approved the commitment of funds for the construction of the new Leilehua substation based upon, among other things, HECO's assertion that the present system capacity is inadequate to relieve the overloads. However, since our approval in 1992, HECO now asserts in its motion to rescind that certain facts and circumstances have changed.

Specifically, in support of its motion to rescind, HECO, among other things, makes the following representations:

1. Subsequent to the issuance of [Decision and Order No.] 11465, the load growth due to the Mililani High Technology Park did not materialize as expected. A new load analysis and area review has determined that near-term load increases in the Leilehua area can be accommodated through re-circuiting of existing circuits. Further increases in the Leilehua area will be served by an adjacent substation.
2. HECO will continue to pursue the acquisition of land for a future Leilehua Substation to meet the long-term growth expected from the Mililani High Tech Park and a new Hospital. This acquisition will be performed independently of the application in Docket No. 7146, since the estimated cost is expected to be less than \$500,000.

Upon our review and in light of HECO's representations made in its motion to rescind, we find good cause to rescind Decision and Order No. 11465. Accordingly, we conclude that Decision and Order No. 11465 should be rescinded and this docket should be hereinafter closed.

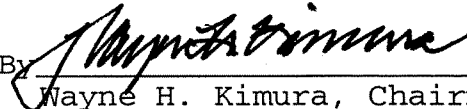

III.

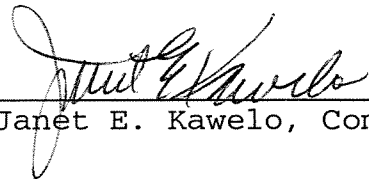

THE COMMISSION ORDERS:

1. HECO's motion to rescind Decision and Order No. 11465 and to close the docket, filed on September 9, 1998, is granted. Decision and Order No. 11465, filed on February 3, 1992, is rescinded.
2. This docket is closed.
