INSTRUCTIONS FOR FILLING OUT APPLICATION FOR GROUND WATER USE PERMIT FOR A PROPOSED NEW USE OR TO MODIFY A GROUND WATER USE PERMIT

This application form is to be used for proposed new uses, including modifications of existing ground water use permits. If you are applying for an existing ground water use, which are uses prior to the effective date of designation, do not use this form. Instead, use the Application for Ground Water Use Permit for Existing Use (Form GWUPA-E) for existing uses.

Most questions can be addressed by visiting our website at http://www.hawaii.gov/dlnr/cwrm or by contacting the Regulation Branch at 587-0225 or by e-mail at dlnr.cwrm@hawaii.gov. If you need further assistance, call the Regulation Branch. The current application forms are available at: http://www.hawaii.gov/dlnr/cwrm/resources_permits.htm.

REQUIREMENTS FOR A COMPLETE APPLICATION

a. Fill in the most recent application form. A current form can be obtained by going to our website or contacting us by phone or e-mail.

b. Print in ink or type the information on the application.

c. The application form has a total of 16 items on 4 pages. Items 11, 12, and 13 are tables, with multiple line items. Fill in the required information for each row in the application form so that it relates to your proposed new use or permit modification.

d. Enclose a check for the non-refundable filing fee of $25 payable to: Department of Land and Natural Resources. (Government agencies are not required to pay the filing fee.)

e. Per Commission action on August 18, 2004 and applicable to all water use permit applications after October 1, 2004, the applicant is responsible for paying the cost of publishing any required public notices associated with this application. The cost for public notices is currently approximately $1000.00. Commission staff will provide instructions later in the permit process regarding payment of these costs.

f. Mark the proposed source and end use location(s) on the appropriate USGS quad map(s) and property tax map, and attach these maps to the application.

g. Attach photos showing the existing or proposed source(s), meter(s) (if applicable), and end use area(s).

h. Both the applicant and the landowner where the source is located ("source landowner") must sign the application form in ink.

13. TABLE 3: ALTERNATIVES ANALYSIS
You should address every alternative and explain why each alternative is or is not available for your proposed potable and non-potable water needs. Other alternatives (last row of Table 3), may include stormwater reclamation, rainwater catchment, or other alternatives not already listed above.

Surface water is defined in §174C-3, HRS as: “...both contained surface water—that is, water upon the surface of the earth in bounds created naturally or artificially including, but not limited to, streams, other watercourses, lakes, reservoirs, and coastal waters subject to state jurisdiction—and diffused surface water—that is, water occurring upon the surface of the ground other than in contained waterbodies. Water from natural springs is surface water when it exists from the spring onto the earth’s surface.”

For Conservation Measures, please describe any conservation measures that will be used to ensure that your water use is or will be efficient. Conservation measures may include, but are not limited to, water reuse or recycling systems, monitoring the water distribution system for pressure drops that are indicative of leaks or line breaks, or use of drought-tolerant and xeriscape landscape plants.
