

# The Environmental Notice

November 8, 2023

Josh Green, M.D., Governor  
Mary Alice Evans, Interim Director

*The Environmental Notice* provides public notice for projects undergoing environmental review in Hawai'i as mandated under Section 343-3, Hawai'i Revised Statutes, the Environmental Impact Statement Law. Along with publishing Environmental Assessments and Environmental Impact Statements for projects in Hawai'i, *The Environmental Notice* also includes other items related to the shoreline, coastal zone, and federal activities.

In compliance with the National Environmental Policy Act of 1969 (NEPA) and Hawai'i Revised Statutes (HRS) 343, The Division of Forestry and Wildlife has prepared this environmental assessment (EA) to analyze potential effects of implementation of the Kanaio Forestry and Wildlife Management Plan. This EA examines the potential environmental effects of the proposed Kanaio Forestry and Wildlife Area (KFWA). The Division of Forestry and Wildlife (DOFAW) plans to establish the KFWA as a mixed-use public hunting area. The area will provide quality hunting opportunities and recreational use for the growing population on the island of Maui.

**Villages of Leiali'i, Village 1-B--Final EA (FONSI) Volume I and Volume II**

<b>Status</b>	Finding of No Significant Impact (FONSI) determination

The proposed action involves the development of the Villages of Leiali'i, Village 1-B Subdivision (Village 1-B), which will consist of 181 single-family homes. The new housing units will be made available to DHHL native Hawaiian beneficiaries. Related offsite improvements include the development of two (2) new retention basins and grading and development of interceptor ditches. Outlet drainage pipes in an existing offsite retention basin will be adjusted, and the retention basin will be enlarged. Roadway improvements involve restriping and relocation of traffic signals at the Honoapi'ilani Highway and Leiali'i Parkway intersection, widening of Leiali'i Parkway from two (2) lanes to four (4) lanes and any other improvements needed to eventually license Leiali'i Parkway to the County of Maui.

## GLOSSARY OF TERMS AND DEFINITIONS

### Agency Actions

Projects or programs proposed by any department, office, board, or commission of the state or county government which is part of the executive branch of that government per [HRS 343-2](#).

### Applicant Actions

Projects or programs proposed by any person who, pursuant to statute, ordinance, or rule, requests approval for a proposed action per [HRS 343-2](#).

### Draft Environmental Assessment

When an Agency or Applicant proposes an action that [triggers](#) HRS 343, an Environmental Assessment shall be prepared at the earliest practicable time to determine whether the action's environmental impact will be significant, and thus whether an environmental impact statement shall be required per [HRS 343-5\(b\)](#), for Agency actions and [HRS 343-5\(e\)](#), for Applicant actions. For actions for which the proposing or approving agency anticipates a Finding of No Significant Impact (AFNSI), a Draft EA (DEA) shall be made available for public review and comment for 30 days and public notice is published in this periodic bulletin.

### Final Environmental Assessment and Finding of No Significant Impact

The action's proponent shall respond in writing to comments on a DEA received during the 30-day review period and prepare a Final EA (FEA) that includes those responses to determine whether an environmental impact statement shall be required. If there are no significant impacts, then the Agency will issue a Finding of No Significant Impact (FONSI). An Environmental Impact Statement (EIS) will not be required and the project has cleared HRS 343 requirements. The public has 30 days from the notice of a FONSI in this bulletin to challenge the FONSI in the Environmental Court and seek a ruling to require the preparation of an EIS.

### Final Environmental Assessment and Environmental Impact Statement Preparation Notice

An EIS shall be required if the Agency finds that the proposed action may have a significant effect on the environment. The Agency shall file notice of such determination with OPSD called an EIS Preparation Notice (EISPN) along with the supporting Final EA. After the notice of the FEA-EISPN is published in this bulletin, the public has 30 days to request to become a consulted party and to make written comments. The public (including the Applicant) has 60 days from the notice of the EISPN in this bulletin to ask a court to not require the preparation of an EIS.

### Act 172-2012, Direct-to-EIS, Environmental Impact Statement Preparation Notice (with no EA)

Act 172 in 2012 amended HRS 343 by providing for an agency to bypass the preparation of an environmental assessment for various actions that in the experience of the agency would clearly require the preparation of an EIS. The agency must submit its determination that an EIS is required for an action (Act 172-2012, EISPN) with a completed publication form detailing the specifics of the action. This starts a 30-day scoping period in which the agency or applicant must hold a public scoping meeting for the preparation of the Draft EIS. Written comments and responses on the EISPN must be incorporated into the subsequent Draft EIS and oral comments from the public scoping meeting must be recorded and submitted to OPSD with the Draft EIS.

### HEPA

While technically there is no "Hawai'i Environmental Policy Act," HRS 343 is often referred to by this term.

### Act 312-2012, Secondary Actions in the Highway or Public Right of Way

Act 312-2012, amended HRS 343, by adding a new section ([HRS 343-5.5](#), entitled "Exception to applicability of chapter"). HEPA allows for a statutory exception for "secondary actions" (those that involve infrastructure in the highway or public right-of-way) provided that the permit or approval of the related "primary action" (those outside of the highway or public-right-of-way and on private property) is not subject to discretionary consent and further provided that the applicant for the primary action submits documentation from the appropriate agency confirming that no further discretionary approvals are required. An aid to understanding this is to visualize residential driveway improvements in the public right-of-way, versus, retail outlet driveway improvements in the public right-of-way.

### Draft Environmental Impact Statement

After receiving the comments on the EISPN, the Agency or Applicant must prepare a Draft Environmental Impact Statement (DEIS). The content requirements of the DEIS shall contain an explanation of the environmental consequences of the proposed action including the direct, indirect and cumulative impacts and their mitigation measures. The public has 45 days from the first publication date in this bulletin to comment on a DEIS.

### Final Environmental Impact Statement

After considering all public comments filed during the DEIS stage, the Agency or Applicant must prepare a Final EIS (FEIS). The FEIS must respond in a point-by-point manner to all comments from the draft and must be included in the FEIS. For Applicant projects, the Approving Agency is the Accepting Authority and must make a determination within 30 days or the FEIS is deemed accepted as a matter of law. For an Agency project, the Governor or the Mayor (or their designated representative) is the Accepting Authority, and unlike applicant actions, there is no time limit on the accepting authority reviewing the FEIS. Only after the FEIS is accepted may the project be implemented.

### Acceptability

The Accepting Authority must be satisfied that the FEIS meets three criteria (process, content, response to comments) to accept it. Whether the FEIS is accepted or not accepted, notice of the Acceptance Determination is published in this bulletin. The public has 60 days from publication to legally challenge the acceptance of a FEIS. For both Applicant and Agency actions, the Applicant or the proposing Agency can prepare a Revised DEIS after a non-acceptance determination.

### National Environmental Policy Act

The National Environmental Policy Act (NEPA) requires federal projects to prepare a Federal EA or EIS. In many ways it is similar to Hawai'i's law. Some projects require both a State and Federal EIS and the public comment procedure should be coordinated. Upon request by a federal agency, OPSD publishes NEPA notices in this bulletin to help keep the public informed of important federal actions.

### Conservation District

Proposed uses of land in the State Conservation District require a Conservation District Use Application (CDUA). These applications are reviewed and approved/denied by the Department or Board of Land and Natural Resources. Members of the public may intervene in the permit process. This bulletin will include EAs & EISs for actions proposed within the Conservation District.

### Special Management Area and Shoreline Setback Area

The Special Management Area (SMA) is along the coastline of all islands; development in this area is generally regulated by [HRS 205A](#), and county ordinance. A portion of the SMA that is addressed by HRS 343 is the [Shoreline Area](#), which includes land between the State-certified shoreline and the county-determined shoreline setback line. This bulletin will include EAs & EISs for actions proposed within the Shoreline Setback Area. Some projects going through the SMA permit process on O'ahu are also required to go through an environmental review process that mirrors HRS 343; these "ROH Chapter 25" EAs/EISs are included in this bulletin.

### Shoreline Certifications

State law requires that Hawai'i shorelines be surveyed and certified when necessary to clearly establish the shoreline setback from the certified shoreline. The public may participate in the process to help assure accurate regulatory boundaries. Private land owners often petition to have their shoreline certified by the State surveyor prior to construction. This bulletin publishes notice from the Department of Land and Natural Resources of shoreline certification applicants and final certifications or rejections.

### Environmental Advisory Council

The [Environmental Advisory Council](#) is a 15-member citizen board appointed by the Governor. They serve as a liaison between the Director of OPSD and the general public concerning ecology and environmental quality. Agendas of their regular meetings are posted on the Internet and the public is invited to attend.

### Agency Exemption Lists

Government agencies may keep a list describing the minor activities they regularly perform that are exempt from the environmental review process. These lists and any amendments shall be submitted to the Council for review and concurrence (HAR 11-200.1-16). This bulletin will publish an agency's draft exemption list for public comment prior to Council decision making, as well as notice of the Council's decision on the list.

### Endangered Species

This bulletin is required by [HRS 343-3\(c\)](#), to publish notice of public comment periods or public hearings for Habitat Conservation Plans (HCP), Safe Harbor Agreements (SHA), or Incidental Take Licenses (ITL) under the federal Endangered Species Act, as well as availability for public inspection of a proposed HCP or SHA, or a proposed ITL (as a part of an HCP or SHA).

Publication Calendar of the  
Environmental Review Program  
Periodic Bulletin, **HAR Chapter 11-200.1**

# 2024

Pursuant to Chapter 11-200.1, Hawai'i Administrative Rules (HAR), all items to be published in the periodic bulletin must be electronically submitted (see, <https://planning.hawaii.gov/erp/submittal-form/>) to the Environmental Review Program (ERP) five working days prior to the publication date. For actions that have published a draft EA or EISPN on or before August 8, 2019, use the 1996 Rules Submittal Deadline column for determining the filing date for the Final EA, Draft EIS, Final EIS, Acceptance / Non-acceptance, supplemental determinations, and supplemental EISs.

- Section 11-200.1-4(a), HAR, establishes the publication schedule of the periodic bulletin to be on the eighth and twenty-third of each month. Publication shall occur on weekends and holidays, when appropriate.
- Section 11-200.1-5(a), HAR, establishes the submittal deadline to be five working days before the publication date. The schedule does not count holidays and non-working days. Items must be submitted before the close of business (4:30 PM) on the submittal deadline. Note: Actions that have published the Draft EA or EISPN on or before August 8, 2019 shall file pursuant to Chapter 11-200, HAR ("1996 Rules"), which requires filing eight working days before publication.
- Comment periods for EAs are 30 days and for EISs are 45 days from the publication date. Section 11-200.1-3 sets forth how to count the days from publication. The publication date is day zero. Holidays and weekends are counted. When the deadline falls on a state holiday or non-working day, the deadline is the next working day.
