CHAPTER 343, HRS - ENVIRONMENTAL ASSESSMENT:

Pursuant to Section 11-200-8(a), Environmental Impact Statement Rules of the Department of Health, State of Hawaii, this disposition is exempt from requirements regarding preparation of an environmental assessment, negative declaration, or environmental impact statement as required by Chapter 343, Hawaii Revised Statutes, as amended, relating to Environmental Impact Statements, because the proposed action falls within Exemption Class #1, Comprehensive Exemption List for the State of Hawaii, Department of Transportation, dated November 15, 2000, as approved by the Environmental Quality Council. Exemption Class #1 covers operations, repairs, or maintenance of existing structures, facilities, equipment, or topographical features involving negligible or no expansion or change of use beyond that previously existing.

REMARKS:

The Applicant is currently a Ground Transportation permittee with the Honolulu International Airport, and was issued Revocable Permit No. 7064 (RP-7064) to park its tour vans on Space No. 005-105D which was submitted to the Board for approval on April 27, 2012, Item M-1. However, changes to the physical configuration and square footage of the property prompted DOTA to terminate RP-7064, likewise, request for Board action to rescind the original submittal, and to authorize DOTA to issue a new revocable permit with the revised space description. The changes to the space description consist of the addition of Space No. 005-104A and the deletion of 1,752 square feet of unusable ditch space from Space No. 005-104D.

The Applicant has not had a lease, license, permit, easement or other disposition covering public lands canceled or terminated within the last five years for failure to satisfy the terms and conditions thereof.
RECOMMENDATION:

That the Board authorize the Department of Transportation to issue a month-to-month revocable permit to E Noa Corporation, subject to: (1) terms and conditions herein outlined, which are by reference incorporated herein; and (2) such additional terms and conditions as may be prescribed by the Director of Transportation to best serve the interests of the State.

Respectfully submitted,

GLENN M. OKIMOTO, Ph.D.
Director of Transportation
