Waimanalo Gulch Landfill Expansion

The Dept. of Environmental Services of the City & County of Honolulu (CCH) has submitted an EIS preparation notice for the Waimanalo Gulch Sanitary Landfill expansion. It provides municipal and solid waste disposal for all of Oʻahu, including Municipal Solid Waste (MSW); recycling residue; and Honolulu Program of Waste Energy Recovery (H-POWER) ash, residue, and unacceptable waste. The landfill has been in operation since 1989 and has capacity remaining for at least 15 years. CCH proposes to expand use beyond its currently permitted closure on May 1, 2008 (excluding H-POWER ash, residue, and unacceptable waste).

The landfill is oriented in a roughly north-south alignment. Approximately 92.5 acres of the 200 acre property is unused and is proposed for landfill expansion. It is located on the leeward coast in Waimanalo Gulch, Kahe Valley, Oʻahu and operated by Waste Management of Hawaiʻi, Inc. Comments and requests for consulted party status must be received by December 26, 2006. See page 4 for more details.

2007 Submission Calendar and OEQC Plans to go Paperless

It's that time of year again. We have included in this issue the 2007 submission calendar and our subscription renewal form. We are asking that you complete the form if you are interested in remaining on the mailing list as we will be going paperless by the end of 2007. Only those who renew their subscriptions will be receiving The Environmental Notice by mail. The decision to go paperless will eliminate using tax monies for paper, printing and postage.

RECYCLING COMMUNITY CLEAN-UP PROJECT

Fundraiser for – Aloha Aina #22 BYU, Hawaiʻi Parking lot, La’ie
SATURDAY, Dec 9, 2006–8:00 AM–2:00 PM

Have any of the following items that you want to get rid of? Scrap metal, appliances, pipes, beams, car parts, bicycles
• All items collected will be recycled and their cash value will be donated back to the community.

NO FLUIDS IN ANY KIND OF DONATED ITEMS
LOADS WILL BE REJECTED
• Please call Andy Jamila -479-8367 or Rene Mansho-306-18767 for curbside pick-up service.
• Please call also if you can volunteer your time and/or a van/pick-up truck. Mahalo nui loa!
We provide access to our activities without regard to race, color, national origin (including language), age, sex, religion, or disability. Write or call OEQC or our departmental Affirmative Action Officer at Box 3378, Honolulu, HI 96801-3378 or at (808) 586-4616 (voice/TTY) within 180 days of a problem. OEQC intends to make the information in this bulletin accessible to everyone. Individuals that require this material in a different format (such as large type or braille), should contact our office for assistance.
Mauka Lani Elementary School, Eight-Classroom Building (HRS 343 DEA)

District: 'Ewa  
TMK: (1)9-2-19:22  
Proposing Agency: Dept of Education, Office of Business Services, Facilities, Kalanimoku Building, 1151 Punchbowl, Rm. 431, Honolulu, HI 96810-0119  
Contact: George Coates (586-0721)

Determination Agency: Same as above.  
Consultant: Kusao & Kurahashi, Inc.  
2752 Woodlawn Dr., Ste. 5-202, Honolulu, HI 96822  
Contact: Ardis Shaw-Kim (988-2231)

Public Comment Deadline: December 26, 2006  
Status: Draft environmental assessment (DEA) notice pending 30-day public comment. Address comments to the proposing agency with copies to the consultant and OEQC.

Permits Required: Building Permit, Grading Permit, Height Waiver

The State Department of Education proposes to construct a new two-story, eight-classroom building on the existing Maukalani Elementary School campus in Makakilo. The structure will front the existing parking lot located off of Panana Street. This new building will serve special education students and the general student population who are now schooled primarily in portable buildings on the school campus. Accordingly, school enrollment is not anticipated to be affected by the proposed project.

The building has been designed to be completed in two phases in consideration of funding availability. Phase one will include a total of five classrooms with rooms for various other support functions. The smaller, Phase two, will include three class rooms and will also include a faculty room. The phase one and phase two structures will be connected by a breezeway with an open, uncovered courtyard between the buildings. In general the ground floor plan for both phases focuses on special education needs with the top floor having general classrooms.

The classroom building will be built of concrete and CMU and will have a metal roof. A sidewalk will be constructed around the building.

The sloping building site will be excavated to allow the finished floor of the building to be at an elevation of 747 feet about mean sea level; about the same elevation as the adjacent parking lot.

The applicant is proposing additional landscaping and an irrigation system to support the new plantings.
Waimanalo Gulch Sanitary Landfill Expansion, Wai‘anae (HRS 343 EISP)

District: Wai‘anae
TMK: (1) 9-2-003:072 & 073
Applicant: Dept of Environmental Services
1000 Uluohia St., Ste. 308, Kapolei, HI 96707

Accepting Authority: C & C, Department of Planning & Permitting
650 South King St., 7th Flr., Honolulu, HI 96813
Contact: Henry Eng (523-4432)

Consultant: R.M. Towill Corporation
420 Waiakamilo Rd., Ste. 411, Honolulu, HI 96817
Contact: Brian Takeda (842-1133)

Status: Environmental Impact Statement Preparation Notice, pending 30-day public comment. Address comments to the applicant with copies to the accepting authority, consultant and OEQC.

Public Comment Deadline: December 26, 2006
Permits Required: State Special Use Permit, NPDES Permits, DOH Landfill Operating Permit

Waimanalo Gulch Sanitary Landfill is an important City & County of Honolulu facility providing municipal and solid waste disposal for all the communities of O‘ahu. Refuse that is disposed of at the landfill includes Municipal Solid Waste (MSW); recycling residue; and, Honolulu Program of Waste Energy Recovery (H-POWER) ash, residue, and unacceptable waste. The landfill has been in operation since 1989 and has capacity remaining for at least 15 years. The City & County of Honolulu proposes to expand the use of the Waimanalo Gulch Sanitary Landfill beyond May 1, 2008, when the approved State Special Use Permit calls for the closure of the landfill from the acceptance of municipal waste (excluding H-POWER ash, residue, and unacceptable waste).

The Waimanalo Gulch Sanitary Landfill is located in Waimanalo Gulch, Kahe Valley, O‘ahu. The landfill is oriented in a roughly north-south alignment. Approximately 92.5 acres of the 200 acre property is unused and is proposed for landfill expansion. The property is owned by the City & County of Honolulu, and under jurisdiction of the Department of Environmental Services (ENV). The landfill is operated for ENV by Waste Management of Hawai‘i, Inc.
Kapolei Harborside Center (HRS 343 FEIS)

District: ‘Ewa
TMK: (1) 9-1-14:33 (por.), 9-1-14:34, 35 & 9-1-15:20 (por.)

Applicant: Kapolei Property Development, LLC
1001 Kamokila Blvd., Ste. 250, Kapolei HI 96707
Contact: Steve Kelly (674-3289)

Accepting Authority: State of Hawai‘i, Land Use Commission
P.O. Box 2359, Honolulu, HI 96804
Contact: Anthony Ching (587-3822)

Consultant: Group 70 International, Inc.
925 Bethel St., 5th Flr., Honolulu, HI 96813
Contact: Jeff Overton (523-5866)

Status: Accepted by the State Land Use Commission on November 2, 2006

Permits Required: State Land Use Boundary Amendment, Zoning, Grading and Building Permits; construction Related Permits; National Pollution Discharge Elimination System Approval; Water; Drainage, Wastewater and Roadway Master Plans and Approvals, and a Sewer Connection Permit

The site of the proposed Kapolei Harborside Center is 345 acres of former agricultural land. The majority of the site is vacant, though existing on-site uses include a nursery, a green waste collection and compost processing operation, fill material stockpiling, and a coal conveyor belt that transports coal from the harbor to power stations to the south of the site. All of the current and planned land uses surrounding the project area are urban, with no adjacent or nearby agricultural activities. A range of industrial uses is planned for Kapolei Harborside Center, which is consistent with City and County of Honolulu General Plan and ‘Ewa Development Plan.

The industrial development in this location will provide new job opportunities for the expanding communities of Kapolei, ‘Ewa, the Wai‘anae Coast and Central O‘ahu. The requested changes from Agriculture to Urban will further urbanize the area and reinforce Kapolei as the Secondary Urban Center. Due to its proximity to Kalaeloa/Barbers Point Harbor, providing designated areas for industrial land and maritime support activities will help foster a favorable business climate in Hawai‘i. The project will offer about 250 acres of industrial, warehouse and related business uses. The remaining acreage will be used for drainage, roadways, a wastewater pumping station, a sinkhole preserve area, and a capped hazardous materials area.

This FEIS provides an overview of the technical, environmental, social and economic aspects of the proposed project, identifies possible impacts of the proposed project, their significance, and strategies to mitigate potential impacts.
Kapalua Coastal Trail (HRS 343 DEA)

District: Lahaina
TMK: (2)-4-2-04:04, 10, 12, 14-17, 24, 25, 32, 34, 37, & 43; 4-2-05:41, 42 & 49
Applicant: Maui Land & Pineapple Company, Inc.
1000 Kapalua Dr., Lahaina, HI 96761
Contact: Yarrow Flower (669-5622)
Approving Agency: Maui Planning Department/ Maui Planning Commission, 250 S High St., Wailuku, HI 96793
Contact: Michael Foley (270-7735)
Consultant: PBR Hawai‘i, ASB Tower, 1001 Bishop St., Ste. 650, Honolulu, HI 96813
Contact: Tom Schnell (521-5631)

Public Comment Deadline: December 26, 2006
Status: Draft environmental assessment (DEA) notice pending 30-day public comment. Address comments to the applicant with copies to the approving agency, consultant and OEQC.

Permits Required: SMA Permit; Shoreline Setback Structure/Activity Determination; Conservation District Use Permit

The Kapalua Coastal Trail will stretch 2.5 miles from Lower Honoapi‘ilani Road in the Kapalua Resort to Honolua Bay. It will greatly increase lateral public shoreline access and connect five beaches. Three spur trails bring the total trail length to 3.5 miles and will allow trail users to detour off the main Trail route to experience unique places, such as Hawea Point and Namalu Bay, a Hawaiian plant arboretum, and the scenic Makaluapuna Point lava formation, known as “dragon’s teeth.”

The goal of the Trail is to create a unified trail system that is aesthetically and culturally appropriate to the Kapalua setting, and provide a unique and memorable nature experience for trail users. Trail users will be rewarded with dramatic vistas of the shoreline, neighboring islands, and resort features, as well as exposure to important aspects of Hawaiian culture, geology, and plant and animal life. Other Trail benefits include: increased shoreline access; health benefits of exercise; and transportation routes providing alternatives to automobile transportation. The Trail is not anticipated to result in significant negative impacts. No degradation of environmental quality is anticipated.

Various public shoreline access points, parking spaces, and related facilities provided within Kapalua Resort already allow extensive public access to the shoreline and ocean. The Trail will link these existing public shoreline access points and facilities to a continuous, linear trail, thereby greatly increasing lateral public shoreline access from Kapalua to Honolua Bay.
Kuraoka Single-Family Dwelling (HRS 343 FEA-FONSI)

District: Hanalei
TMK: (4) 5-9-02-059
Applicant: Exchange Accommodators, Inc.,
P.O. Box 223501, Princeville, HI 96722
Contact: Jon Anderton (826-9588)

Approving Agency: Dept. of Land & Natural Resources
P.O. Box 621, Honolulu, HI 96809
Contact: Samuel Lemmo (587-0380)

Consultant: Belles Graham Proudfoot & Wilson, LLP
4334 Rice St., Ste. 202, Lihue, HI 96766
Contact: Max Graham, Jr. (246-6962)

Status: Final environmental assessment (FEA) and Finding of No Significant Impact (FONSI).

Permits Required: Conservation District Use Permit

This constitutes a proposal to build a single-family dwelling on property located at Ha'aena, Hanalei, Kaua‘i, Hawai‘i, bearing Tax Key No.: (4) 5-9-02-059. The lot contains 10,942 square feet, more or less. The proposed two bedroom, two bath dwelling will contain approximately 2,157.5 square feet (1,357.5 square feet of livable area, 80 square feet for the stairwell, and 720 square feet of lanai area), will be constructed primarily of wood, with a foundation of concrete columns on concrete footings, and will be primary residence of David R. Kuraoka and his wife. The dwelling will be approximately 28’ in height (the second floor is elevated to meet Flood Ordinance requirements, and the first floor consists of an open carport and storage area). No major impacts are expected to result, as the property previously had a single-family dwelling that was built in about 1937, and is in a neighborhood with other single-family residences. All utilities that are required to serve the home will be connected at the expense of the applicant, and no public funds are required to be expended in this proposal. The home will be painted in a “plantation green” color. Wastewater will be handled through a septic system meeting Department of Health requirements.

A Conservation District Use Permit was previously issued for this property in October 2003, for a single-family dwelling. However, since construction of the dwelling was not commenced or completed within the time required by the Board of Land and Natural Resources, the permit expired.
Village at Po‘ipu (HRS 343 FEIS)

District: Koloa
TMK: (4) 2-8-13:01, 2-8-14:01-04, 2-8-14:19, 2-8-14:37 and Lot 19B (Hapa Road)
Applicant: Eric A. Knudsen Trust
P.O. Box 759, Kalaheo, HI 96741
Contact: Stacey Wong (332-5676)
Accepting Authority: State Land Use Commission
P.O. Box 2359, Honolulu, HI 96804
Contact: Anthony Ching (587-3822)
Consultant: PBR Hawai‘i, ASB Tower
1001 Bishop St., Ste. 650, Honolulu, HI 96813
Contact: Kimi Yuen (521-5631)
Status: Accepted by the State Land Use Commission on November 2, 2006
Permits Required: State Land Use Boundary Amendment, NPDES, Archaeological Approvals, Grading/Building Permits, Subdivision Approval

The Eric A. Knudsen Trust proposes to develop a residential community called the Village at Po‘ipu, to be located in Po‘ipu, Kaua‘i. The project will include a mix of single-family and multi-family residential units, archaeological preserves, parks, and bicycle/pedestrian paths.

Located in an area designated as “Residential Community” on the Kaua‘i County General Plan, the project is expected to fill some of South Kaua‘i’s residential growth needs by providing a variety of housing options while preserving significant archaeological sites. As planned, the project will contain 350-503 residential units, 12 acres of parks, and over 23 acres of archaeological preserves. Bicycle and pedestrian paths will be built throughout the project including a shared path in Hapa Road.

Positive impacts include increasing housing for the region, the preservation of archaeological sites, creation of parks and open space within the community, improved runoff quality, and positive economic impacts. Other impacts include changes to the land use and character of the property from pastureland scrub to residential uses, potential increases in traffic, greater demands on public infrastructure systems and services, and short-term impacts to air quality and noise levels due to construction.

This EIS has been prepared to address HRS Chapter 343 requirements and to support a State Land Use District Boundary Amendment (SLUDBA) for a portion of the project site. The State Land Use Commission accepted the Final EIS at its hearing on November 2, 2006.
Federal Consistency Reviews

The Hawai‘i Coastal Zone Management (CZM) Program has received the following federal actions to review for consistency with the CZM objectives and policies in Chapter 205A, Hawai‘i Revised Statutes. This public notice is being provided in accordance with section 306(d) (14) of the National Coastal Zone Management Act of 1972, as amended. For general information about CZM federal consistency please call John Nakagawa with the Hawai‘i CZM Program at 587-2878. For neighboring islands use the following toll free numbers: Lana‘i & Moloka‘i: 468-4644 x72878, Kaua‘i: 274-3141 x72878, Maui: 984-2400 x72878 or Hawai‘i: 974-4000 x72878.

For specific information or questions about an action listed below please contact the CZM staff person identified for each action. Federally mandated deadlines require that comments be received by the date specified for each CZM consistency review and can be mailed to:

Office of Planning, Department of Business, Economic Development and Tourism
P.O. Box 2359, Honolulu, Hawai‘i 96804
Or, fax comments to the Hawai‘i CZM Program at 587-2899.

Fort Barrette Road Widening Project, ‘Ewa, O‘ahu

Applicant: State of Hawai‘i Department of Transportation, Highways Division
Contact: Ms. Li Nah Okita, 692-7581
Federal Action: Federal Funding
Federal Agency: Federal Highway Administration
Location: Fort Barrette Road, ‘Ewa, O‘ahu
Comments Due: December 8, 2006
CZM Contact: John Nakagawa, 587-2878
Proposed Action:

The applicant proposes to use federal funds from the Federal Highway Administration to widen Fort Barrette Road in ‘Ewa, Oahu, to relieve existing traffic congestion. Fort Barrette Road would be widened from two-lanes to four-lanes between Farrington Highway and the O‘ahu Railway and Land (OR&L) Right-of-Way. In conjunction with the roadway widening, the project proposal includes installing sidewalks and bike lanes, upgrading street lights and other safety features, and improving the railroad crossing of the OR&L Right-of-Way near the southern terminus of Fort Barrette Road.

Special Management Area (SMA) Minor Permits

Pursuant to Hawai‘i Revised Statute (HRS) 205A-30, the following is a list of SMA Minor permits that have been approved or are pending by the respective county/state agency. For more information about any of the listed permits, please contact the appropriate county/state Planning Department. City & County of Honolulu (523-4131); Hawai‘i County (961-8288); Kaua‘i County (241-6677); Maui County (270-7735); Kaka‘ako (Honolulu) or Kalaeloa (Barbers Point) Community Development District (587-2840).

Federal Consistency Reviews

The Hawai‘i Coastal Zone Management (CZM) Program has received the following federal actions to review for consistency with the CZM objectives and policies in Chapter 205A, Hawai‘i Revised Statutes. This public notice is being provided in accordance with section 306(d) (14) of the National Coastal Zone Management Act of 1972, as amended. For general information about CZM federal consistency please call John Nakagawa with the Hawai‘i CZM Program at 587-2878. For neighboring islands use the following toll free numbers: Lana‘i & Moloka‘i: 468-4644 x72878, Kaua‘i: 274-3141 x72878, Maui: 984-2400 x72878 or Hawai‘i: 974-4000 x72878.

For specific information or questions about an action listed below please contact the CZM staff person identified for each action. Federally mandated deadlines require that comments be received by the date specified for each CZM consistency review and can be mailed to: Office of Planning, Department of Business, Economic Development and Tourism; P.O. Box 2359, Honolulu, Hawai‘i 96804; Or, fax comments to the Hawai‘i CZM Program at 587-2899.

Kalaniana‘ole Highway Improvements at Makapu‘u Point

File No.: CDUA OA-3390
Applicant: State Department of Transportation, Highways Division
Contact: Earl Matsukawa (946-2277)
Location: Makapu‘u, Waimanalo, island of O‘ahu
TMK: (1) 4-1-014:002 & 013
HRS Determination: FONSI published in the August 23, 2006 Environmental Notice

Proposed Action:

Project consists of rockfall mitigation on the mauka side of Kalaniana‘ole Highway, road stabilization and other roadway improvements along the highway. The proposed rockfall protection measure include above slope terracing and construction of a 12” high linked steel impact barrier, excavating and removing talus material close to the highway and creating a shallow swale catchment area. The proposed road stabilization shall include three sections of the lower Makapu‘u Lookout that shall be reconstructed to stabilize the sub-grade and prevent further cracking and subsidence. The areas shall be excavated and unsuitable sub-grade material shall be removed. The area shall be backfilled, compacted and erosion-control netting shall be installed over the edge of the makai slope prior to resurfacing the roadway. A “two layer” concrete barrier wall H" 950 ft. in length along the makai side of the highway and erosion control measures are also proposed. DOT is also considering constructing a 10” metal railing atop the finished barrier wall. In addition, new guardrails, under grounding utilities, resurfacing and signage are also proposed.
The Federal Aviation Administration (FAA), in cooperation with the National Park Service (NPS), began development of an Air Tour Management Plan (ATMP) and associated Environmental Assessment (EA) for Haleakala National Park in February 2003. The ATMP is being established pursuant to the National Parks Air Tour Management Act of 2000 (Pub. L. 106-181) and its implementing regulations contained in Title 14, Code of Federal Regulations, Part 136, National Parks Air Tour Management. The objective of the ATMP is to develop acceptable and effective measures to mitigate or prevent the significant adverse impacts, if any, of commercial air tour operations upon the natural resources, cultural resources, and visitor experiences of Haleakala National Park.

The FAA and NPS have now decided to proceed with development of an Environmental Impact Statement (EIS) for this project. This decision is based on information received through the EA scoping process, the environmental analysis completed by the Agencies to date, the consideration of preliminary ATMP alternatives, and through consultations conducted pursuant to Section 106 of the National Historic Preservation Act.

By this notice, the FAA and NPS are initiating a 60-day scoping period for this EIS. This timeframe is provided due to the major holidays occurring during this public review period. The 60-day scoping comment period will commence as of November 15, 2006. Please submit any written response you may have within 60 days from the date of this Notice or no later than January 16, 2007.

The FAA is now inviting the public, agencies, and other interested parties to provide written comments, suggestions, and input regarding: (1) The scope, issues, and concerns related to the development of the ATMP for Haleakala National Park; (2) the scope of issues and the identification of significant issues regarding commercial air tours and their potential impacts to be addressed in the NEPA process; (3) the potential effects of commercial air tours on natural resources, congressionally designated wilderness, cultural resources, and the visitor experience; (4) preliminary ATMP alternatives; and, (5) past, present, and reasonably foreseeable future actions which, when considered with ATMP alternatives, may result in significant cumulative impacts. The FAA requests that comments be as specific as possible in response to actions that are being proposed under this notice. Comments previously submitted in response to the EA scoping will not need to be re-submitted, as they will be considered as part of the EIS process and record. No additional scoping meetings are scheduled.

Scoping documents that describe the Haleakala National Park ATMP project in greater detail and the preliminary ATMP alternatives under consideration are available at the following locations:

- Haleakala National Park, Mile Marker 11, Crater Road, Kula, HI 96790.
- National Park Service, Pacific West Region, 300 Ala Moana Blvd, Box 50165, Honolulu, HI 96850.
- Hawai‘i State Library, Hawai‘i Documents Center, 478 South King Street, Honolulu, HI 96813.
- Hana Public & School Library, 4111 Hana Highway, Hana, HI 96713.
- Makawao Public Library, 1159 Makawao Avenue, Makawao, HI 96768.
- Kahului Public Library, 90 School Street, Kahului, HI 96732.
- Maui Community College Library, 310 Ka‘ahumanu Avenue, Kahului, HI 96732.
We are advising the public that the Animal and Plant Health Inspection Service has prepared a site-specific environmental assessment and a pest risk assessment relative to a request to allow the interstate movement of garbage from Hawai‘i to a landfill in the State of Washington. The environmental assessment contains a general assessment of the potential environmental effects associated with moving garbage interstate from Hawai‘i to Washington, subject to certain pest risk mitigation measures and documents our review and analysis of the environmental impacts associated with, and alternatives to, the proposed action. The pest risk assessment evaluates the risks associated with the interstate movement of garbage from Hawai‘i to the Roosevelt Regional Landfill.

The environmental assessment and pest risk assessment may be viewed on the Internet on the Regulations.gov Web site. You may request paper copies of the documents by calling or writing to Ms. Shannon Hamm, Assistant Deputy Administrator, Policy and Program Development, APHIS, 4700 River Road Unit 20, Riverdale, MD 20737-1231; (301) 725-3818. Street address: 15000 Aviation Blvd, Lawndale, CA 90261. E-mail: Pete.Ciesla@faa.gov. Park specific information can be obtained from Marilyn Parris, Superintendent, Haleakala National Park, Mile Marker 11, Crater Road, Kula, HI 96790. Telephone: (808) 572-4401. E-mail: Marilyn_H_Parris@nps.gov.[FR Doc. E6-19202 Filed 11-14-06; 8:45 am] [FR: Nov 15, 2006 (Vol. 71, No 220)]

Interstate Movement of Garbage from Hawai‘i; Availability of an Environmental Assessment and a Pest Risk Assessment

We are advising the public that the Animal and Plant Health Inspection Service has prepared a site-specific environmental assessment and a pest risk assessment relative to a request to allow the interstate movement of garbage from Hawai‘i to a landfill in the State of Washington. The environmental assessment contains a general assessment of the potential environmental effects associated with moving garbage interstate from Hawai‘i to Washington, subject to certain pest risk mitigation measures and documents our review and analysis of the environmental impacts associated with, and alternatives to, the proposed action. The pest risk assessment evaluates the risks associated with the interstate movement of garbage from Hawai‘i to the Roosevelt Regional Landfill.

The environmental assessment and pest risk assessment may be viewed on the Internet on the Regulations.gov Web site. You may request paper copies of the documents by calling or writing to Ms. Shannon Hamm, Assistant Deputy Administrator, Policy and Program Development, APHIS, 4700 River Road Unit 20, Riverdale, MD 20737-1231; (301) 734-4957.

You may submit comments by either of the following methods:

Federal eRulemaking Portal: Go to http://www.regulations.gov, select “Animal and Plant Health Inspection Service” from the agency drop-down menu, then click “Submit.” In the Docket ID column, select Docket No. APHIS-2006-0172 to submit or view public comments and to view supporting and related materials available electronically.

You must identify the docket number FAA-2006-26113 at the beginning of your comments. If you wish to receive confirmation that your comments were received, include a self-addressed, stamped postcard. You may also submit comments and review the public docket on the Internet at http://dms.dot.gov by using the above docket number. Comments that were previously received in response to the EA scoping may also be reviewed at this Web site under Docket No. FAA-2004-17174.

For further information contact: Peter F. Ciesla, Air Tour Management Plan Program Manager, Executive Resource Staff, AWP-4 Federal Aviation Administration Western-Pacific Region. P.O. Box 92007, Los Angeles, CA 90009-2007. Telephone: (310) 725-3818. Street address: 15000 Aviation Blvd, Lawndale, CA 90261. E-mail: Pete.Ciesla@faa.gov. Park specific information can be obtained from Marilyn Parris, Superintendent, Haleakala National Park, Mile Marker 11, Crater Road, Kula, HI 96790. Telephone: (808) 572-4401. E-mail: Marilyn_H_Parris@nps.gov.[FR Doc. E6-19027 Filed 11-7-06; 8:45 am] [FR: Nov 8, 2006 (Vol. 71, No 216)]

**Note:** Please submit the following to OEQC no later than 4:30 p.m. of the submission day:

1. Agency Transmittal Letter
2. Four hard copies of EA/EIS — **OR** —
3. If submitting in pdf:
   a. 2 Hard copies of the EA/EIS
   b. 1 CD of the document in pdf format
4. OEQC Publication Form; and
5. Project summary on disk or by email

---

**Note:** Proof sheets will be sent out prior to publication if email address is provided at the time of submission.
2007 Subscription Renewal

To continue receiving *The Environmental Notice*, complete and send this form by January 1, 2007 or you will be dropped from the mailing list.

You have three ways to get your response to us before the deadline: 1) fax a copy of this form to (808) 586-4186, 2) email a note with your current mailing address as seen on your label and any corrections to oeqc@doh.hawaii.gov or 3) mail the form to:

Office of Environmental Quality Control, 235 S. Beretania Street, Room 702, Honolulu, Hawai`i 96813

☐ Please keep me on *The Environmental Notice* subscribers list.
☐ Please remove my name from the mailing list.
☐ I will continue to read *The Environmental Notice* on your website instead.

Please type or print legibly.

Open House Meeting – Reconstruction of Keaukaha Military Reservation

The Hawai`i Army National Guard (HIARNG) is proposing to transform Keaukaha Military Reservation (KMR), adjacent to Hilo International Airport, to function as the Keaukaha Joint Military Center (KJMC) for soldiers, airmen, veterans, and retirees living on the island of Hawai`i. Most current buildings would be demolished and the site rebuilt to include facilities for an Armed Forces Reserve Center (AFRC) with maintenance and storage facilities, Combined Support Maintenance Shop (CSMS), US Marine Corps maintenance and storage area, Hawai`i Air National Guard (HIANG) building, Army & Air Force Exchange Services (AAFES) building, Environmental Office, State Maintenance Area, US Army Corps of Engineers office, Hawai`i State Office of Veterans Services area, Combat Tracker School, and Training Site. The area of concern for this proposal is approximately 50-60 acres of previously developed land, and security would be upgraded, potentially restricting access to the Puna Trail from the Airport Access Road. Any environmental impacts anticipated from the construction and operation of the proposed KJMC will be evaluated in an Environmental Assessment (EA). It is anticipated that a Finding of No Significant Impact (FONSI) will be issued.

On Thursday, December 7, 2006, from 3:00 PM to 7:00 PM, there will be an open forum to provide an opportunity for interested agencies, groups, and members of the public to view and discuss the proposal and alternatives, and to ask questions and comment. The forum will be held at the Armory at KMR. For directions or other information, please call or e-mail Karl Buermeyer, HIARNG Environmental Office, 808-672-1265, karl.buermeyer@us.army.mil; or Russell Okoji at AMEC Earth and Environmental, 808-545-2462, ext 110, russell.okoji@amec.com.
