Mabel Ferreiro-Fujiuchi, director of KEO spoke of the homeless population on Kauai. She made it known in a given year their office comes across approximately six hundred homeless people. Ms. Ferreiro-Fujiuchi feels there is a strong need for an emergency shelter and transitional housing on the island.

Jerry Rothstein, President of Public Access Shoreline Hawaii (PASH) asked the Board to deny the sale of the reclaimed lands or at the very least defer making a decision so that more public input on this vital issue can be obtained. Mr. Rothstein went on to bring attention to

some portions of staff's submittal. In closing he requested that the sale of the subject reclaimed lands be denied.

John Deshore of the Office of Hawaiian Affairs deferred his testimony to a date when the item will come before the Board again.

Dawn Hegger, Planner for the Office of Conservation and Coastal Lands reminded the Board the applicant previously received approval for this item on September 22, 2000. In the approval process the Board included a condition that required the applicant to initiated construction within one year of receiving approval and because this has yet to transpire, the applicant is here today to explain what is happening. The applicant has since resubmitted another application. Ms. Hegger pointed out upon the completion of the project it would accommodate large boats up to 30 feet in length and allow twice the number of boat launches and retrievals as well as increase protection and safety during boat launching and recovery. The proposed land uses include: Deepening an existing running basin, deepening and lengthening the existing entrance channel, modifying the existing one-lane concrete launch ramp into a three-lane concrete launch ramp, constructing a new breakwater structure, removing an existing rock groin, widening the boat launching access road and improving lighting and landscaping of the area. Ms. Hegger communicated some concern with regards to the removal of live coral in the dredging operations. She noted staff felt that the impacts and mitigations are appropriate for this project. Ms. Hegger recommended the Board approve this application for Conservation district use for light-draft navigation improvements at Kahului Harbor subject to the conditions listed in the submittal.

Eric Yuasa an Engineer with the Engineering Division and project manager told the Board they were unable to begin construction within one-year of the approval date because they were unable to secure the necessary permits. Steve Thompson, Oahu Boating District Manager for the Division of Boating and Ocean Recreation (DOBOR) and Steve Molman, Property Manager for DOBOR came forward to present the above item. Mr. Thompson reminded the Board at its June 14, 2004, meeting the Board approved seven subleases to Kona Fuel and Marine's lease. Subsequent to that meeting they submitted two additional subleases for approval. The subleases would be issued to Catherine Anna Surtees dba Catherine Surtees Marine Art Studio and Kona Realty Inc. The lease would be month to month and there would be no additional money due to the Department. Mr. Thompson recommended the Board consent to the two subject subleases under Harbor Lease No. H-83-2.

The Board questioned why DOBOR came to the conclusion that no additional rent is due to the State from these new subleases.

Mr. Molman pointed out because Kona Fuel & Marine, Inc., built the improvements and there was no specific methodology stated in the lease for the State to collect sublease profits, no additional money would be due to the state.

**Unanimously approved as submitted (Johns/Yamamura).**

**Item K-1: Enforcement File HA-02-01 Twelve Month Update on Habitat and Forest Restoration Plan for Kahuku Ranch, Hawaii, TMK: (3) 9-2-001:002.**

Ms. Hegger communicated on April 11, 2003 the Board found Damon Estates (Damon) in violation of Chapter 183 for unauthorized Koa Timber Harvesting and in lieu of the fines Damon Estates was given the option to restore the land. On July 25, 2003, the Board approved the Damon's restoration plan with a condition that Damon would conduct semi-annual briefings to the Board during the first year and annually in the second year. Today representatives from Damon and the National Park Services is here to brief the Board on the second phase of the restoration plan.

Linnel Nishioka representing Damon informed the Board with regards to some of the work that has transpired. Ms. Nishioka indicated they have shot over 231 goats and mouflon sheeps. Ms. Nishioka pointed out section six which encompasses the last four miles is Federal lands therefore consultation must be done with Fish and Wildlife Services. They anticipate fencing is this area to begin in January 2005. With regards to the ungulate control, due to its tremendous success, Damon Estates has agreed to roll over some excess funds.

Tim Tunison, indicated Damon has provided \$30,000 for the monitoring of the recovery of the koa forest. Mr. Tunison informed the Board their sampling method has pointed out that there has been an increase in seedling from January to June due to an increase in rainfall. He pointed out if the amount of rainfall dramatically decreases we might see a slow down in the rate of growth of the seedling. He also made it known the native trees were beginning to grow and there were no change in the weed species.

**No Action.**

Sheila Ikekai, the current lessee of Homestead Lease 33 wrote a letter to the Department agreeing to allow Mr. and Mrs. Ornellas access to their parcel 17 across the homestead lease. Ms. Mamiya indicated the requested easement is over a road known as "Saddle City Road." The road was originally a utility easement that was paved by the City after a flood a few years ago and is not an official right-of-way. She also made it known the road crosses over privately owned lands. Six-K Saddle City, LLC. is currently in the process of communicating and reaching an agreement with those property owners. Because the land is a kuleana the rent will be gratis. Ms. Mamiya recommended the Board authorize the issuance of a perpetual, non-exclusive easement to Six-K Saddle City, LLC. covering the subject area for access and utility purposes.

Ms. Mamiya recommended the Board approve and recommend to the Governor the issuance of an Executive order setting aside the subject area to the Water Board of the County of Hawaii and grant an immediate construction and management right-of-entry to the DHHL and Water Board of the County of Hawaii.

**Item D-18: Amend Prior Board Action of August 24, 2001, Item D-29; Issuance of Leases for Private Residential Non commercial Piers Pursuant to Kaneohe Bay Piers Amnesty Program, Kaneohe, Koolaupoko, Oahu, TMK: (1) 4-4-37:02.**

Ms. Mamiya reminded the Board on August 24, 2001, the Board approved the issuance of 150 leases for private residential non-commercial pier purposes pursuant to the Kaneohe Bay Piers Amnesty Program. Robert Reed (lot 13A2) and then owner of lot 13B were covered by this approval. In 1995 lot 13 was subdivided into Lot 13A2 (owned by Reed), 13A1 (owned by Gilbert Black and 13B (owned by Donald and Virginia Thayer). Through the subdivision of the subject three parcels an eight (8) feet wide beach right-of-way over lot 13B was reserved. Ms. Mamiya pointed out there are three piers abutting the shoreline property namely a wood pier, Pier A and Pier B. The wood pier is within the boundary of Parcel 2 while portions of Pier A is built makai of the boundary of parcel 2. Under the Amnesty Program Mr. Reed and later Mr. Black submitted an application for continued use of the pier A. When a survey map was provided to the Department it was realized that Mr. Reed was not the fee abutting owner (he only has rights to the beach right-of-way). Peter Lenhart, an attorney representing the Thayers is objecting to the issuance of a lease to Mr. Reed. Ms. Mamiya indicated staff believes the lease should be held jointly by all parties to avoid conflicts. Therefore, staff wrote to all parties and told them an approval would proceed provide all parties could agree. The Thayers rejected the Department's suggestion. Ms. Mamiya recommended the Board amend its prior action of August 24, 2001, agenda item D-29 by rescinding the approval for the issuance of lease to Robert Reed for private residential noncommercial pier purpose. Ms. Mamiya understood the Thayers will remove Pier A upon the rescission of Reed's approval.

Robert Reed owner of Lot 13A2 told the Board he believes the law (Act 261) did not specify that he owner of the pier application had to be the abutting fee property owner. He made it known he has had the right to use the pier for the last fifty (50) years. Mr. Reed pointed out they have continuously used pier A. When asked by the Board if he would have a problem indemnifying the Thayers for use of the pier, Mr. Reed responded in the affirmative because he believes his easement gives him the right to use the pier.

Peter Lenhart, attorney for the Thayer's testified before the Board. Mr. Lenhart gave the Board a brief overview on how the easement was created. He noted there were two easement both of which were different. He pointed out the right-of-way was for beach access only and not for use of the pier. Mr. Lenhart informed the Board the Thayer's proposes to cut off the 1.89 feet that extends onto State waters thereby not requiring a State permit. He made it known the Thayer's have concern with regards to their liability and having a say in what they can do with their land. Mr. Lenhart notes if the State allows the issuance of a lease for the 1.89 feet of pier on State land are they saying that the Thayer's do not have the right to remove the portion of the pier on their property. With regards to Act 261, Mr. Lenhart believes the State needs to follow due process requirements when it adopted this program. The State would need to determine a set of rules and apply the rules to all property owners. He feels the adoption of specific rules by the Department would help property owners assess who can apply for leases.

Gib Black owner of property 13A1 testified before the Board. He informed the Board the subject pier has been in place and has been used for the past fifty (50) years. He told the Board he is willing to share in the cost of liability insurance in exchange for use of the dock. He asked the Board to continue to allow himself and the Reed's to use the subject dock.

Ms. Mamiya informed those in attendance if the three property owners were able to come to an agreement by June 30, 2005, they as a group would be able to apply for a permit to use the 1.89 feet of pier on state property.

**Approved as submitted (Inouye/Johns).  
Chairperson Young voted No.**

**Item E-4: Establishment of Curatorship Agreement for Portion of Former Lo'i Kalo, Makiki Valley State Recreation Area, Oahu.**

Joslyn Kaawa a resident of the Maunalaha community has volunteered to manage the area. This management will include maintenance of the terraces, removal of selected vegetation accompanied by planting of some native plants. Ms. Kaawa will be submitting a landscaping and interpretive plan. Lastly the Division of Forestry and Wildlife will be assisting Ms. Kaawa with the identification of existing trees and with interpretive materials. Mr. Quinn recommended Ms. Kaawa and her ohana be approved as the curators for a portion of Makiki Valley State Recreation Area for a 5-year term.

The Division of State Parks has been the lead agency in accepting applications and making a preliminary selection. Mr. Quinn made it known this year's appropriation of funds is \$966,727 with an additional \$742,741 carryover from a previous year. The agency receiving this grant must provide matching funds. Also in order to qualify to receive these funds, Hawaii must prepare a Statewide Comprehensive Outdoor Recreation Plan every five years. The four projects that meet Hawaii's recreational demands and priorities are: State Parks \$400,00 for design and construction of restroom and related park improvements at Diamond Head State Monument; State Parks \$600,000 for the acquisition of a 1.25 acre parcel long Alii Drive in North Kona which will be added to Keolonahihi State Historical Park; County of Kauai \$42,000 installation of new playground equipment at Hanapepe Heights and Cliffside; and City & County of Honolulu \$667,468 for the acquisition of 1,129 acres in Pupukea-Paumalu for preservation of natural landscape, development of recreation opportunities, and promotion of community stewardship and education. **Item D-27: Issuance of Direct Lease to the Sylvester Foundation for Animal Sanctuary Purposes, Waimanalo, Koolaupoko, Oahu, Tax Map Key: (1) 4-1-13:31.**

Dan Davidson, Deputy Director of Land believes this item will provide a fair and equitable solution for the Sylvester Foundation to continue operation in Waimanalo. Mr. Davidson indicated a revocable permit for a portion of the subject area has been issued to the Honolulu Community Action Programs for a community garden. This revocable permit will be terminated upon the execution of a lease to the Sylvester Foundation. As part of the Sylvester Foundation's lease the Honolulu Community Action Programs will be able to continue with the

community garden. Mr. Davidson recommended the Board authorize the issuance of a direct lease to Sylvester Foundation covering the subject area.

Member Inouye questioned which type of appraiser will be used and how long will it take for the subject parcel to be appraised. Mr. Davidson noted we would be using a staff appraiser and felt the process would move along quickly. He went on to say the Sylvester Foundation would be given a right-of-entry to the area until the lease is executed. The right-of-entry would allow the Sylvester Foundation to bring their animals to the subject parcel using the front two acres. Prior to the execution of the lease, Mr. Davidson made it known the Sylvester Foundation would be under the Honolulu Community Action Programs revocable permit.

Motion made at 11:01 a.m. by Member Johns made and second by Member Inouye to move into Executive Session to consult with the board's attorney on questions and issues pertaining to the board's powers, duties, privileges, immunities and liabilities.
