

# The Environmental Notice

January 8, 2023

Josh Green, M.D., Governor  
Scott Glenn, Director, OPSD

*The Environmental Notice* provides public notice for projects undergoing environmental review in Hawai'i as mandated under Section 343-3, Hawai'i Revised Statutes, the Environmental Impact Statement Law. Along with publishing Environmental Assessments and Environmental Impact Statements for projects in Hawai'i, *The Environmental Notice* also includes other items related to the shoreline, coastal zone, and federal activities.

## ANNOUNCEMENTS

As a reminder, please search for older EAs and EISs via the [online library](#) on our [website](#). If you try to access documents by clicking on links in older issues of *The Environmental Notice (TEN)* before the 2021 transition of OEQC to OPSD, those links have been broken because the server housing OEQC documents is no longer maintained by the Department of Health. All the documents were transferred to the new server and have a different URL than when they were originally published in *TEN*.

<b>Status</b>	Finding of No Significant Impact (FONSI) determination

The Waimea Nui Community Development Initiative (WNR-CDI) proposes to relocate the Kipuka o ke Ola (KOKO) Clinic to an approximate 2 to 5-acre portion of Department of Hawaiian Home Lands (DHHL) Homestead Lands located in Waimea on the island of Hawai'i, identified as Tax Map Key (3) 6-4-038:011. The KOKO Clinic was established in 2013 in response to a community needs assessment, which called for a health clinic to address the health disparities endured by Native Hawaiians in North Hawai'i. In 2015, a Final Environmental Assessment - Finding of No Significant Impact was prepared for the WNR-CDI, which proposed various facilities and land uses to be located within a portion of parcel 011. The WNR-CDI proposes to relocate the KOKO Clinic to an approximate 2 to 5-acre portion of their proposed development in parcel 011 as the clinic has outgrown their current space and anticipates an increase in patients as DHHL awards more homestead lots in the Waimea region.

<b>Status</b>	Finding of No Significant Impact (FONSI) determination

BWS proposes to install an exploratory well and test pump at its existing facility at 98-183 Pua'ali'i Street in Aiea, O'ahu to collect data about the quantity and quality of the underlying groundwater source. The project site involves land that was previously disturbed for the development of the Waimalu 217' Reservoir facility. The testing data will allow BWS to determine if the project site is a suitable location for a permanent groundwater well.

In early December 2021, BWS shut down its Halawa Shaft and halted pumping at the Aiea and Halawa Wells due to contamination of the groundwater aquifer by petroleum fuel releases from the Navy's Red Hill Bulk Fuel Storage Facility and Pipeline. The project is proposed at this time in response to the ongoing emergency situation and the uncertainty of returning all previously used water sources to full production. Once water testing is completed, the test pump would be removed and the well would be covered with a well cap.

## KAUA'I EAS/EISS

### West Kaua'i Energy Project--Final EA (FONSI)

<b>Status</b>	Finding of No Significant Impact (FONSI) determination

The Proposed Action involves the construction of a renewable energy and irrigation Project. The Proposed Action would utilize the existing Kōke'e Ditch Irrigation System and the Pu'u Lua, Pu'u 'Ōpae and Mānā Reservoirs, and includes both rehabilitation of existing State owned infrastructure as well as new construction of irrigation infrastructure and solar and hydroelectric facilities. This Project will require a long-term water lease from the Board of Land and Natural Resources (BLNR) to divert a multi-year rolling average of 11 MGD of water into the Kōke'e Ditch Irrigation System from the Waiakōali, Kawaikōi, Kaua'ikināna and Kōke'e Streams combined.

## CHAPTER 24, REVISED ORDINANCES OF HONOLULU

Zoning changes are not a trigger under [HRS Chapter 343](#), but pursuant to Revised Ordinances of Honolulu, Chapter 24, some applicants for zone changes are required to go through an environmental review process that mirrors the procedural requirements of Chapter 343. Developments being reviewed under Chapter 24 but not Chapter 343 appear here.

<b>Status</b>	Finding of No Significant Impact (FONSI) determination

The Applicant proposes a zone change from the Country zoning district to the R-10 Residential zoning district. No new construction is proposed. The zone change would remove the nonconforming status of the existing residential use on the properties and allow individual ownership. Under the current Country zoning, only seven (7) dwelling units are allowed, six (6) on Parcel 6 and one (1) on Parcel 30. A total of twenty-nine (29) rental dwelling units presently occupy the properties.

## FEDERAL NOTICES

As a courtesy, listed below are some relevant entries from the Federal Register published since the last issue of *The Environmental Notice*. For more information, click on the title link, also available at [www.federalregister.gov](http://www.federalregister.gov).

**Proposed Rule: [Endangered and Threatened Wildlife and Plants; Designation of Critical Habitat for `iwi](#) (published by the Fish and Wildlife Service on 12/28/2022)**

We, the U.S. Fish and Wildlife Service (Service), propose to designate critical habitat for the federally threatened `iwi (*Drepanis coccinea*) under the Endangered Species Act of 1973, as amended (Act). In total, approximately 275,647 acres (111,554 hectares) on the islands of Kaua`i, Maui, and Hawai`i, in the State of Hawai`i, fall within the boundaries of the proposed critical habitat designation. We also announce a public informational meeting and public hearing and the availability of a draft economic analysis of the proposed critical habitat designation. **We will accept comments received or postmarked on or before February 27, 2023. On February 10, 2023, we will hold a public informational meeting** from 6 to 6:45 p.m. HST followed by a public hearing from 6:45 to 8 p.m.. Click on the title link above for more information.

The `iwi's long, down curved, orange bill is specialized for sipping nectar from tubular flowers.

## GLOSSARY OF TERMS AND DEFINITIONS

### Agency Actions

Projects or programs proposed by any department, office, board, or commission of the state or county government which is part of the executive branch of that government per [HRS 343-2](#).

### Applicant Actions

Projects or programs proposed by any person who, pursuant to statute, ordinance, or rule, requests approval for a proposed action per [HRS 343-2](#).

### Draft Environmental Assessment

When an Agency or Applicant proposes an action that [triggers](#) HRS 343, an Environmental Assessment shall be prepared at the earliest practicable time to determine whether the action's environmental impact will be significant, and thus whether an environmental impact statement shall be required per [HRS 343-5\(b\)](#), for Agency actions and [HRS 343-5\(e\)](#), for Applicant actions. For actions for which the proposing or approving agency anticipates a Finding of No Significant Impact (AFNSI), a Draft EA (DEA) shall be made available for public review and comment for 30 days and public notice is published in this periodic bulletin.

### Final Environmental Assessment and Finding of No Significant Impact

The action's proponent shall respond in writing to comments on a DEA received during the 30-day review period and prepare a Final EA (FEA) that includes those responses to determine whether an environmental impact statement shall be required. If there are no significant impacts, then the Agency will issue a Finding of No Significant Impact (FONSI). An Environmental Impact Statement (EIS) will not be required and the project has cleared HRS 343 requirements. The public has 30 days from the notice of a FONSI in this bulletin to challenge the FONSI in the Environmental Court and seek a ruling to require the preparation of an EIS.

### Final Environmental Assessment and Environmental Impact Statement Preparation Notice

An EIS shall be required if the Agency finds that the proposed action may have a significant effect on the environment. The Agency shall file notice of such determination with OPSD called an EIS Preparation Notice (EISPN) along with the supporting Final EA. After the notice of the FEA-EISPN is published in this bulletin, the public has 30 days to request to become a consulted party and to make written comments. The public (including the Applicant) has 60 days from the notice of the EISPN in this bulletin to ask a court to not require the preparation of an EIS.

### Act 172-2012, Direct-to-EIS, Environmental Impact Statement Preparation Notice (with no EA)

Act 172 in 2012 amended HRS 343 by providing for an agency to bypass the preparation of an environmental assessment for various actions that in the experience of the agency would clearly require the preparation of an EIS. The agency must submit its determination that an EIS is required for an action (Act 172-2012, EISPN) with a completed publication form detailing the specifics of the action. This starts a 30-day scoping period in which the agency or applicant must hold a public scoping meeting for the preparation of the Draft EIS. Written comments and responses on the EISPN must be incorporated into the subsequent Draft EIS and oral comments from the public scoping meeting must be recorded and submitted to OPSD with the Draft EIS.

### HEPA

While technically there is no "Hawai'i Environmental Policy Act," HRS 343 is often referred to by this term.

### Act 312-2012, Secondary Actions in the Highway or Public Right Of Way

Act 312-2012, amended HRS 343, by adding a new section (HRS 343-5.5., entitled "Exception to applicability of chapter"). HEPA allows for a statutory exception for "secondary actions" (those that involve infrastructure in the highway or public right-of-way) provided that the permit or approval of the related "primary action" (those outside of the highway or public-right-of-way and on private property) is not subject to discretionary consent and further provided that the applicant for the primary action submits documentation from the appropriate agency confirming that no further discretionary approvals are required. An aid to understanding this is to visualize residential driveway improvements in the public right-of-way, versus, retail outlet driveway improvements in the public right-of-way.

### Draft Environmental Impact Statement

After receiving the comments on the EISPN, the Agency or Applicant must prepare a Draft Environmental Impact Statement (DEIS). The content requirements of the DEIS shall contain an explanation of the environmental consequences of the proposed action including the direct, indirect and cumulative impacts and their mitigation measures. The public has 45 days from the first publication date in this bulletin to comment on a DEIS.

### Final Environmental Impact Statement

After considering all public comments filed during the DEIS stage, the Agency or Applicant must prepare a Final EIS (FEIS). The FEIS must respond in a point-by-point manner to all comments from the draft and must be included in the FEIS. For Applicant projects, the Approving Agency is the Accepting Authority and must make a determination within 30 days or the FEIS is deemed accepted as a matter of law. For an Agency project, the Governor or the Mayor (or their designated representative) is the Accepting Authority, and unlike applicant actions, there is no time limit on the accepting authority reviewing the FEIS. Only after the FEIS is accepted may the project be implemented.

### Acceptability

The Accepting Authority must be satisfied that the FEIS meets three criteria (process, content, response to comments) to accept it. Whether the FEIS is accepted or not accepted, notice of the Acceptance Determination is published in this bulletin. The public has 60 days from publication to legally challenge the acceptance of a FEIS. For both Applicant and Agency actions, the Applicant or the proposing Agency can prepare a Revised DEIS after a non-acceptance determination.

### National Environmental Policy Act

The National Environmental Policy Act (NEPA) requires federal projects to prepare a Federal EA or EIS. In many ways it is similar to Hawai'i's law. Some projects require both a State and Federal EIS and the public comment procedure should be coordinated. Upon request by a federal agency, OPSD publishes NEPA notices in this bulletin to help keep the public informed of important federal actions.

### Conservation District

Proposed uses of land in the State Conservation District require a Conservation District Use Application (CDUA). These applications are reviewed and approved/denied by the Department or Board of Land and Natural Resources. Members of the public may intervene in the permit process. This bulletin will include EAs & EISs for actions proposed within the Conservation District.

### Special Management Area and Shoreline Setback Area

The Special Management Area (SMA) is along the coastline of all islands; development in this area is generally regulated by [HRS 205A](#), and county ordinance. A portion of the SMA that is addressed by HRS 343 is the [Shoreline Area](#), which includes land between the State-certified shoreline and the county-determined shoreline setback line. This bulletin will include EAs & EISs for actions proposed within the Shoreline Setback Area. Some projects going through the SMA permit process on O'ahu are also required to go through an environmental review process that mirrors HRS 343; these "ROH Chapter 25" EAs/EISs are included in this bulletin.

### Shoreline Certifications

State law requires that Hawai'i shorelines be surveyed and certified when necessary to clearly establish the shoreline setback from the certified shoreline. The public may participate in the process to help assure accurate regulatory boundaries. Private land owners often petition to have their shoreline certified by the State surveyor prior to construction. This bulletin publishes notice from the Department of Land and Natural Resources of shoreline certification applicants and final certifications or rejections.

### Environmental Advisory Council

The [Environmental Advisory Council](#) is a 15-member citizen board appointed by the Governor. They serve as a liaison between the Director of OPSD and the general public concerning ecology and environmental quality. Agendas of their regular meetings are posted on the Internet and the public is invited to attend.

### Agency Exemption Lists

Government agencies may keep a list describing the minor activities they regularly perform that are exempt from the environmental review process. These lists and any amendments shall be submitted to the Council for review and concurrence (HAR 11-200.1-16). This bulletin will publish an agency's draft exemption list for public comment prior to Council decision making, as well as notice of the Council's decision on the list.

### Endangered Species

This bulletin is required by [HRS 343-3\(c\)](#), to publish notice of public comment periods or public hearings for Habitat Conservation Plans (HCP), Safe Harbor Agreements (SHA), or Incidental Take Licenses (ITL) under the federal Endangered Species Act, as well as availability for public inspection of a proposed HCP or SHA, or a proposed ITL (as a part of an HCP or SHA).

Publication Calendar of the  
Environmental Review Program  
Periodic Bulletin, **HAR Chapter 11-200.1**

# 2023

Pursuant to Chapter 11-200.1, Hawai'i Administrative Rules (HAR), all items to be published in the periodic bulletin must be electronically submitted (see, <https://planning.hawaii.gov/erp/submittal-form/>) to the Environmental Review Program (ERP) five working days prior to the publication date. For actions that have published a draft EA or EISPN on or before August 8, 2019, use the 1996 Rules Submittal Deadline column for determining the filing date for the Final EA, Draft EIS, Final EIS, Acceptance / Non-acceptance, supplemental determinations, and supplemental EISs.

- Section 11-200.1-4(a), HAR, establishes the publication schedule of the periodic bulletin to be on the eighth and twenty-third of each month. Publication shall occur on weekends and holidays, when appropriate.
- Section 11-200.1-5(a), HAR, establishes the submittal deadline to be five working days before the publication date. The schedule does not count holidays and non-working days. Items must be submitted before the close of business (4:30 PM) on the submittal deadline. Note: Actions that have published the Draft EA or EISPN on or before August 8, 2019 shall file pursuant to Chapter 11-200, HAR ("1996 Rules"), which requires filing eight working days before publication.
- Comment periods for EAs are 30 days and for EISs are 45 days from the publication date. Section 11-200.1-3 sets forth how to count the days from publication. The publication date is day zero. Holidays and weekends are counted. When the deadline falls on a state holiday or non-working day, the deadline is the next working day.
