Holomua

Healthy Reefs and Sustainable Nearshore Resources

The Four Pillars of Holomua

Monitoring

Pono Practices

Restoration

Place-Based Planning

Holomua = Healthy Reefs and Sustainable Nearshore Resources

1. Healthy Reefs

a. Promote Reef Resilience

- Herbivore Biomass
- Calcified to Fleshy Ratio

b. Ensure Diversity and abundance on the reefs

2. Sustainable and Abundant Resources

- a. Manage prioritized food species for sustainability and abundance including enhanced reproductive success of prioritized food species

- Resource Fish Biomass
- Mean Fish size
- Connectivity
- Life History Information

Socio-cultural Monitoring & Indicators

The nine socio-cultural principles developed fall under four main themes:

Place-Based Knowledge
& Education

Physical, Mental, &
Spiritual Wellbeing

Community Relationships,
Engagement, & Commitment

Efficacy & Equitable
Governance
