

# The Environmental Notice

December 8, 2020

David Y. Ige, Governor

*The Environmental Notice* provides public notice for projects undergoing environmental review in Hawai'i as mandated under Section 343-3, Hawai'i Revised Statutes, the Environmental Impact Statement Law. Along with publishing Environmental Assessments and Environmental Impact Statements for projects in Hawai'i, *The Environmental Notice* also includes other items related to the shoreline, coastal zone, and federal activities.

## ANNOUNCEMENTS

To facilitate the submittal of documents and determinations to OEQC for publication, we again offer the 2021 Submittal calendar at the end of this issue, which can also be [found on our website](#). Unless your submittal is regarding a grandfathered action that had an initial publication (i.e., Draft EA or EISPN) prior to August 9, 2019, please refer to the dates in the **red** "New Rules Submittal Deadline" column. We encourage the submittal of material PRIOR to the deadline, to enhance the ability to work out any complications that might otherwise prevent the item from being published. As always, feel free to contact our office by phone at (808) 586-4185 or email ([oeqchawaii@doh.hawaii.gov](mailto:oeqchawaii@doh.hawaii.gov)) should you have any questions with submitting material for publication.

DAGS is providing opportunities for public input by facilitating an EISPN public scoping meeting virtually online where oral comments can be made with regards to the EIS. <b>The public scoping meeting held in conjunction with this EISPN will be on December 17, 2020, running from 5:30 PM - 7:00PM.</b> Participation in this scoping meeting will require pre-registration, which may be completed at the following link: <a href="https://bit.ly/WahiawaCivicEISPNScoping">https://bit.ly/WahiawaCivicEISPNScoping</a> (a QR code to the registration link is also provided on page 15 of the EISPN document). Following registration, a link to the meeting will be provided via e-mail.</p>	

The Proposed Action encompasses the development and construction of a new Wahiawā Civic Center, consisting of a Court Facility, State Office Complex, and a City & County of Honolulu (City) Satellite City Hall on the grounds of the existing Wahiawā Civic Center, an approximately 2.96-acre site.

The existing Wahiawā Civic Center is fully occupied but undersized to accommodate other desired services. The proposed action encompasses the construction of a Court Facility and State Office Complex that will house State offices, City offices such as the Satellite City Hall and Driver's Licensing, and a Judicial District Court Facility. This development will provide various State and City services in one location and would be supported by off- and on-site infrastructure improvements, off- and on-site parking, and on-site support buildings such as a central utility plant.

## FEDERAL NOTICES

As a courtesy, listed below are some relevant entries from the Federal Register published since the last issue of *The Environmental Notice*. For more information, click on the title link, also available at [www.federalregister.gov](http://www.federalregister.gov).

**Notice: [Western Pacific Fishery Management Council; Pacific Island Fisheries; Public Meeting](#) (published by the National Oceanic and Atmospheric Administration [NOAA] on 11/30/2020)**

The NMFS and the Western Pacific Fishery Management Council (Council) will convene a Western Pacific Stock Assessment Review (WPSAR) of a 2020 stock assessment update for seven deep-water bottomfish species ("Deep 7" bottomfish complex) in the Main Hawaiian Islands. **The WPSAR panel will meet on December 16-17, 2020.** The meeting will be held by web conference via WebEx. Audio and visual portions for all of the web conferences can be accessed at: <https://wprfmc.webex.com/join/info.wpcouncilnoaa.gov>. Web conference access information and instructions for providing public comments will be posted on the Council website at [www.wpcouncil.org](http://www.wpcouncil.org). For assistance with the web conference connection, contact the Council office at (808) 552-8220. For more information and specific times & agenda, click on the title link above.

**Notice: [Draft 2020 Marine Mammal Stock Assessment Reports](#) (published by NOAA on 12/04/2020)**

NMFS reviewed the Pacific regional marine mammal stock assessment report (SAR) in accordance with the Marine Mammal Protection Act (MMPA). SARs for marine mammals in the Alaska, Atlantic, and Pacific regions were revised according to new information. NMFS solicits public comments on the draft 2020 SARs. NMFS is also requesting new information for strategic stocks that were not updated in 2020. **Comments must be received by March 4, 2021.**

**Notice: [Changes in Flood Hazard Determinations](#) (published by the Federal Emergency Management Agency [FEMA] on 11/25/2020)**

This notice lists communities, including Honolulu, O'ahu, where the addition or modification of Base Flood Elevations, base flood depths, Special Flood Hazard Area boundaries or zone designations, or the regulatory floodway (hereinafter referred to as flood hazard determinations), as shown on the Flood Insurance Rate Maps (FIRMs), and where applicable, in the supporting Flood Insurance Study (FIS) reports, prepared by FEMA for each community, is appropriate because of new scientific or technical data. The FIRM, and where applicable, portions of the FIS report, have been revised to reflect these flood hazard determinations through issuance of a Letter of Map Revision (LOMR), in accordance with Federal Regulations. The LOMR will be used by insurance agents and others to calculate appropriate flood insurance premium rates for new buildings and the contents of those buildings. Submit comments and/or appeals to the Chief Executive Officer of the community as listed in the table in the notice. **The flood hazard determination for Honolulu will be finalized on January 4, 2021.**

**Proposed Rule: [Endangered and Threatened Species; Critical Habitat for the Threatened Indo-Pacific Corals](#) (published by the National Oceanic and Atmospheric Administration on 11/27/2020)**

We, the National Marine Fisheries Service (NMFS), propose to designate critical habitat for the seven threatened corals in U.S. waters in the Indo-Pacific (*Acropora globiceps*, *Acropora jacquelineae*, *Acropora retusa*, *Acropora speciosa*, *Euphyllia paradivisa*, *Isopora crateriformis*, and *Seriatopora aculeata*) pursuant to the Endangered Species Act. Seventeen specific occupied areas containing physical features essential to the conservation of these coral species are being proposed for designation as critical habitat; these areas contain approximately 600 square kilometers of marine habitat. We have considered positive and negative economic, national security, and other relevant impacts of the proposed designations, and we propose to exclude two areas from the critical habitat designations due to anticipated impacts on national security. We are soliciting comments from the public on all aspects of the proposal, including our identification of the geographical area and depths occupied by the species, the physical and biological feature essential to the coral species' conservation and identification, areas not included and excluded, and consideration of impacts of the proposed action. **Comments on this proposal must be received by January 26, 2021.**

**Proposed Rule: [Procedures for Considering Environmental Impacts](#) (published by the U.S. DOT on 11/23/2020)**

The U.S. Department of Transportation (DOT) proposes to update and codify its internal order establishing the responsibilities and procedures for complying with the National Environmental Policy Act (NEPA), which was issued in 1979 and last updated in 1985. This proposal would update the DOT NEPA procedures in response to the Council on Environmental Quality's final rule updating its NEPA procedures and also incorporate provisions of the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users; Moving Ahead for Progress in the 21st Century Act; and the Fixing America's Surface Transportation Act related to DOT's environmental review process. This proposed rule would modernize the Department's procedures and promote collaboration and efficiency in the implementation of NEPA. Finally, this proposal would also update the list of the Department's categorical exclusions consistent with the CEQ's regulations implementing NEPA. **Persons interested in submitting written comments on this Notice of Proposed Rulemaking should do so by December 23, 2020.**

## GLOSSARY OF TERMS AND DEFINITIONS

**Agency Actions**

Projects or programs proposed by any department, office, board, or commission of the state or county government which is part of the executive branch of that government per [HRS 343-2](#).

**Applicant Actions**

Projects or programs proposed by any person who, pursuant to statute, ordinance, or rule, requests approval (discretionary consent) for a proposed action per [HRS 343-2](#).

**Draft Environmental Assessment**

When an Agency or Applicant proposes an action that [triggers](#) HRS 343, an Environmental Assessment shall be prepared at the earliest practicable time to determine whether the action's environmental impact will be significant, and thus whether an environmental impact statement shall be required per [HRS 343-5\(b\)](#), for Agency actions and [HRS 343-5\(e\)](#), for Applicant actions. For actions for which the proposing or approving agency anticipates a Finding of No Significant Impact (AFNSI), a Draft EA (DEA) shall be made available for public review and comment for 30 days and public notice is published in this periodic bulletin.

**Final Environmental Assessment and Finding of No Significant Impact**

The action's proponent shall respond in writing to comments on a DEA received during the 30-day review period and prepare a Final EA (FEA) that includes those responses to determine whether an environmental impact statement shall be required. If there are no significant impacts, then the Agency will issue a Finding of No Significant Impact (FONSI). An Environmental Impact Statement (EIS) will not be required and the project has cleared HRS 343 requirements. The public has 30 days from the notice of a FONSI in this bulletin to ask the Environmental Court to require the preparation of an EIS.

**Final Environmental Assessment and Environmental Impact Statement Preparation Notice**

An EIS shall be required if the Agency finds that the proposed action may have a significant effect on the environment. The Agency shall file notice of such determination with OEQC, called an EIS Preparation Notice (EISPEN) along with the supporting Final EA. After the notice of the FEA-EISPEN is published in this bulletin, the public has 30 days to request to become a consulted party and to make written comments. The public (including the Applicant) has 60 days from the notice of the EISPEN in this bulletin to ask a court to not require the preparation of an EIS.

**Act 172-2012, Direct-to-EIS, Environmental Impact Statement Preparation Notice (with no EA)**

Act 172 in 2012 amended HRS 343 by providing for an agency to bypass the preparation of an environmental assessment for various actions that in the experience of the agency would clearly require the preparation of an EIS. The agency must submit its determination that an EIS is required for an action (Act 172-2012, EISPEN) with a completed OEQC publication form detailing the specifics of the action. This starts a 30-day scoping period in which the agency or applicant must hold a public scoping meeting for the preparation of the Draft EIS. Written comments and responses on the EISPEN must be incorporated into the subsequent Draft EIS and oral comments from the public scoping meeting must be recorded and submitted to the OEQC with the Draft EIS.

**Act 312-2012, Secondary Actions in the Highway or Public Right Of Way**

Act 312-2012, amended HRS 343, by adding a new section (HRS 343-5.5., entitled "Exception to applicability of chapter"). HEPA allows for a statutory exception for "secondary actions" (those that involve infrastructure in the highway or public right-of-way) provided that the permit or approval of the related "primary action" (those outside of the highway or public-right-of-way and on private property) is not subject to discretionary consent and further provided that the applicant for the primary action submits documentation from the appropriate agency confirming that no further discretionary approvals are required. An aid to understanding this is to visualize residential driveway improvements in the public right-of-way, versus, retail outlet driveway improvements in the public right-of-way.

**Draft Environmental Impact Statement**

After receiving the comments on the EISPEN, the Agency or Applicant must prepare a Draft Environmental Impact Statement (DEIS). The content requirements of the DEIS shall contain an explanation of the environmental consequences of the proposed action including the direct, indirect and cumulative impacts and their mitigation measures. The public has 45 days from the first publication date in this bulletin to comment on a DEIS. The DEIS must respond to comments received during the EISPEN comment period in a point-by-point manner.

**Final Environmental Impact Statement**

After considering all public comments filed during the DEIS stage, the Agency or Applicant must prepare a Final EIS (FEIS). The FEIS must respond in a point-by-point manner to all comments from the draft and must be included in the FEIS. For Applicant projects, the Approving Agency is the Accepting Authority and must make a determination within 30 days or the FEIS is deemed accepted as a matter of law. For an Agency project, the Governor or the Mayor (or their designated representative) is the Accepting Authority, and unlike applicant actions, there is no time limit on the accepting authority reviewing the FEIS. Only after the FEIS is accepted may the project be implemented.

**Acceptability**

The Accepting Authority must be satisfied that the FEIS meets three criteria (process, content, response to comments) to accept it. If the FEIS is accepted, notice is published in this bulletin. The public has 60 days from publication to challenge the acceptance of a FEIS. For Applicant actions, non-acceptance by the Approving Agency is cause for the Applicant to administratively appeal to the Environmental Council. For Agency actions, there is no such administrative appeal. In both instances, the Applicant or the proposing Agency can prepare a revised DEIS after a non-acceptance determination.

Maui sunset

Photo by [Thomas Hawk](#)**National Environmental Policy Act**

The National Environmental Policy Act (NEPA) requires federal projects to prepare a Federal EA or EIS. In many ways it is similar to Hawai'i's law. Some projects require both a State and Federal EIS and the public comment procedure should be coordinated. Upon request by a federal agency, OEQC publishes NEPA notices in this bulletin to help keep the public informed of important federal actions.

**Conservation District**

Proposed uses of land in the State Conservation District require a Conservation District Use Application (CDUA). These applications are reviewed and approved by the Board of Land and Natural Resources. Members of the public may intervene in the permit process. This bulletin will include EAs & EISs for actions proposed within the Conservation District.

**Special Management Area and Shoreline Setback Area**

The Special Management Area (SMA) is along the coastline of all islands and development in this area is generally regulated by [HRS 205A](#), and county ordinance. A portion of the SMA that is addressed by HRS 343 is the [Shoreline Area](#), which includes land between the State-certified shoreline and the county-determined shoreline setback line. This bulletin will include EAs & EISs for actions proposed within the Shoreline Setback Area.

**Shoreline Certifications**

State law requires that Hawai'i shorelines be surveyed and certified when necessary to clearly establish the shoreline setback from the certified shoreline. The public may participate in the process to help assure accurate regulatory boundaries. Private land owners often petition to have their shoreline certified by the State surveyor prior to construction. This bulletin publishes notice from the Department of Land and Natural Resources of shoreline certification applicants and final certifications or rejections.

**Environmental Council**

The [Environmental Council](#) is a 15-member citizen board appointed by the Governor. They serve as a liaison between the Director of OEQC and the general public concerning ecology and environmental quality. The Council makes the rules that govern the Environmental Impact Statement process (HRS 343). Agendas of their regular meetings are posted on the Internet and the public is invited to attend. The Council just completed the repeal of Hawaii Administrative Rules (HAR) Chapter 11-200 and adoption of HAR Chapter 11-200.1.

**Agency Exemption Lists**

Government agencies may keep a list describing the minor activities they regularly perform that are exempt from the environmental review process. These lists and any amendments shall be submitted to the Council for review and concurrence (HAR 11-200.1-16). This bulletin will publish an agency's draft exemption list for public comment prior to Council decision making, as well as notice of the Council's decision on the list.

**Endangered Species**

This bulletin is required by [HRS 343-3\(c\)](#), to publish notice of public comment periods or public hearings for Habitat Conservation Plans (HCP), Safe Harbor Agreements (SHA), or Incidental Take Licenses (ITL) under the federal Endangered Species Act, as well as availability for public inspection of a proposed HCP or SHA, or a proposed ITL (as a part of an HCP or SHA).

- Section 11-200.1-4(a), HAR, establishes the publication schedule of the periodic bulletin to be on the eighth and twenty-third of each month. Publication shall occur on weekends and holidays, when appropriate.
- Section 11-200.1-5(a), HAR, establishes the submittal deadline to be five working days before the publication date. The schedule does not count holidays and non-working days. Items must be submitted before the close of business (4:30 PM) on the submittal deadline. Note: Actions that have published the Draft EA or EISPN on or before August 8, 2019 shall file pursuant to Chapter 11-200, HAR ("1996 Rules"), which requires filing eight working days before publication.
- Comment periods for EAs are 30 days and for EISs are 45 days from the publication date. Section 11-200.1-3 sets forth how to count the days from publication. The publication date is day zero. Holidays and weekends are counted. When the deadline falls on a state holiday or non-working day, the deadline is the next working day.
