8	5.0 Policy Maps	5.2 Land Use Maps	5-3
		5.3 Heritage Resource Maps	5-9
		5.4 Hazard Maps	5-17

All sections of the plan have been *overhauled since the public discussion draft was posted online*

Key Questions

1. **How can county and State better coordinate on implementing actions – or better collaborate on, expand, clarify, and enforce rules relating to the health and wellbeing of our ocean, coasts, and resources?**
2. *For County Planners – how goes your General Plan update processes?* As hinted at in the above question, our team is already deep in discussion about implementation. Any insights?
