

## Current Vision Statement (2013 ORMP)

*The vision for Hawaii's ocean resources is for a healthy, productive, and sustainable ocean ecosystem that fosters economic growth while preserving and protecting Hawaii's values and needs.*

## 2020 ORMP Vision Statement Proposals -

*Establishes responsive partnerships that address gaps in coastal resource management and serve the diverse ecosystems and communities of Hawaii.*

*Protects and preserves the land to sea resources of the State while balancing economic and social needs and adjusting for local and outside pressures on resources. (Proposed at CWG Meeting 7/20/19)*

*Promotes inter-disciplinary collaboration to address human impacts on Hawaii's coastal ecosystems, from mauka to makai.*
