Working Session Goals

As the ORMP approaches the *Institutionalization* phase, our forthcoming plan update offers the unique opportunity to ensure the original intent of the document is being fulfilled, agency representation is accurate, and the evolution of the plan is appropriate for today's challenges.

Participation in the 2018-2019 update process is a way to ensure that your voice is reflected in our priorities for the next 5 years. Please consider your agency's role in plan implementation and whether the values of the ORMP are truly on their way to becoming institutionalized in your division.

Thank you for your invaluable input!

Statutory Mandate

HRS §205A-62 calls for the lead agency to 'Review and periodically update the Hawaii Ocean Resources Management Plan'.

The 2018-2019 planning cycle will create the fifth version of the ORMP, with updates historically occurring about every 5 years. (1985, 1991, 1998 [Plan Review], 2006, 2013)
