STIPULATED PROCEDURAL ORDER

On September 17, 2003, HECO filed an application requesting Commission approval to expend funds for Item Y00021, New Kuahua Substation project.

On May 27, 2004, the Commission issued Decision and Order No. 21003 ("D&O 21003"), approving HECO's request to spend approximately \$7,312,075 for the New Kuahua Substation project. D&O 21003 required, among other things, that "[w]ithin six (6) months of the date of this decision and order, the Parties shall submit a stipulated filing addressing the concerns raised in this docket regarding HECO's policies on underground lines and requiring contributions ... for the commission's review and approval. If the Parties are unable to arrive at an agreement, they then shall each file separate proposals within the same time for our view and consideration."

By letter dated November 29, 2004, HECO requested an extension until March 31, 2005 to submit the stipulated filing.

By letter dated December 1, 2004, the Commission approved HECO's extension request.

HECO requires additional time to develop and/or revise its policies due to its heavy workload related to other regulatory proceedings. In addition, HECO requires additional time to meet with the CA to develop the required stipulated filing. As a result, HECO requests an extension until July 29, 2005 to submit the stipulated filing. The CA does not object to this request.

Hawaii Administrative Rules § 6-61-23(a)(1) provides the Commission with discretion, for good cause shown, to enlarge a period by which a required act must be completed, if a written request is made before the expiration of the period originally prescribed. The Commission finds good cause in this instance to enlarge the deadline for the stipulated filing from March 31, 2005 to July 29, 2005 to comply with the Commission's order, and the request is granted and so ordered.
