## August 2024 Hawai'i Vacation Rental Performance Report

Vacation rentals across Hawai'i reported increases in supply, demand and average daily rate (ADR), with lower occupancy rate in August 2024 when compared to August 2023. In comparison to pre-pandemic August 2019, ADR was higher in August 2024 but vacation rental supply, demand and occupancy were lower.

In August 2024, the total monthly supply of statewide vacation rentals was 865,000 unit nights (+15.9% vs. 2023, -5.7% vs. 2019) and monthly demand was 431,000 unit nights (+6.2% vs. 2023, -36.8% vs. 2019) (Figures 1 and 2). This combination resulted in an average monthly unit occupancy of 49.8 percent (-4.5 percentage points vs. 2023, -24.5 percentage points vs. 2019) for August. Occupancy for Hawai'i's hotels was 73.6 percent in August 2024.

The ADR for vacation rental units statewide in August was \$319 (+14.1% vs. 2023, +56.2% vs. 2019). By comparison, the ADR for hotels was \$362 in August 2024. It is important to note that unlike hotels, units in vacation rentals are not necessarily available year-round or each day of the month and often accommodate a larger number of guests than traditional hotel rooms.

The data in DBEDT's Hawai'i Vacation Rental Performance Report specifically excludes units reported in DBEDT's Hawai'i Hotel Performance Report and Hawai'i Timeshare Quarterly Survey Report. A vacation rental is defined as the use of a rental house, condominium unit, private room in a private home, or shared room/space in a private home. This report does not determine or differentiate between units that are permitted or unpermitted. The legality of any given vacation rental unit is determined on a county basis.

### **About the Hawai'i Vacation Rental Performance Report**

The Hawai'i Vacation Rental Performance Report is produced using data compiled by Lighthouse Intelligence, Ltd. (formerly known as Transparent Intelligence, Inc.), which was selected by DBEDT as the provider for these data services.

The report includes data for properties that are listed on Airbnb, Booking.com, Vrbo and TripAdvisor. Data for units included in DBEDT's Hawai'i Hotel Performance Report and Hawai'i Timeshare Quarterly Report have been excluded from the Hawai'i Vacation Rental Performance Report. This report also does not determine or differentiate between units that are permitted or unpermitted. The legality of any given vacation rental unit is determined on a county basis. DBEDT does not support illegal vacation rentals.

Lighthouse enriches their occupancy and price calculations with reservation system data provided by vacation rental software providers, online travel agencies and local property managers. Currently, the reservation system data provided by data partners represent about 32.1 percent of the estimated total unique vacation rental properties in the State of Hawai'i. On a county level, reservation system data represents 28.5 percent of Maui County coverage; 37.7 percent of Honolulu County coverage; 34.4 percent of Hawai'i County coverage; and 26.0 percent of Kaua'i County coverage of the estimated number of unique vacation rental properties.

For August 2024, the report included data for 34,106 units, representing 59,408 bedrooms in the Hawaiian Islands.
