REMARKS:

The subject parcel is a land-locked property with no legal access to a public road and was previously encumbered under Revocable Permit No. S-7222 to Parker Ranch, Inc. (PR) for pasture purposes. It is surrounded on more than two sides by lands formerly owned by PR and on the remainder by fee simple owners in Ka‘auhuhu Homesteads and the Malu subdivision. The PR land was purchased by the Applicant, Kukuipahu Ranch, LLC (KR).

As the request for the State land is a continuation of the previous use, it is anticipated that the proposed use is allowable within the county zoning. Request for comments were distributed to various Federal, State and County agencies with either no comments or objections to the proposed use.

The Applicant has not had a lease, permit, easement or other disposition of State lands terminated within the last five years due to non-compliance with such terms and conditions.

KR is an established ranching operation currently consisting of 1,500 acres of fee simple lands in the North Kohala area and are in the process of acquiring an additional 3,500 acres from PR. The Applicant’s livestock is managed by Mr. Lee Beerman who has over 30 years of ranching experience in Hawaii.
This property is being processed as a month-to-month revocable permit as it does not have a legal access from any public roadway and therefore does not qualify for a long-term lease at public auction. There have been no other requests for use of this parcel.

The HDLO staff believes this request and the intended use of these State lands should be exempted from the preparation of an environmental assessment because the intended use is consistent with past use of the property. Such use has resulted in no known significant impacts, whether immediate or cumulative, to the natural, environmental and/or cultural resources in the area. As such, staff believes that the proposed use would involve negligible or no expansion or change in use of the subject area beyond that previously existing.

RECOMMENDATION: That the Board:

1. Declare that, after considering the potential effects of the proposed disposition as provided by Chapter 343, HRS, and Chapter 11-200, HAR, this project will probably have minimal or no significant effect on the environment and is therefore exempt from the preparation of an environmental assessment.

2. Authorize the issuance of a revocable permit to Kukuipahu Ranch, LLC covering the subject area for pasture purposes under the terms and conditions cited above, which are by this reference incorporated herein and further subject to the following:

   a. The standard terms and conditions of the most current revocable permit form, as may be amended from time to time;

   b. Review and approval by the Department of the Attorney General; and

   c. Such other terms and conditions as may be prescribed by the Chairperson to best serve the interests of the State,

Respectfully Submitted,

EXEMPTION NOTIFICATION

From the preparation of an environmental assessment under the authority of Chapter 343, HRS and Chapter 11-200, HAR

Project Title: Request for Revocable Permit to Kukuipahu Ranch, LLC, for Pasture Purposes.

Project Number: PSF No. 12HD-012

Project Location: Awalu & Haena, North Kohala, Hawaii, Tax Map Key: 3rd/5-6-01:01

Project Description: The requested parcel was previously encumbered under RP S-7222 to Parker Ranch, Inc. for pasture purposes. The permit was terminated at the request of the Permittee in 2012 when Parker Ranch sold the surrounding property and could no longer access the State land. The applicants own the adjacent land and wish to continue utilizing the State land for pasture use.

Consulted Parties: None

Exemption Class No.: In accordance with the "Division of Land Management's Environmental Impact Statement Exemption List", approved by the Environmental Council and dated April 28, 1986, the subject request is exempt from the preparation of an environmental assessment under the following:

Exemption Class No. 1, which states, "Operations, repairs or maintenance of existing structures, facilities, equipment or topographical features, involving negligible or no expansion or change of use beyond that previously existing."
Recommendation: It is anticipated this project will probably have minimal or no significant effect on the environment and is presumed to be exempt from the preparation of an environmental assessment.
