Description: Locations of hospitals in the State of Hawaii (updated March 2020). As defined in Hawaii Administrative Rules ([HAR 11-93](#)) hospitals are characterized as any institution with an organized medical staff which admits patients for inpatient care, diagnosis, observation, and treatment. For more information regarding licensing and definitions of hospitals, [click here](#).

Source: Hawaii State Department of Health, Office of Health Care Assurance (OHCA). For more information regarding the source, [click here](#).

History: This dataset was created from a table in Excel format obtained from the Office of Health Care Assurance. The address field was used to initially locate the facilities by geocoding using "ArcGIS Maps" extension within Excel. Further rectification was done using various sources including Google Maps, organization websites, etc.
