keeping, basic security and safety programs. This position will also assist with development and operation of park programs such as community gardens, archaeological restoration, native reforestation, hiking and camping facilities.

Effective verbal and written communication skills, basic computer skills, ability to work in a multi-cultural setting and high school diploma required; college, training in mechanics, carpentry, plumbing, painting and grounds keeping or landscaping preferred. One year of experience working with parks or land management organizing volunteers and working in a community setting preferred.

Work performed will be traded for living quarters at the Kalihi Valley Nature Park and Active Living Center.

To apply submit resume and cover letter to:

**Kokua Kalihi Valley
Attn: Roz Wong
2239 North School Street
Honolulu, HI 96819
(808)791-9421 X406
Fax: 848-0976**

JANUARY 23, 2006

Grants Available under the Beaches Environmental Assessment and Coastal Health Act

The U.S. Environmental Protection Agency (EPA) announced the availability of grants for implementation of coastal recreation water monitoring and public notification under Section 406 of the Clean Water Act as amended by Public Law No. 106-284, 114 Stat. 970 (2000). States must submit applications on or before April 11, 2006. Applications must be sent to Terrence Fleming, U.S. Environmental Protection Agency, Region IX, 75 Hawthorne Street, WTR-2, San Francisco, California 94105. For details, contact Mr. Fleming by telephone at (415) 972-3462, or by facsimile at (415) 947-3537, or by electronic mail at fleming.terrence@epa.gov (see, 71 F.R. 1744, January 11, 2006).

Draft Revised Recovery Plan for the Aga or Mariana Crow

The U.S. Fish and Wildlife Service (FWS) announced the availability of a draft revised recovery plan for the Aga or Mariana Crow (*Corvus kubaryi*) for public review and comment. Comments on this plan must be received on or before March 13, 2006. This plan is available on the Internet at <http://endangered.fws.gov/recovery/index.html#plans>. For details, contact Fred Amidon, Biologist of the Pacific Islands Fish and Wildlife Office, 300 Ala Moana Boulevard, Room 3-122, Box 50088, Honolulu, Hawai'i 96850, or by telephone at (808) 792-9400 (see, 71 F.R. 1766, January 11, 2006).

Environmental Council Notices

February 8, 2006, Meetings at Various Times in Leiopapa A Kamehameha

The Environmental Council of the Department of Health and its various standing and ad hoc committees are scheduled to meet on Wednesday, February 8, 2006, at various times and in various rooms in Leiopapa A Kamehameha, located at 235 South Beretania Street, Honolulu, O'ahu. For more information, please call the Office of Environmental Quality Control at (808) 586-4185. To be placed on an electronic mail notification list of Environmental Council meetings, please send an electronic mail to Leslie Segundo, Environmental Health Specialist, Office of Environmental Quality Control at ehs001oeqc@doh.hawaii.gov. The meeting notices and agenda of the Environmental Council are also available on the State's Calendar Meeting Announcements Internet Website at the following Uniform Resource Locator (URL):

http://www.ehawaii.gov/org/serv/eventcal?PF=hic&Clist=81&_action=View+Calendar.
