3/11/2019	Kainana Francisco Drew Kapp	Email	Pōhāhā	Newly formed pu'ū (volcanic cone) with a lua (crater) -- sometimes known as "Fissure 8" -- that created a voluminous lava flow during the 2018 Kīlauea eruption in the ahupua'a of Keahialaka, in the moku (district) of Puna, on the Lower East Rift Zone of Kīlauea. Nearby features include the craters of Pu'ulena and Kahuwai to the east, and Pu'ū Kali'u to the southwest.	http://bit.ly/2ESkdm0
5/9/2019	Hannah Hana Pau	Email	Pohāka'ena	"Exploding Rage" Pohāka'ena is another recommendation for fissure 8. It was not only an angry flow, it was exploding in rage. Its enormous body mass moved with a vengeance of unsastiable appetite, devouring forests, consuming homes, swallow an entire lake and belching forth lava bombs. Its aftermath devastating. Variant Names/Spellings: Pohā Ka 'ena	http://bit.ly/2PZAURn

6/5/2019	Lori Ann Baker	Email	Hopena	<p>I come to you on behalf of my ohana both by blood and by spirit that have resided in Puna and have personal connections to our latest Lava Eruption Event that started in May 2018. This name occurred as an epiphany as our ohana discussed how we could encapsulate the message that Madame Pele might have been trying to bring forward by presenting herself as she did in the many fissures that opened in the LERZ, in the creation of Fissure 8 and the resulting River of Lava that spread across Lower Puna to the ocean at Kapoho Bay.</p> <p>My Sister Joanna Lynn Stallard-Peard (Makekau Kaluna Makaula) studied Hawaiian Geography and she chose to study the Ahupua'a Keahialaka which we loosely interpreted as "land that dances with fire", which became apparent during 2018. (Joanna Stallard-Peard, Ahupua'a Assignment, Kumu Alapaki, Oct. 12, 2018)</p> <p>As my close friend Lance Rittenhouse and I conversed at the kitchen table we spoke of how Pele opened herself here at Fissure 8 to cleanse this land with her fire. We talked about how she made a river of lava that went all the way to the ocean and both destroyed and created what we now have. We thought about how this affected so many people in so many ways and made us "pay attention" to her through her active presence. She changed the fate of many people, lifestyles, livelihoods and lives by coming to the surface. That is when we saw it, we saw the message that was there on our lips everyday and as we watched every change eagerly wondering what would be our fate. Around the world they would call her</p>	http://bit.ly/2EZZltY
6/21/2019	Robert G. Roosen, PhD	Mail	Pu'u O'oo'o Pu'u O'oO'o	<p>Pu'u O'o commemorates the cause of the 1983 eruption, which was geothermal drilling. I was an eyewitness. Pu'u O'oO'o commemorates the cause of the 2018 eruption, which was geothermal fracking, and the second in a series of human-caused eruptions. Hence the higher expression.</p>	http://bit.ly/2Xhoprg

6/28/2019	Lisa U. Pai	Mail	Pu‘u Wā Kahiko	<p>Pu‘u O‘o - continuous flow - Pu‘u Wā Kahiko = Fissure 8 = eternity = 8 = ‘e(wā)lu</p> <p>Aloha Kākou, U‘i Pai born on the sands of Manōkalanipō, Kauai and married to mike pai for thirty eight years, a native born of Moku o Keawe, Hawai‘i. Currently residing in Mokuhulu, Kalapana about six miles away from Pele's recent visit.</p> <p>From the first day I had the privilege to drive over the steel plates, I felt a great sensation of appreciation for the earth, as I could feel the lava flow under me and my ancestors kept saying to me "Wā." So ever since then I've been calling it Pu‘u Wā. I would literally cringe every time I would hear Fissure 8. Though scientifically accurate, it does not reflect the true nature of the respect that living in harmony and love which the land deserves.</p> <p>Pu‘u Wā Kahiko (Eternity from pass to present) as this flow was very different to all other in my lifetime. As other dieties became present in this flow, an absolutely powerful masculine flow when sharing my thoughts with Aunty Tootsie and my daughter Kamakle, the both added Kahiko to Pu‘u Wā. Instantly giving me chicken skin.</p> <p>Pele’s visits are amazing, her decision are distinct, her authroity is powerful, and her generosity is breathtaking. Dedicated to perpetuating the Kānaka culture which focuses on family traidtions. Developing strong relations with the the earth and all its surroundings is my foundation preofessionally and personally.</p> <p>Mahalo nō!</p>	http://bit.ly/2KLk09u
