RE: Commission on Water Resource Management--Surface Water Use Permit for Existing Users in the Honokohau Stream, West Maui, Water Management Area

Dear Chairperson Chang, Deputy Manuel and Members of the Commission
on Water Resource Management:

The purpose of this letter is to provide the Commission with an application for surface water use for existing users in the Honokohau Stream, West Maui. Hawaii Water Service Company, Inc. (Hawaii Water) provides non-potable water service to the Kapalua resort area via an irrigation ditch at Diversion 770 in the Honokohau stream. The ditch is owned by Maui Land and Pineapple (MLP). Volumes diverted from the stream are governed by inflow stream standards set by the Commission. The application refers to several appendices, each meant to meet the requirements of the Surface Water Use Permit Application (GWUPA). The following summarizes the appendices to the application.

- Appendix 1 - Table 1: 12-Month Average Daily Use – Gallons.
- Appendix 2 - Table 2: Land Use Consistency / Efficiency of Use, Table 3: Irrigation Information
- Appendix 3 - Ka Pa'akai Analysis
- Appendix 4 - Hawaii Water / MLP Water Delivery Agreement
- Appendix 5 - Agreement for Water Delivery (Planation Golf Course)
- Appendix 6 - 16-Agreement for Water Delivery (Kapalua Bay Course)
- Appendix 7 - TY Corporation Conservation Measures
- Appendix 8 - TY Corporation Public Interest Statement
- Appendix 9 - Photo of source and diversion
- Appendix 10 - Topographic map and location of water use
- Appendix 11 - Copy of application and publication fee check

HAWAII WATER SERVICE

It is Hawaii Water's understanding that TY Management Corp. has submitted supporting documentation for its specific water uses within the Kapalua service area. Hawaii Water and MLP incorporate the supporting documentation presented by TY Management Corp. by reference.

We trust that the SWUPA has met all of the requirements set forth by the Commission. Should you have any questions, please do not hesitate to contact me at your earliest convenience at (808) 437-2307 (Office) or [REDACTED]

Respectfully,
HAWAII WATER SERVICE
