Board of Land and Natural Resources
State of Hawaii
Honolulu, Hawaii

PSF No: 08OD-161

OAHU

Authorization to Hire a Consultant for Remediation of Lead Pellet Contamination at
Kaimalino Beach, Kailua, Koolaupoko, Oahu; TMK (1) 4-4-039:seaward

BACKGROUND:

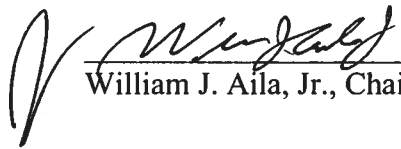

Land Division desires to hire a consultant to remediate lead pellet contamination found on State unencumbered lands at Kaimalino Beach, Kailua, Island of Oahu. The lead pellets originated from skeet shooting activities by the Honolulu Skeet Club which operated in the area. Although the subject beach remains safe for general recreational purposes, it is possible that toddlers could find and inadvertently ingest the pellets and become victims of the toxic effects of lead exposure. Therefore, Land Division and the Department of Health-Hazard Evaluation and Emergency Response Office are working diligently to investigate offshore lead deposits that may reside on State submerged lands, create a long term management plan, and implement regularly scheduled removal actions to help reduce the risks of exposure to this environmental contaminant.

RECOMMENDATION: That the Board authorizes the Chairperson to negotiate and execute a contract and any supplemental agreements to address unforeseen conditions and to exercise options as provided in the contract for the above referenced project, subject to funding and review and approval by the Department of the Attorney General.

Respectfully Submitted,

Barry Cheung
District Land Agent

APPROVED FOR SUBMITTAL:

William J. Aila, Jr., Chairperson
