

Investing in Community Through Equitable Development

Forging Neighborhoods for All Generations

January 1961: At the first-ever White House Conference on Aging, AARP founder Dr. Ethel Percy Andrus shows President Dwight D. Eisenhower a model of the "Freedom House," a home designed and built by AARP using "universal design" features so older adults can "age-in-place."

WHAT IS A LIVABLE COMMUNITY?

“A livable community is one that is safe and secure, has affordable and appropriate housing and transportation options, and offers supportive community features and services. Once in place, those resources enhance personal independence; allow residents to age in place; and foster residents’ engagement in the community’s civic, economic, and social life.”

—AARP Public Policy Institute
