Layer Name: Adult Residential Care Homes
Layer Type: Point
Status: Complete
Geog. Extent: Main Hawaiian Islands
Projection: Universal Transverse Mercator, Zone 4 (Meters)
Datum: NAD 83 HARN

Please note - if you are using data in the State's web services or downloading from the State's geoportal, the data is served and exported in WGS84 coordinates, although it is stored internally (in the State's geodatabase) in UTM coordinates.

Description: Locations of adult residential care homes in the State of Hawaii as of March, 2020. As defined in Hawaii Administrative Rules (HAR 11-100.1) an adult residential care home, or “ARCH” is defined as any facility providing twenty four hour living accommodations, for a fee, to adults unrelated to the family, who require at least minimal assistance in the activities of daily living, personal care services. protection, and health care services, but who do not need the professional health services of an intermediate, skilled nursing, or acute care facility. It does not include facilities operated by the federal government.

Source: Hawaii State Department of Health, Office of Health Care Assurance (OHCA). For more information regarding the source, click here.

History: This dataset was created from a table in Excel format downloaded from the Hawaii State Department of Health, Office of Health Care Assurance. The address field was used to initially locate the facilities by geocoding using “ArcGIS Maps” extension within Excel. Further rectification was done using various sources including Google Maps, organization websites, etc.
