**MEMORANDUM OF UNDERSTANDING

**Between
The United States Department of the Interior

Division of Forestry and Wildlife**

THIS AGREEMENT, entered into this ___ day of _____, 2012, by and between the NATIONAL PARK SERVICE, an agency of the United States, hereinafter referred to as "NPS," by its Pacific West Regional Director, and the STATE OF HAWAII, hereinafter referred to as "State," by its Board of Land and Natural Resources,

WITNESSETH THAT:

WHEREAS, NPS has fire management responsibilities within the units of National Park in the State of Hawaii and under the authority of *42 U.S.C. Sec. 1856a (1994)* and the *Department Manual DM 245.1.1* has the authority to enter into mutual aid agreements with other agencies for fire management; and

WHEREAS, under Chapter 185 of the Hawaii Revised Statutes, as amended, the Division of Forestry and Wildlife, Department of Land and Natural Resources, State of Hawaii, hereinafter referred to as "DOFAW", has the responsibility to take measures for the prevention, control and extinguishment of wildland fires within forest reserves, public hunting areas, wildlife and plant sanctuaries, and natural area reserves and shall cooperate with established fire control agencies of the counties and the federal government in developing plans and programs and mutual aid agreements for assistance for the prevention, control, and extinguishment of fires on forest, grass, brush, and watershed lands not within the department's fire protection responsibilities; and

WHEREAS, both NPS and DOFAW have the personnel, equipment, and skills suited for the task of dealing with fire hazard operations in the State of Hawaii; and

WHEREAS, by pooling the resources of NPS and DOFAW, the combined strength and efforts of these two agencies would afford the people of the State of Hawaii more extensive and effective protection of their lives, property and natural resources;

NOW, THEREFORE, in the interests of public safety, health, and welfare, NPS and DOFAW do hereby mutually agree as follows:

(1) When used in this Agreement:

“Agency” means either NPS of the United States or DOFAW of the Department of Land and Natural Resources, State of Hawaii.

ARTICLE I - BACKGROUND AND OBJECTIVES

The objective of this Agreement is to establish the terms and conditions under which the agencies will provide mutual assistance in preventing, detecting, and suppressing wildfires and provide support in the suppression of structural fires.

Currently both agencies are responsible for providing fire protection and other fire management activities for their respective jurisdictions. By pooling the resources of both agencies, the combined strength and efforts of these agencies would afford the people of the Counties of Hawaii, Maui, and Kalawao (Kalaupapa) more extensive and effective protection of their lives, property and natural resources. It is therefore mutually advantageous for the agencies to coordinate their efforts in the prevention, detection, and suppression of wildfires in and adjacent to their areas of responsibility.

ARTICLE II - AUTHORITY

This Agreement is entered into under the authority of *42 U.S.C. § 1856a (1994)* and *HRS § 171-6*.

ARTICLE III - STATEMENT OF WORK

- A. Both agencies understand and agree:
- (1) To furnish, when requested, qualified employees to assist in the suppression of wildfires whenever the furnishing of such assistance does not seriously impact the primary responsibilities of the assisting agency. Employees will be deemed to be acting within the scope of their respective agency's employment when responding to calls from the requesting agency. This reciprocal protection will be provided at no cost for the first 24 hours. Any assistance beyond the first 24 hours shall be negotiated on an incident-by- incident basis.
 - (2) To assist each other upon request, consistent with conditions at the time of the request, in the suppression of fire in areas which are normally the concern of the other agency.
 - (3) To respond in the suppression of the fire, insofar as prerequisites of service will permit, and collaborate with the requesting agency for the purpose of direction and coordination of the efforts of the requesting agency. Such collaboration shall occur using a unified command structure under the incident command system.
 - (4) That the assisting agency may be unable to respond in instances when the personnel and/or equipment available to it are, or would thereby be rendered, insufficient to meet the actual or realistically potential needs of the requesting agency.
 - (5) That each agency waives all claims against the other agency for compensation for any loss, damage, personal injury or death occurring as a consequence of the performance of this Agreement.
 - (6) To provide an annual familiarization tour of the facilities, equipment, and access points to the requesting agency.
 - (7) To cooperate in the development and delivery of interagency training programs. Both agencies will cooperate to make maximum use of existing personnel, equipment and facilities for training purposes.

(8) To share components of their communications systems such as: radio frequencies, dispatching systems, and communication sites. Agencies shall provide each other with a list of frequencies upon request.

B. The agencies further agree as follows:

(1) Each agency will provide to the other agency a list of points of contact with telephone numbers, to be contacted in case of an emergency. At least once a year, or more often if necessary, each agency will provide the other agency with an updated list of such persons and telephone numbers.

(2) Each agency will provide to the other agency copies of current fire management plans for their areas of primary responsibility, including maps of areas involved and descriptions of special or extraordinary actions to be taken.

(3) Only Minimum Impact Suppression Tactics will be used when fighting fires within Hawaii Volcanoes National Park, Haleakala National Park, and Kalaupapa National Historical Park. No ground-disturbing equipment such as graders or bulldozers will be used on NPS lands without the permission of the NPS Superintendent or his/her designee.

(4) After notifying the other agency of a fire's discovery, either agency may take immediate action to suppress a fire in the other agency's area of primary responsibility in order to save life or property.

(5) Nothing in this Agreement will be construed as obligating the NPS to expend in any one fiscal year any sum in excess of the monies appropriated by Congress and allocated by the NPS for the performance of this Agreement.

(6) Nothing in this Agreement will be construed as obligating the State to expend any sum in excess of the monies appropriated by the Legislature and released by the Governor for the performance of this Agreement.

ARTICLE IV - TERMS OF AGREEMENT
