# COASTAL DATA EXCHANGE

# MAUI COUNTY BUILDING FOOTPRINTS

**Bill Medeiros**

Geographic Services Manager

Maui County GIS

*J Schneider*

# Maui County building footprints

Do they exist?

Or are they merely
the stuff of legends...

# Maui County building footprints

Yes, they exist.  I've seen'em…

# Maui County building footprints

First, the good news: 2 of our staff worked months to create 58,187 features matched to half-meter pixel satellite imagery for Maui, Molokai and Lanai...

# Maui County building footprints

## What's the "bad" news?

Maui County subsequently acquired 4-inch pixel imagery and deployed it to 14 depts via a cloud-based application. As a result, the work on the half-meter building footprint layer came to an abrupt halt...

# Maui County building footprints

So what's next?  Toss the dataset?  Or try to find an agency who would be willing to work together with us and follow the precepts mentioned in this morning's talk:

- Use the data within the intent and map scale in which the data was created

- Correct errors and improve the quality of the data

- Provide the data in format(s) or application(s) which makes the data available to the broadest range of users

# Maui County building footprints

But the big question is...

# Maui County building footprints

Does such an agency exist?

# Mahalo!
