

THE ORMP UPDATE

July 11, 2019

Considerations for the Coordinated Working Group

ORMP Framework

- Approving CWG Decisions
- Establishing Criteria for Focus Area Selection and Action Team Creation
- Exploring the Possibilities of Action Teams: What are Tangible Outcomes?
- Creating a Multiple User Document

Foundational Plan Elements

- Terminology
- Crafting Our Subtitle
- ORMP Vision Statement

Update Process Check-In

- Statewide Public 'Information Sharing'
- Update Timeline, CWG Needs and Expectations, Future Meetings

Approving CWG Decisions

Council on Ocean Resources

Coordinated Working Group

Action Teams

Criteria for Establishing Focus Areas & Action Teams

Management Gap: No other entity is working on this issue, or has identified issue as a need but cannot address it (i.e. lack of capacity, funds)

Statewide Issue: Topic area impacts multiple communities on multiple islands, potential solution would be beneficial throughout the state

Multi-Agency Proposal: topic area involves collaboration among multiple members and partners

Respecting Time Commitments: Action Team creation would not place undue burden on existing Action Team members (i.e., new team members would populate the new Action Team)

Diverse Topic Areas and Leadership: Focus areas and new Action Teams should address distinct 'management gaps' (i.e., avoid ORMP implementation being clustered within one topic or Action Team) and may be led by CWG members from agencies other than CZM

Potential Action Team Outcomes

- Proposed Legislation
 - New Rules or Proposed Rule Changes
- Provision of Information for Decision-Makers (i.e. research, policy analysis)
- Joint-proposals for funding (i.e. Federal, State General Funds)

i.e., CZM Projects of Special Merit, NOAA Coastal Resilience Grants, and more!

Creating a Multiple User Document

MEMBERS AND PARTNERS

Integration of focus areas into agency strategic plans (conceptual, long-range) & work plans (specific, short-range) to encourage complementary efforts
Consider timing and plan alignment to reduce duplication of effort (i.e., 30x30, community planning)

COMMUNITY

Empower small community actions to support ORMP focus areas

The ORMP: More Than Just 'Ocean'

Drafting a subtitle to clarify misconceptions about the plan's purpose

The 2020 Ocean Resources Management Plan:

Est. 1985

I.e., Integrated Coastal Zone Management
Collaborating for Hawaii's Coastal Zone
Partnerships Connecting Land and Sea
Collaborative Governance from Ridge to Reef
Mauka to Makai Action for Coastal Wellbeing

Revisiting our Vision Statement

Current

The vision for Hawaii's ocean resources is for a healthy, productive, and sustainable ocean ecosystem that fosters economic growth while preserving and protecting Hawaii's values and needs

Discussion (4/2018)

- Over emphasis on economic/extractive uses
 - Should include the word coastal
- Emphasizes that ORMP is just about the ocean, does not clarify mauka to makai focus. Add 'connecting land and sea'
- Should include collaborative approach to management and governance
 - Plan addresses both chronic and emerging issues
 - Deemphasize extraction, i.e. protect...with balanced economic growth and mitigated impacts of resource uses
