Description: Detailed Government Landownership (by TMK Parcel) in the State of Hawaii as of 2022

Source: C&C of Honolulu (April 2022), Kauai County (April 2022), Maui County (April 2022), Hawaii County (April 2022), Department of Hawaiian Homelands (October 2022).

History: This dataset was created using ownership information provided by the counties via tax map key parcel layers and ownership tables. Parcels were queried using the "Owner" field for state, county, and federal agency names. State GIS staff verified land ownership using the online service QPublic, the 2022 Department of Hawaiian Home Lands layer and other GIS layers and resources. Where ownership was still unclear, State GIS personnel reached out to appropriate agencies for clarification. Standardization and summary fields "ownedby," "majorowner" and "type" were created using additional filters and queries.

Note: The parcel boundaries are intended to provide a visual reference only and do not represent legal or survey level accuracy. Attributes are for assessment purposes only and are subject to change at any time.
