**NATIVE TESTIMONY
(ENGLISH)**

Kikane sworn: I know his parcels of taro land in the 'Ili of Kepuha-keeo, Wailuku, three parcels. Parcel 1, one taro lo'i, Parcel 2, one taro lo'i, Parcel 3, taro pauku. His land was from Kailihiwa in 1837. No opposition. Hewahewa died in 1848. Nawelu, his wahine, was his heir to these lands. Keaka is the kaikuahine of H. Hewahewa. Two thirds were for her, one third for Nawelu, of his estate.

1. is bounded mauka by the land of Naea, Waihee by the land of Kuapuu, makai by the land of Kekuapahipahi, Maalaea by lo'i pa'ahao.
2. is bounded mauka by Kuapuu, Waihee, the same, makai, by the land of Naea, Maalaea, land of Opunui.
3. is bounded mauka by the 'Ili of Kaluaoopu, Waihee by the 'Ili of Holu, makai by the land of the Mo'i, Maalaea by the land of Lono-hiwa.

No. 3257 - Holoku

Z. Kaauwai sworn: I know one parcel of taro land and the house site in the 'Ili of Papohaku, Wailuku. His is an ancient land from the time of Kamehameha I. The konohikis are new. No opposition. Holoku died in 1848. His heir is his wahine, Kapehawa. It is bounded mauka by my land, Waihee by the land of Naea, makai by my land, Maalaea by a land boundary wall.

No. 5287 - Kahauolopua

July 12, 1849

Page 650

Z. Kaauwai sworn: I know his land in Wailuku, two parcels.

Parcel 1. Taro kula

" 2. Kula planted in sugar cane

These two parcels were from Kailihiwa in 1837 It was opposed by Nmakeha in 1847, by an error in judgement; there is no reason for this opposition, it is confused. This is "acre" land, but had been given before it was measured into acreage. There are seven hakuone in the first parcel, however they are dry because of this opposition. Parcel 1 is bounded mauka by my land, Waihee by the new Government road, makai by the Government lot, Maalaea, 'Ili of Kalua and the lot of Kaili.

Parcel 2 is bounded mauka by the land of Kahauolopua, Waihee by the stone house of Auwae, makai by the 'Ili of Papohaku and the land of Naea, Maalaea, by the Road and the Government lot.

Keahi sworn: I know that this is Kahauolopua's own claim, the statement of Z. Kaauwai is true.

I. Napela sworn: I know this is his claim from formerly; the testimony of Z. Kaauwai is true. I confirm it, as Keahi has.

No. 4665G - Ehu

Moo sworn: I know that Naleipuleho wrote his claim and sent it to Oahu, in January, 1848.

Moo sworn: I know his land in Wailuku, three parcels.

FOREIGN TESTIMONY

are his heirs. They live in Tulu. (See M^t 21 about this claim)
 Pt 1 is bounded. Shauka, by Kua's land. Waike, by Kua-
 juna's land. Shaka, by Kakaupakapaki's land. Maolaka, by
 the Peahue line.

Pt 2 is bounded. Shauka & Waike sides, by Kakaupaki's land.
 Shaka, by the Peahue line. Maolaka, by Kakaupaki's land.

Pt 3 is bounded. Shauka, by the line of Kakaupaki's land.
 Waike, by the line of Tulu. Shaka, by the King's land. Maolaka, by
 Kakaupaki's land.

C. 3237. Kakaupakapaki. The Shauka side

2. Kakaupaki's side. The City lands have been brought before the
 Commission meeting, but there are 2 pieces upon which no tes-
 timony has been taken.

Pt 1 is a Tulu land in the line of Tulu. Waike, Shaka.

The City are then lands from "Kailiki" in the year
 1837, and possessed it in peace until 1847, when Kakaupaki brought
 up a claim to it. But his claim was from a misconstruction
 of the King's order that the "Eka" of "Kailiki" should be returned
 to the Kakaupaki. But these lands were never "Eka's" truly, having
 been rec^d before the "Eka's" were given out. The City possesses
 them to this day. There are 2 parcels in Pt 1.

Pt 1 is bounded. Shauka, by my land. Waike, by the New
 Court Road. Shaka, by the Court Rd. Maolaka, by the line of Ka-
 laka.

Pt 2 is bounded. Shauka, by the City House. Waike, by
 Kakaupaki's land. Shaka, by Kakaupaki's land. Maolaka, by the Court
 Road & Rd.

Kakaupaki's side. Confirms Kakaupaki's testimony.

3. Kakaupaki's side. The testimony of Kakaupaki is true.

See 12 6 & 15

C. 3237. Kailiki.

2. Kakaupaki's side. The City land is one piece in the line of Peahue.

1. The first thing I noticed when I stepped out of the plane was the humidity. It was a warm blanket, wrapping around me in a way that felt both comforting and overwhelming. The air was thick with the scent of tropical flowers and the distant call of birds. I had heard that Hawaii was paradise, and now I knew why. The island was a masterpiece of nature, a place where time seemed to stand still. I had come here to escape the hustle and bustle of city life, and I found exactly what I needed. The sun was shining brightly, casting a golden glow over the lush green landscape. The water was crystal clear, and the beaches were pristine. I had found a new home, a place where I could finally relax and enjoy the simple pleasures of life. The island was a dream come true, and I was grateful to have found it. Parcels 1 and 2 were from Anehe in 1831. Parcel 3 was from Mauhili before 1839. The two parcels at Halaula were opposed by Kaumu; they were dispossessed without fault. There is no opposition to the parcel at Umieu. The reason the parcels at Halaula were taken by Kaumu was because of /his/ not going to work on the work days. John Young, the Governor of Maui, had ruled that the policemen did not have to go to the work days. Kaihuanu was a policeman. He died in 1848 and his heir is his wahine and the child. Parcel 1 is bounded mauka by the land of Puua, Waihee, the same, makai,

A black and white photograph showing a close-up of a highly textured surface. The texture is dense and irregular, resembling a wall of coral, a large piece of rough fabric, or a natural rock formation. The lighting creates strong highlights and deep shadows, emphasizing the three-dimensional quality of the surface. The overall effect is one of organic complexity and tactile richness.

Kamaka left his claim on this 11th day of July, 1849, because Kalawalahonu took Halelani at the direction of H. Kalama, on the death of B. Mahune /from whom Kamaka had his land/.

No. 2567 - Kaawa II Nakaawa

Ehu sworn: I know of one parcel of taro in the 'Ili of Kuunaheana, Wailuku. They are old timers on the land, it was given him by his makuas. When the land was given to the haole* in 1837, he continued to occupy it, until the present. One po'alima is in it. There is no opposition. It is bounded mauka by the po'alima of the Konohiki, Waihee, kula of the Konohiki, makai, Kalua Stream and Kuunaheana, Maalaea by Kaholokula.
/*Mr. Miles/

No. 504 - Kolii

Z. Kaauwai sworn: I know of one parcel of lot land in the 'Ili of Kuunaheananui of Maila* in Wailuku. It was from his wahine, Piipii, in the time of Kamehameha I. It was objected to by Maila and he petitioned in 1843 to the Tax Officer, Kuihelani, but was not awarded it; he petitioned to the Mo'i -- I was the one who spoke with the Mo'i -- but he did not award it but directed John Young, the Governor of Maui, to settle it. It was decided by John Young that the Tax Officer should make a house lot like that lot of Kolii, then the former lot of Kolii would be given to Maila.

Page 641

However, the Tax Officer did not make a lot just like Kolii's former lot, in accordance with the directions of Keoni Ana. Therefore Kolii determined to enter that former lot as a claim, in 1847. It is bounded mauka by government road, Waihee by Kalua stream, makai by the land boundary wall of Kalua, Maalaea by Kupa Maila and cactus.

RECEIVED

Re: Wailuku Country Estates Irrigation Company and the Wailuku Country Estates Community Association, Inc.

Appurtenant Rights Determination in Na Wai Eha Surface Water Management Areas (Waihee, Waiehu, Iao and Waikapu Streams)

Dear Ladies and Gentlemen:

This firm represents the Wailuku Country Estates Irrigation Company ("WCEIC") and the Wailuku Country Estates Community Association, Inc. ("WCECA") in connection with their applications that were submitted to the Commission for existing and new water uses.

This letter is in response to the water commission's letter dated February 21, 2012, regarding the water commission's review and comments to the information we submitted for appurtenant right claims (for TMK: (2) 3-2-002: various) except with respect to the following which the water commission found to support WCEIC's and WCECA's appurtenant right claims:

1. LCA 2533:1 and RP 6529 (appurtenant right claim documented for Ap 1).
2. LCA 3225 and RP 6298 & 6458 (appurtenant right claim documented).
3. LCA 3292 (appurtenant right claim documented).
4. LCA 3330 and RP 4424, 4622 (appurtenant right claim documented).
5. LCA 3335 and RP 7774 (appurtenant right claim documented).
6. LCA 3387 and RP 6065 (appurtenant right claim documented).
7. LCA 3388 and RP 6101 (appurtenant right claim documented).

Page 2

Please see the attached chart with our responses to the water commission's February 21, 2012 letter. In addition, we would like to add the following which explains our responses to the water commission's comments that there were no references to water use in some of the Royal Patents ("RP") and Land Commission Awards ("LCA") in WCEIC's/WCECA's application. In short, implicit in a LCA and RP is the appurtenant right to water. Since the LCA and RP were required to be in literal agreement with the other, reference to water use in either one means that there was a reference to water use in the other.

Further, as explained below, since the form of the RP required description by metes and bounds only, reference to water use may not be in the RP. This should hold true for LCAs as well. Consequently, testimony at the time of application (which we submitted) should weight in on whether the lands were being cultivated at that time.

Background

In 1845, the Board of Land Commissioners to quiet land titles was formed. It was the Land Commission's responsibility to ascertain or reject claims of interest in land brought before it. The Board was not empowered to grant fee simple title to land. Its duty was to determine each applicant's identifiable interests in land and issue an award describing those interests. *Public Access Shoreline Hawaii v. Hawaii County Planning Commission*, 79 Haw. 425, 445, 903 P.2d 1246, 1266 (1995) ("PASH"); *Application of Elizabeth Cockett Robinson*, 49 Haw. 429, 434, 421 P.2d 570, 574 (1966) (the Land Commission Award is a determination of a right to a patent). Actual title to land could be gained only by a payment of commutation to the Kingdom and issuance of a royal patent. *PASH*, 79 Haw. at 445, 903 P.2d at 1266; *Omerod v. Heirs of Kainoa Kupuna Kaheananui*, 116 Haw. 239, 247, 172 P.3d 983, 991 (2007) (citing *PASH*).

After the Land Commission entered a LCA, the Minister of Interior could issue a RP after the awardee paid a commutation fee. In essence, a RP was a quitclaim of the government's interest in the land. *Id.*; *Brunz v. Mott Smith*, 3 Haw. 783, 1877 WL 7569 (1877) (the effect of a patent is to relinquish the government's interest in the area described therein unto the original awardee). In summary, neither the LCA nor RP was required to show the use of the land.

Additional Responses to Water Commission's Comments

Form of RP required metes and bounds

The water commission commented that there were no references to water use in some of the LCA's and/or RP's in WCEIC's/WCECA's application. However, this should not be determinable on the issue of water use or cultivation on the lands since they were only required to show the lands' metes and bounds.

Department of Land and Natural Resources
Commission on Water Resource Management
Attention: Robert Chong
April 27, 2012
Page 3

The form of all RPs were required to describe the land therein by metes and bounds or by natural boundaries. In order to obtain a RP and obtain fee simple ownership of land conveyed during the Mahele, an awardee needed to present a Boundary Commission judgment describing his or her land by metes and bounds. *Id.*; *Greenwell v. Paris*, 6 Haw. 315, 1882 WL 7783 (1882) (The object of the boundary commissioner is to enable parties to obtain such Royal Patents defining their lands by metes and bounds); *See Application of Elizabeth Cockett Robinson*, 49 Haw. 429, 421 P.2d 570 (1966) (the form of all Royal Patents shall describe the land by actual survey or by natural boundaries as the case may be).

There were some instances where the water commission noted references to water use in the LCA but not in the RP, and vice versa. However, the metes, bounds and description of the survey in the petition must be in literal agreement with the award. *Brunz*, 3 Haw. 783, 1877 WL 7569 (1877). Consequently, if water use is referenced in either the LCA or the RP it should apply equally to the other.

Testimony Regarding Water Use

We note that the water commission did not comment on the testimony submitted and so are unsure on the water commission's position regarding the same. Since neither the LCA nor RP can be relied upon to reference water use (since metes and bounds only were required in them), testimony by applicants and others at the time of application should weigh equally in on the question. Furthermore, by virtue of the lands being Kuleana lands, the use of water thereon is implied. In this regard, the first six sections of the Kuleana Act enabled the common people of Hawaii to secure fee simple title to the **lands they actually cultivated**. The seventh section contained the rights that were to accompany a commoner's tenancy. *Reppun v. Board of Water Supply*, 65 Haw. 531, 549, 656 P.2d 57, 69 (1982).

Generally, the conveyance of land, confirmed by a LCA and/or when the RP was issued based on such award, **carried with it the appurtenant right to water** for taro growing. *McBryde Sugar Company, Limited v. Robinson*, 54 Haw. 174, 188, 504 P.2d 1330, 1339 (1973); *See also Maikai v. Hasings & Co.*, 5 Haw. 133, 1884 WL 6659 (1884) (Holders of Kuleanas are entitled to water for irrigation purposes from the stream in the land which their Kuleanas are situated.) Unlike riparian rights, appurtenant water rights are incidents of land ownership. This includes the water on their lands and all the water which the lands had enjoyed from time immemorial. *Reppun*, 65 Haw. at 551, 656 P.2d at 70.

Document	Commission Comment	WCEI/WCECA Comment
LCA 377	Appurtenant right claim documented for “cultivated” and “kuleana” land.	The description of the land in the LCA and the RP are the same. Consequently, both LCA and RP document the appurtenant right claim.
RP 5366	Appurtenant right claim documented	
LCA 406:1	11 Apana are listed. No specific ref to water use for Ap 1. Further documentation required for Ap1. NR, NT, and FT refer to loi, taro, sugar cane and potato patches but do not specify which apana.	The LCA states: “There are many dry taro lots in the ili of Puhiawaawa.” Puhiawaawa is apana 1. Consequently, appurtenant right is documented for apana 1. See the following that references “Puhiawaawa: 1. English translation 2. native register (English) that “some taro patches are at Puhiawaawa...” 3. native testimony (English) by Kuihelani: “There is a patch and a field at Puhiawaawa...”, by Kailihiwa: “There is a field and patches at Puhiawaawa...”
RP 5376	No ref to water use.	As well, the RP says that the land is in Puhiawaawa. This should be tied in to the LCA that says there are many dry taro lots in the ili of Puhiawaawa.
LCA 453: 1 & 2	Appurtenant right claim documented.	

RP 997	RP refers to LCA 3572. No ref to water use.	The File Plan refers to RP 997 (which we submitted for your reference only). However, we believe RP “997” is a typo on the File Plan (the “1” is missing) and RP “1997” is correct because RP 1997 cites LCA 453. Furthermore, RP 1997 mirrors the description in LCA 453 and as such documents the appurtenant right claim. Also, the register references taro patches and the native testimony references patches and farming.
LCA 2434 & 2435	LCA 2434 & 2435 are not shown on survey or TMK maps. Documentation provided for LCA 2435 but 2435 is crossed out. NR, NT, FT documentation provided for LCA 2434.	There appears to be two (2) LCA 2435's. One was issued to Kaakole (a copy was submitted) and the other was issued to Kahooke (a copy was submitted). The RP 6397 also states Kuleana Helu 2435 to Kahooke. However, we believe the LCA and RP for Kahooke showing 2435 are typos (and should be 2434) because the register and testimony for Kahooke (property in Wailuku) is numbered 2434 while the property for Kaakole (2435) is in Kapunakea. A poalima is referenced in the LCA for Kahooke. The register for 2434 refers to loi's and the native testimony refers to taro and 3 po'alimas and the foreign testimony references kalo and 3 poalimas on the property. See File Plan (LCA 2435 indicated below Lot 69) <u>NOTE: all LCA's that were commented as not located are shown highlighted on the File Plan.</u>
RP 6397	RP ref to LCA 2435.	See above. A poalima is also referenced in the RP. The description of the land mirrors the LCA.

LCA 2436:1, 2 &3	Appurtenant right claim documented for Ap 2. Survey map only shows Ap 2 but not Ap 1 or 3	LCA shows that all 3 apanas are identified as kalo (taro) lots and Apana 2 cites an auwai (ditch). See translation of LCA into English that was submitted. The register also refers to loi's and the native and foreign testimonies refer to loi's and kalo. The LCA, RP, testimony and register all cite the same areas of Pohakukupukupu, Holu and Waikani See File Plan Map (Apana 1 is indicated on Lot 43; Apana 3 is indicated on Lot 120)
RP 2009	Appurtenant right claim documented for Ap 2. Survey map only shows Ap 2 but does not show Ap 1 or 3.	The RP mirrors the LCA that shows all 3 apanas identified as kalo lots.
LCA 2495:1, 2, 3 & 4	Appurtenant right claim documented for Ap 1. TMK map only shows Ap 1 but does not show Ap 2-4.	Apana 4 contains a poalima Alii taro patch (see translation into English that was submitted and drawing of apana 4 in LCA with poalima drawn in). See register, native and foreign testimonies that references taro land/taro moo at Pohakupukupu (apana 1 & 2) and Puuokala (apana 3) and poalima (apana 4). See File Plan (Apana 2 is indicated on Lot 43; Apana 3 is indicated on Lot 43; Apana 4 is indicated across Lots 37 and 44)
RP 7790	No ref to water use for Ap 1.	The land description in the RP and LCA are the same and the comment as to LCA 2495 applies here.

LCA 2502: 1 & 3	Appurtenant right claim documented for Ap 2 & 3	See English translation of LCA indicating water use for Apana 1 & 3 which are both taro lots and an auwai runs through Apana 3. See also the register (reference to loi) and native testimony (reference to taro (apana 1 & 3) & poalima (apana 3) and foreign testimony (reference to loi's (apana 1 & 3) and poalima (apana 3))
RP 5973	Appurtenant right claim documented for Ap 2 & 3	The description of the land in the RP mirrors the LCA.
LCA 2503: 2	LCA is not shown on TMK. Ref to kalo and pahale	See File Plan (LCA 2503:2 is indicated on Lot 12 of the North Iao Village)
RP 3652	RP is for LCA 2502	RP 3652 cites LCA 2502. However, we believe it is a typo because the description in RP 3652 is exactly the same as in LCA 2503. Consequently, both reference water use. Further, both RP 3652 and LCA 2503 are to Ohule. The LCA and RP references poalimas, the register references lois, native testimony references taro and poalimas and foreign testimony references kalo and poalima.
LCA 3237: 3	Appurtenant right claim documented.	

RP 6888	No ref to water use	The purpose of the RP was to quitclaim the government's interest in the property and to contain metes and bounds description. Consequently, reference to water use would not necessarily be in the RP. The register references lois, native testimony references taro land, taro loi, taro pauku and foreign testimony references lois. Royal Patent 6888 is indicated in the Index for LCA 3237 but it is land in Kalihi, Oahu. Before 1960, no RP was issued. The RP was issued in 1960 and only shows metes and bounds. A copy is attached.
LCA 3275-E: 3,4,6	Appurtenant right claim documented	
RP 5154	No ref to water use	The description of the land in RP is the same as in LCA 3275-E and thus, appurtenant right claim was documented in the RP as well. Native testimony references taro patches (apana 3), taro pauku (apana 4 & 6) and foreign testimony references lois (apana 3, 4 & 6).
LCA 3294-B: 2; LCA 3294-B:1, M1; LCA 3294-B- 1, M2	Appurtenant right claim documented	

RP 6102	No ref to water use.	RP tracks LCA and references kalo. Appurtenant right contained in LCA is in RP. Enclosed is a clearer copy of RP 6102. The native testimony references taro land and taro moo (cultivated piece of land) and foreign testimony references moo of kalo.
LCA 3488	Appurtenant right claim documented.	
RP 5289	No ref to water use.	The RP notes the land is “Aina Kalo”. The register references 127 loi’s, native testimony references taro and poalimas and foreign testimony references kalo land and poalimas,
LCA 3498	Appurtenant right claim documented.	
RP 7432	No ref to water	Reference to “kalo” is contained in both the LCA and RP. The description in the RP and the LCA are exactly the same. Consequently, both LCA and RP refer to water use. The register references taro.
LCA 4452:9	LCA is not shown on TMK map. No ref to Ap. 9.	Reference to “Apana 9” appears on the LCA under the words “Helu 4452” See File Plan (LCA 4452 is shown on the enclosed 8 ½ x 11 map)

RP 7302	No ref to water use	RP evidenced the government's quitclaim of its interest in the property and the RP was only required to contain the metes and bounds of the property.
LCA 4461:1 & 2	LCA is not shown on TMK MAP. Ref to kalo and moo kalo.	See File Plan (Apana 2 is indicated across Lots 30 and 31; Apana 2 is indicated on Lot 32).
RP 6630	Ref to kalo and moo kalo.	RP references kalo moo and mirrors the LCA. Also, native testimony references taro moo.
