

DOH Draft Water Quality Plan Update – September 2014

Water Quality Plan Components

- Federal/state/county goals, objectives, and policies related to water quality.
- Water quality criteria for designation of water management areas.
- Water quality standards, monitoring requirements and enforcement provisions.
- The identification of any substances which DOH reasonably believes may present a danger to the water quality of the state.

Water Quality Plan Outline

Section I: Background - Hawaii Water Plan & Statewide Framework for Updating the Hawaii Water Plan

Section II: Water Quality Programs and Initiatives

- Surface & Ground Water Quality
- Drinking Water and Clean Water State Revolving Funds
- Compliance, Enforcement, Challenges & New Initiatives

Section III: Support DOH Water Quality Work - SLD, SHWB, HEER, ERO, EPO, CAO, EIM, & OEQC

Appendices: Statutes, Rules, Information and WQS Maps
