

NAME: Neola Caveny

Interrogatory #1: Describe fully how you “would be adversely affected if the revocable permits were held over for another year,” as alleged in paragraph 14 of the Sierra Club’s First Amended Complaint.

Plaintiff objects to this interrogatory because: (a) the request is duplicative of information already provided; and (b) the request is unnecessarily burdensome given the materials previously provided to the defendants.

David Kimo Frankel
Attorney for the Sierra Club

Subject to and without waiving these objections, I previously submitted a declaration dated February 18, 2019 and answered questions in a deposition on May 30, 2019. I incorporate those responses.

I own and live on property directly adjacent to Hanehoi Stream. For years, A&B diverted water from this stream which significantly diminished my enjoyment of my home and property. The diversions harmed my property, aesthetic, recreational and environmental interests. In recent months, the stream has been flowing well. Although I do not have personal knowledge, I have been informed that A&B recently stopped diverting water from Hanehoi Stream. It is about time, if that is true. If the diversion structures have not been altered to allow water and fish to pass through with impediment, then my harm may continue (although it is unclear to what degree).

Interrogatory #2: Describe fully how you have been harmed or will be harmed by the Board of Land and Natural Resources’ October 2019 decision to continue the subject revocable permits for calendar year 2020.

Plaintiff objects to this interrogatory because: (a) the request is duplicative of information already provided; and (b) the request is unnecessarily burdensome given the materials previously provided to the defendants.

David Kimo Frankel
Attorney for the Sierra Club

Subject to and without waiving these objections, the answer to this question is the same as #1 above.

Interrogatory #3: Describe fully the irreparable harm that you will suffer if the diversion of water authorized by the Board of Land and Natural Resources' October 2019 decision to continue the subject revocable permits for calendar year 2020 continues for calendar year 2020 (i.e., if Sierra Club's request for an injunction is not granted).

Plaintiff objects to this interrogatory because: (a) the request is duplicative of information already provided; and (b) the request is unnecessarily burdensome given the materials previously provided to the defendants.

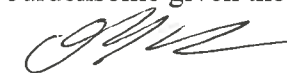

David Kimo Frankel
Attorney for the Sierra Club

Subject to and without waiving these objections, the answer to this question is the same as #1 above.

Interrogatory #4: Describe whether and to what extent the harm that you have suffered or will suffer as a result of the Board of Land and Natural Resources' October 2019 decision to continue the subject revocable permits for calendar year 2020 is different than the harm that you have suffered as a result of the Board of Land and Natural Resources' November 2018 decision to continue the subject revocable permits for calendar year 2019.

Plaintiff objects to this interrogatory because: (a) the request is duplicative of information already provided; and (b) the request is unnecessarily burdensome given the materials previously provided to the defendants.

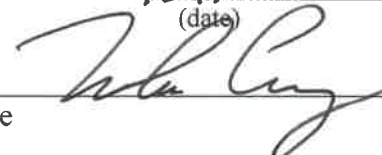

David Kimo Frankel
Attorney for the Sierra Club

Subject to and without waiving these objections, the nature /character of the harm is the same as discussed in #1 above.

I declare under penalty of perjury that the foregoing is true and correct.

DATED: Haiku, Hawai'i, 2/24/20.
