NOTE: In January 2022, the Statewide GIS Program was informed that the data provided for the 1991 and 2001 State House and Senate Districts had been switched – that is, the districts labeled as 1991 were actually 2001 districts, and the districts labeled as 2001 were actually 1991 districts. The error was corrected in the State GIS database and State GIS geoportal in January/February 2022. The districts depicted are now correct.
