

Summary Report on Engagement in Additional Work Activities for TANF and SSP-MOE Individuals State of Hawaii

For the Reporting Months April thru June 2011

The following report has been prepared in accordance with the requirements set forth in The Claims Resolution Act of 2010, Subtitle B, Section 812 (2).

The Claims Resolution Act created a new TANF data reporting requirement for States and established two reporting periods for this new requirement. The first reporting period was for the month of March 2011. The second reporting period, which this report covers, is from April 1st through June 30th, 2011. These new reports supplement the existing federal reporting that States provide to the Administration for Children and Families (ACF) on a quarterly basis. ACF in return, provides States with quarterly reports, including the official TANF work participation rate, which is a federal program measure of success.

It is required by federal law that States have a minimum of 90% of their two-parent, work-eligible adults and 50% of all their work-eligible adults in countable work activities in order to stay in compliance with program requirements and avoid federal financial penalties. This is known as the TANF work participation rate. The official work participation rate for Hawaii for FFY 2009 was 41.5% for the two-parent rate, and 40.3% for its all family rate. Both of these rates exceeded the national average of 28.3% for the 2-parent rate, and 29.4% for the all family rate. Hawaii was determined to have met its work participation rate for FFY 2009 based on its official work participation rate, and federally allowable caseload reduction credits.

Summary

The Claims Resolution Act of 2010 required State agencies responsible for administering the Temporary Assistance for Needy Families (TANF) program to provide additional information:

- A. With respect to each work-eligible individual in a family receiving assistance during the reporting period April 1 – June 30, 2011, whether the individual engages in any activities directed toward attaining self-sufficiency during a month occurring in a reporting period, and if so, the specific activities:
1. That do not qualify as a work activity under section 407(d) of the Social Security Act but that are otherwise reasonably calculated to help the family move toward self-sufficiency; or
 2. That are of a type that would be counted toward the State participation rates under section 407 of the Social Security Act but for the fact that:
 - a. The work-eligible individual did not engage in sufficient hours of the activity;
 - b. The work-eligible individual has reached the maximum time limit allowed for having participation in the activity counted toward the State's work participation rate; or
 - c. The number of work-eligible individuals engaged in such activity exceeds a limitation under such section.

Summary Report on Engagement in Additional Work Activities for TANF and SSP-MOE Individuals State of Hawaii

For the Reporting Months April thru June 2011

- B. Any other information that the Secretary of the U.S. Department of Health and Human Services determines appropriate with respect to the information required under item A, including if the individual has no hours of participation, the principal reason or reasons for such non-participation.

The Benefit, Employment and Support Services Division of the Department of Human Services is the designated State agency responsible for administering the TANF program for the State of Hawaii and has prepared the summary report in the layout provided through program instruction (TANF-ACF-PI-2011-03) provided by the Administration for Children and Families, Office of Family Assistance. Please refer to Attachments 1, 1A, 2, 2A, 3 and 3A of this report.

Analysis

The State of Hawaii complies with the TANF data collection and reporting requirements set forth in the Social Security Act, Section 411, that requires the State to collect information monthly, and report to the U.S. Department of Health and Human Services quarterly, disaggregated case record information, as defined by Section 411, on the families receiving assistance under the State's TANF program. The types of assistance that Hawaii provides, and therefore includes in its TANF data collection and reporting are:

- Federal TANF assistance – cash assistance through the State's federal TANF Block Grant funds for eligible needy families to meet their basic needs;
- Segregated State TANF assistance - cash assistance through State funds for eligible needy families, who would otherwise qualify for federal TANF funds if not for federal statutory prohibitions, to meet their basic needs; and
- Separate State Program (SSP) – Maintenance of Effort (MOE) assistance – time-limited transitional cash assistance through State funds for former TANF assistance recipients who maintain employment and meet specified eligibility requirements.

As part of the TANF data collection and reporting requirements, Hawaii includes data for all work-eligible individuals. Such data includes the additional work activities required in this report, therefore the data will have no impact or change to the measures of total work activity as already reported in the State's quarterly TANF and SSP-MOE data collection and reporting as required in Section 411. However, data such as unverified activities and principal reason or reasons for non-participation, are included in this report but are not part of the TANF data collection and reporting requirements.

Narrative

Below, we describe the most common activities engaged by work-eligible individuals contained in the attached reports and the reasons that they are not countable toward the State participation rates under Section 407 of the Social Security Act. Attachments 1, 2, and 3 reports on individuals receiving assistance from federal TANF funds or segregated State TANF funds for the respective periods of April 2011, May 2011, and June 2011. Attachments 1A, 2A, and 3A reports on individuals receiving time-limited transitional cash assistance in a Separate State Program (SSP) for the respective periods of April 2011, May 2011, and June 2011.

Summary Report on Engagement in Additional Work Activities for TANF and SSP-MOE Individuals State of Hawaii

For the Reporting Months April thru June 2011

Attachment 1

In April 2011, 4,823 individuals were required to participate in work activities. Two-parent families are required to participate an average of 35 hours a week, single-parent families with a child under the age of six must participate an average of 20 hours a week and all other families must participate an average of 30 hours per week. Of the 4,823 families, 2,854 individuals (59.2%) met their required work activities for the month. 1,969 individuals (40.8%) did not meet the participation requirements for one of the following reasons:

1. Insufficient Hours to Meet Work Requirements (Data Element 10): 767 individuals (39%) were engaged in work activities but did not report enough hours to meet the average of hours per week required to count. Unless these individuals demonstrated “good cause,” such as illness, as a reason for failure to meet work requirements, these families would be subject to a financial sanction. The types of activities in which these individuals were engaged without enough hours include;
 - 262 individuals were engaged in employment;
 - 239 in job search/job readiness;
 - 177 in work experience or community service; and
 - 89 were attending a variety of programs of education to improve skills.
2. Countable Work Activities Beyond the Statutory Limit (Data Element 11): 82 individuals were engaged in activities which a State may permit but are not countable to meet federal participation requirements were:
 - A. Post Secondary Education – 4 individuals that were solely engaged in a college or university curriculum, and who had exhausted their lifetime limitation of 12 months of having vocational educational training count towards meeting their TANF countable work activity; and
 - B. Treatment – 78 individuals that were solely engaged in treatment services to address medical, psychological and/or substance/alcohol addiction that limit their ability to engage and comply with other TANF countable work activities and who had exhausted their limitation of more than 4 consecutive weeks or 12 total weeks in a 12 month period of having such treatment services count as a TANF countable work activity—job search and job readiness assistance.
3. Unverified Countable Activities (Data Element 12): 48 clients reported work activities that were not verified by the reporting deadline.
4. Participation in Non-Countable Activities that Moves Toward Self-Sufficiency (Data Element 13): 54 individuals were in assigned non-countable activities. This includes 28 individuals that were still in the process of being assessed for placement in a TANF countable work activity, or re-assessed because individuals were unsatisfactorily progressing or encountered crisis situations.
5. No Activities and Principal Reason for Non-Participation (Data Element 14): 1,147 individuals had no hours of participation reported for the following reasons:
 - 174 were in the first month on assistance with no work yet assigned, or the work assignment had not begun;

Summary Report on Engagement in Additional Work Activities for TANF and SSP-MOE Individuals State of Hawaii

For the Reporting Months April thru June 2011

- 708 individuals were not yet engaged by the contractor in work activities because they were either the second parent in a compliant 2-parent household, or they were a temporarily disabled recipient awaiting selection into the work program;
- 92 individuals were determined exempt or granted good cause; and
- 173 were in the process of being sanctioned for failure to participate.

Attachment 1A

In April 2011, 575 individuals receiving an employment subsidy under a Separate State Program were required to meet work requirements. Of these 427 met their requirements; 148 did not. Of these all 148 failed to meet their average hourly requirement in an unsubsidized employment situation (Data element 10).

Attachment 2

In May 2011, 4,760 individuals were required to participate in work activities. Two-parent families are required to participate an average of 35 hours a week, single-parent families with a child under the age of six must participate an average of 20 hours a week and all other families must participate an average of 30 hours per week. Of the 4,760 families, 2,774 individuals (58.3%) met their required work activities for the month. 1,986 individuals (41.7%) did not meet the participation requirements for one of the following reasons:

1. Insufficient Hours to Meet Work Requirements (Data Element 10): 735 individuals (37%) were engaged in work activities but did not report enough hours to meet the average of hours per week required to count. Unless these individuals demonstrated “good cause,” such as illness, as a reason for failure to meet work requirements, these families would be subject to a financial sanction. The types of activities in which these individuals were engaged without enough hours include;
 - 323 individuals were engaged in employment;
 - 228 in job search/job readiness;
 - 146 in work experience or community service; and
 - 38 were attending a variety of programs of education to improve skills.
2. Countable Work Activities Beyond the Statutory Limit (Data Element 11): 74 individuals were engaged in activities which a State may permit but are not countable to meet federal participation requirements were:
 - A. Post Secondary Education – 5 individuals that were solely engaged in a college or university curriculum, and who had exhausted their lifetime limitation of 12 months of having vocational educational training count towards meeting their TANF countable work activity; and

Summary Report on Engagement in Additional Work Activities for TANF and SSP-MOE Individuals State of Hawaii

For the Reporting Months April thru June 2011

- B. Treatment – 69 individuals that were solely engaged in treatment services to address medical, psychological and/or substance/alcohol addiction that limit their ability to engage and comply with other TANF countable work activities and who had exhausted their limitation of more than 4 consecutive weeks or 12 total weeks in a 12 month period of having such treatment services count as a TANF countable work activity—job search and job readiness assistance.
3. Unverified Countable Activities (Data Element 12): 24 clients reported work activities that were not verified by the reporting deadline.
4. Participation in Non-Countable Activities that Moves Toward Self-Sufficiency (Data Element 13): 59 individuals were in assigned non-countable activities. This includes 33 individuals that were still in the process of being assessed for placement in a TANF countable work activity, or re-assessed because individuals were unsatisfactorily progressing or encountered crisis situations.
5. No Activities and Principal Reason for Non-Participation (Data Element 14): 1,200 individuals had no hours of participation reported for the following reasons:
- 175 were in the first month on assistance with no work yet assigned, or the work assignment had not begun;
 - 783 individuals were not yet engaged by the contractor in work activities because they were either the second parent in a compliant 2-parent household, or they were a temporarily disabled recipient awaiting selection into the work program;
 - 96 individuals were determined exempt or granted good cause;
 - 3 individuals were moving from one local jurisdiction within the State to another; and
 - 143 were in the process of being sanctioned for failure to participate.

Attachment 2A

In May 2011, 556 individuals receiving an employment subsidy under a Separate State Program were required to meet work requirements. Of these 414 met their requirements; 142 did not. Of these all 142 failed to meet their average hourly requirement in an unsubsidized employment situation (Data element 10).

Attachment 3

In June 2011, 4,835 individuals were required to participate in work activities. Two-parent families are required to participate an average of 35 hours a week, single-parent families with a child under the age of six must participate an average of 20 hours a week and all other families must participate an average of 30 hours per week. Of the 4,835 families, 2,234 individuals (46.2%) met their required work activities for the month. 2,601 individuals (53.8%) did not meet the participation requirements for one of the following reasons:

Summary Report on Engagement in Additional Work Activities for TANF and SSP-MOE Individuals State of Hawaii

For the Reporting Months April thru June 2011

1. Insufficient Hours to Meet Work Requirements (Data Element 10): 675 individuals (26%) were engaged in work activities but did not report enough hours to meet the average of hours per week required to count. Unless these individuals demonstrated “good cause,” such as illness, as a reason for failure to meet work requirements, these families would be subject to a financial sanction. The types of activities in which these individuals were engaged without enough hours include;
 - 325 individuals were engaged in employment;
 - 153 in job search/job readiness;
 - 170 in work experience or community service; and
 - 27 were attending a variety of programs of education to improve skills.
2. Countable Work Activities Beyond the Statutory Limit (Data Element 11): 49 individuals were engaged in activities which a State may permit but are not countable to meet federal participation requirements were:
 - A. Post Secondary Education – 2 individuals that were solely engaged in a college or university curriculum, and who had exhausted their lifetime limitation of 12 months of having vocational educational training count towards meeting their TANF countable work activity; and
 - B. Treatment – 47 individuals that were solely engaged in treatment services to address medical, psychological and/or substance/alcohol addiction that limit their ability to engage and comply with other TANF countable work activities and who had exhausted their limitation of more than 4 consecutive weeks or 12 total weeks in a 12 month period of having such treatment services count as a TANF countable work activity—job search and job readiness assistance.
3. Unverified Countable Activities (Data Element 12): 34 clients reported work activities that were not verified by the reporting deadline.
4. Participation in Non-Countable Activities that Moves Toward Self-Sufficiency (Data Element 13): 54 individuals were in assigned non-countable activities . This includes 28 individuals that were still in the process of being assessed for placement in a TANF countable work activity, or re-assessed because individuals were unsatisfactorily progressing or encountered crisis situations.
5. No Activities and Principal Reason for Non-Participation (Data Element 14): 1,502 individuals had no hours of participation reported for the following reasons:
 - 190 were in the first month on assistance with no work yet assigned, or the work assignment had not begun;
 - 1,131 individuals were not yet engaged by the contractor in work activities because they were either the second parent in a compliant 2-parent household, or they were a temporarily disabled recipient awaiting selection into the work program;
 - 102 individuals were determined exempt or granted good cause;
 - 69 were in the process of being sanctioned for failure to participate; and
 - 10 had no participation for other reasons.
