Subject: Bobby Camara; Name change or variant name for Kapoho Cone
Date: Wednesday, February 22, 2023 1:13:08 PM

Aloha Arthur,

Bobby called me last week

. Ultimately, we got on the subject of a name he believes is the correct name for Kapoho Cone on the Big Island. Kapoho Cone appears to be another name for Kapoho Crater in the GNIS, Feature ID: 360553 See <https://www.usgs.gov/news/volcano-watch-kapoho-cone-ash-and-tuff-cone>.

Bobby forwarded me a few emails with information supporting Puu o Lekia as the correct name. Can Board members add the discussion of a third-party's suggested name change to the meeting agenda? Should Bobby just fill out a name change application and submit it to the Board for review? Please advise.

Mahalo,

Meyer
