## Report to the Legislature on Deployed Positions

Section 164 of Act 178, SLH 2005, General Appropriations Act, requires the Governor to submit a report to the Legislature on all positions that have been deployed outside of the program to which the position was originally assigned, including positions transferred to other programs within the department and positions deployed to other departments.

Finance Memo No. 05-11, Reporting on Deployed Positions, requested information from the departments on deployed positions as required by Section 164. For the purposes of this report, a "deployed position" was defined as a position whose incumbent has been reassigned to perform work outside of the program that funds the position.

Departments reported a total of 125 positions being deployed:

The deployments were made to accommodate shifting workloads or changing areas of emphasis, allow departments to jointly formulate policies and strategies to improve government operations, or to undertake special projects.

Attached is a listing of the deployed positions, by department.
