Layer Name: Hospitals
Layer Type: Point
Status: Complete
Geog. Extent: Main Hawaiian Islands
Projection: Universal Transverse Mercator, Zone 4 (Meters)
Datum: NAD 83 HARN

Please note - if you are using data in the State's web services or downloading from the State's geoportal, the data is served and exported in WGS84 coordinates, although it is stored internally (in the State’s geodatabase) in UTM coordinates.

Description: Locations of hospitals in the State of Hawaii (updated November 2021). As defined in Hawaii Administrative Rules (HAR 11-93) hospitals are characterized as any institution with an organized medical staff which admits patients for inpatient care, diagnosis, observation, and treatment. For more information regarding licensing and definitions of hospitals, click here.

Source: Hawaii State Department of Health, Office of Health Care Assurance (OHCA). For more information regarding the source, click here.

History: This dataset was created from a table in Excel format obtained from the Office of Health Care Assurance. The address field was used to locate the facilities by geocoding using ArcGIS. In some cases, further rectification was done using various sources including Google Maps, organization websites, etc.
