

Layer Name: Skilled Nursing Care Facilities / Intermediate Care Facilities

Layer Type: Point

Status: Complete

Geog. Extent: Main Hawaiian Islands

Projection: Universal Transverse Mercator, Zone 4 (Meters), NAD 83 HARN

Description: Locations of skilled nursing / intermediate care facilities in the State of Hawaii **(updated April 2026)**. As defined in Hawaii Administrative Rules, ([HAR 11-94](#)), a skilled nursing facility is a health facility which provides skilled nursing and related services to patients whose primary need is for twenty-four hours of skilled nursing care on an extended basis and regular rehabilitation services. For more information regarding licensing and definitions of skilled nursing care facilities, [click here](#).

Source: Hawaii State Department of Health, Office of Health Care Assurance (OHCA). For more information regarding the source, [click here](#).

History: This dataset was created from a table in Excel format provided by the Department of Health, Office of Health Care Assurance. The address field was used to initially locate the facilities by geocoding using ArcGIS software. Further rectification was done using various sources including Google Maps, organization websites, etc.

Attributes:

Points:	
Name	Facility Name
Facility_Type	Facility Type
Address	Address of the facility
Island	Island on which the facility is located
Business_Phone_Number	Facility Phone Number
License_Certification_Number	Certification Number
License_Expiration	License Expiration
Capacity	Facility Capacity
Ambulatory_Type	Ambulatory_Type (all null for this layer)
Wheelchair_Accessible	Whether Facility is Wheelchair Accessible
Diet_Type	Type of diet offered (all null for this layer)
Mailing_Recipient_Name	Name to which mail for the facility is addressed
