Survey Methodology

The Visitor Satisfaction and Activity Survey (VSAT) is a survey of visitors from eight visitor markets who recently completed a trip to Hawai'i. Statistics presented in this Quarter 3, 2022 report included survey results from: U.S. West (Alaska, California, Oregon, Washington, Arizona, Colorado, Idaho, Montana, Nevada, New Mexico, Utah, and Wyoming), U.S. East (all other states in the Continental U.S.), Japan, Canada, Oceania, Korea. Samples collected for China were too limited to report.

Visitor market	Completed	Margin of Error ±	Response Rate
U.S. West	1,641	2.42	15.79%
U.S. East	1,737	2.35	16.73%
Japan	113	9.22	15.19%
Canada	1,034	3.05	20.90%
Oceania	392	4.95	14.68%
Korea	190	7.11	31.88%
China	38	15.90	7.17%
All visitor markets	5,145	1.37	17.00%

Survey Methodology (cont.)

Monthly samples of visitors who stayed for at least two days were drawn from the completed Domestic In-Flight database. Selected U.S. visitors were sent an email invitation with a link to complete the survey online. Surveys were also conducted by trained interviewers with departing visitors from Korea at the Daniel K. Inouye Airport in Honolulu; as well as visitors from Japan at the Ellison Onizuka Kona International Airport on Hawai'i Island.

Collected data were statistically adjusted to reflect the distribution of cases by island and first-time/repeat visitor status in the In-Flight Survey. Data were statistically adjusted to be representative of the population of visitor parties entering Hawai'i during the quarter. Data from both visitor markets were reported as weighted data based on weights generated for Quarter 3, 2022. The VSAT weighting system was developed to adjust for disproportionate sampling across all visitor markets.

Effect of COVID-19 Pandemic

COVID-19 Travel Restrictions

Most international visitor markets have relaxed travel restrictions and quarantine requirements by the third quarter of 2022. However, there continued to be limited direct flights to Hawai'i from Japan, Korea and Oceania. There have been no direct flights from China since service ended in February 2020.

Note: Some results are presented with very small sample sizes that produce statistics with sample error estimates greater than 10 points. Please exercise caution in interpreting results based on small bases.
