In this issue

The Department of Land and Natural Resources Division of Boating and Ocean Recreation (DOBOR) has submitted a Draft Environmental Assessment for Master Planned improvements to Kawaihau Small Boat Harbor in South Kohala, Hawai‘i. The state-funded improvements will include a fixed boat launch ramp, a floating dock, two boat loading docks, a comfort station, areas for vehicular and boat trailer parking, a wash down area, and other safety and security features. Comments to the DEA are due by November 23, 2007 (please see page 4 for details).

The Hawai‘i Island Community Development Corporation has submitted a Final Environmental Assessment and Finding of No Significant Impact (FONSIF) to develop a 30 unit elderly housing project on approximately 3 acres in North Kohala (page 4).

The Hawai‘i Army National Guard has submitted a Final Environmental Assessment and Finding of No Significant Impact for demolition and construction that will transform Keaahuka Military Reservation on the Big Island to become Keaahuka Joint Military Center for the Armed Forces Reserve Center and infrastructure for Hawai‘i Army National Guard, Hawai‘i Air National Guard, U.S. Marine Corps, Army Corps of Engineers, and Army Reserve units (page 5).

On Maui, the county Department of Parks and Recreation has submitted a Draft Environmental Assessment for improvements to the Maui Family YMCA, construction of a 2-story 18,000 square foot facility, additional parking and new landscaping (page 5).

On O‘ahu, the Hawai‘i Housing Finance and Development Corporation has submitted a Draft Environmental Assessment to acquire approximately 12 acres and 468 units of Kukui Gardens to provide affordable housing to families at or below 60 percent of the HUD area median income (AMI) until December 2062. No adverse environmental impacts are expected from the proposed acquisition and public comments are due by November 23, 2007 (page 6).

The Department of Design and Construction, City & County of Honolulu, Wastewater Division, has submitted a Final Environmental Assessment/Finding of No Significant Impact for Queen’s Medical Center to upgrade the electrical system for the hospital (page 7).

The Department of Planning & Permitting, City & County of Honolulu, has submitted a Draft Environmental Assessment for Voicestream PCS II Corporation to construct a telecommunications antenna facility on the grounds of the Manoa Chinese Cemetery. The applicant indicates that the facility is needed to provide adequate coverage currently lacking in certain parts of the valley (page 7).

Correction

In the last issue (October 8, 2007), we incorrectly identified the Tax Map Key for the Kilei Residential Project Draft Environmental Impact Statement on page 6. The correct TMK is 3-8-004: portions 002, 022 and 303. The Office of Environmental Quality Control apologizes for the oversight.

Final Rule - Fisheries in the Western Pacific; Precious Corals Fisheries

Black coral resources in the Au‘au Channel, Hawai‘i, have declined, possibly due to fishing pressure and an alien invasive soft coral. Current fishing regulations require minimum sizes for the harvest of living black coral colonies of 48 inches (122 cm) in height or one inch (2.54 cm) in stem diameter. Current regulations also exempt certain fishermen from the minimum stem diameter requirement, allowing the harvest of black coral with a smaller 3/4 inch (1.91 cm) stem diameter by anyone who had reported black coral harvests to the State of Hawai‘i within the five years prior to April 17, 2002. This final rule removes that exemption to reduce the impacts of fishing on Au‘au Channel black coral resources. Copies of the fishery management plan (FMP) and the regulatory amendment may be obtained from Kitty M. Simonds, Executive Director, Western Pacific Fishery Management Council (Council), 1164 Bishop Street, Suite 1400, Honolulu, Hawai‘i 96813, or on the Internet at www.wpfcouncil.org. For more information, please contact Bob Harman, NMFS PIR, (808) 944-2271 (see, 72 F.R. 58259, October 15, 2007).

Special Permit Applications

Special Permit Nos. 14458-N, and PHMSA-26873 were issued by the Pipeline and Hazardous Materials Safety Administration (PHMSA) of the U.S. Department of Transportation to the Hawai‘i Superferry, pursuant to 49 CFR 172.101. The special permits authorize the transportation in commerce of limited quantities of Class 3, Class 9 and Division 2.1 hazardous materials being stowed on and below deck on passenger ferry vessels transporting motor vehicles, such as recreational vehicles, with attached cylinders of liquefied petroleum gas (see, 72 F.R. 58721, October 16, 2007).

We provide access to our activities without regard to race, color, national origin (including language), age, sex, religion, or disability. Write or call OEQC or our departmental Affirmative Action Officer at Box 3378, Honolulu, HI 96801-3378 or at (808) 586-4616 (voice/tty) within 180 days of a problem. OEQC intends to make the information in this bulletin accessible to everyone. Individuals that require this material in a different format (such as large type or braille), should contact our office for assistance.
Draft Environmental Assessment
A project or action that may affect the environment cannot be implemented until an Environmental Assessment (EA) is prepared in accordance with Chapter 343, Hawaii’s Revised Statutes (HRS). If the lead State or county agency (the proposing agency for agency actions, or the approving agency for applicant actions) anticipates that the project will have no significant environmental impact, then affected agencies, individuals, and organizations must be consulted and a Draft EA (DEA) is written and public notice is published in this periodic bulletin (see, section 343-3, HRS) known as the Environmental Notice. The public has 30 days to comment on the Draft EA from the date of the first notice.

Final Environmental Assessment and Finding of No Significant Impact
After the lead agency reviews the public comments, if it determines that the project will have no significant effect on the environment, and then will prepare a Final EA (FEA) and issue a Finding of No Significant Impact (FONSI) formerly called a Negative Declaration. The Final EA must respond to all public comments. An Environmental Impact Statement will not be required and the project may now be implemented. The public has 30 days from the first notice of a FONSI in this periodic bulletin to ask a court to require the preparation of an EIS.

Final Environmental Assessment and Environmental Impact Statement Preparation Notice
When a lead agency decides that a project may have a significant environmental impact, an Environmental Impact Statement (EIS) must be prepared prior to implementing the project. Like the DEA (see above), affected agencies, individuals and organizations must be consulted prior to preparation of the final EA (FEA) and issuance of a determination called an EIS preparation notice (EISPN). (The EA is called final, to distinguish it from the draft, above). After the FEA is written by the lead agency, and notice of the FEA and EISPN is published in the this periodic bulletin, any agency, group, or individual has 30 days from the first publication of the EISPN to request to become a consulted party and to make written comments regarding the environmental effects of the proposed action. The public (including an applicant) has 60 days from the first notice of an EISPN in this periodic bulletin to ask a court to not require the preparation of an EIS.

Draft Environmental Impact Statement
After receiving the comments on the FEA and EISPN (see above), the lead agency or private applicant must prepare a Draft Environmental Impact Statement (DEIS) prior to project implementation. This document must completely disclose the likely impacts of a project. Direct, indirect and cumulative impacts must be discussed along with measures proposed to mitigate them. The public has 45 days from the first publication date in this periodic bulletin to comment on a DEIS. The DEIS must respond to comments received during the FEA-EISPN comment period in a point-by-point manner.

Final Environmental Impact Statement
After considering all public comments filed during the DEIS stage, the agency or applicant must prepare a Final EIS (FEIS). The FEIS must respond in a point-by-point manner to all comments from the draft stage. Required/reviewer analyses must be included in the FEIS. For applicant projects, the approving agency is authorized to accept the FEIS. For agency projects the Governor or the county mayor is the accepting authority. Only after the EIS is accepted may the project be implemented.

Acceptability
If the FEIS is accepted, the law requires that notice of this be published in this periodic bulletin. The public has 60 days from the date of first notice of acceptance to ask a court to vacate the acceptance of an EIS. In the case of applicant actions, the law requires that an approving agency must make a determination on acceptability within thirty-days of receipt of the FEIS or the FEIS is deemed accepted. Also, for applicant actions, the law provides for an administrative appeal of a non-acceptance to the Environmental Council.

National Environmental Policy Act
The National Environmental Policy Act (NEPA) requires federal projects to prepare an EA or an EIS. In many ways it is similar to Hawai‘i’s law. Some projects require both a state (and county) and federal EIS and the public comment procedure should be coordinated. Although not required by law, the OEQC publishes NEPA notices in this periodic bulletin to keep the public informed of important federal actions.

Consortion District
Any use of land in the State Conservation District requires a Conservation District Use Application (CDUA). These applications are reviewed and approved by the Board of Land and Natural Resources (BLNR). Members of the public may intervene in the permit process. Notice of these permit applications is published in this periodic bulletin.

Special Management Area
The Special Management Area (SMA) is along the coastlines of all our islands and development in this area is generally regulated by Chapter 205A, HRS and county ordinance. A special subset of the SMA that is regulated by Chapter 343, HRS is the Shoreline Setback Area. Most development in this area requires a Special Management Permit (SMP). This periodic bulletin posts notice of these SMP applications to encourage public input.

Shoreline Certifications
State law requires that Hawai‘i shorelines be surveyed and certified when necessary to clearly establish the shoreline setback (an area contained between the certified shoreline and a prescribe distance inland (usually 40 feet) from the certified shoreline). The public may participate in the process to help assure accurate regulatory boundaries. Private land owners often petition to have their shoreline certified by the State surveyor prior to construction. This periodic bulletin publishes notice from the Department of Land and Natural Resources of both shoreline certification applicants and of final certifications or rejections.

Environmental Council
The Environmental Council is a fifteen-member citizen board appointed by the Governor to advise the State on environmental concerns. The council makes the rules that govern the Environmental Impact Statement process. The agendas of their regular meetings are published on the Internet at http://www.ehawaii.gov/calendar and the public is invited to attend.

Exemption Lists
Government agencies must keep a list describing the minor activities they regularly perform that are declared exempt from the environmental review process. These lists are reviewed and approved by the Environmental Council. This periodic bulletin will publish an agency’s draft exemption list for public comment prior to Council decision making, as well as notice of the Council’s decision on the list.

Endangered Species
This periodic bulletin is required by Section 343-3(c), HRS, to publish notice of public comment periods or public hearings for habitat conservation plans (HCP), safe harbor agreements (SHA), or incidental take licenses (ITL) under the federal Endangered Species Act, as well as availability for public inspection of a proposed HCP or SHA, or a proposed ITL (as a part of an HCP or SHA).
The State of Hawai‘i Department of Land and Natural Resources (DLNR) Division of Boating and Ocean Recreation (DOBOR) propose to install the first phase of the Master Planned improvements at the Kawaihae Small Boat Harbor (South) basin. The full harbor build-out was previously accepted in a 1985 EIS document. The proposed improvements will provide a safe environment for light-draft vessels in the Kawaihae community and will remove their presence from the commercial traffic at the adjacent Deep-draft Harbor. The elements to be installed include a fixed boat launch ramp, a floating dock, two boat loading docks, a comfort station, areas for vehicular and boat trailer parking, a wash down area, and other safety and security features. All facilities will be ADA-accessible. Construction will be wholly funded by the State of Hawai‘i.

No archaeological or historic properties have been identified in the vicinity of the project site. No threatened or endangered species are anticipated to be affected by the project. Construction of the project will be properly mitigated to ensure that no adverse impacts are made upon coastal, environmental, or waterway systems. Designated land uses and function use of the site will not be restricted by the proposed installations. Project environmental impacts are primarily related to short-term construction noise and fugitive dust, which will be mitigated through compliance with the appropriate State and County regulations.
The Proposed Action consists of construction and demolition projects that will transform KMR to the Keaukaha Joint Military Center (KJMC). Transformation is congressionally directed through the 2005 Base Realignment and Closure Act (BRAC). New facilities will accommodate units currently stationed at KMR, and ARNG Readiness Centers at Honoka’a and Kea’au. The EA analyzes BRAC and regular Military Construction. Transformation involves construction of an Armed Forces Reserve Center (AFRC) and infrastructure for Hawai’i Army National Guard (HIARNG), Hawai’i Air National Guard (HIANG), U.S. Marine Corps (USMC), Army Corps of Engineers (USACE), and Army Reserve units. Additional projects include a new wash and fuel area, guard shack, main entrance, maintenance shops, a covered equipment storage area, USACE field office, transient barracks and in-active duty and annual training dining facilities, perimeter fencing, parking, and lighting. In addition, the HIARNG is proposing demolition of 16 buildings on the site.

As a result of heavy growth in membership, the Maui Family YMCA has outgrown its current facility. To continue providing adequate programs and services to its members and the people of Maui, the Maui Family YMCA must expand its facility.

The proposed project is located in an area of existing park and residential development on a parcel occupying 4 acres (174,240 square feet) of land on the east side of Kanaloa Avenue, Kahului, Maui, Hawai’i. Specifically, the project site lies north of Halia Nakoa Street, across Kanaloa Avenue from the Maui War Memorial Complex and bordering Keopuolani Park. The proposed action includes both improvements to the existing building and new construction adjacent to the existing facilities.

After minor site preparation, a two-story, approximately 18,000 square foot building addition 34 feet in height will be constructed, bringing the combined floor area of the expanded YMCA facility to 35,000 square feet. The proposed building addition will include a gymnasium, aerobic exercise room, showers, locker rooms, a new outdoor swimming pool, offices, lounge and storage areas. Existing facilities will be refurbished for finishes and limited modification of interior walls. The proposed project will also include modification of the front parking area, new paved parking (for a total of 115 stalls), landscape plantings, and the installation of utilities and access connections. The project will also include the installation of a subsurface drainage system consisting of a perforated drainline embedded in crushed rock and wrapped with a layer of filter fabric, which will capture any incremental increase in post-development runoff on site.
O‘ahu Notices

October 23, 2007

Kukui Gardens Land Acquisition (HRS 343 DEA)

District: Honolulu
TMK: (1)-7-26:07
Applicant: Hawai‘i Housing Finance and Development Corporation, 677 Queens Street, Suite 300, Honolulu, Hawai‘i 96813. Contact: Janice Takahashi (808-737-1875)

Approving Agency: Hawai‘i Housing Finance and Development Corporation, 677 Queen Street, Suite 300, Honolulu, Hawai‘i 96813. Contact: Janice Takahashi (808-737-1875)

Consultant: Belt Collins Hawai‘i Ltd., 2153 North King Street, Suite 200, Honolulu, Hawai‘i 96819. Contact: Sue Sakai (808-521-5361)

Status: Draft environmental assessment (DEA) notice pending 30-day public comment. Address comments to the applicant with copies to the approving agency, consultant and OEQC.

Permits Required: None

HHFDC would use $25 million in general obligation bonds to acquire a portion of Kukui Gardens to preserve long-term affordable rentals at Kukui Gardens. Under the proposed transaction agreement, HHFDC would acquire Parcel A (approximately 10 acres and 389 units) and Carmel Partners would acquire Parcel B (approximately 12 acres and 468 units). Pursuant to a new Regulatory Use Agreement, Parcel A unit rents would be affordable to families at or below 60 percent of the HUD area median income (AMI) until December 2062. Parcel B units would be rented at current affordable rates through April 2011, at which time rents may be increased to new tenants. From May 2013 to December 2062, Parcel B rents would be affordable to households at or below 140 percent of AMI. No adverse environmental impacts are expected from the proposed acquisition. A cultural impact assessment did not disclose any adverse effects. The only impacts of the proposed action relate to socioeconomics. These impacts would be positive, enhancing community and state welfare by assuring long-term preservation of 389 affordable rental units at Kukui Gardens. No action could result in the loss of 857 affordable rental units after April 2011. Therefore, the expected determination is a Finding of No Significant Impact (FONSI).

Kuliouou Wastewater Pump Station Modification and Force Main Replacement (HRS 343 FEA-FONSI)

District: Honolulu
TMK: 3-08-04:79, 3-08-04 and 3-09-45
Proposing Agency: Department of Design and Construction, Wastewater Division, 650 South King Street, 14th Floor, Honolulu, Hawai‘i 96813. Contact: Karli M. Miyata (808-768-8762)

Determination
Agency: Same as above.
Consultant: Shimabukuro, Endo & Yoshizaki, Inc. dba SEY Engineers, 1126 12th Avenue, Room 309, Honolulu, Hawai‘i 96816-3715. Contact: Howard K. Endo (808-737-1875)

Status: Final environmental assessment (FEA) and Finding of No Significant Impact (FONSI).

Permits Required:

- NPDES, Chapter 55 Water Pollution Control, Discharge Dewatering Effluent into State Drainage System, Community Noise Control, Construction Noise Variance, Building, Grading, Trenching, Street Usage, Construction Dewatering for Discharge and for Industrial Water Discharge into the City and County Separate Storm Sewer system, Installation of Above Ground Fuel Storage Tank, and Waiver from City Land Use Ordinance Rear Yard Setback Requirement

The City’s Department of Design and Construction proposes to modify the proposed 2001 improvements to their existing Kuliouou WWPS covered in the original Environmental Assessment. To improve site aesthetics, modifications will provide areca palm hedges along the west, north and east boundaries, and a fan palm and a kukui tree in the front yard. Per current City standards, the Bermuda grass ground cover within the fenced WWPS site will be replaced with rock fill. A 2001 proposed 500 gallon underground diesel tank will be replaced with a 1,000 gallon above ground diesel tank to meet current City standards to operate the WWPS during major power outages. A waiver will be obtained from the City Land Use Ordinance rear yard setback requirement since a new generator room will be located within the rear yard. A force main replacement will be provided from the WWPS along May Way and Kawaihae Street to the Hawai‘i Kai SMH “0” since the existing force main has deteriorated, resulting in wastewater spills. This will assure compliance to the Clean Water Act. Construction is expected to begin in early 2008 and should be completed within 2 years. The City will fund the estimated construction cost for the additional improvements of $550,000. Short term impacts during this period include: (1) fugitive dust, exhaust emissions, and noise from construction equipment in the project vicinity and (2) disruptions to traffic due to diversions around work areas during installation of the force main replacement. The contractor will be required to follow standard procedures to mitigate short-term impacts, such as restricting working hours, providing proper tuning and maintenance of equipment and covering trenches during non working hours. No adverse long-term impacts are anticipated from the project.
Queens Medical Center Electrical Systems Upgrade Project (HRS 343 FEA-FONSI)

District: Honolulu
TMK: 2-1-35: 3-8, 10; 2-1-18: and, 2-1-37:2
Applicant: Queens Medical Center, 1329 Lusitana Street, 1410 Miller Street, 510 South Beretania Street, and 1236 Lauhala Street – Hawai’i Capital District. Contact: Les Chinen

Approving Agency: Department of Planning and Permitting, 650 South King Street, 7th Floor, Honolulu, Hawai’i 96813. Contact: Pamela Davis (808-768-8017)
Consultant: Belt Collins Hawai’i Ltd., 2153 North King Street, Honolulu, Hawaii 96817. Contact: Lee Sichter (808-521-5361)
Status: Final environmental assessment (FEA) and Finding of No Significant Impact (FONSI).
Permits Required: Plan Review Use (PRU) Permit

The applicant, Queen’s Medical Center, proposes to upgrade the electrical system for the hospital, including construction of a new generator building, four (4) new diesel-powered emergency generators (a total of 9.468 megawatts), relocation of two (2) underground electrical service feeders, and an increase in feeder capacity. The project proposal will require inclusion in a Plan Review Use (PRU) permit.

Wireless Communication Antenna Manoa Chinese Cemetery (Chapter 343 DEA)

District: Honolulu
TMK: 2-9-43-1
Applicant: Voicestream PCS II Corporation, 815 Pi‘ikoi Street, #100, Honolulu, Hawai’i 96814

Approving Agency: Department of Planning and Permitting, 650 South King Street, 7th Floor, Honolulu, Hawai’i 96813, Contact: Lynne Kauer, (808 768-8016)
Consultant: Kusao and Kurahashi, Inc., 2752 Woodlawn Drive, Suite 5-202, Honolulu, Hawai’i 96822, Contact - Ardis Shaw-Kim, (808 988-2231)
Public Comment Deadline: November 23, 2007
Permits required: Conditional Use Permit-minor, Waiver, building permit

The applicant, Voicestream PCS II Corporation, is proposing to construct a telecommunications antenna facility on the grounds of the Manoa Chinese Cemetery. The facility will consist of a 60-foot high stealth (palm tree) monopole, a concrete pad, electrical and equipment cabinets, and support infrastructure. Six (6) panel antennas will be mounted within the “fronds” of the stealth palm tree. The facility will be enclosed by a 6-foot high vinyl fence and gate, and a croton screening hedge along the exterior of the fence.

The 10.753-acre site is listed on the Hawaii Register of Historic Places. The proposed facility will occupy about a 400-square-foot area at the western corner of the site, 15 feet north of the ossuary (bone house). The site is in the P-2 General Preservation District with a 25-foot height limit. Therefore, a Conditional Use Permit-minor for a Utility Installation (Type B) and a Waiver to exceed the height limit will be required.

The applicant indicates that the facility is needed to provide adequate coverage currently lacking in certain parts of the valley. Construction is anticipated to begin after all necessary permits are obtained and take about five (5) months to complete. The project will be privately funded.
Federal Consistency Reviews

The Hawai‘i Coastal Zone Management (CZM) Program has received the following federal actions to review for consistency with the CZM objectives and policies in Chapter 205A, Hawai‘i Revised Statutes. This public notice is being provided in accordance with section 306(d) (14) of the National Coastal Zone Management Act of 1972, as amended. For general information about CZM federal consistency please call Mr. John Nakagawa with the Hawai‘i CZM Program at 587-2878. For neighboring islands use the following toll free numbers: Lana‘i & Moloka‘i: 468-4644 x72878, Kaua‘i: 274-3141 x72878, Maui: 984-2400 x72878 or Hawai‘i: 974-4000 x72878. For specific information or questions about an action listed below please contact the CZM staff person identified for each action. Federally mandated deadlines require that comments be received by the date specified for each CZM consistency review and can be mailed to: Office of Planning, Department of Business, Economic Development and Tourism, P.O. Box 2359, Honolulu, Hawai‘i 96804. Or, fax comments to the Hawai‘i CZM Program at (808) 587-2899.

(1) U.S. Coast Guard Security Zone for U.S. Forces Vessel SBX-1

Federal Action: Federal Agency Activity
Federal Agency: U.S. Coast Guard
Contact: Dr. Dennis Mead, 541-2129
Location: Waters extending 500-yards around the vessel.
CZM Contact: John Nakagawa, 587-2878, Electronic mail: jnakagaw@dbedt.hawaii.gov
Proposed Action: The U.S. Coast Guard proposes to establish a permanent 500-yard moving security zone around the U.S. Forces vessel SBX-1 while it transits within waters off of Honolulu, Oahu, to Pearl Harbor for repairs at least once each year. The security zone would be automatically activated for enforcement whenever the vessel is in U.S. navigable waters within the Honolulu Captain of the Port Zone, and includes all waters extending 500-yards in all directions from the SBX-1, from the surface to the ocean floor. The security zone would move with the SBX-1 while it is in transit and would become fixed whenever the SBX-1 is stationary.
Comments Due: November 6, 2007

(2) Replace Piers 100 & 200 at Ke‘ehi Small Boat Harbor, O‘ahu

Applicant: Department of Land and Natural Resources, Engineering Division
Consultant: Bow Engineering & Development, Inc.
Contact: Mr. Cey Murakami, 941-8853
Federal Action: Federal Permit
Federal Agency: U.S. Army Corps of Engineers
Location: Ke‘ehi Lagoon
CZM Contact: John Nakagawa, 587-2878, Electronic mail: jnakagaw@dbedt.hawaii.gov
Proposed Action: Replace Piers 100 and 200 at the Ke‘ehi Small Boat Harbor within Ke‘ehi Lagoon, which are in disrepair. The proposed project includes the following work: (1) remove all remaining sections of wooden main access piers and finger piers of Piers 100 and 200; (2) remove all concrete piles as indicated in the enclosed design drawings; (3) install new concrete piles; (4) construct new corrosion resistant main access piers and finger piers.
Comments Due: November 6, 2007

Special Management Area (SMA) Minor Permits

Pursuant to Hawai‘i Revised Statute (HRS) 205A-30, the following is a list of SMA Minor permits that have been approved or are pending by the respective county/state agency. For more information about any of the listed permits, please contact the appropriate county/state Planning Department. City & County of Honolulu (523-4131); Hawai‘i County (961-8288); Kaua‘i County (241-6677); Maui County (270-7735); Kaka‘ako (Honolulu) or Kalaeloa (Barbers Point) Community Development District (587-2840).

Conservation Notices

Conservation District Use Permits

October 23, 2007

Persons interested in commenting on the following Conservation District Use Application (Department Permit) must submit comments to the Department of Land and Natural Resources. Also, anyone interested in receiving notification of determination on Conservation District Use Applications (Department Permits) must submit requests to DLNR that include the following information:

1. Name and address of the requestor.
2. The permit for which the requestor would like to receive notice, notice of determination; and
3. The date the notice was initially published in the Environmental Notice.

Both comments and requests for notification of determinations must be submitted to DLNR within thirty (30) days from the initial date that the notice was published in the Environmental Notice.

Please send comments and requests to:

State of Hawai‘i
Department of Land and Natural Resources
Office of Conservation and Coastal Lands
1151 Punchbowl Street, Room 131
Honolulu, Hawai‘i 96813

DLNR will make every effort to notify those interested in the subject application, it is not obligated to notify any person not strictly complying with the above requirements. For more information, please contact Dolan Eversole of the Office of Conservation and Coastal Lands at (808) 587-0321.

Federal Notices

Pest Risk Analysis for Importation of Sweet Cherries

The Animal and Plant Health Inspection Service (APHIS) of the U. S. Department of Agriculture is advising the public that it has prepared a pest risk analysis that evaluates the risks associated with the importation into the continental United States and Hawai‘i of sweet cherries from Australia. Based on that analysis, APHIS believes that the application of one or more designated phytosanitary measures will be sufficient to mitigate the risks of introducing or disseminating plant pests or noxious weeds via the importation of sweet cherries from Australia. APHIS is making the pest risk analysis, as well as an environmental assessment it has prepared in connection with this action, available for review and comment. APHIS will consider all comments it receives on or before December 11, 2007. You may submit comments by either of the following methods: Federal eRulemaking Portal: Go to http://www.regulations.gov, select “Animal and Plant Health Inspection Service” from the agency drop-down menu, then click “Submit.” In the Docket ID column, select Docket No. APHIS-2007-0128 to submit or view public comments and to view supporting and related materials available electronically. Information on using Regulations.gov, including instructions for accessing documents, submitting comments, and viewing the docket after the close of the comment period, is available through the site’s “User Tips” link. Postal Mail/Commercial Delivery: Please send four copies of your comment (an original and three copies) to Docket No. APHIS-2007-0128, Regulatory Analysis and Development, PPD, APHIS, Station 3C71, 4700 River Road, Unit 118, Riverdale, MD 20737-1238. Please state that your comment refers to Docket No. APHIS-2007-0128. For more information, contact Ms. Donna L. West, Senior Import Specialist, Commodity Import Analysis and Operations, Plant Health Programs, PPQ, APHIS, 4700 River Road, Unit 133, Riverdale, Maryland 20737-1231, telephone (301) 734-8758 (see, 72 F.R. 58047, October 12, 2007).
Shoreline Notices

October 23, 2007

Shoreline Certifications and Rejections

Pursuant to §§13-222-26, HAR the following shorelines have been proposed for certification or rejection by the DLNR. Any person or agency wishing to appeal a proposed shoreline certification or rejection shall file a notice of appeal in writing with the department no later than 20 calendar days from the date of the public notice of the proposed shoreline certification or rejection. The Notice of appeal shall be sent to the Board of Land and Natural Resources, 1151 Punchbowl Street, Room 220, Honolulu, Hawai‘i 96813.
