Call to Order: There being a quorum present, and in the absence of Chairperson Arita, Vice Chairperson Lau called the meeting to order at 8:45 a.m.

Agenda: The agenda for this meeting was filed with the Office of the Lieutenant Governor, as required by Hawaii Revised Statutes ("HRS") section 92-7(b).

Minutes: It was moved by Mr. Yamada, seconded by Mr. Lee, and unanimously carried to approve the meeting minutes and executive session minutes of May 25, 2012, as circulated.

Amendments to Agenda: It was moved by Mr. Akasaki, seconded by Mr. Dill, and unanimously carried to approve the following amendment to the agenda:

Under "Committee Reports, 8. Applications Committee, Owner-Builder Exemption Applications", add "**d. Randolph H. Whittington**".

Chapter 91, HRS, Adjudicatory Matters: Vice Chairperson Lau called for a recess from the Board's meeting at 8:46 a.m. to discuss and deliberate on the following adjudicatory matters pursuant to HRS chapter 91.

1. Settlement Agreements

a. In the Matter of the Contractor's License of Brian C. Ley; CLB 2010-73-L

RICO received a complaint alleging that Brian C. Ley ("Respondent") failed to follow the plans and specifications for construction of a multi-faceted home and exhibited poor workmanship.

The Board discussed the settlement agreement in which Respondent, who does not admit to violating any law or rule, agrees to the voluntary surrender of his license and shall not apply for a new license until the expiration of at least five years from the effective date of the surrender of his license.

After discussion, it was moved by Mr. Lee, seconded by Mr. Akasaki, and unanimously carried to approve the Settlement Agreement Prior to Filing of Petition for Disciplinary Action and Board's Final Order in the above case.

- b. In the Matter of the Contractor's License of Andrew J. Brock; CLB 2010-361-L

RICO received a complaint alleging that Andrew J. Brock ("Respondent") performed poor workmanship on a residence, and engaged in contracting work while his contractor's license was on inactive status.

The Board discussed the settlement agreement in which Respondent, who does not admit to violating any law or rule, agrees to the voluntary surrender of his license and shall not apply for a new license until the expiration of at least five years from the effective date of the surrender of his license.

After discussion, it was moved by Mr. Lee, seconded by Mr. Akasaki, and unanimously carried to approve the Settlement Agreement Prior to Filing of Petition for Disciplinary Action and Board's Final Order in the above case.

2. Board's Final Orders

**Goodfellow Bros., Inc.**

Goodfellow Bros., Inc. requests determination on whether the duct line work that the "A" General Engineering contractor is allowed to perform includes electrical conduits.

Ed Brown, Regional Manager of Goodfellow Bros., Inc. ("GBI"), and Bob Takamatsu, legal counsel for GBI, were present to answer any questions regarding their request for the Board's ruling that the "A" contractor can install empty duct lines/electrical conduits without the C-13 Electrical license. They believe that the Board's rule (HAR section 16-77-32) states that the "A" licensed contractor is allowed to construct duct lines, and the Hawaii County Code defines the term "duct line" to mean "electrical conduit installation".

GBI also has been self-performing this type of work for over the past 20 years with their "A" license with no issues being raised that they did not have the correct license to perform this work.

Sam Spencer of Operating Engineers #3 and Peter Ganaban, Hawaii Laborers Union, voiced their opinion in support of GBI that the "A" is allowed to do this type of work. Written testimonies in support of GBI were also received by the Board from Genba Hawaii, Inc., Healy Tibbitts Builders, Inc., Jayar Construction Inc., LYZ, Inc., and S & M Sakamoto, Inc.

Michael Quinajon, supervising electrical inspector from Hilo, asked the Board for support in enforcing this issue. They feel this is a permit issue as permits are required on private property, and inspections are required by the County. A stop work order was issued for the Kohanaiki project and before the project can continue, the Board's ruling is requested.

Deputy Attorney General Tam stated that according to the Board's rules, the "A" contractor can install duct lines. The Board does not have jurisdiction over whether a permit is required; that is the County's call.

Recommendation: Pursuant to Hawaii Administrative Rules section 16-77-32(b), the "A" General Engineering contractor may install duct lines, provided that the installation of conductors is performed by a contractor holding the C-13 Electrical classification, and electrical conduits are considered duct lines.

After discussion, it was moved by Mr. Lee, seconded by Mr. Dill, and unanimously carried to approve the above scope recommendation.

### **Paul's Electrical Contracting, LLC**

Paul's Electrical Contracting, LLC ("Paul's Electrical") requests determination on whether the C-13 Electrical contractor may be awarded the contract for the Kailua District Park Softball Field Lighting Systems Replacement project.

Vice-Chairperson Lau recused himself from discussion on this item.

Nathan Yoshimoto, attorney for Paul's Electrical, and Neal Adachi of Paul's Electrical were present. Mr. Yoshimoto stated that this project

requires replacement of the lighting system and includes tree trimming, sprinkler line relocation, and pouring of a concrete pad. This other work is separate from the electrical work and should not be considered "incidental and supplemental" according to the Board's rules.

Ryan Ota and Ed Wong from the City & County of Honolulu were also present. Mr. Ota stated that the scope of the project is to remove and replace the lighting system and it does not require installation of a new sprinkler system. If the contractor damages the sprinkler system due to construction activities, repairs will be needed. Also, sprinkler heads may need to be adjusted so water will not get the electrical equipment wet, and tree trimming may be necessary if the tree blocks the lighting on the field. They feel these items are incidental and supplemental because these items may be necessary for completion of the project. The concrete pad is to access the push button to turn on the lights and is in compliance with ADA guidelines.

Mr. Ota brought color photos of the trees and 40-foot poles.

Mr. Yamada asked if the City & County considered asking for the "A" to bid this project in case something major happened, such as water line damage, since the "A" could self-perform the repairs.

Mr. Ota responded that before making a decision as to which license is required for the project, they do try to be consistent and look at the Board's past determinations.

Executive  
Session:

At 11:50 a.m., it was moved by Mr. Dill, seconded by Mr. Lee, and unanimously carried to enter into Executive Session to consult with Rodney J. Tam, deputy attorney general, on questions and issues pertaining to the Board's powers, duties, privileges, immunities, and liabilities pursuant to HRS section 92-5(a)(4).

At 12:09 p.m., it was moved by Mr. Suehiro, seconded by Mr. Yamada, and unanimously carried to move out of executive session and to reconvene to the Board's regular order of business.

Recommendation: The following work appears to be "incidental and supplemental" to the electrical work for the above project, which may be awarded to a contractor holding the C-13 Electrical contractor classification:

- (1) Adjustment of sprinkler lines and heads as necessary to avoid spraying new equipment;
- (2) Trimming the crown of trees which obstruct the light fixture and illumination of the field; and
- (3) Construction of new concrete pads for wheelchair access to push the buttons to activate the new lights.

After discussion, it was moved by Mr. Dill, seconded by Mr. Lee, and carried (Mr. Lau recused himself) to approve the above scope recommendation.

**Certified Construction, Inc.**

Certified Construction, Inc. had requested determination on whether a contractor with the "B" General Building and C-42 Roofing classifications may perform installation of prefabricated block framed jalousie and fixed pane block window units, spot welding galvanized steel C Channels to existing roof, and screwing metal B-Deck pieces to the C Channels on re-roofing projects.

Certified Construction, Inc. withdrew their request for a determination.

**TG Electric, LLC**

TG Electric, LLC requests determination on whether a contractor's license is required to replace electric meter devices on residential and commercial properties.

Ryan Takahashi of the Hawaii Electricians Market Enhancement Program Fund ("HEMEP") brought a video and exhibits of the electric meter devices or "smart meters". Installation is done on energized circuits. He also understood that TG Electric, LLC is hiring people from Craig's List to install these meters, which is cause for concern as there may be a safety issue.

Peter Akamu of IBEW Local 1186 stated that removal of a meter requires testing to make sure everything is put back correctly. The Board of Electricians and Plumbers had previously determined that no license was required, but after more information was presented to the Board, it is revisiting this issue.

The Board discussed the installation process and felt that the system is a "hot" or "live" system and involves some dismantling work.

**Recommendation:** A C-13 Electrical contractor's license is required to replace the electric meter devices because the work appears to involve the application of energized or live electrical apparatus.

After discussion, it was moved by Mr. Suehiro, seconded by Mr. Lee, and unanimously carried to approve the above scope recommendation.

The agenda was taken out of order and continued with "Committee Reports, 8. Applications Committee".
