Please note - if you are using data in the [State's web services](#) or downloading from the [State's geoportal](#), the data is served and exported in WGS84 coordinates, although it is stored internally in UTM coordinates.

Description: Locations of preschools and infant/toddler centers in the state of Hawaii as of **December 2021**.

NOTE: *Includes Licensed Infant/Toddler Centers*

Sources: Hawaii Executive Office of Early Learning (EOEL); People Attentive to Children (PATCH), December 2021. EOEL provided DOE, Charter and Public / Private Partnership facilities; PATCH provided Licensed Group Childcare (Preschools) and Licensed Infant/Toddler Centers.

History: Hawaii State GIS Staff combined data from EOEL and PATCH; removed "Licensed Before and After School Programs" (not preschools), "Registered Family Child Care Homes" (no addresses provided) and "Licensed Group Homes" (no addresses provided) from lists provided by EOEL and PATCH before geocoding. GIS staff then geocoded remaining addresses in ArcGIS. Addresses that were not automatically geocoded were researched further and manually digitized.
