

The Environmental Notice

A semi-monthly periodic bulletin published by the Office of Environmental Quality Control pursuant to Section 343-3, Hawaii Revised Statutes

October 8, 2007

Correction – West Maui Medical Facility

The Office of Environmental Quality Control reports that the September 23, 2007, issue of the periodic bulletin (*The Environmental Notice*) at page 5, contained an error in the status of the West Maui Medical Facility (an applicant action before the County of Maui, Department of Planning) by listing the project as a draft environmental assessment. The issue also omitted the listing of the approving agency for the action. The documents (final environmental assessment and finding of no significant impact) for the West Maui Medical Facility sent by the County of Maui Planning Department were complete and timely received by the Office of Environmental Quality Control. A corrected notice has been published on page 5. The Office of Environmental Quality Control apologizes for the errors and for any inconvenience that they may have caused.

HYDRUS 3D Workshop

The University of Hawai'i at Manoa, Natural Resources and Environmental Management Department, and Water Resources Research Center are organizing a HYDRUS 3D workshop during November 12- 13 2007 in Honolulu. Training will be at the University of Hawai'i-Manoa and Housing will be in Waikiki, Honolulu, Hawai'i. The workshop begins with a detailed conceptual and mathematical description of water flow and solute transport processes in the vadose zone, followed by an overview of the use of finite element techniques for solving the governing flow and transport equations. Special attention is given to the highly nonlinear nature of the governing flow equation. Alternative methods for describing and modeling the hydraulic functions of unsaturated porous media are also described. "Hands on" computer sessions will provide participants an opportunity to become familiar with the Windows based RETC, STANMOD, HYDRUS 1D, HYDRUS 2D HYDRUS 3D software packages. Emphasis will be on the preparation of input data for a variety of applications, including flow and transport in a vadose zone, variably saturated flow through a dam, flow and transport to a tile drain, and two dimensional leachate migration from a landfill through the unsaturated zone into groundwater. Calibration will be discussed and demonstrated using both one and two dimensional model inversions. For More information visit this website (www.ctahr.Hawaii.Edu/Faresa/) and click on "What's New." For more information please contact: Professor Ali Fares, Natural Resources & Environmental Management Department, University of Hawai'i at Manoa, telephone (808) 956-6361, electronic

mail AFares@hawaii.edu, or Professor A. I. El Kadi, Department of Geology and Geophysics and Water Resources Research Center (WRRC), University of Hawai'i at Manoa, Honolulu, POST Building, Room 709, telephone (808) 956-6331, electronic mail elkadi@hawaii.edu.

Environmental Council Meetings on Friday, October 12, 2007

The State Environmental Council will meet on Friday, October 12, 2007, in Room 702, Leiopapa A Kamehameha, 235 South Beretania Street at various times. Please see page 18 for additional details.

Ocean View Recycling Point and Convenience Center

The County of Hawai'i Department of Environmental Management has prepared a draft environmental impact statement (EIS) for the Ocean View Recycling Point and Convenience center in Ka'u. Comments on the draft EIS are due on November 23, 2007. Please see page 4 for additional details.

Kihei Residential Project

The State Land Use Commission is seeking public comment on a draft environmental impact statement for the Kihei Residential Project. See page 6 for additional details.

Correction - *Erythrina* Gall Wasp Biocontrol Agent Environmental Assessment

The State Department of Agriculture (DOA) has informed the Office of Environmental Quality Control that the draft environmental assessment (notice of which was published in the September 8, 2007, edition of the *Environmental Notice*) was not the correct one. They have requested that all copies of the document be destroyed because the environmental assessment is not an official USDA draft EA for this project. The DOA is still uncertain about whether or not USDA-APHIS-PPQ will need to produce an EA under the National Environmental Policy Act (NEPA) because *Eurytoma* n. sp. is not a plant pest organism. The basic difference between the previous EA and the current official EA is that the former was produced for the USDA to assist them in the event an EA was needed and the latter is an OFFICIAL State of Hawai'i EA to meet the requirements of Hawai'i Revised Statutes Chapter 343. Please see the new notice on page 8. Comments due on November 7, 2007.

Your guide to the Environmental Review Process

Draft Environmental Assessment

A project or action that may affect the environment cannot be implemented until an Environmental Assessment (EA) is prepared in accordance with Chapter 343, Hawai'i Revised Statutes (HRS). If the lead State or county agency (the *proposing agency* for agency actions, or the *approving agency* for applicant actions) anticipates that the project will have no significant environmental impact, then affected agencies, individuals, and organizations must be consulted and a Draft EA (DEA) is written and public notice is published in this periodic bulletin (see, section 343-3, HRS) known as the *Environmental Notice*. The public has 30 days to comment on the Draft EA from the date of the first notice.

Final Environmental Assessment and Finding of No Significant Impact

After the lead agency reviews the public comments, if it determines that the project will have no significant effect on the environment, and then it will prepare a Final EA (FEA) and issue a Finding of No Significant Impact (FONSI) formerly called a *Negative Declaration*. The Final EA must respond to all public comments. An Environmental Impact Statement will not be required and the project may now be implemented. The public has 30 days from the first notice of a FONSI in this periodic bulletin to ask a court to require the preparation of an EIS.

Final Environmental Assessment and Environmental Impact Statement Preparation Notice

When a lead agency decides that a project may have a significant environmental impact, an Environmental Impact Statement (EIS) must be prepared prior to implementing the project. Like the DEA (see *above*), affected agencies, individuals and organizations must be consulted prior to preparation of the final EA (FEA) and issuance of a determination called an EIS preparation notice (EISPN). (The EA is called *final*, to distinguish it from the draft, *above*). After the FEA is written by the lead agency, and notice of the FEA and EISPN is published in the this periodic bulletin, any agency, group, or individual has 30 days from the first publication of the EISPN to request to become a consulted party and to make written comments regarding the environmental effects of the proposed action. The public (including an applicant) has 60 days from the first notice of an EISPN in this periodic bulletin to ask a court to not require the preparation of an EIS.

Draft Environmental Impact Statement

After receiving the comments on the FEA and EISPN (see *above*), the lead agency or private applicant must prepare a Draft Environmental Impact Statement (DEIS) prior to project implementation. This document must completely disclose the likely impacts of a project. Direct, indirect and cumulative impacts must be discussed along with measures proposed to mitigate them. The public has 45 days from the first publication date in this periodic bulletin to comment on a DEIS. The DEIS must respond to comments received during the FEA-EISPN comment period in a *point-by-point* manner.

Final Environmental Impact Statement

After considering all public comments filed during the DEIS stage, the agency or applicant must prepare a Final EIS (FEIS). The FEIS must respond in a *point-by-point* manner to all comments from the draft stage. Requisite deeper analyses must be included in the FEIS. For applicant projects, the approving agency is authorized to accept the FEIS. For agency project the Governor or the county mayor is the accepting authority. Only after the EIS is accepted may the project be implemented.

Acceptability

If the FEIS is accepted, the law requires that notice of this be published in this periodic bulletin. The public has 60 days from the date of first notice of acceptance to ask a court to vacate the acceptance of an EIS. In the case of applicant actions, the law requires that an approving agency must make a determination on acceptance within thirty-days of receipt of the FEIS or the FEIS is deemed accepted. Also, for applicant actions, the law provides for an administrative appeal of a non-acceptance to the Environmental Council.

National Environmental Policy Act

The National Environmental Policy Act (NEPA) requires federal projects to prepare an EA or EIS. In many ways it is similar to Hawai'i's law. Some projects require both a state (and county) *and* federal EIS and the public comment procedure should be coordinated. Although not required by law, the OEQC publishes NEPA notices in this periodic bulletin to help keep the public informed of important federal actions.

Conservation District

Any use of land in the State Conservation District requires a Conservation District Use Application (CDUA). These applications are reviewed and approved by the Board of Land and Natural Resources (BLNR). Members of the public may intervene in the permit process. Notice of these permit applications is published in this periodic bulletin.

Special Management Area

The Special Management Area (SMA) is along the coastlines of all our islands and development in this area is generally regulated by Chapter 205A, HRS and county ordinance. A special subset of the SMA that is regulated by Chapter 343, HRS is the Shoreline Setback Area. Most development in this area requires a Special Management Permit (SMP). This periodic bulletin posts notice of these SMP applications to encourage public input.

Shoreline Certifications

State law requires that Hawai'i shorelines be surveyed and certified when necessary to clearly establish the shoreline setback (an area contained between the certified shoreline and a prescribe distance inland (usually 40 feet) from the certified shoreline). The public may participate in the process to help assure accurate regulatory boundaries. Private land owners often petition to have their shoreline certified by the State surveyor prior to construction. This periodic bulletin publishes notice from the Department of Land and Natural Resources of both shoreline certification applicants and of final certifications or rejections.

Environmental Council

The Environmental Council is a fifteen-member citizen board appointed by the Governor to advise the State on environmental concerns. The council makes the rules that govern the Environmental Impact Statement process. The agendas of their regular meetings are published on the Internet at <http://www.ehawaii.gov.org/calendar> and the public is invited to attend.

Exemption Lists

Government agencies must keep a list describing the minor activities they regularly perform that are declared exempt from the environmental review process. These lists are reviewed and approved by the Environmental Council. This periodic bulletin will publish an agency's draft exemption list for public comment prior to Council decision making, as well as notice of the Council's decision on the list.

Endangered Species

This periodic bulletin is required by Section 343-3(c), HRS, to publish notice of public comment periods or public hearings for habitat conservation plans (HCP), safe harbor agreements (SHA), or incidental take licenses (ITL) under the federal Endangered Species Act, as well as availability for public inspection of a proposed HCP or SHA, or a proposed ITL (as a part of an HCP or SHA).

Hawai'i Notices

October 8, 2007

Honua'ula Forest Reserve Reforestation Project (HRS 343 DEA)

District: North Kona
TMK: (3) 7-4-001:004, (3) 7-4-001:003, (3) 7-4-001:002, (3) 7-5-013:013, (3) 7-5-013:022

Proposing Agency: State of Hawai'i, Department of Natural Resources, Division of Forestry and Wildlife, 1151 Punchbowl Street, Room 325, Honolulu, Hawai'i 96813. Contact: Melissa Sprecher (808-587-4167)

Determination Agency: Same as above.

Comment Deadline: November 7, 2007

Status: Draft environmental assessment (DEA) notice pending 30-day public comment. Address comments to the proposing agency with copies to the consultant and OEQC.

Permits: County Building Permit, National Pollution Discharge Elimination System (NPDES) General

The Department of Land and Natural Resources Division of Forestry and Wildlife proposes to stimulate the regeneration of native koa (*Acacia koa*) in approximately 1,000 acres of heavily degraded native forest areas in the Honua'ula Forest Reserve through a combination of methods. The project area is located in the Honua'ula Forest Reserve Tract I, Tract II, and Tract III and the lands of Hienaloli in the North Kona District of Hawai'i Island. This area is adjacent to State and private lands historically used for long-term cattle grazing operations. Honua'ula Tract II and many of the surrounding properties were and are currently under active grazing management; and although the forest reserve boundaries were fenced, these fences were not always well-maintained and range cattle commonly crossed onto forest reserve lands. As a result of the almost continuous presence of feral cattle populations, native forest composition and structure have been heavily altered. This project seeks to increase koa forest recruitment and growth by removing barriers to germination, protecting the area from cattle browsing, and creating better access to management sites. Project activities will include installing a new fence line, removing feral cattle, conducting surface soil scarification, out-planting, and building two new access roads in the forest reserve. Over the long-term, this project is anticipated to have a net positive benefit on the environment as degraded forest is converted to a healthy native forest with improved watershed capacity and habitat for native species. In addition, public access and recreational opportunities will also be enhanced by expanding the existing road system to and in the reserve.

Ocean View Recycling Point and Convenience Center (HRS 343 DEIS)

District: Ka'u
TMK: (3rd) 9-2-150:060

Proposing Agency: County of Hawai'i, Department of Environmental Management, 25 Aupuni Street, Hilo, Hawai'i 96720. Contact: Nelson Ho (808-961-8083)

Accepting Authority: Mayor, County of Hawaii, 25 Aupuni Street, Hilo, Hawai'i 96720. Contact: Nelson Ho (808-961-8083).

Comment Deadline: November 23, 2007

Status: Draft environmental impact statement (DEIS) notice pending 45-day public comment. Address comments to the proposing agency with copies to the accepting authority, consultant and OEQC.

Permits: County Building Permit, County Plan Approval, County Subdivision Approval, County Grading Permit, State National Pollution Discharge Elimination System (NPDES) permit, State Underground injection control permit, State Historic Preservation Division Chapter 6E, HRS, Concurrence, State Solid Waste Management Permit.

The County of Hawai'i proposes to build a solid waste Recycling Point and Convenience Center in Ocean View. Over the last four years, the County has utilized community input in conducting an extensive search for candidate sites and has selected a preferred site based upon criteria including location, relief of site, land use, highway access and nearby residences. Residents of rapidly growing Ocean are obliged to travel more than 12 miles to dispose of rubbish and to recycle. Aside from inconvenience to residents, this has contributed to an epidemic of illegal dumping, which poses not only a scenic blight but also a hazard to human health and environmental quality. The convenience center, estimated to cost \$3.1 million, will include the following elements: (1) Two waste disposal chutes; (2) Recycling area with bins for glass, aluminum, cardboard, certain plastics, and other items; (3) Appliance and e-waste collection area; (4) Household hazardous waste collection area; (5) Redemption area for containers; (6) Service roads, improvements to the access road, SR 11 and their intersections, and gates; (7) Visual buffer area; (8) Firebreaks and firefighting equipment; (9) Signage; and (10) Drainage improvements. The convenience center may also include scrap metal collection bins and a re-use area, depending on community needs, desires and involvement. The center has been sited and is being designed to offer maximum convenience and minimum nuisance impacts in terms of odor, noise, air quality, pests, alien species, visual quality, and traffic. The undeveloped site is zoned agriculture, which is appropriate for this use, and has a low native forest with no rare, threatened or endangered species and no archaeological sites.

Maui / Moloka'i Notices

October 8, 2007

Ola Honua Native Forest Restoration, Timber Production, Watershed Protection and Education Project (HRS 343 DEA)

District: Hana
TMK: (2) 1-6-008:022, (2) 1-6-008:023
Proposing Agency: State of Hawai'i, Department of Land and Natural Resources, Division of Forestry and Wildlife, 1151 Punchbowl Street, Room 325, Honolulu, Hawai'i 96813. Contact: Sheri Mann (808-587-4172) on behalf of Neaulani, Inc.

Determination Agency: Same as above.
Consultant: Tom Pierce, Attorney at Law, LLC, Post Office Box 798, Makawao, Hawai'i 96768

Comment Deadline: November 7, 2007
Status: Draft environmental assessment (DEA) notice pending 30-day public comment. Address comments to the proposing agency with copies to the consultant and OEQC.

Permits: N/A

This 170 acre property is located in East Maui, Hana District. The 121 acre Forest Stewardship project includes: *Native Forest Restoration* - creating a 40 acre corridor of native plants through the center of the property up to the Cable Ridge Restoration Project, a pure native species zone. The purpose of native corridor is to extend the pure native habitat/sanctuary for wildlife that will never be commercially harvested; *Timber Production* - There will be 81-acres devoted to commercial harvesting of native and non native tree species. All trees will be planted in an agroforestry model and harvest of selected species will be done in an environmentally sustainable manner that is in accordance with all State Forest Stewardship Program regulations. It is expected that such a harvest will take place 30 to 40 years after planting; *Feral Animal Management* - Efforts to eliminate feral animals, via fencing and trapping, will take place throughout the life of the project; *Watershed Protection* - Imperative to the project managers is that all steps will be taken to protect surface and subsurface water resources; therefore, all activities related to this project will be conducted without the use of synthetic fertilizers and insecticides; *Education* - interpretive trails demonstrating the use of traditional plants and tree species used for restoration will wind throughout the native corridor. Local community groups will be offered a variety of environmental education opportunities such as: 1) visiting the demonstration areas for reforestation and timber production; 2) learning how to produce biodiesel, generated exclusively from vegetative waste produced on site and see it used for all power needs, including all equipment; 3) monthly students & volunteers are invited to participate in the native corridor planting, which includes native bird, ground cover and tree species identification.

West Maui Medical Facility (HRS 343 FEA-FONSI)

District: Lahaina
TMK: (2) 4-4-006:070 (por.)
Applicant: West Maui Improvements Foundation, Inc., P.O. Box 10338, Lahaina, Hawai'i 96761

Approving Agency: County of Maui, Maui Planning Commission, 250 South High Street, Wailuku, Hawai'i 96761. Munekiyo & Hiraga Inc., 305 High Street, Suite 104, Wailuku, Hawai'i 96793. Contact: Rowena Dagdag (808-244-2015)

Consultant: Final environmental assessment (FEA) and Finding of No Significant Impact (FONSI). Certificate of Need (CON); Community Noise Permit; Work to Perform in State Highway Right-of-Way; NPDES; SLUC DBA (to be approved by County Council; Change in Zoning (CIZ); Community Plan Amendment (CPA); Construction and Building Permits

Status: Final environmental assessment (FEA) and Finding of No Significant Impact (FONSI). Permits: Certificate of Need (CON); Community Noise Permit; Work to Perform in State Highway Right-of-Way; NPDES; SLUC DBA (to be approved by County Council; Change in Zoning (CIZ); Community Plan Amendment (CPA); Construction and Building Permits

The West Maui Improvement Foundation, Inc. (WMIF) proposes the development of a 35-bed acute care medical facility in Ka'anapali, Maui, Hawai'i. The subject property is owned by Ka'anapali Land Management Corp. and identified as Tax Map Key (TMK) (2)4-4-06:070 (por.). The subject property encompasses an area of approximately 14.92 acres and lies mauka (east) of Honoapi'ilani Highway, adjacent to the Lahaina Civic Center. Access to the property is proposed to be provided via an extension of Ka'a'ahi Street. The subject property was formerly used for sugar cane cultivation and is currently vacant and undeveloped. The proposed full-service, medical facility will have the following service areas and facilities: (1) Main entrance, registration, waiting room and administrative offices; (2) Twenty-five (25) medical surgical beds and ten (10) intensive care beds; (3) Three (3) operating suites with acute care units for recovering critically ill patients and/or elective surgical procedures; (4) Emergency room and entrance; (5) Imaging department housing X-ray and other diagnostic instruments; (6) Rehabilitation department for physical and occupational therapy; (7) Cardiology department; (8) Outpatient services and six (6) dialysis bays; (9) Nurses' station and lounge; (10) Physicians' offices and lounge; and (11) Engineering and maintenance facilities and loading bay. The medical facility will be a single-story building covering approximately 90,000 square feet of floor area. Related improvements include site grading, installation of underground utilities, 260-stall parking lot, extension of Ka'a'ahi Street from the Lahaina Civic Center and site landscaping. The estimated construction cost for the medical facility is \$30.0 million.

Maui / Moloka'i Notices

October 8, 2007

Kihei Residential Project (HRS 343 DEIS)

District: Wailuku
TMK: (2) 5-3-003:012
Applicant: A&B Properties, 822 Bishop Street, Honolulu, Hawai'i 96813. Contact: Dan Yasui (808-525-8449)

Approving Agency: State of Hawai'i, Land Use Commission, P.O. Box 2359, Honolulu, Hawai'i 96804. Contact: Anthony Ching (808-587-3822).

Consultant: Munekiyo & Hiraga, Inc., 305 High Street, Suite 104, Wailuku, Hawai'i 96793. Contact: Kyle Ginoza (808-244-2015).

Comment Deadline: November 23, 2007
Status: Draft environmental impact statement (DEIS) notice pending 45-day public comment. Address comments to the applicant with copies to the accepting authority, consultant and OEQC.

Permits: State Land Use Commission District Boundary Amendment; National Pollutant Discharge Elimination System (NPDES) Permit, as applicable; Kihei Makena Community Plan Amendment, Change in Zoning, Subdivision Approval, and Construction Permits.

A&B Properties, Inc., proposes to develop a master-planned residential community with approximately 600 dwelling units on approximately 94.3 acres of land situated in Kihei, Maui, Hawai'i. The parcels are owned by Alexander and Baldwin, Inc. The project includes a mix of single-family detached and multi-family residential units, as well as a small neighborhood commercial area. The project will meet the requirements of the Maui Residential Workforce Housing Policy (MRWHP). The proposed project will provide needed housing in close proximity to existing urban development and infrastructure. The applicant will coordinate with the County Department of Housing and Human Concerns to develop an appropriate affordable housing program pursuant to the provisions of the MRWHP. As provided under the MRWHP, the sales prices for affordable units will be established at the time of development, and based on Maui's median family income at that time. The project will also include park and open space areas which will provide for a network of trails and bike paths that will connect to existing parks and open space areas. The vehicular access points at the makai end of the project include a planned right-turn in and right-turn out off of Pi'ilani Highway, as well as access off of Kaiwahine Street. Within the mauka portion of the property, several access points to adjacent properties are planned. An approximately 1.4-acre site is proposed for commercial use. Located at

the southwest corner of the property, along Pi'ilani Highway, the proposed commercial area will allow for business uses, which will provide services for the convenience of the surrounding neighborhoods.

Moloka'i Parks Baseyard at Duke Malii Regional Park (HRS 343 DEA)

District: Moloka'i
TMK: (2) 5-3-003:012

Proposing Agency: County of Maui, Department of Parks and Recreation, 700 Hali'a Nako'a Street, Unit 2, Wailuku, Hawai'i 96793. Contact: Pat Matsui (808-271-7230)

Determination Agency: Same as above.
Consultant: Munekiyo & Hiraga, Inc., 305 High Street, Suite 104, Wailuku, Hawai'i 96793. Contact: Rowena Dagdag (808-244-2015)

Comment Deadline: November 7, 2007
Status: Draft environmental assessment (DEA) notice pending 30-day public comment. Address comments to the proposing agency with copies to the consultant and OEQC.

Permits: Change in Zoning; State Land Use Commission District Boundary Amendment; Special Management Area Use Permit; Grading and Building Permits; National Pollutant Discharge Elimination System (NPDES) Permit; Department of Health Noise Permit

The County of Maui, Department of Parks and Recreation (DPR) proposes the construction of a new park baseyard facility at Kaunakakai, Moloka'i. The subject property is an approximately 13.145-acre parcel along Kamehameha V Highway, near its intersection with Oki Place. Access to the project site is proposed from Kamehameha V Highway. This new baseyard facility will provide a centralized maintenance facility for all of the DPR operations on the island of Moloka'i.

The new baseyard facility is proposed to be constructed at the existing Duke Malii Regional Park as a 5,000 square-foot pre-engineered building having the following service areas: (1) Building maintenance and repair shop with a lumber storage room and workshop; (2) Maintenance staff area and lunch/meeting room; (3) Locker area; (4) Accessible staff restroom; (5) Two (2) interior storage rooms; (6) Irrigation pipes and parts storage room; and (7) Covered parking area with six (6) stalls and an emergency shower area. The estimated construction cost of the proposed project is \$1.0 million. The proposed project will require a State land use change from "Agricultural" to "Urban", and a County zoning land use change from "Interim" to "PK-2, Park". The foregoing land use changes will be initiated by the County of Maui, Department of Planning. In addition, an applica-

Maui / Moloka'i Notices

October 8, 2007

tion for a Special Management Area (SMA) Use Permit has been prepared for review and approval by the Moloka'i Planning Commission.

Kalaupapa Solid Waste Management (HRS 343 FEA-FONSI)

District: Moloka'i
TMK: 6-1-01:01
Applicant: U.S. Department of the Interior, National Park Service, Kalaupapa National Historical Park, P.O. Box 2222, Kalaupapa, Hawai'i 96742. Contact: Johnathan Gervais (510-817-1536)
Approving Agency: State of Hawai'i, Department of Hawaiian Home Lands, P.O. Box 1879, Honolulu, Hawai'i 96805. Contact: Todd Gray (808-587-6423).
Status: Final environmental assessment (FEA) and Finding of No Significant Impact (FONSI)
Permits: Composting permit

The National Park Service (NPS) proposes to assume management of solid waste operations at Kalaupapa National Historical Park (NHP), Moloka'i, Hawai'i. The State of Hawai'i Department of Health (DOH) currently manages solid waste operations for the Kalaupapa Settlement area; however, their municipal solid waste landfill is scheduled for closure as of 2008. As part of a cooperative agreement between the NPS and DOH, Kalaupapa NHP will be taking over solid waste management responsibilities at the time of the landfill closure. The purpose of the project is to improve the handling and disposal of solid waste at Kalaupapa NHP, including developing and encouraging appropriate alternatives to the landfills such as waste prevention, recycling and composting. The goal is an integrated solid waste management system that results in minimal impacts to the land, water, and people of Kalaupapa. The desired future condition is for a community that: (1) Generates a minimal amount of solid waste requiring disposal; (2) Composts and recycles the maximum amount of solid waste; and (3) Implements the least impacting solution for disposal of waste that cannot be recycled or composted. A concerted effort will be undertaken to minimize waste that requires handling, including taking a critical look at materials deliv-

ered to find ways to reduce waste before it is sent to the park. The proposed recycling and composting program will include the collection of glass and plastic bottles, steel cans, cardboard and paper, and food waste from public areas, visitor facilities, housing areas, concession operations, and park administration and maintenance facilities. Bins will be provided to sort the recyclable materials that will be collected and delivered to Building 259A, which will be rehabilitated as a recycling center for sorting and processing. A glass crusher will be used on site to crush glass for use in roads. Construction and demolition waste and the other recyclables will be stored in cargo containers and then removed to markets in Honolulu on the yearly barge. A new in-vessel composting facility will be built near the existing landfill to compost food waste, mule manure, green waste, animal carcasses, and septage. The compost will be used as a soil amendment throughout the community. After recycling, composting, and removing the C&D and hazardous waste, it is estimated that about 20% to 30% of solid waste will require disposal. The Preferred Alternative for disposing the remaining waste is off-site disposal by air. Once collected, the waste will be brought to Building 259A and sorted and screened for recyclables and household hazardous waste that may have been previously missed. From there, it would be compacted and transported to the airport, flown to Honolulu and disposed of in the landfill on O'ahu. Another alternative presented in the analysis includes hauling the remaining solid waste up the Pali Trail via mule for disposal in the Moloka'i landfill. Bales of solid waste would be transported from Building 259A to the corral where they would be loaded on mules for the approximately two mile walk up the Pali Trail to topside Moloka'i. This alternative will serve as an emergency back up to the air transport alternative. In accordance with the National Environmental Policy Act of 1969 (as amended), the NPS prepared an Environmental Assessment (EA) to identify and evaluate the environmental impacts of the proposed solid waste program and solicit input from the resident community and the public. The EA is prepared in accordance with the National Environmental Policy Act of 1969 (NEPA) and regulations of the Council on Environmental Quality (40 Code of Federal Regulations (CFR) 1508.9); National Park Service Director's Order – 12: Conservation Planning, Environmental Impact Analysis, and Decision-making and Section 106 of the National Historic Preservation Act of 1969 (as amended) (36 CFR Part 800 Section 800.0(c) [Use of the NEPA process for Section 106 purposes]).

Honolulu Community College Long-Range Development Plan (HRS 343 FEA-FONSI)

District: Honolulu
TMK: Various
Proposing Agency: Honolulu Community College, University of Hawai'i, Community College Facility Planning Office, 74 Dillingham Boulevard, Honolulu, Hawai'i 96817. Contact: Ramsey Pedersen (808-845-9225)

Determination Agency: Same as above.
Consultant: Gerald Park Urban Planner, 1221 Kapi'olani Boulevard, Suite 211, Honolulu, Hawai'i 96814

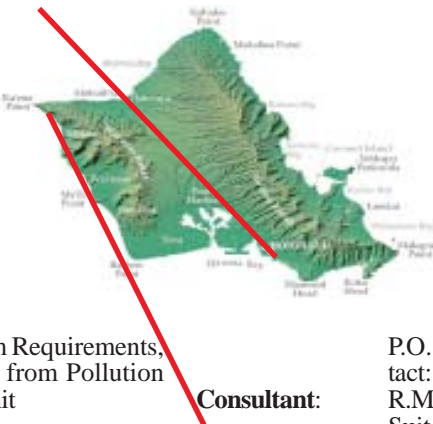

Status: Final environmental assessment (FEA) and Finding of No Significant Impact (FONSI).

Permits: Plan Review Use; Building Permit, sidewalk/Driveway and Demolition; Certificate of Occupancy, Grubbing, Stockpiling, Sewer Connection, Temporary Use Approval, Water and Water System Requirements, Street Usage Permit, Variance from Pollution Controls, NPDES General Permit

Honolulu Community College currently supports a student population of approximately 3,500 students which is about 1.5 times the design enrollment of 2,500 students making the existing facilities inadequate to accommodate the needs of the College. Programs are dispersed throughout the campus creating communication and coordination problems between programs. The Long Range Development Plan for Honolulu Community College ("LRDP") will help to better organize program spaces and related programs and to consolidate them in close vicinity to each other, thus promoting a stronger academic connection and physical relationship. The LRDP programs approximately 1,273,543 gross square feet of space for HCC programs to meet the needs for a design enrollment of 5,000 FTE students. For the Main Campus on Dillingham Boulevard, the LRDP proposes 18 new buildings and 8 building renovations over the next 25 to 30 years. A new service road along the eastern boundary of the campus and loading/drop off areas on Kokea Street will improve vehicle and pedestrian access. Two multi-level parking garages will be constructed at the eastern and western ends of the campus for convenient centralized access to all buildings and to minimize on-campus vehicle traffic. Temporary surface parking will be provided at the site of the former Kapalama Incinerator. On-site water, wastewater, drainage, fire control, and telecommunications systems will be upgraded. The existing pedestrian mall will remain at its current location but redesigned to improve pedestrian access from all buildings and proposed parking lots. At the Kokea Street Campus, the existing parking lot and service road will be demolished. The parking lot area will be reduced and four new buildings constructed for the automotive service and heavy equipment maintenance programs. A new service road will be con-

structed and on-site utility improvements built to City standards. All areas of newly designed or newly constructed buildings and facilities will comply with the Americans with Disabilities Act (ADA). Existing buildings that do not comply with ADA requirements will be renovated and brought into compliance. The Long Range Development Plan proposes major site and facility changes to Honolulu Community College. The physical makeover is projected over a five phase schedule to allow the College to construct facilities as public funds are appropriated. The estimated cost of construction over the 25-30 plan horizon is approximately \$168 million.

Keawa'ula Submarine Fiber Optic Cable (HRS 343 DEA)

District: Wai'anae
TMK: (1) 8-1-01:8 & submerged lands
Applicant: AT&T Corporation, Room 3D151F One AT&T Way, Bedminster, New Jersey 07921. Contact: Robert Wargo, Manager (908-234-3280).

Approving Agency: State of Hawai'i, Department of Land and Natural Resources, Office of Conservation and Coastal Lands, P.O. Box 621, Honolulu, Hawai'i 96809. Contact: Michael Cain, Planner (808-783-2501)

Consultant: R.M. Towill Corporation, 420 Waiakamilo Road, Suite 411, Honolulu, Hawai'i 96817. Contact: Chester Koga, AICP (808-842-1133)
Status: Draft environmental assessment (DEA) notice pending 30-day public comment. Address comments to the applicant with copies to the approving agency, consultant and OEQC.

Comment Deadline: November 7, 2007
Permits: Conservation district use permit

AT&T proposes to connect Hawai'i with California in one direction, and Guam and Asia in the other as part of the Asia-America Gateway Cable Installation project. Onshore, the cables will be laid in a trench across state lands encumbered to State Parks (Executive Order 3574), and leased to AT&T (Lease No. S-3809). They will lay on the substrate offshore. The cables will lie within an existing easement granted in favor of AT&T. The cables will be supported by floats, and will be towed ashore by a land-side winch. On shore they will be pulled through steel conduits into a previously installed manhole approximately 150 feet mauka of Farrington Highway. Once the cables are secured the floats will be cut and the cables set in the submarine easement. After installation the beach will be restored to its pre-existing condition. The new cables will be buried three to six feet under the beach. Contractors will dig a trench from the existing steel conduit to the ocean. A public meeting will be held on the proposal on Tuesday, October 23, 2007 from 6:00 P.M. until 8:00 P.M. at the Wai'anae Public Library.

Magnetic Silencing Facility, Beckoning Point, Pearl Harbor Naval Complex (NEPA FONSI)

District: 'Ewa
TMK: 93002001
Proposing Agency: Commander, Navy Region Hawai'i, Naval Facilities Engineering Command, Pacific, Environmental Planning Division, 258 Makalapa Drive, Suite 100, Pearl Harbor, Hawai'i 96860-3134. Contact: Mr. Brian Yamada (808-472-1449).
Approving Agency: Department of the Navy, Commander, Naval Installations, 2713 Mitscher Road, SW Suite 300, Anacostia Annex, DC 20373 5802. Contact: Ms. Nicole Pak (202-433-4960)
Consultant: Helber Hastert & Fee, Planners, Inc., Pacific Guardian Center, Makai Tower, 733 Bishop Street, Suite 2590, Honolulu, Hawai'i 96813. Contact: Mr. Tom Fee (808-545-2055)
Permits: Section 10 (Rivers and Harbors) permit, Section 404 (Clean Water Act) permit, and Section 402 National Pollution Discharge Elimination System (NPDES) construction permit.

The U.S. Department of the Navy (Navy) has prepared an Environmental Assessment (EA) for a Pacific Fleet Submarine

Drive-In Magnetic Silencing Facility (MSF) at Beckoning Point, Pearl Harbor, O'ahu, Hawai'i (referred to by the Navy as Military Construction Project P-587). Based on the EA, the Navy finds the Proposed Action would not result in significant impacts to human health or the environment. The Navy has determined that an Environmental Impact Statement is not required, and has issued a Finding of No Significant Impact (FONSI). The Proposed Action would construct a new "drive-in" MSF and related landside facility and infrastructure improvements at Beckoning

Point, replacing the existing Pier "Sierra 9" MSF and landside support facilities. The new MSF is required to support the Commander, Submarine Force Pacific Fleet. Alternatives considered include siting at Victor 4 Wharf at Pearl City Peninsula and No Action. The EA and FONSI addressing

the Proposed Action is on file and interested parties may obtain a copy from: Commander, Naval Facilities Engineering Command, Pacific, 258 Makalapa Drive, Suite 100, Pearl Harbor, Hawai'i 96860-3134 (Attention: Mr. Brian Yamada, telephone (808) 472-1449). A limited number of compact disks are available to fill single copy requests.

Statewide Notice

Erythrina Gall Wasp Biocontrol (HRS 343 DEA)

District: Statewide
Proposing Agency: Plant Pest Control Branch, State of Hawai'i Department of Agriculture, 1428 South King Street, Honolulu, Hawai'i 96814-2512, Dr. Neil J. Reimer, Manager, (808 973-9522)
Determination Agency: Same as above.
Consultant: Not applicable
Comment:
Deadline: November 7, 2007 - Copies available as PDF.
Permits: USDA-APHIS-PPQ and Board of Agriculture (HDOA Plant Quarantine Branch)

The Hawai'i Department of Agriculture (HDOA) requests the release of the parasitic wasp *Eurytoma* sp. (Hymenoptera: Eurytomidae) from quarantine to suppress infestations of the erythrina gall wasp (EGW), *Quadrastichus erythrinae* Kim (Hy-

menoptera: Eulophidae), a very devastating invasive pest species that is destroying trees in the genus *Erythrina* in Hawai'i. One of the most susceptible trees is the native Hawaiian *wiliwili*, *Erythrina sandwicensis* Degener, which may soon become a threatened and endangered species. *Eurytoma* sp. is an ectoparasitic wasp that was discovered in association with *Quadrastichus* gall-forming species in Tanzania by the HDOA Exploratory Entomologist during exploration in East Africa in December 2005 to February 2006 for natural enemies of the EGW. Field observations in Tanzania and host specificity studies in the HDOA Insect Quarantine Facility have clearly shown that *Eurytoma* sp. is a very effective ectoparasitoid and is highly specific in targeting and propagating on the EGW, its primary host (prey). During testing, *Eurytoma* sp. showed no interest in other representative gall-forming insects, strictly targeting and preying on the immature stages of the EGW. Thus, it is strongly believed that the field release of *Eurytoma* sp. will have no non-target (unintended) effects and will effectively suppress EGW population densities to levels where the pest will no longer threaten the survival of *Erythrina* trees, especially the native *wiliwili*, in Hawai'i.

Lihu'e Civic Center Site Improvements Master Plan (HRS 343 FEA-FONSI)

District: Lihu'e
TMK: 3-6-05:01, 02, 03, 06, 11, 27, 28, and 30 and portions of Rice Street, Hardy Street, 'Umi Street, Kuhio Highway, and Kaumuali'i Highway and 'Eiwa Street

Proposing Agency: County of Kaua'i Department of Public Works, 4444 Rice Street, Suite 175, Lihu'e, Hawai'i 96766, Contact - Douglas Haigh, (808-241-6650), Donald Fujimoto (808-241-6600)

Determination Agency: Same as above
Consultant: PBR Hawai'i, 1001 Bishop Street, ASB Tower, Suite 650, Honolulu, Hawai'i 96813, Contact - Kimi Yuen, (808 521-5631)

Status: Final environmental assessment (FEA) and Finding of No Significant Impact (FONSI)

Permits Required: Perform work within State Highway Right-of-Way, Historic Site Review, NPDES, Street Closure, Zoning Permits

public uses, commercial, retail and office buildings. Several civic buildings and the Lihu'e Civic Center Historic District are listed on both the State and National Registers of Historic Places. This EA has been prepared to address HRS Chapter 343 due to the use of County and State lands and County funds and use within a historic district. A master plan for site improvements to the Civic Center was prepared with input from the commu-

nity, County Council and staff, and neighboring uses such as the State and surrounding businesses. The plan focuses mainly on improving the pedestrian environment and walkways for ADA compliance and consolidating the parking areas; it does not include architectural programming or significant renovations to the buildings themselves. It recommends improvements to the surrounding streets and provides transit and bicycle facilities. The plan recommends the closure of 'Eiwa Street to connect the two halves of the Civic Center and unites them with expanded park areas and a pedestrian promenade to encourage walking rather than driving within the Civic Center. The closure is recommended as one of the last development phases since traffic on the surrounding streets should be mitigated prior to the closure. Positive impacts include improved pedestrian access and ADA accessibility throughout the Civic Center, increased landscaped open space and pervious surfaces, the preservation and enhancement of the historic district, creation of parks, reduced runoff, and improved transit and bicycle facilities. Other impacts include the closure of 'Eiwa Street, the cost of the improvements and short-term impacts to air quality and noise levels during construction.

The Lihu'e Civic Center occupies approximately 16 acres in the heart of Lihu'e, Kaua'i. It is the government seat of the island, with both County and State offices, and is surrounded by a mix of

Coastal Zone News

Federal Consistency Reviews

The Hawai'i Coastal Zone Management (CZM) Program has received the following federal actions to review for consistency with the CZM objectives and policies in Chapter 205A, Hawai'i Revised Statutes. This public notice is being provided in accordance with section 306(d) (14) of the National Coastal Zone Management Act of 1972, as amended. For general information about CZM federal consistency please call John Nakagawa with the Hawai'i CZM Program at 587-2878. For neighboring islands use the following toll free numbers: Lana'i & Moloka'i: 468-4644 x72878, Kaua'i: 274-3141 x72878, Maui: 984-2400 x72878 or Hawai'i: 974-4000 x72878. For specific information or questions about an action listed below please contact the CZM staff person identified for each action. Federally mandated deadlines require that comments be received by the date specified for each CZM consistency review. Comments may be submitted by mail, electronic mail or fax, as indicated below.

U.S. Coast Guard Security Zone for Hawai'i Super Ferry at Nawiliwili Harbor, Kaua'i

Federal Action: Federal Agency Activity
Federal Agency: U.S. Coast Guard
Contact: Dr. Dennis Mead, 541-2129
CZM Contact: John Nakagawa, 587-2878
Location: Nawiliwili Harbor, Kaua'i
Proposed Action:

The U.S. Coast Guard will be extending the security zone for the Hawai'i Superferry in the waters of Nawiliwili Harbor, and on the land of the jetty south of Nawiliwili Park, including the Jetty Access Road, that was initially established on September 1, 2007 and expires on October 31, 2007. The extended security zone will be in effect from November 1, 2007 through December 31, 2007. The security zone is to be activated for enforcement 60 minutes prior to the arrival of the Hawai'i Superferry and continues until 10 minutes after its departure.

Comments Due: October 22, 2007

Special Management Area (SMA) Minor Permits

Pursuant to Hawai'i Revised Statute (HRS) 205A-30, the following is a list of SMA Minor permits that have been approved or are pending by the respective county/state agency. For more information about any of the listed permits, please contact the appropriate county/state Planning Department. City & County of Honolulu (523-4131); Hawai'i County (961-8288); Kaua'i County (241-6677); Maui County (270-7735); Kaka'ako (Honolulu) or Kalaeloa (Barbers Point) Community Development District (587-2840).

Location (TMK)	Description (File No.)	Applicant/Agent
Hawai'i: Puna (1-4-69-14)	Hand Spread Cinder-soil mix for landscaping (SMM 07-000062)	Dallas and Beverly Jackson
Hawai'i: Hilo (2-1-17-20)	Installation of telecommunication antennas and appurtenant equipment (SMM 07-000063)	Coral Wireless, LLC, dba Mobi PCS
Maui: Lahaina (4-6-7-3)	Demo vacant buildings (SM2 20070068)	County of Maui
Honolulu: Kapolei (9-1-31-2)	Chevron Hawai'i refinery Port Security fence (2007/SMA-55)	Chevron Products Company

Special Management Area Documents (Chapter 25, Revised Ordinances of Honolulu)

Since SMA-only (Chapter 25, ROH) documents do not trigger the EIS law as articulated in Chapter 343, Hawaii Revised Statutes, effective September 1, 2001 OEQC will no longer review these documents for completeness or adequacy. However, OEQC will continue to provide notice of these projects as a public service. Questions regarding the adequacy, completeness and availability of these documents should be addressed directly to the county contact listed below.

Kahe Power Plant Water Tank Addition and Replacement Project

District: Wai'anae
TMK: 9-2-3: portion 27
Applicant: Hawaiian Electric Company, Inc.
Determination Agency: Department of Planning and Permitting, City and County of Honolulu, 650 South King Street, Honolulu, Hawai'i 96813
Consultant: Planning Solutions, Inc. (Perry White), 210 Ward Avenue, Suite 330, Honolulu, Hawai'i 96814
Public Comment Deadline: July 8, 2007
Permits Required: Special Management Area (SMA) Use Permit
 Hawaiian Electric Company, Inc. (HECO) proposes to: 1) Construct a new 40,000 to 50,000-gallon demineralized water storage tank (No. 54) adjacent to the existing water tank No. 53, mauka of the Kahe 5 generator Unit. The new tank would perform the

storage function now performed by Tank No. 53, which will be converted to reverse osmosis (RO) water storage; 2) Replace two (2) existing 40,000-gallon demineralized water storage tanks (Nos. 31 and 32) with new tanks of the same capacity; and 3) Construct a new eight inch underground pipeline which will bring reclaimed water from the Honouliuli Wastewater Treatment Plant for use in the powerplant.

The new tank and replacement of old tanks are considered necessary for continuing the safe and efficient operation of the facility. The use of RO water from the Honouliuli WWTP is part of a community benefits package associated with the proposed construction of the new Campbell Industrial Park (CIP) Generating Station at Kalaeloa by HECO.

The proposed improvements are planned for the 2007 to 2009 period and have an estimated cost of \$1.555 million. These proposed improvements require the approval of a major SMA Use Permit from the Honolulu City Council.

October 8, 2007

Notice of Funding Opportunity (NOFA) for the Brownfields Economic Development Initiative for Fiscal Year 2007

The U.S. Department of Housing and Urban Development (HUD) has announced a notice of funding opportunity (NOFA - *Funding Opportunity Number in the Federal Register is FR-5142-N-01. The OMB approval number is 2506-0153*) under the Brownfields Economic Development Initiative (BEDI) program. The purpose of the program is to enhance the security of a loan guaranteed by HUD under Section 108 of the Housing and Community Development Act of 1974, as amended, for the same brownfields economic development project, or to improve the viability of a brownfields economic development project financed with the Section 108-guaranteed loan, in order to stimulate economic development by local governments and private sector parties at brownfields sites and to return those sites to productive, economic use. All BEDI grants must be used in conjunction with a new Section 108-guaranteed loan commitment. The application deadline date is December 24, 2007. Applications must be received and validated by http://www.grants.gov/gov/applicants/apply_for_grants.jsp no later than 11:59:59 pm on the application deadline date. Please see the Notice of HUD's FY2007 NOFA Policy Requirements and General Section to the FY2007 SuperNOFA for HUD's Discretionary Programs (General Section) published on January 18, 2007 (72 F.R. 2396) for information on electronic deadline and timeliness requirements. BEDI funds are used to enhance the security of a loan guaranteed by HUD under Section 108 of the Housing and Community Development Act of 1974, as amended, for the same brownfields economic development project, or to improve the viability of a brownfields economic development project financed with the Section 108-guaranteed loan, in order to stimulate economic development by local governments and private sector parties at brownfields sites and to return those sites to productive economic use. All BEDI grants must be used in conjunction with a new Section 108-guaranteed loan commitment. HUD encourages brownfields economic development projects that propose the redevelopment of a brownfield site through new investments by identified private sector parties in addition to BEDI/Section 108 financing and that will directly result in new business or job creation, increases in the local tax base or other near-term, measurable economic benefits. Those interested in applying for funding under this program should review carefully the General Section of the SuperNOFA published on January 18, 2007 (72 F.R. 2396), the Introduction to the FY2007 SuperNOFA published on March 13, 2007 (72 F.R. 11434) and the Fiscal Year 2007 SuperNOFA for HUD's Discretionary Programs; Supplementary Information and Technical Corrections published on May 11, 2007 (72 F.R. 27032) and the additional information found in the September 24, 2007, Federal Register at page 54323 (see, 72 F.R. 54323, September 24, 2007).

Availability of Seats for the Hawaiian Islands Humpback Whale National Marine Sanctuary Advisory Council

The Hawaiian Islands Humpback Whale National Marine Sanctuary (HIHWNMS or Sanctuary) is seeking applicants for both primary and alternate members of the following seats on its Sanctuary Advisory Council, (Council): Education, Fishing, Hawai'i County, Honolulu County, Kaua'i County, Maui County, Native Hawaiian, and Research. Applicants are chosen based upon their particular expertise and experience in relation to the seat for which they are applying; community and professional affiliations; philosophy regarding the protection and management of marine resources; and possibly the length of residence in the area affected by the Sanctuary. Applicants who are chosen as members should expect to serve 2-year terms, pursuant to the Council's Charter. The application deadline has been extended until October 5, 2007. Application kits may be obtained from Mary Grady, 6600 Kalaniana'ole Hwy, Suite 301, Honolulu, Hawai'i 96825 or Mary.Grady@noaa.gov. Completed applications should be sent to the same address. Applications are also available online at <http://hawaiihumpbackwhale.noaa.gov>. For more information, contact Naomi McIntosh, 6600 Kalaniana'ole Hwy, Suite 301, Honolulu, Hawai'i 96825 or Naomi.McIntosh@noaa.gov or by telephone at (808) 397-2651 (see, 72 F.R. 54243, September 24, 2007).

Security Zone in Nawiliwili Harbor, Kaua'i

This document corrects a typographical error in a U.S. Code section number and corrects a reference to an access road on the jetty south of Nawiliwili Park in a temporary final rule entitled "Security Zone; Hawai'i Super Ferry Arrival/Departure, Nawiliwili Harbor, Kaua'i, Hawai'i" that was published September 5, 2007, in the Federal Register. These corrections are effective September 24, 2007. For more information, contact Lieutenant (Junior Grade) Jasmin Parker, U.S. Coast Guard Sector Honolulu at (808) 842-2673. On September 5, 2007, the Coast Guard published a temporary final rule entitled "Security Zone; Hawai'i Super Ferry Arrival/Departure, Nawiliwili Harbor, Kaua'i, Hawai'i" in the Federal Register (72 F.R. 50877). In that document references were made to Waapa Road being included in the security zone covering land on the jetty south of Nawiliwili Park. The road in the zone is not named "Waapa Road"; instead, that jetty access road is commonly known as "Jetty Road." Also, when citing to the authority for making the rule effective less than 30 days after publication, instead of citing to 5 U.S.C. §553(d)(3), because of a typographic error, that section was cited as "533." This document corrects those errors. A previous correction document for this rule was published September 13, 2007 (72 F.R. 52282). Correction Instructions - in rule FR Doc. 07-4357 published on September 5, 2007 (72 F.R. 50877), make the following corrections: (1) On page 50877, in the first column, in line 17, remove the words "Waapa Road" and add, in their place, the words "the jetty access road (commonly known as Jetty Road)"; (2) On page 50877, in the second column, in line 21, remove "533" and add, in its place, "553"; (3) On page 50879, in the first line of the second

Federal Notices

October 8, 2007

column, in Sec. 165.T14-160(a), remove the words "Waapa Road" and add, in their place, the words "the jetty access road (commonly known as Jetty Road)" (see, 72 F.R. 54212, September 24, 2007, for more details and the original text of the notice).

Animal and Plant Health Inspection Service: Extension of approval of an information collection; comment Request [Docket No. APHIS-2007-0073]

In accordance with the Paperwork Reduction Act of 1995, this notice announces the Animal and Plant Health Inspection Service's (APHIS) intention to request an extension of approval of an information collection associated with environmental monitoring. APHIS will consider all comments that we receive on or before November 26, 2007. You may submit comments by either of the following methods: Federal eRulemaking Portal: Go to <http://www.regulations.gov>, select "Animal and Plant Health Inspection Service" from the agency drop-down menu, then click "Submit." In the Docket ID column, select APHIS-2007-0073 to submit or view public comments and to view supporting and related materials available electronically. Information on using Regulations.gov, including instructions for accessing documents, submitting comments, and viewing the docket after the close of the comment period, is available through the site's "User Tips" link. Postal Mail/Commercial Delivery: Please send four copies of your comment (an original and three copies) to Docket No. APHIS-2007-0073, Regulatory Analysis and Development, PPD, APHIS, Station 3A-03.8, 4700 River Road Unit 118, Riverdale, MD 20737-1238. Please state that your comment refers to Docket No. APHIS-2007-0073. Reading Room: You may read any comments that we receive on this docket in our reading room. The reading room is located in room 1141 of the USDA South Building, 14th Street and Independence Avenue, SW., Washington, DC. Normal reading room hours are 8 a.m. to 4:30 p.m., Monday through Friday, except holidays. To be sure someone is there to help you, please call (202) 690-2817 before coming. Additional information about APHIS and its programs is available on the Internet at <http://www.aphis.usda.gov>. For information on an information collection associated with environmental monitoring, contact Dr. Robert Baca, Team Leader, Environmental Compliance, Emergency and Domestic Programs, PPQ, 4700 River Road Unit 150, Riverdale, MD 20737; (301) 734-7592. For copies of more detailed information on the information collection, contact Mrs. Celeste Sickles, APHIS' Information Collection Coordinator, at (301) 734-7477 (see, 72 F.R. 54417, September 25, 2007).

Western Pacific Fishery Management Council Meetings

The Western Pacific Fishery Management Council (WESPAC) will hold its 139th meeting to consider and take actions on fishery management issues in the Western Pacific Region. The 139th Council meeting and public hearings will be held on October 9 - 12, 2007, at the Pagoda Hotel, 1525 Rycroft Drive, Honolulu, Hawai'i, 96814, telephone (808) 941-6611.

Schedule and Agenda
Tuesday, October 9, 2007

STANDING COMMITTEE MEETINGS

8:00 A.M. to 9:00 A.M. - Executive and Budget Standing Committee
9:00 A.M. to 11:00 A.M. - Pelagics Ecosystem and International Fisheries Standing Committee
11:00 A.M. to 1:00 P.M. - Hawai'i Archipelago and Pacific Remote Island Areas (PRIA) Ecosystem Standing Committee
2:00 P.M. to 3:30 P.M. - Marianas Archipelago Ecosystem Standing Committee
2:00 P.M. to 3:30 P.M. - American Samoa Archipelago Ecosystem Standing Committee
3:30 P.M. to 4:30 P.M. - Fishery Rights of Indigenous People Standing Committee
4:30 P.M. to 6:00 P.M. - Program Planning Standing Committee

Wednesday, October 10, 2007

9:00 A.M. to 5:00 P.M. - **FULL COUNCIL MEETING**

1. Introductions
2. Approval of Agenda
3. Approval of 138th Meeting Minutes
4. Agency Reports
 - A. NMFS
 1. Pacific Islands Regional Office (PIRO)
 2. Pacific Islands Fisheries Science Center (PIFSC)
 - B. NOAA General Counsel
 - C. United States Fish and Wildlife Service (USFWS)
 - D. Enforcement
 1. United States Coast Guard (USCG)
 2. NOAA Office for Law Enforcement (OLE)
 3. Status of Violations
5. Action Items
 - A. Pelagics Ecosystem Action Items
 1. Hawaii Swordfish Fishery Effort Options
 2. Pelagics Total Allowable Catch (TAC) Amendment
 3. Mariana Longline and Purse-Seine Closed Area Options
 4. Non-Longline Pelagic Fishery Management Options
 5. American Samoa Purse-Seine Closed Area Options
 6. Initial Review of the American Samoa Management Program
 - B. Hawaii Archipelago Action Items
 1. Bottomfish Risk Analysis
 - C. Fishery Rights of Indigenous People Action Items
 1. Marine Training and Education Program
 2. Community Development Program Options
 - D. Program Planning and Research Action Items
 1. Western Pacific Recreational Fishery Data Collection Project
 2. Federal Management Unit Species (MUS) Fishery Permitting and Reporting Options
 3. Magnuson-Stevens Re-authorization Act Five-year Plan
 4. Annual Catch Limit (ACL) Options
 5. Marine Conservation Plans (MCP)
 - E. Scientific and Statistical Committee (SSC) Recommendations
 - F. Standing Committee Recommendations
 - G. Public Hearing
 - H. Council Discussion and Action

Thursday, October 11, 2007

9:00 A.M. to 4:00 P.M. **FULL COUNCIL MEETING (CONTINUED)**

6. Mariana Archipelago
 - A. Arongo flaeey and Islan Informe (Island Area Reports)

Federal Notices

October 8, 2007

1. Commonwealth of the Northern Mariana Islands (CNMI)
 2. Guam
 - B. Enforcement Issues
 - C. Mariana Community Issues
 1. Military Access to Cultural Preserves
 2. Saipan Fishermen's Cooperative
 3. Status of Micronesian Challenge
 4. Other Issues
 - D. Education and Outreach Initiatives
 - E. SSC Recommendations
 - F. Standing Committee Recommendations
 - G. Public Comment
 - H. Council Discussion and Action
7. American Samoa Archipelago
- A. Motu Repote (Island Area Reports)
 - B. Enforcement Issues
 - C. Status of American Samoa Fishery Development Project
 - D. Report on American Samoa Marine Lab Development
 - E. American Samoa Community Issues
 1. Fagatele Bay Sanctuary Report
 2. Status of American Samoa Nearshore Fishery Resources
 3. Report on US Coral Reef Task Force
 - i. Traditional Ecological Knowledge
 - ii. Report on Action Items
 4. Other Issues
 - F. Education and Outreach Initiatives
 - G. SSC Recommendations
 - H. Standing Committee Recommendations
 - I. Public Comment
 - J. Council Discussion and Action
8. Hawaii Archipelago and Pacific Remote Island Areas (PRIA)
- A. Moku Pepa (Island Area Reports)
 - B. Enforcement Issues
 - C. Hawaii Community Issues
 1. Humpback Whale Sanctuary Report
 2. Sustainability 2050
 3. Other Issues
 - D. Education and Outreach Initiatives
 - E. SSC Recommendations
 - F. Standing Committee Recommendations
 - G. Public Comment
 - H. Council Discussion and Action

4:00 P.M. to 5:00 P.M. **FULL COUNCIL MEETING
(CONTINUED)**

9. Public Comment on Non-Agenda Items

Friday, October 12, 2007

9:00 A.M. to 5:00 P.M. **FULL COUNCIL MEETING
(CONTINUED)**

10. Pelagic and International Fisheries
- A. American Samoa and Hawaii Longline Quarterly Reports
 - B. International Fisheries
 1. Inter-American Tropical Tuna Commission (IATTC) Annual Meeting
 2. International Science Committee (ISC) Meeting
 3. Western and Central Pacific Fisheries Commission (WCPFC), Third Science Committee Meeting
 4. Northern Committee Meeting
 5. Bellagio II
 6. Tri-National Exchange
 7. International Fishers Forum Four (IFF4)
 - C. SSC Recommendations

- D. Standing Committee Recommendations
 - E. Public Comment
 - F. Council Discussion and Action
11. Program Planning
- A. Regional Strategic Plan for Coastal Fisheries
 - B. Marine Recreational Information Program
 1. Update on the Recreational Registry Status of Hawaii Disaster Relief Program Projects
 - C. National and International Education and Outreach Legislation
 1. Oceans Conservation, Education, and National Strategy for the 21st Century Act
 2. Coral Reef Conservation Act of 2007
 3. Marine Mammal Protection Act
 4. Offshore Aquaculture Act of 2007
 - F. Report on Magnuson-Stevens Act (MSRA) Workshop
 - G. SSC Recommendations
 - H. Standing Committee Recommendations
 - I. Public Comment
 - J. Council Discussion and Action
12. Administrative Matters & Budget
- A. Financial Reports
 - B. Administrative Reports
 - C. Meetings and Workshops
 - D. Council Family Changes
 1. Non-Commercial Data Advisory Group
 - E. Standing Committee Recommendations
 - F. Public Comment
 - G. Council Discussion and Action
13. Election of Officers for Calendar Year 2008
14. Other Business
- A. Next Meeting

Although non-emergency issues not contained in this agenda may come before these groups for discussion, those issues may not be the subject of formal action during these meetings. Action will be restricted to those issues specifically identified in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the Council's intent to take final action to address the emergency. For more information, contact Kitty M. Simonds, Executive Director at (808) 522-8220 (see, 72 F.R. 54437, September 25, 2007).

Security Zone in Nawiliwili Harbor

The Coast Guard proposes to create a security zone in the waters of Nawiliwili Harbor, Kaua'i, and on the land of the jetty south of Nawiliwili Park, including the jetty access road commonly known as Jetty Road. This zone is intended to enable the Coast Guard and its law enforcement partners to better protect people, vessels, and facilities in and around Nawiliwili Harbor in the face of non-compliant obstructers who have impeded, and threaten to continue impeding, the safe passage of the Hawai'i Superferry in Nawiliwili Harbor. This rule would complement, but not replace or supersede, existing regulations that establish a moving 100-yard security zone around large passenger vessels like the Hawai'i Superferry. Comments and related material must reach the Coast Guard on or before October 24, 2007. You may submit comments and related material, identified by Coast Guard docket number USCG-2007-29354, to the Docket Management Facility at the U.S. Department of Transportation. To avoid duplication, please use only one of the following methods: (1) Online:

Federal Notices

October 8, 2007

<http://www.regulations.gov>; (2) Mail: Docket Management Facility (M-30), U.S. Department of Transportation, West Building Ground Floor, Room W12-140, 1200 New Jersey Avenue, SE., Washington, DC 20590-0001; (3) Hand delivery: Room W12-140 on the Ground Floor of the West Building, 1200 New Jersey Avenue, SE., Washington, DC 20590, between 9:00 A.M. and 5:00 P.M., Monday through Friday, except Federal holidays. The telephone number is (202) 366-9329; (4) Facsimile: (202) 493-2251. For more information, contact Lieutenant (Junior Grade) Quincy Adams, U.S. Coast Guard Sector Honolulu at (808) 522-8264 (see, 72 F.R. 56308, October 3, 2007).

APHIS Final Environmental Assessment Available

The U.S. Department of Agriculture (USDA), Animal and Plant Health Inspection Service (APHIS), Wildlife Services has developed a final Environmental Assessment (EA) entitled "Managing Wildlife Hazards to Aviation at Civil Airports in Hawai'i", and has issued a Decision and Finding of No Significant Impact (FONSI). Wildlife Services has selected the proposed action to implement an integrated wildlife hazard management program to assist civilian airports in the State of Hawaii with alleviating wildlife hazards to reduce strikes to protect human safety and property during aircraft operations. Interested parties may obtain a copy of the final EA and Decision FONSI pre-decisional EA by visiting: http://www.aphis.usda.gov/regulations/ws/ws_nepa_environmental_documents.shtml or by contacting: State Director, USDA APHIS Wildlife Services, 3375 Koapaka Street, Suite H-420, Honolulu, Hawai'i 96819-1895, telephone (808) 861-8575, facsimile (808)-861-8570.

Public Notices

The Hawai'i Department of Health (HDOH) encourages you to review and comment on remediation action proposed in response to waste oil contamination at Komohana Park in the northeast corner of Campbell Industrial Park, on the island of O'ahu

The Komohana Park site is an approximately 35-acre industrially-zoned property where a small area of waste oil contamination is proposed to be remediated under the HDOH Voluntary Response Program (VRP). The VRP Agreement for addressing this site is between HDOH and the Bank of Hawai'i, a previous owner of the property. In accordance with regulations set forth by HDOH and the U.S. Environmental Protection Agency, the Bank of Hawai'i proposes to conduct remedial actions designed to prevent future construction worker exposures in the location of a former leaking waste oil underground storage tank.

The proposed remedial action is described in a Draft Response Action Memorandum (Draft RAM). A copy of the Draft RAM, a fact sheet, and additional information on the site are available for review through October 30, 2007 at the Kapolei Public Library (1020 Manawai Street, Kapolei, Hawai'i 96707) or at the Hawai'i Department of Health offices, 919 Ala Moana Boulevard, Honolulu, in Room #206. In addition, if you would like a fact sheet about the proposed remedial action sent to you, or if you have questions, you can call John Peard at (808) 933-9921 in Hilo, or e-mail him at john.peard@doh.hawaii.gov

Written comments regarding the proposed remedial action at this site will be accepted through Tuesday, October 30, 2007, and should be sent to:

John Peard, Project Manager
Hawai'i Department of Health
HEER Office, Room 206
919 Ala Moana Boulevard
Honolulu, Hawai'i 96814

Environmental Council Notice

October 8, 2007

**Joint Meeting, Standing Committees on Education/
Culture and the Annual Report, Environmental
Council, Department of Health, 235 S. Beretania St.,
Rm. 702, Honolulu, October 12, 2007, from 1:00 PM -
2:00 PM**

1. Call to order
2. New indicators and possible sources
3. Theme for 2007: Environmental Justice (coordinated with Education and Culture Committee)
4. Follow-up on 2006 theme: Energy
5. Graphic design upgrade
6. Annual Report production schedule
7. Adjournment

**Meeting, Standing Committee on Administrative
Rules, Environmental Council, Department of Health,
235 S. Beretania St., Rm. 702, Honolulu, October 12,
2007, from 01:00 PM - 02:00 PM**

1. Call to Order
2. Discussion of Minor Changes to Draft Rules as a result of LRB Review
3. Discussion of Edits from the Department of the Attorney General
4. Correspondence Received: October 4, 2007, letter of Orlando Davidson, Executive Director, Hawai'i Housing Finance and Development Corporation, to Laurence K. Lau, Deputy Director for Environmental Health, and Acting Director of Environmental Quality Control concerning Hawai'i Housing Finance and Development Corporation's Petition for Rulemaking to Amend Hawai'i Administrative Rules, Section 11-200-8.
5. Discussion of Hawai'i Housing Finance and Development Corporation's Petition for Rulemaking to Amend Hawai'i Administrative Rules, Section 11-200-8(a) by Adding a New Exempt Class of Action for the Acquisition of Land and Existing Structures for Affordable Housing, Including the Kukui Gardens.
